

JUSTIFICATION FOR BRAND NAME (Simplified Acquisitions <\$150K)

The service or material listed on <V6831611322911> is a brand name requirement and competition is precluded for reasons indicated below. There are no substitutes available for this material or service.

Restricted to the following source:

Manufacturer: UNEX Corporation DBA Hytorc Division

Manufacturer POC & phone nr: 1

Mfr. Address: 333 Route 17 North, Mahwah, NJ 07430

Dealer / Rep: Chris Bolduc & Kevin Powell

Dealer / Rep address / phone nr: Hytorc of New England
Amherst, NH 03031

Description of the item or service required, the estimated cost, and required delivery date.

Low profile, dual piston hydraulic tool, with a safety handle and a holding pawl for 24-degree Indexing in a 2-3/4" and 2-3/8" links with a 10K PSI-110 Volt dual acting; single port hydraulic Pump matched links. Part No. Avanti3 and Avanti8; Items names: Hydraulic Tools.

Specific characteristics of the material or service [brand name-specific product] that limits the availability of the brand name (specific) product to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

These items are direct replacements for items that have been rejected by the calibration department, and for which repairs would be cost prohibited. These Hytorc hydraulic tools are currently supported by the local calibration program; thus further providing a cost effective alternative to items that require shipping and calibration costs.

The requested material or service represents the minimum requirements of the government.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

X The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

The requested Hytorc items are the only known specialized hydraulic torque tools that are compatible with the existing government calibration equipment and satisfies the customer's submarine maintenance needs.

X A patent, copyright or proprietary data limits competition. The proprietary data is owned and Maintained by UNEX Corporation DBA Hytorc Division.

These are "direct replacements" parts/components for existing equipment.

X Other information to support a sole source buy:

Avanti hydraulic tools (brand name) will replace incompatible tools that cannot provide appropriate torque and tension; therefore causing fittings leaks and other machine problems; thus reducing machines efficiency and effectiveness output for NSSF shops. Avanti tools cost includes tool use training. These Hytorc items will be replacing rejected/non-repairable hydraulic tooling that is not compatible with NSSF's current calibration program. The Hytorc brand items are currently supported by NSSF's calibration program, and these tools are a safer, more efficient model than the ones they will be replacing. The current tools in use (Torc-Up models) were discontinued due to performance failures and safety concern for submarine maintenance program.

The Stealth 206 (similar in function to Avanti brand name hydraulic tools) were purchased before (N00189-10-P-G155), and they are currently performing above acceptable levels. Both Stealth and Avanti brands were made by the same manufacturer (Hytorc).

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
