JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION

Folder Number: 15253-0011

Requisition/PD# PTKS5452460042

Any revision to the preprinted portion of this document must be individually reviewed and approved in writing by DLA Office of Counsel.

James Goodwin Item Manager's Name	[REDACTED] Extension	N5212.94 Code
Garey j Jordan Technician's Name	[REDACTED] Extension	N52211.11 Code
Marie Lisowski Buyer's Name	[REDACTED] Extension	APBB.01 Code

1. **CONTRACTING ACTIVITY:** DLA Aviation Strategic Acquisition at Philadelphia, PA

2. **DESCRIPTION OF THE ACTION BEING APPROVED:** Negotiation and award of a contract through other than full and open competition.

3. **DESCRIPTION OF SUPPLIES/SERVICES:** This J&A covers the acquisition of the following article(s):

Nomen: Nozzle Turbine Quantity: [REDACTED]
NSN: 7RH 2840 01-483-0252 XQ CAGE Code: 99207
P/N: 5066T16G20 Unit Price: [REDACTED]

Estimated Value (include option): [REDACTED] The required delivery date is: [REDACTED]

Ship To: BTK002

Line of Accounting
9711X8242 2850 000 74502 0 065916 2DOTKS54524600420JCT

4. **STATUTORY AUTHORITY PERMITTING OTHER THAN FULL AND OPEN COMPETITION:** This J&A is based upon the authority of 10 USC 2304(c)(1), one source or limited sources, as implemented by FAR 6.302-1.

5. **RATIONALE JUSTIFYING USE OF CITED STATUTORY AUTHORITY:**

The current Acquisition Method Code/Acquisition Method Suffix Code (AMC/AMSC) is: 3 C multiple codes see pg 2 for definitions

Source Selection Information - See FAR 2.101 & 3.104

Requisition/PD# PTKS5452460042

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

This acquisition will be negotiated with: (99207) General Electric

General Electric (99207) is the Prime contractor for the subject item and is currently the only approved source of supply. At this time no other sources have shown an interest or have submitted an offer to manufacture this item. Additionally, this item is a Critical Application Item and requires engineering source approval by the design control activity in order to maintain the quality of the part. Therefore, any interested entity seeking to compete for this contract must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

Oct. 22, 2015

and as a result:

No other parties expressed interest

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The NAVSUP Weapon Systems Support (WSS) Source Development Department (SDD) has conducted a market research per the market research document. The subject Turbine Nozzle is a Critical Application Item (CAI) and all alternate sources must qualify IAW the design control activity's procedures, as approved by NAVAIR prior to contract award. Currently the only approved manufacturing source of supply is General Electric (99207). Available data including all publications, supporting test equipment availability and associated drawings and specifications required to manufacture the subject item has not been found adequate to support full and open competition. No other sources have currently expressed an interest in becoming an approved manufacturing source for the subject item to the Source Development Department. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also future requirements will be advertised in the FedBizOpps website (www.fedbizops.gov) in order to encourage potential suppliers to submit Source Approval Requests.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in Paragraph (5) & (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/ services covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal / formal acquisition plan is / is not required for this acquisition.

MARKET RESEARCH EVALUATION

** REMARKS REQUIRED for "YES" Responses (unless marked optional) **

1. Configuration Correct

Configuration: P/N 5066T16G20

Previous J&A: First Time Buy - No previous J&A exists

Remarks:

2. Manufacturing/Repair Source(s) Records have been aligned and validated YES

Remarks: Currently the only approved manufacturing source is General Electric (99207).

3. Drawing Data Interpretation

a) Drawing Data Availability YES - Data Reviewed - see Remarks for relevant information found on Drawings

Location/Remarks: JEDMICS

b) Specification / Source Controlled Drawing NO

Remarks:

c) DCA Drawing Contains a Restrictive Legend NO

Remarks:

d) [MECH] Distribution Statement

Remarks:

4. Criticality Determination

Validated, Identified, and Properly Documented

[PHL] CAI

Remarks (optional):

5. [PHL] Technical Data (Spares/Repairs)

Incomplete - Have Source Development send a request (if feasible) to the OEM for a budgetary cost estimate and lead time for providing a complete level III Technical Data Package, set of repair manuals, and/or Technical Data/Specifications with the U.S. Government rights for use of data for competitive procurement purposes.

Complete - Procure from the current approved source(s) of supply
* A completed SAR is required to qualify all new sources *

Remarks (optional):

6. USP Determination [PHL] NO - No existing SARs currently in process from any Potential Sources
