

JUSTIFICATION FOR SOLE SOURCE (Simplified Acquisitions <\$150K)

The service or material listed on N0428A16RC001FN is sole source and competition is precluded for reasons indicated below. There are no substitutes available for this material or service.

Restricted to the following source. Provide *original manufacturer's name*. (If a sole source manufacturer distributes via dealers, ALSO provide dealer information.)

Manufacturer: REED-JOSEPH INTERNATIONAL COMPANY

Manufacturer POC & phone nr. Joseph Barthell Jr, 800-647-5554 / 662-335-5822

Mfr. address P.O.BOX 894 or 800 Main Street,
Greenville, MS 38702 Cage OMGG7

Dealer / Rep _____

Dealer / Rep address / phone nr. _____

Description of the item or service required, the estimated cost, and required delivery date.

Birds and wildlife pose a threat to aircraft on the airfields at Naval Air Station Patuxent River (NAX PAX River) and Webster Outlying Field (OLF) at all times of the day, including low light conditions, such as dawn and dusk, and nighttime hours. A wildlife abatement system is needed to provide on demand wildlife dispersal capability for those times when a dispersal team is unable to respond to a threat in a timely manner, and to provide a deterrent to keep birds and wildlife from returning to an area, once they have been dispersed. These deterrent systems are essential to minimize the potential costly incidents of aircraft damage when wildlife is encountered on the runways. Required Delivery: 1 May 2016, [REDACTED]

Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

Reed-Joseph, offers a maintenance/inspection service that will ensure minimal downtime for equipment repairs due to the ready accessibility of manufacturer schematics and repair parts. Reed-Joseph is the only manufacturer that provides maintenance technicians who are manufacturer trained and have direct access to manufacturer schematics and parts to assure minimal down-time. The Reed-Joseph International Scare Wars" wildlife abatement system is currently in place at both NAS PAX River and the Webster OLF. Maintaining these wildlife deterrent systems with minimal downtime is the governments' minimum requirement, and priority.

The requested material or service represents the minimum requirements of the government.

The governments' minimum requirement is to have the BASH system remain fully operational, with the minimal downtime for repairs. These replacement wildlife deterrent systems will ensure the greatest system up time and functionality of airfield coverage at NAS PAX River and Webster OLF. Maintenance/inspection services will continue under the current contract N00189-14-P-1156 for the period of performance 1 October 2014 through 30 September 2019.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

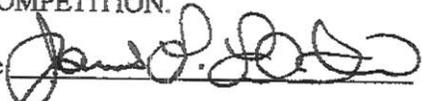

It is a mission essential requirement that the new units interface with the old units and act as one system. Interoperability between old and new equipment is a requirement.

A patent, copyright or proprietary data limits competition. The proprietary data is _____

These are "direct replacements" parts/components for existing equipment.

Other information to support a sole source buy:

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
