REQUISITION NUMBER/PD: N0010415XC050

FOLDER NUMBER: 16067-0058

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is **3B**. For the reasons explained below, these Supplies are only available from the following source(s): 17476 – Teledyne Instruments Inc.

AMC 3: Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC B: This part must be acquired from a manufacturing source specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in the Government possession and cannot be economically obtained.

The Government failed to purchase the necessary technical data needed to manufacture this cable assembly for the OE 562 system. Teledyne Instruments Inc. is the design control authority for this cable assembly and have complete manufacturing expertise and technical data rights needed to produce this item that meets technical and quality specifications as identified in the Special Materials Identification Code (SMIC) "SQ" applications.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsise this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2. A sources sought notice was posted on FedBizOpps on 8 March 2016 and closed on 13 March 2016. No other sources responded to the notice or expressed an interest in this requirement.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including ITIMP, FLIS and ERP, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sourced of supply, historical sources of supply and past contracts. Based on this market research the contracting officer has determined that the only known manufacturing source is: 17476 (Teledyne Inc.) A sources sought notice was posted on FedBizOpps on 8 March 2016 with a closing date of 13 March 2016. No other sources or manufacturers responded to or expressed an interest in this requirement.

9. ANY OTHER SUPPORTING FACTS:

The Government does not own the drawings or rights to the technical data. Teledyne Inc. is the Original Equipment Manufacturer (OEM). They own the drawings and rights to the data. In order for another firm to successfully compete, they would need to obtain the proprietary technical data from Teledyne Inc.. It is determined the efforts to improve competition as cited in the previous Justification and Approval dated 10/30/2014 utilizing the authority of 10 USC 2304(c)(1) as implemented by Federal Acquisition Regulation 6.302-1 were completed. Currently, there are 8 Backorders and 2 Planned Program Requirements (PPRs) for this NIIN.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition: NONE

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: The Government will include a clause in this solicitation that provides that the Government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve the alternate offer, the SAR package will be considered for future awards. A request for additional sources request made through FedBizOpps with no vendors expressing an interest in this requirement. Should it be determined that the item can be broken out, future acquisitions will be competitive. This acquisition will be synopsized via FedBizOpps and any firm requesting a copy of the solicitation will be provided one.
