Requisition/PD# N0038315RCPZ232

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC H. The Government physically does not have in its possession sufficient, accurate, or legible data to purchase this part from other than the current source(s). This code is applicable only to parts under immediate buy requirements and only for as long thereafter as the deficiency is under review for resolution and appropriate recoding. This code is only assigned at the conclusion of limited screening, and it remains assigned until the full screening process resolves physical data questions and results in assignment of a different AMSC. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

This acquisition will be negotiated with: HEATCON COMPOSITE SYSTEMS INC. (0ED96).

The government does not own the data to manufacture or assemble this item. Currently Heatcon Composite Systems INC. is the only company that owns the data rights, equipment, and technical acumen to manufacture item

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

and as a result:

NO PARTIES EXPRESSED INTEREST

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The NAVSUP Weapon Systems Support (WSS) Source Development Department (SDD) has conducted a market research per the market research document. The subject Composite Repair Bonder is a critical item and all alternate sources must qualify IAW the design control activity's procedures, as approved by NAVAIR prior to contract award. The subject item is a critical item but a determination has not been performed to determine if it is a Critical Safety Item (CSI) or a Critical Application Item (CAI). A request has been sent to the FST to determine the criticality of the subject item. Available data including all publications, supporting test equipment availability and associated drawings and specifications required to manufacture the subject item are not available to purchase from other than the current approved source of supply Heatcon Composite Systems (0ED96). Data review discloses that all the manufacturing data including all manufacturing manuals, publications, associated drawings and specifications required to manufacture and maintain the quality of the subject item are not in Government possession and cannot be economically obtained. Without the manufacturing data it is not possible for any other source to manufacture the subject item. No other company has access to the manufacturing data that would enable them to manufacture the subject item. The government does not possess the manufacturing data necessary to support full and open competition. No other sources have currently expressed an interest in becoming an approved manufacturing source for the subject item to the Source Development Department. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also future requirements will be advertised in the FedBizOpps website (www.fedbizops.gov) in order to encourage potential suppliers to submit Source Approval Requests.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in Paragraph (5) & (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/ services covered by this document. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also future requirements will be advertised in the FedBizOpps website (www.fedbizops.gov) in order to encourage potential suppliers to submit Source Approval Requests. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal / formal acquisition plan is / is not required for this acquisition.
