**5. DEMONSTRATION OF CONTRACTORS UNIQUE QUALIFICATIONS:** The current Acquisition Method Code (AMC/AMSC) is 3C. This acquisition will be negotiated with

(73030) Hamilton Sundstrand Corp. 1 Hamilton Road, Windsor Locks, Ct. 06096-1010

Only the above will be solicited because the articles to be acquired are highly specialized parts, designed and manufactured by a non-Government activity and the technical data required for acquisition by other than the above is not available.

6. **FEDERAL BUSINESS OPPORTUNITIES/POTENTIAL SOURCES:** The proposed contract was/will be synopsised in the FedBizOpps website for government wide point of entry.

7. **DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining reasonableness. Certified cost and pricing data will be obtained and used to ensure reasonableness, completeness and realism of proposed costs as required.

8. **DESCRIPTION OF MARKET SURVEY:** A technical review has been made to determine and identify all known sources.

9. **ANY OTHER SUPPORTING FACTS:**

The articles to be procured are complex and must meet critical operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing, and the government has not yet acquired or developed the technical data.

10. **LISTING OF INTERESTED SOURCES:** The following sources have expressed, in writing, an interest in this acquisition.

NONE

11. **ACTIONS TO REMOVE BARRIERS TO COMPETITION:**

NAVSUP Weapon Systems Support (NAVSUP WSS) has a breakout program designed to convert as many acquisitions to full and open competition as possible. The program is designed to acquire the necessary technical data needed to procure the requirements of NAVSUP WSS by full and open competition. The AMC value of "3" indicates that this item is being acquired for the second or subsequent time, directly from the actual manufacturer, and the AMCS value of "C" indicates that this component requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique engineering skills, and knowledge by the qualified sources require repair of the part by the approved sources. All alternate sources must be qualified though NAVAIR. This acquisition will be negotiated with: (73030) Hamilton Sundstrand Corp. No other commercial facility has the expertise, facilities or the test equipment necessary to manufacture Part Number 814201-8. Furthermore the items is considered critical to safety of flight thus, additional sources must obtain engineering source approval prior to contract award. For these reasons NAVSUP WSS is presently unable to fully compete the subject items.
