(Buyer's Name) *Please Print*		(Extension)		(Code)

1. IDENTIFICATION OF AGENCY AND/OR CONTRACTING ACTIVITY:

DLA Maritime at Mechanicsburg.

2. NATURE/DESCRIPTION OF ACTION: This J&A is for the negotiation and award of a contract through other than full and open competition.

3. DESCRIPTION OF SUPPLIES/SERVICES: This J&A cover the acquisition of the following article(s):

Nomen	Display Unit	Quantity	18
NSN	7HH 7025-01-464-5923	Cage Code	52088
P/N	B438	Unit Price	[redacted]

Estimated Value (include option) $ [redacted]

Appropriation, Subhead and Cost Code:

97 00 XX XX 4930 NC1A 000 81004 0 050120 7R 000000 8PMF00000000

Option: Yes % Days No Option X

Item description required for all items:

This Display, Unit is an indicator unit on which computer information is visually displayed. Indication of data may be achieved by cathode ray tubes, plasma display, light emitting diodes, crystal display or the like. This item is a component used in the AN/UYQ-70 weapon system tactical workstation. This flexible, tactical workstation is configured using high-performance COTS modules housed in militarized enclosures. The Q-70 can be installed in airborne, surface and submarine platforms to fulfill multiple combat system tasks. With the capability to emulate legacy display systems, the Q-70 workstation allows for immediate transition to open combat architectures and provides a cost-effective protection of prior hardware and software investments.

Revised 11/13

REQUISITION NUMBER/PD: N0010414XC046 **FOLDER NUMBER: 14199-0013**

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	3R	For the reasons explained below, these

Supplies are only available from the following source(s): 52088 – Lockheed Martin Corporation

Only this source will be solicited because the articles to be acquired are highly specialized parts, designed and manufactured by this non-Government activity. No other manufacturer's part can be used as a replacement for this item. The data or the rights to use the data needed to purchase these parts from additional sources are not owned by the Government and it is not economical to purchase them. Lockheed Martin (LM) is the Original Equipment Supplier, design agent, and system integrator for the Q-70 weapon system. LM has the expert knowledge of the design and operational characteristics of this weapon system, to include various configurations on multiple platforms, which includes Maritime, Air and Land-based applications. LM is the only source possessing the expertise on critical engineering processes, procedures, software, firmware, components and test fixtures to ensure the appropriate configuration for compatability within the Q-70 system. LM has an established supplier base consisting of more than 70 COTS/NDI product lines. This expertise and engineering knowledge cannot be readily duplicated without signifant time and cost associated with re-engineering, which would result in programmatic risk to Navy Combat Systems equipment and schedules. The display unit provided by Lockheed is the only known/approved unit that guarantees the same form, fit and function therefore no other manufacturers item is acceptable.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including ITIMP, FLIS and ERP, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sourced of supply, historical sources of supply and past contracts. Based on this market research the contracting officer has determined that the only known manufacturing source is 52088. ERP Master Data Base, WEBFLIS and HAYSTACK data bases were queried through item interrogation to ascertain potential alternate sources that may be identified that would meet the Government's minimum requirments for the tasks. At this time no additional sources were identified through these research efforts.

9. ANY OTHER SUPPORTING FACTS:

The Government does not own the data or the rights to the data needed to purchase this part from additional sources. It has been determined to be uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition: None at this time.

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: The government will include a clause in the solicitation that provides that the government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the NAVSUPWSS technical division for review. Q-70 is an "orphaned" system so it no longer has a centralized program office or in-service engineering activity (ISEA). Alternate offers submitted may be forwarded to NAVSEA, SPAWAR and the NAVAIR Host Program Offices as appropriate. If due to mission requirements the current procurement cannot be delayed in order to allow sufficient time for approval of alternate offers, the SAR package will be considered for future awards.

REQUISITION NUMBER/PD: N0010414XC046 **FOLDER NUMBER: 14199-0013**

12. STATEMENT OF DELIVERY REQUIREMENTS:

(a) The required delivery date (month/year) is: 07/15

(b) Ship To: Q93111 – Lockheed Martin, Virginia Beach, VA = 18/EA

13. REFERENCE TO THE APPROVED ACQUISITION PLAN: An Acquisition Plan is not required for this acquisition.

14. DOCUMENTATION FOR SPARE/REPAIR PARTS ACQUISITIONS: The specifications for the above articles have been reviewed and reflect the minimum needs of the Government.
