X Description of the item or service required, the estimated cost, and required delivery date.

(1) each Riverine Assault Boat Rough Terrain Trailer, Model # RTT-USM30-24-8, 3 axle;
Estimated cost _____, plus shipping cost of _____ Required
delivery date: 2 May 2016.

X Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

The Rough Terrain Trailer was procured for the Navy by OPNAV and is specifically designed by Boatmaster to carry the 33ft Riverine Assault Boat(RAB). The trailer has underwent testing at the Army Aberdeen Proving Grounds and has been certified for being towed behind the MTRV over unimproved roads and off road by the MTRV program office. No other boat trailer to date has received this certification. The specific features that allow for this capability are axle skid plates, high ground clearance, raised pintle position, 24V military style tail lights, and a high capacity winch for retrieving boats at high launch angles. There are currently no other trailers on the market that have these design features, and that have been tested and approved by the MTRV program office. JDCI Enterprises, Boatmaster holds the patent on the rough terrain trailer name.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

Purchased ROUGH TERRAIN TRAILER (RTT) must conform to structure and weight standards with capability to safely carry a 33ft Riverine Assault Boat (RAB) while being towed by an MTRV. "JDCI Enterprises/Boatmaster Inc" is the original, exclusive manufacturer of the required trailer to transport the 33ft Riverine Assault Boat (RAB) within required safety specifications, in fulfillment of the Command's Mission. J.D.C.I. Enterprises Inc. is the exclusive local distributor of the Boatmaster RTT as required by the Navy and SYSCOM. This is a one-for-one replacement.

A patent, copyright or proprietary data limits competition. The proprietary data is _____

X These are "direct replacements" parts/components for existing equipment.

X Other information to support a sole source buy:

Navy Expeditionary Combat Command (NECC) provided direction for procuring replacement boat trailers in NECCINST 4590.1A, this direction is guidance for replacement boat trailers states that the trailer shall be the same as those currently in inventory for which the Integrated Logistics Support (ILS) (i.e. Allowance Parts List, Preventative Maintenance, and spare parts) have already been developed and fielded.

Should a different type trailer be procured, this will require new ILS be developed at the cost of \$80K and the units receiving the new trailer would be required to stock spare parts for multiple trailer types, increasing their footprint.

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
