REQUISITION NUMBER/PD: N0010414X5651 **FOLDER NUMBER: 13213-0013**

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	1B	. For the reasons explained below, these

Supplies are only available from the following source(s): 54ZA4- Baldor Electric Company, 064S4- BAE Systems, 4X136- Applied Industrial Technologies

Only the above manufacturing source(s) will be solicited because the article to be acquired is a highly specialized part. Cage 54ZA4- Baldor Electric Co., 064S4- BAE Systems, and 4X136- Applied Industrial Technologies were identified as the approved source of supply by the ISEA during initial provisioning. The Government does not have the rights to the drawings to be able to solicit competitively or to guarantee the same form, fit and function as the item currently being procured. No other viable sources of supply were identified during the provisioning phase for the item. Based on the information available to the Government at this time, Baldor Electric Co., BAE Systems, and Applied Industrial Technologies have been identified as the only unit's approved to meet the Government's minimum needs.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including ITIMP, FLIS and ERP, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sourced of supply, historical sources of supply and past contracts. Based on this market research the contracting officer has determined that the only known manufacturing sources are 54ZA4-Baldor Electric Co., 064S4-BAE Systems and 4X136-Applied Industrial Technologies. ERP Master Data Base and WebFLIS data bases were queried through item interrogation to ascertain potential alternate sources that may be identified that would meet the Government's minimum requirements for the tasks. At this time no additional sources were identified through these research efforts.

9. ANY OTHER SUPPORTING FACTS:

This part must be acquired from a manufacturing source(s) specified on a source control or selected item drawing. Suitable technical data, Government data rights, or manufacturing knowledge is not available to permit acquisition from other sources.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:
None at this time.

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION The government will include a clause in this solicitation that provides that the government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve the alternate offer, the SAR package will be considered for future awards. This item has been reviewed under the NAVSUP WSS limited screen process and determined that the item cannot be broken out. No additional actions to remove barriers to competition are required under this process.
