4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements. For the previous award issued using the authority of 10 USC 2304(C)(1) a C1 J&A was obtained and stated that in order to reduce barriers to competition, the alternate offers clause would be included in the solicitation. This clause was inadvertently omitted from the RFP so for this reason, in accordance with PGI 206.304, the J&A is being signed at one level higher than the approval level for the previous J&A.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	3B	. For the reasons explained below, these

Supplies are only available from the following source(s): CHAND LLC, Cage 0D5X4

Only the above manufacturing source(s) will be solicited because the article to be acquired is a highly specialized part. This SHAFT, OUTBOARD is coded sole source to CHAND LLC, Cage 0D5X4 who owns the drawings and is identified as the approved source(s) of supply. There are no authorized substitutes of this item as this is the only item known to meet performance and compatibility requirements within the higher assembly. The item has to be tested within the upper assembly and qualify within approved testing specifications procedures, embedded coding procedures, design protocols, and internal QA requirements.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2. This justification and the resulting contract will be posted to FedBizOpps in accordance with FAR 5.3.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases, has yielded the results below. Based on this market research the contracting officer has determined that the only known source is CHAND LLC, Cage 0D5X4 which is a division of BOLLINGER SHIPYARDS LOCKPORT, L.L.C Cage 64513. and their only authorized dealer

ITIMP- Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, and recorded approved sources of supply. Past buy history has been solely to CHAND LLC since 2009 with the most recent contracts being award in November 2015.

ERP Master Data Base for US Navy: Confirmed data collected through ITIMP and LMS 21.

NSEDR- Drawings are for the entire shaft assembly that the SHAFT, OUTBOARD goes in and are owned and source controlled by BOLLINGER SHIPYARDS LOCKPORT, L.L.C Cage 64513.

LMS 21- Reviewed CCF data, part number, registered users and requirement to confirm data collect through ITIMP

Furthermore, a Sources Sought Base Notice was posted to FedBizOpps on 15 March 2016 for 10 calendar days, inviting potential sources to fill out a Market Survey and express their interest in providing an offer on this request to be forwarded to the design and technical authority for approval. No responses were received during this timeframe.

9. ANY OTHER SUPPORTING FACTS: This part must be acquired from a manufacturing source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition: None at this time

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: The government will include a clause in this solicitation that provides that the government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve the alternate offer, the SAR package will be considered for future awards.
