**1. IDENTIFICATION OF AGENCY AND/OR CONTRACTING ACTIVITY:**
DLA Maritime at Mechanicsburg .

**2. NATURE/DESCRIPTION OF ACTION:** This J&A is for the negotiation and award of a contract through other than full and open competition.

**3. DESCRIPTION OF SUPPLIES/SERVICES:** This J&A cover the acquisition of the following article(s):

Nomen Distribution Unit Quantity 1
NSN 5895-01-585-7097 Cage Code 1SHJ3
P/N RFDU-300 Unit Price [redacted]
Estimated Value (include option) [redacted]

This Radio Frequency Distribution Unit is part of the AN/BLQ10 electronic warfare support system for U.S. submarines.

**REQUISITION NUMBER/PD:** N0010414XD789 **FOLDER NUMBER:** 14235-0022

**4. IDENTIFICATION OF STATUTORY AUTHORITY:** This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

**5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:**

The current Acquisition Method Code (AMC/AMSC) is 3R

For the reasons explained below, these supplies are only available for the following source: RADIO DESIGN GROUP (0SHJ3)

AMC 3 – Acquire for the second or subsequent time directly from the actual manufacturer.
AMSC R – The Government does not own the data or rights to the data needed to purchase this part from another source and it has been determined not to be economically feasible to procure the data or rights to the data.

The RFDU being procured is part of the AN/BLQ-10 system which is an electronic warfare support system for U.S. submarines. It provides automatic intercept capability (detection, classification, localization, and identification) for both radar and communications signals. The RFDU supports the interior and exterior communications systems along with wideband radar, emitter locator, and direction findings functions of the AN/BLQ10 architecture. The RFDU must be completely compatible in form, fit and function with the system presently installed in order for it to function properly. The technical data rights for this part are owned by Radio Design Group. Any vendor who wishes to compete for this item would have to obtain the technical data from Radio Design Group.

**6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES:** The Government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR 5.2.

**7. DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained, it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

**8. DESCRIPTION OF MARKET SURVEY:** A Technical review has been conducted on this item. The review consisted of searching several Government databases including ITIMP, Naval Ships Engineering Drawing Repository, Federal Logistics Information Center & ERP as well as the Internet. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, Applicable TMS Weapon System/Usable-on-Code, Criticality Coding, recorded approved sources of supply, historical sources of supply and past contracts. Based on this research, the Contracting Officer has determined that the only known manufacturing source is Radio Design Group (1SHJ3).

**9. ANY OTHER SUPPORTING FACTS:** NONE

**10. LISTING OF INTERESTED SOURCES:** The following sources have expressed, in writing, an interest in this acquisition: NONE

**11. ACTIONS TO REMOVE BARRIERS TO COMPETITION:**

The solicitation will include a clause providing that the Government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve an alternate offer, the SAR package will be considered for future awards. This acquisition will be synopsized via FedBizOpps and any firm requesting a copy of the solicitation will be provided one.
