**4. STATUTORY AUTHORITY PERMITTING OTHER THAN FULL AND OPEN COMPETITION:** This J&A is based upon the authority of 10 USC 2304(c)(1), one source or limited sources, as implemented by FAR 6.302-1.

**5. RATIONALE JUSTIFYING USE OF CITED STATUTORY AUTHORITY:**

The current Acquisition Method Code/Acquisition Method Suffix Code (AMC/AMSC) is:    multiple codes see pg 2 for definitions

Folder Number: 16050-0030

Requisition/PD# N0038316X1774

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC D. The data needed to acquire this part competitively is not physically available, it cannot be obtained economically, nor is it possible to draft adequate specifications or any other adequate, economical description of the material for a competitive solicitation.

This acquisition will be negotiated with: Encore Composite Structures, Inc. (8N007) C-01256-7

Only Encore Composite Structures, Inc. (8N007) will be solicited due to the item(s) being the only NAVAIR PMA-275 approved source. The data needed to procure this part competitively is not physically available. The approved source has retained data rights, manufacturing knowledge, or technical data that are not economically available nor is it possible to draft adequate specifications or any other adequate economical description of the material for a competitive solicitation to the Government, and the data or knowledge is essential to maintaining the quality of the part. The approval process involves inspection and review of manufacturing techniques, special skills, qualifications, and knowledge required to complete the complex procedures. The cognizant Government engineering activity (PMA 275) is responsible for this process. NAVAIR has only currently approved this source for these items.

**6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE:** The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

3/1/2016

and as a result:

No other offers have expressed interest in this requirement.

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The NAVSUP Weapon Systems Support (WSS) Source Development Department (SDD) has conducted a market research per the market research document. The subject IRS Shell Assembly is a critical item and all alternate sources must qualify IAW the design control activity's procedures, as approved by NAVAIR prior to contract award. The subject item is a critical item but a determination has not been performed to determine if it is a Critical Safety Item (CSI) or a Critical Application Item (CAI). A request has been sent to the FST to determine the criticality of the subject item. Available data including all publications, supporting test equipment availability and associated drawings and specifications required to manufacture the subject item are not available to purchase from other than the current approved source of supply Encore Composite Structures (8N007). Also the data for the subject item contains restrictive legend and the data is proprietary to Encore Composite Structures (8N007) and they will not release any or all the data to the Navy. Data review discloses that required data or data rights are not in Government possession and cannot be economically obtained. Without the technical data it is not possible for any other source to manufacture the subject item. No other company has access to the technical data that would enable them to manufacture the subject item. The government does not possess the manufacturing data necessary to support full and open competition. No other sources have currently expressed an interest in becoming an approved manufacturing source for the subject item to the Source Development Department. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also future requirements will be advertised in the FedBizOpps website ([www.fedbizops.gov](http://www.fedbizops.gov)) in order to encourage potential suppliers to submit Source Approval Requests.

**7. DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

**8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:**

For reasons set forth in Paragraph (5) & (6), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/ services covered by this document. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also future requirements will be advertised in the FedBizOpps website ([www.fedbizops.gov](http://www.fedbizops.gov)) in order to encourage potential suppliers to submit Source Approval Requests. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

**9. REFERENCE TO THE APPROVED ACQUISITION PLAN:**

An informal / formal acquisition plan is / is not required for this acquisition.

\*\* REMARKS REQUIRED for "YES" Responses (unless marked optional) \*\*

1.  Configuration Correct

Configuration: IRS, SHELL ASSEMBLY / 1680-01-599-1742 / (8N007) C-01256-7

Previous J&A: Previous J&A Attached

Remarks:

2. Manufacturing/Repair Source(s) Records have been aligned and validated  YES

Remarks: Currently the only approved manufacturing source is Encore Composite Structures (8N007).

3. Drawing Data Interpretation

a) Drawing Data Availability  YES - Data Reviewed - see Remarks for relevant information found on Drawings

Location/Remarks: JEDMICS

b) Specification / Source Controlled Drawing  NO

Remarks:

c) DCA Drawing Contains a Restrictive Legend  YES - See Remarks for appropriate economic approach to circumstance

Remarks: Data is proprietary to Encore Composite Structures (8N007).

d) [MECH] Distribution Statement

Remarks:

4. Criticality Determination

Validated, Identified, and Properly Documented

[PHL] Not in JDRS - Initiated Criticality Determination. Procure from approved sources of supply

Remarks (optional):

5. [PHL] Technical Data (Spares/Repairs)

Incomplete - Have Source Development send a request (if feasible) to the OEM for a budgetary cost estimate and lead time for providing a complete level III Technical Data Package, set of repair manuals, and/or Technical Data/Specifications with the U.S. Government rights for use of data for competitive procurement purposes.

Complete - Procure from the current approved source(s) of supply  
\* A completed SAR is required to qualify all new sources \*

Remarks (optional): Technical data is proprietary to Encore Composite Structures (8N007).

6. USP Determination [PHL] NO - No existing SARs currently in process from any Potential Sources
