2) Naval Ships Technical Manual CH613.
3) MIL-R-24050E Rope, Fibrous-Double Braided (Nylon).

STATEMENT OF WORK

Amendment 001. Assault Craft Unit Four (ACU 4) is requesting NAVSUP Fleet Logistics Center Norfolk to solicit interested vendors who can manufacture 10 (EA) Tow Bridle Assemblies (**Towlines only**). The towing bridle assembly must be done with the specifications listed in the Sea Operations Manual # S9LCA-AA-SLP-010 VOL 1 (SEAOPS) revision 6, figure 3-15.

1.1 "Each" towing bridle assembly consist of the following items only.

- a. QTY: 2 (EA) 90 FT. TOW LEG, 4-½" DOUBLE BRAIDED NYLON WITH NO 6. NYLITE SPOOL SHIELD AND SHACKLE AT EACH END.
- b. QTY: 1 (EA) 90 FT. TOW LINE, 4-½" DOUBLE BRAIDED NYLON WITH NO 6. NYLITE SPOOL SHIELD AND SHACKLE AT EACH END.
- c. QTY: 1 (EA) 300 FT. TOW LINE, 4- ½" DOUBLE BRAIDED NYLON WITH NO 6. NYLITE SPOOL SHIELD AND SHACKLE AT EACH END.

1.2 Each towline must have a minimum tensile strength of 64,200 LBS in accordance with the Naval Ships Technical Manual CH 613 (NSTM 613) and MIL-DTL-24050E.

1.3 This requirement is only for the Towlines, # 6 Nylite spool shields and shackles.

1.4 Period of Performance: Towlines must be delivered 5-6 weeks after request is order.
