AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

This acquisition will be negotiated with: RAYTHEON COMPANY (4U884)

RAYTHEON COMPANY (4U884), is the only Source of Supply who can manufacture, and test the subject E-2D Advanced Hawkeye, PDM approved by the Design Control Activity PMA-231, NAVAIR, and FST North Island. Also RAYTHEON COMPANY (4U884) is the only facility at this time, that owns the test equipment, and has the expertise, facilities, and capability, necessary to manufacture, and test the subject E-2D Advanced Hawkeye, PDM, as prescribed by the Design Control Activity, NAVAIR, PMA-231, and FRCSW North Island at this time. This is a Critical Application Item.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

Jun 22, 2016

and as a result:

The only contractor that responded was Raytheon (4U884).

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

NAVSUP Weapon Systems Support (NAVSUP WSS) has a breakout program designed to convert as many acquisitions to full and open competition as possible. The program is designed to acquire the necessary technical data needed to procure the requirements of NAVSUP WSS by full and open competition. Available data including all manufacturing publications, supporting test equipment availability and associated drawings and specifications required to manufacture the subject item has not been found adequate to support full and open competition.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in paragraph 5, and 6, NAVSUP/WSS has no plans at this time to compete future contracts for the types of supply/ services covered by this document. If other potential sources are interested, NAVSUP/WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal/ formal acquisition plan is is not required for this acquisition.
