Folder Number: 16060-0002

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC B. This part must be acquired from a manufacturing source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Data review discloses that required data or data rights are not in Government possession and cannot be economically obtained.

This acquisition will be negotiated with: MASON ELECTRIC (81579)

This item must be acquired according to the Boeing Source Control Drawing (77272, 901-370-348), which identifies MASON ELECTRIC (81579) P/N 799-0701, as the only source of supply. This item has also been identified as a Critical Application Item (CAI) by the NAVAIR Program Office PMA-275 Basic Design Engineer (BDE), which further limits available sources and only the BDE, NAVSUP WSS Source Development Department (SDD) or Boeing have the authority to approve new source(s) of manufacture. This timely process involves inspection and review of manufacturing techniques, special skills, qualifications and technical knowledge required to complete the manufacture of this item.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

6/30/16

and as a result:

No other interested parties responded to this acquisition.

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

The Technical Data for competitive procurement of this Track Handle is source controlled by Boeing (77272) Source Control Drawing (SCD). Potential new sources will require approval by NAVAIR PMA-275 BDE, NAVSUP WSS SDD or added to the SCD by the Prime Contractor, Boeing. There have been no indications of any company interested in becoming qualified as an alternate source.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

MASON ELECTRIC (81579) is the only approved source for this item. The NAVSUP WSS Source Development Department has no pending Source Approval Request (SAR) packages or interested parties trying to qualify at this time. NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority, namely, NAVSUP WSS SD and NAVAIR BDE. For the reasons set forth in Paragraphs 5 & 6, NAVSUP WSS has no plans at this time to compete future contacts for the types of supplies/services covered by this document. If another potential source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal / formal acquisition plan is / is not required for this acquisition.
