AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

This acquisition will be negotiated with: Sikorsky (78286)

Sikorsky (78286) is the Prime contractor for this component (65662-03246-042) and is currently the only approved source of supply. At this time no other sources have shown an interest or have submitted an offer to manufacture this item. Additionally, this item is a Critical Safety Item and requires engineering source approval by the design control activity in order to maintain the quality of the part. Therefore, any interested entity seeking to compete for this contract must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

Oct 20, 2015

and as a result:

No interest was received for this part number.

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The NAVSUP Weapon Systems Support (WSS) H-53 IWST has conducted a market research per the market research document. The subject Housing assembly is a Critical Safety Item (CSI) and all alternate manufacturing sources must qualify IAW the design control activity's procedures, as approved by NAVAIR Systems Command. Presently, Sikorsky (78286) is the Prime for this item, and they are the only qualified source. Complete technical data is available in JEDMICS to potentially support full and open competition, but additional research is required to determine availability of the tooling to make this item. Additionally, no other sources have currently expressed an interest in becoming an approved manufacturing source for the subject item. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to make this item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the WSS guidelines.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in Paragraph (5) & (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/ services covered by this document. NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority, namely, NAVSUP WSS, NADEP or NAVAIR. Future requirements will be advertised in the Fed Biz Opps website (www.fedbizopps.gov) in order to encourage potential suppliers to submit Source Approval Requests.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal / formal acquisition plan is / is not required for this acquisition.
