

5. RATIONALE JUSTIFYING USE OF CITED STATUTORY AUTHORITY:

The current Acquisition Method Code/Acquisition Method Suffix Code (AMC/AMSC) is: 2C

AMC 2. Suitable for competitive acquisition for the first time.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

This acquisition will be negotiated with Dukes Inc. (09445), who is a qualified source to manufacture this part. Meggitt (79318) and Northrop Grumman (76823) are also approved sources. To date, a criticality determination has not been completed. A criticality determination has been sent to the FST to determine the CAI/CSI for the subject item.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERERS AS PRACTICABLE:

The proposed contract was synopsisized in the FedBizOpps website for government wide point of entry on 14 March, 2013. The following sources have expressed an interest in the acquisition:

NONE

0313 has conducted market research in accordance with the FAR part 10. The results of the market research conducted (also, see attached J&A Market Research) is as follows: The configuration of this part has been validated and the records are aligned. The drawing data was interpreted and this item is source controlled and can only be purchased from the approved sources called out on the drawing. There are no restrictive legends on the drawings and a criticality determination has not been made, however, a request has been sent to the FST engineers to determine if this asset is CAI or CSI. If a new source is called out, a complete SAR is required prior to award.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in paragraph (5) and (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/services covered by this document. Also, the management of these parts are in the process of being taken over by the Air Force. We are filling the pipe-line with this buy.
