

NONCOMPETITIVE PROCUREMENT JUSTIFICATION
(Simplified Acquisition Procedures (SAPs) Micropurchase Threshold to \$150K)

The service or product(s) listed on requisition(s) below is/are precluded from competition for reasons indicated below.

There are no suitable substitutes available.

Restricted to the following source. Provide original *manufacturer's* name. (If a sole source manufacturer distributes via dealers, *ALSO* provide dealer information.)

Manufacturer: [REDACTED]

Manufacturer's Dealer/Rep: [REDACTED]

Description of the product or services required, the estimated cost, and required delivery date (products) or Period of Performance (services). Firm Fixed Price order to procure spares. Need to procure [REDACTED]

P/N	Nomen	Qty	Unit Cost	Extended Cost
-----	-------	-----	-----------	---------------

Estimated Delivery Date is [REDACTED]

Total Estimated Value of Procurement is [REDACTED]

Specific characteristics of the material or service that limit the availability to a sole source (unique features; function of the item; unique capabilities; facilities or special equipment; etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources. The [REDACTED]

The nature of this action is for the procurement of the [REDACTED]. The [REDACTED] were built by [REDACTED] and selected for use by the [REDACTED] consists of [REDACTED] and [REDACTED] for general area [REDACTED] with additional primary [REDACTED] for instrument panels. The [REDACTED] are mounted to the the [REDACTED]. The [REDACTED] were designed, built, and tested by [REDACTED] at their expense and as such, retained the rights to the Level III drawings. The Government did not procure the Level III drawings for this equipment nor does the Government own the necessary test benches, software, or procedures required to, in any certainty, ensure the items are repaired, upgraded, and/or manufactured within operational specifications. Because of licensing agreements between [REDACTED] manufacturers and [REDACTED] aircraft manufacturer), for the Government to obtain Level III documentation from [REDACTED] Original Equipment Manufacturer's (OEM's), the request must be sent to Lockheed Martin, the [REDACTED]. In a Business Case Analysis (BCA) dated [REDACTED], prepared by [REDACTED] the Independent Government Estimate (IGE) cost to obtain all [REDACTED] engineering data and licensing agreements from [REDACTED] was on the order of [REDACTED]. Without a validated Level III technical data package, no other commercial vendor can manufacture, repair, or replace this [REDACTED]. This product must integrate in the current configuration in form, fit, and function. [REDACTED] is the only current source that possesses the applicable Level III data, test procedures, test fixtures, software code, test benches, engineering capability, and technical expertise to produce the [REDACTED]. The lack of software documentation, test fixtures, and quality/performance acceptance test procedures prohibit any source that has not previously manufactured and/or repaired these units to fulfill this requirement. [REDACTED] these parts is unwarranted since a commercial source of supply exists. In addition, prototype units, produced as a result of the [REDACTED]

[REDACTED]

For non-personal services indicate the highly technical or specialized expertise required. Describe the contractor's workforce, methods, materials or unique management or operating systems. If it is unique because of knowledge of key individuals, what is the basis of the knowledge that another firm could not obtain the same or equivalent expertise? Could another firm obtain the necessary highly specialized experience or technical capability in time to perform the requirement? N/A

The required product(s) or service(s) represent(s) the minimum requirements of the Government and no other product(s) or service(s) can satisfy the need.

FILL IN ALL APPLICABLE BLANKS BELOW

The product(s) must be compatible in all aspects (form, fit, and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system. The manufactured assets must be form, fit, and function to the OEM specifications in order for the unit to perform and interface with the existing system that is installed on the aircraft. The manufacture of these assets for the identified systems and components will ensure the [REDACTED] can accomplish their assigned missions as [REDACTED]. All assets associated with this action will be used to satisfy the current, immediate, and future requirements for the [REDACTED].

Patent rights, copyrights, trade secrets, technical data, secret processes, or other propriety data essential for contract performance limits competition. The proprietary data is: The Government does not own or possess the Level III drawing package, test procedures, and/or Automated Test Procedures (ATP) to allow for full and open competition.

These are "direct replacements" parts/components for existing equipment .

Other information to support a sole-source buy: Since the government does not possess any drawings, test procedures or parts list, no one other than the OEM has the knowledge or expertise to manufacture these assets.

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE-SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.

[REDACTED]

Based on review of the above statements and information, I concur with processing this procurement on a noncompetitive basis.
