When certified cost and pricing data is obtained, it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve an alternate offer, the SAR package will be considered for future awards. This item has been reviewed under the NAVICP limited screen process and determined that the item cannot be broken out. No additional actions to remove barriers to competition is required under this process.
