AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

COBHAM Antenna Systems(U1907)
The COBHAM Centre
Fourth Avenue
Marlow, Buckinghamshire, United Kingdom SL7 1TF

This acquisition will be negotiated with:

There has been no CAI/CSI determination made on this item and FST will be notified. This acquisition will be negotiated with COBHAM Antenna Systems (U1907) because they are the only approved source of manufacture. Proprietary information is not available and cannot be acquired. All alternate sources must qualify IAW the DCA's procedures, as approved by NAVAIR prior to contract award. The Navy does not have in its possession any manufacturing data, including manufacturing publications, supporting test equipment, and associated specifications required to produce the subject item at this time. Since the Navy does not possess sufficient information such as detailed drawings and specifications, test equipment/procedures and other supporting data for the item, a full and open competitive solicitation cannot be supported. NAVSUP WSS must acquire this item from the approved source COBHAM Antenna Systems (U1907).

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

24 MAR 2016

and as a result:

No additional sources expressed interest.

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

NAVSUP Weapon System Support completed a limited screen review on the subject item. The AMC/AMSC is (3C) with COBHAM Antenna Systems(U1907) as the only approved source of manufacture for this item. No other sources have expressed an interest in producing the subject item to the Source Development Department at this time. Available data has been found inadequate to support full and open competitive acquisition. There has been no CAI/CSI determination made on this item. Proprietary rights to the data and additional sources must obtain engineering source approval via DCA, prior to contract award.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in Paragraphs (5) & (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/ services covered by this document. If another potential source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal formal acquisition plan is not required for this acquisition.
