AMC 2. Suitable for competitive acquisition for the first time.

AMSC B. This part must be acquired from a manufacturing source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Data review discloses that required data or data rights are not in Government possession and cannot be economically obtained.

This acquisition will be negotiated with: LLAMAS PLASTICS INC (8P093) and SIERRACIN-SYLMAR (12035)

This acquisition will be negotiated with both LLAMAS PLASTICS INC (8P093) and SIERRACIN-SYLMAR (12035) due to the fact they are the only sources qualified to produce these items. The Boeing Company has listed SIERRACIN-SYLMAR (12035) as the sole source of supply on Boeing Source Control Drawing (77272, 901-947-756) and LLAMAS PLASTICS INC (8P093) has been qualified as a manufacturer through the PMA-275 Basic Design Engineering approval process. Also the items pertaining to this procurement have been identified by the PMA-275 Basic Design Engineer (BDE) as a Critical Safety Items(CSI) and this criticality determination is a limiting factor when obtaining new sources. Only Boeing or PMA-275 BDE have the authority to approve and establish new source(s) of supply for these items. This process involves inspection and review of manufacturing techniques, special skills, qualifications and technical knowledge required to complete the successful manufacturing of these Windows.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE:

The proposed contract action was synopsised in the FedBizOpps website for government-wide point of entry on:

1/17/15

The following sources have expressed an interest in this acquisition: None as of 4/9/15

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The Technical Data for competitive procurement of these Windows is source controlled by Boeing Source Control Drawing (77272,901-947-756). Potential new sources will require approval by NAVAIR PMA-275 BDE and added to the SCD by the Prime Contractor, Boeing. LLAMAS PLASTICS INC (8P093) and SIERRACIN-SYLMAR (12035) are the only approved source for Critical Safety Items.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

At this point LLAMAS PLASTICS INC (8P093) and SIERRACIN-SYLMAR (12035) are the only approved source for these item. The NAVSUP WSS Source Development Department has no pending Source Approval Request (SAR) packages or interested parties trying to qualify at this time. NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority, namely, NAVAIR PMA-275 BDE.
