- 4. STATUTORY AUTHORITY PERMITTING OTHER THAN FULL AND OPEN COMPETITION:** This J&A is based upon the authority of 10 USC 2304(c)(1), one source or limited sources, as implemented by FAR 6.302-1.
- 5. RATIONALE JUSTIFYING USE OF CITED STATUTORY AUTHORITY:**

The current Acquisition Method Code/Acquisition Method Suffix Code (AMC/AMSC) is:

Folder Number: 15093-0023

Requisition/PD# SPRPA1-15-R-X427

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

This acquisition will be negotiated with: MEGGITT INC (56221)

Only the above will be solicited because the articles to be acquired are highly specialized parts, designed and manufactured by a non-Government activity and the technical data required for manufacture by other than the above is not available. Available data including all publications, associated drawings and specifications, as well as supporting test equipment availability required to manufacture the subject item are not available to purchase from other than the current approved source of supply MEGGITT INC (56221). Any additional sources must acquire engineering source approval from NAVAIR prior to contract award. In addition, No other sources have currently expressed an interest in becoming an approved manufacturing source for the subject item to the Source Development Department.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

Apr 14, 2015

and as a result:

No other sources have expressed an interest in this acquisition.

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The NAVSUP Weapon Systems Support (WSS) Source Development Department (SDD) has conducted a market research per the market research document. The 5 subject items are Critical Safety Items (CSI) and all alternate sources must qualify IAW the design control activity's procedures, as approved by NAVAIR prior to contract award. Available data including all publications, supporting test equipment availability and associated drawings and specifications required to manufacture the 5 subject items are not available to purchase from other than the current approved source of supply Meggitt (Rockmart) Inc. (56221). Data review discloses that all the manufacturing data including all manufacturing manuals, publications, associated drawings and specifications required to manufacture and maintain the quality of the 5 subject items are not in Government possession and cannot be economically obtained. Without the manufacturing data it is not possible for any other source to manufacture the 5 subject items. No other company has access to the manufacturing data that would enable them to manufacture the 5 subject items. The government does not possess the manufacturing data necessary to support full and open competition. No other sources have expressed an interest in manufacturing the 5 subject items to the Source Development Department. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the 5 subject items to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the WSS guidelines. Also future requirements will be advertised in the FedBizOpps website (www.fedbizops.gov) in order to encourage potential suppliers to submit Source Approval Requests.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in Paragraph (5) & (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/services covered by this document. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the 5 subject items to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also future requirements will be advertised in the FedBizOpps website (www.fedbizops.gov) in order to encourage potential suppliers to submit Source Approval Requests. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal / formal acquisition plan is / is not required for this acquisition.
