This code is used when the Government did not initially purchase the data and/or rights.

If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve an alternate offer, the SAR package will be considered for future awards. This item will also be reviewed under the NAVSUP WSS replenishment parts program. Should it be determined that the item can be broken out, future acquisitions will be competitive. This acquisition will be synopsized via FedBizOpps and any firm requesting a copy of the solicitation will be provided one.
