AMSC R. The Government does not own the data or the rights to the data needed to purchase this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights.

Only the above source will be solicited because the articles to be acquired are highly specialized parts utilized in the Steam and Electric Program, designed and manufactured by a non-Government activity. There is no other known part that can be used as a replacement for the required item. Automatic Switch Company is the only supplier aware of the compatibility requirements of this item within the design of the supported propulsion systems used onboard the Navy ships.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsise this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including ITIMP, FLIS and ERP, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sourced of supply, historical sources of supply and past contracts. Based on this market research the contracting officer has determined that the only known manufacturing source is 04845 Automatic Switch Company. A Sources Sought Notice was posted on FedBizOpps.gov on 17 DEC 2015 with a closing date of 24 DEC 2015. No new manufacturers expressed an interest in the item.

9. ANY OTHER SUPPORTING FACTS:

The articles to be procured are complex and must meet operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:

None

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: As stated in the previous J&A, the alternate offers clause was included in the previous solicitation. No alternate offers were received. The solicitation will include a clause providing that the Government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve an alternate offer, the SAR package will be considered for future awards. This item was previously reviewed by the Cognizant Design Activity, Newport News Shipbuilding Reactor Plant Planning Yard, NNSRPPY, and determined that the item cannot be broken out.
