

JUSTIFICATION FOR SOLE SOURCE (Simplified Acquisitions <\$150K)  
Canam Report Composer SW Maintenance

The service or material listed on <document number> is sole source and competition is precluded for reasons indicated below. **There are no substitutes available for this material or service.**

**Restricted to the following source.** Provide *original manufacturer's* name. (If a sole source manufacturer distributes via dealers, *ALSO* provide dealer information.)

Manufacturer: Canam Software Labs

Manufacturer POC: Linda Wood

Mfr. Address: 5770 Hurontario Street  
Suite 310  
Mississauga, Ontario  
L5R 3G6

Dealer / Rep: N/A Dealer / Rep address / phone nr: N/A

Description of the item or service required, the estimated cost, and required delivery date:

This sole source requirement is a request for a follow-on procurement action for a software maintenance support renewal contract. Previous contract N00104-15-P-Q050 applies.

Report Composer Annual Software Maintenance Support Renewal

Period of Performance: 02/01/16-11/20/16 - Estimated Cost: ~~618,175.00~~

Required Delivery Date: ~~01/31/16~~ 03/15/16

Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

The Report Composer software generates portable program code for sequential file reading and writing. It supports both positional and delimited files and includes a code repository for version management. Reports are generated based on data extracted through a CA Gen application. It also includes a windows platform report viewer, a web-based report designer and viewer.

NAVSUP BSC FACTS has requested the maintenance be procured on a sole source basis from Canam Software since they developed and manufactured the software and is the only firm that possesses the requisite code, architecture, documentation, and expertise that will be necessary to provide the required software maintenance support services when needed. Report Composer is the command approved software for the FACTS project. Canam Software does not offer software maintenance support services through third-party vendors or through any authorized resellers.

X  The requested material or service represents the minimum requirements of the government.

Data obtained through market research was analyzed to determine whether or not any sources exist with the capability to satisfy the Government's requirement. Based on that data, Canam Software Lab, Inc. Report Composer software maintenance support services are the requested material that represents the minimum requirement for the Government.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

X  The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

The Report Composer software was developed to be a companion product of CA GEN, the product used to develop the Department of Defense Financial and Air Clearance Transportation System (FACTS). The Report Composer software product is used to maintain reports within FACTS. However, the product also provides an efficient means of creating code stubs which are used with the use of external action blocks. Report Composer is required to ensure continued operation and maintenance of the FACTS application.

The cost to change software and reconfigure the FACTS system would not be cost effective to the Navy and DOD in reengineering time and expense.

X  A patent, copyright or proprietary data limits competition. The proprietary data is:

Canam Software Labs, Inc. is the sole vendor and provider of the software product Report Composer, to include support and maintenance.

Further, Canam Software Labs, Inc. is the sole legal owner of all intellectual property, software code and rights to Report Composer.

X  These are "direct replacements" parts/components for existing equipment.

Direct replacement. FACTS reports are designed and maintained using the Report Composer toolset enabling the developer to produce user-defined reports without having to write them in native COBOL code.

X  Other information to support this sole source buy:

FACTS will lose the pro-activeness of the established, tested, and approved application report development tool if the proposed acquisition is not awarded on a sole source basis to Canam Software Labs, Inc.

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
