**X Description of the item or service required, the estimated cost, and required delivery date.**

Informatica PowerCenter Standard Edition is enterprise data integration software. It accesses and integrates data from virtually any business system, in any format, and delivers that data throughout the enterprise. This software enables the IT organization to implement a single approach to accessing, transforming, and delivering data without hand coding. PowerCenter Standard Edition scales to support large volumes of data over multiple concurrent sessions. Meeting demands for security and performance, this edition is used across a wide spectrum of data integration initiatives, including data warehousing and data migration. This purchase is for the software maintenance support to include product upgrades, maintenance releases, patches and troubleshooting support for software currently being utilized to support the Navy Reserve Data Warehouse.

The specific items/part numbers required are:

- 1) Manufacturer: Informatica  
Product: PowerCenter SE (4-7) per CPU-cores Multi-core Multi-OS Development Lab Standard Renewal Maintenance  
Quantity: 6  
Part Number: 0000007812-0024
- 2) Manufacturer: Informatica  
Product: PowerCenter SE (1-3) per CPU-cores Multi-core Multi-OS Production Standard Renewal Maintenance  
Quantity: 2  
Part Number: 0000007839-0004

This requirement represents the minimum needs of the Government. The total estimate cost is [REDACTED]. The coverage period will be August 25, 2016 through August 24, 2017.

**X Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.**

The Informatica software required enables the Navy Reserve Command to complete their project of integrating several data sources into the Navy Reserve Data Warehouse (NRDW). This procurement supports the modernization of the NRDW, a corporate data warehouse that is being designed to effectively consolidate, integrate, and archive Navy Reserve disparate corporate legacy databases into a single web-enabled content rich information source. This requirement is for the associated Software Assurance (maintenance) that provides software updates and/or associated security patches, thus ensuring the most up-to-date, reliable and secure installation available. The software was previously purchased under Purchase Order N00189-15-F-Z224. It is essential that this software be purchased to ensure the Navy Reserve Command can complete the integration of data sources into the NRDW. No other software meets the Navy Reserve Command's requirement. Failure to procure this software will result in the complete loss of services and support to multiple codes that rely on the required data for personnel, financial, and trend analysis reporting capabilities.

X The requested material or service represents the minimum requirements of the government.

**CHECK & FILL IN ALL APPLICABLE BLANKS BELOW**

X The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

As stated above, it is essential that this software be purchased to ensure the Navy Reserve Command can complete the integration of data sources into the NRDW. No other software meets the Navy Reserve Command's requirement. Failure to procure this software will result in the complete loss of services and support to multiple codes that rely on the required data for personnel, financial, and trend analysis reporting capabilities.
