The WPM certification markings must be easily visible, especially in pallet loads, to inspectors.

6. NAVY SHELF LIFE PROGRAM

Navy shelf-life requirements are listed under the item description in a 3-digit alpha/numeric code. Position one (1) is the DOD shelf-life code, defining the type of shelf-life for an item (Type I, non-extendible or Type II, extendible), and the number of months an item can remain ready for issue in a Navy specified package. Positions two (2) and three (3) combined form the Navy-unique shelf-life action codes used by storage activities, and do not impose any requirements on the contractor. The contractor shall use the applicable shelf-life paragraphs and table in MIL-STD-129R to apply either Type I or Type II shelf-life markings for an item's unit, intermediate and shipping containers. Fast pack containers ill not be provided as GFM. To obtain GFM reusable containers, the contractor must first obtain a Container Request Form either from <https://tarp.navsisa.navy.mil/containerrequest> or by contacting 215-697-5842, then fax the completed form to 215-697-1405/3850 at least 90 days prior to the anticipated shipping date (monthly for repair contracts). If the Navy's Container Management Area (CMA) informs the contractor that containers are unavailable, the following alternate packaging requirements apply. The unavailability of reusable containers shall not be an excusable delivery delay. Unit packs shall be designed to conserve weight and cube while retaining the protection required and enhancing standardization.

PLACE OF DELIVERY

() FOB ORIGIN (Repair & Repair Parts)

A. Subject to the provisions of the clause hereof entitled FOB Origin (FAR 52.247-29), the articles to be furnished shall be delivered FOB Origin at the plant or plants where the articles will be offered for acceptance.

B. Shipment will be made at Government expense to the destinations specified herein. The method of shipment will be specified by the cognizant Government Inspector when the articles are ready for shipment.

C. Repair/Modification effort: Unless otherwise directed by NAVSUP WSS, shipment of assemblies repaired or modified shall ordinarily be shipped to _____SW3122_____, by most appropriate means. If directed by NAVSUP WSS, the contractor shall ship repaired assemblies to designated operating sites.

D. The Government shall have the right to change the destinations specified herein. Any adjustment in contract price at time of delivery due to resulting changes in packing or marking shall be subject to FAR 52.243-1 of this contract entitled "Changes-Fixed Price".

E. If this solicitation is an Invitation for Bids, bidders are advised that a bid submitted on a basis other than FOB Origin may be rejected as nonresponsive. If this solicitation is a Request for Proposals or a Request for Quotation, offers are cautioned that an offer submitted on a basis other than FOB Origin may not be considered for award.

TIME OF DELIVERY

(A) The Government desires that delivery be made in accordance with the delivery schedule set forth below. If the offeror is unable to make delivery in accordance with this schedule, it shall set forth in its proposal the earliest delivery with which it can comply and the reason(s) why the Government's desired schedule cannot be met. Submission of such an alternate schedule will not prejudice the evaluation of that offer.

(B) If this solicitation is an RFP, then the offeror's failure to take exception to the Government's desired delivery schedule set forth below shall cause this schedule to become the required contract delivery schedule in the event the offeror is awarded the contract.

(C) Attention is directed to the contract award provision of the solicitation that provides that a written award or acceptance of offer mailed or otherwise furnished to the successful offeror results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day the award is dated. Therefore, the offeror shall compute the time available for performance beginning with the **actual date of award**, rather than the date the written notice of award is received from the contracting officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the contractor's date of receipt of the contract or notice of award by adding five (5) days for delivery of the award through the ordinary mails. If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

Deliveries for items repaired/modified hereunder shall be made within the Repair Turn Around Time (RTAT) set forth below. RTAT is expressed in the number of days from induction of the failed assembly at the contractor's plant to acceptance by the Government of the same "repaired" assembly. Note, the contractor is required to make inductions immediately upon receipt if there is an open delivery order for that particular assembly.

<u>Item</u>	<u>Repair Turn Around Time</u>
0001	60 DAYS AFTER RECEIPT OF ORDER AND RETROGRADE AT A RATE OF 15 PER MONTH

Please Note:

1. Contractor shall complete CAVS "Receipt" transaction -- **immediately** upon receiving the articles to be serviced.

NAVAVSUPWSSFA09 REDISTRIBUTION ORDER/READY FOR ISSUE – NAVY TRANSPORTATION – CAV DIRECT SHIP (SEP 2010)

- 1. NAVSUP WSS has contracted with the Navy’s Transportation Organization, Advanced Traceability and Control (ATAC), for delivery and pickup of Government-owned assets as specified herein. ATAC will send a subcontracted transporter (i.e. Federal Express, Miramar) to both deliver and pick up material at the repair facility.
- 2. Repairable assets covered by the Government and Contractor agreement (i.e. Basic Ordering Agreement and/or Long-Term Contract and/or Contract and/or Purchase Order) and delivered to your facility will include any Depot Level Repairable (DLR) in any condition. Upon receipt of material, the contractor is to compare the quantity of units and the NIIN of the item inside the container to the quantity and NIIN on the DD Form 1348-1A document that accompanies the material. There may be multiple DD Form 1348-1A documents with the material. The appropriate DD Form 1348-1A to compare to is the one that reflects the material being shipped to the repair facility. Any discrepancies in quantity or NIIN must be reported in accordance with the most current Commercial Asset Visibility (CAV) Statement of Work (SOW).

3. Assets to be picked up from your facility will include DLRs in any of the following conditions:
 - a. Units that have been repaired and are Ready for Issue (“A” condition)
 - b. Units that have been determined Beyond Repair or Beyond Economical Repair (“H” condition)
 - c. Units that are not authorized for repair – Not Ready for Issue (“F” condition)
 - d. Units that have been misidentified or misdirected to the facility (“J” condition)

4. If the asset is determined to be Beyond Repair (BR) or Beyond Economical Repair (BER), the PCO will direct, via modification, disposition of the asset. Both BR/BER and repaired “A” condition assets shall be prepared using the following criteria:
 - a. Contact the Government Quality Assurance Representative (QAR) to schedule an on-site visit for inspection/acceptance of the material including signature of the DD250, which is required for payment purposes.

 - b. Affix two copies of the DD Form 1348-1A to the outside of the shipment container and place one copy inside the container. Units ready for shipment must be either single packed or packed in multiple quantities of the same NIIN to the same destination. Different NIINs shall NOT be packaged together. **DO NOT INCLUDE A COPY OF THE DD FORM 250 WITH THE MATERIAL TO BE SHIPPED.**

 - c. Upon completion of the QAR inspection, The CAV Reporter shall input the shipment transaction into the CAV system. The shipment transaction will automatically trigger the pick-up order to the ATAC transportation carrier. There will be 3 additional fields to enter on the CAV shipment screen – Weight of the shipment, Dimensions of the shipment, and Pickup UIC/DODAAC.

 - d. Place the material that is ready for pickup in a staging area designated for ATAC pickup.

5. Upon completion of repair of a unit, or if the PCO has directed via modification, that the unit is Beyond Repair (BR) or Beyond Economical Repair (BER), and the unit is to be retained at the Defense Distribution Depot, the repair facility shall:
 - a. Contact the Government Quality Assurance Representative (QAR) to schedule an on-site visit date for inspection/acceptance of the material including signature of the DD250, which is required for payment purposes.

 - b. Affix two copies of the DD Form 1348-1A to the outside of the shipment container and place one copy inside the container. Units ready for shipment must be either single packed or packed in multiple quantities of the same NIIN to the same destination. Different NIINs shall NOT be packaged together. **DO NOT INCLUDE A COPY OF THE DD FORM 250 WITH THE MATERIAL TO BE SHIPPED.**

 - c. Upon completion of the QAR inspection, the CAV Reporter shall input the shipment transaction into the CAV system.  - d. Place the material that is ready for pickup in a staging area designated for ATAC pickup.

The ATAC carrier will arrive at the repair facility Monday through Friday to pick up material for which a pickup order has been received.

7. FOR EMERGENCY SHIPMENTS, defined as shipments that must leave your facility prior to the next ATAC pickup, the contractor shall contact the QAR and transmit the shipment via CAV. The repair facility shall also contact the ATAC shipping office between the hours of 7:00 a.m. and 4:30 p.m. Pacific Standard Time (PST) at one of the following phone numbers to advise that the material is ready for pickup and must be shipped under urgent means:

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is “not dominant in its field of operation” when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

 - (ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards> .

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor’s current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(applicable to Solicitations for acquisitions subject to CAS)

Note: This notice does not apply to small businesses or foreign governments.
This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, Part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

I. Disclosure Statement -- Cost Accounting Practices and Certification

(a) Any contract in excess of \$700,000 resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR Chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

* (1) *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official and/or from the loose-leaf version of the Federal Acquisition Regulation.)

* (3) *Certificate of Monetary Exemption.* The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

* (4) *Certificate of Interim Exemption.* The offeror hereby certifies that

(4) *Contractor actions to support DoD damage assessment.* In response to the reported cyber incident, the Contractor shall—

(i) Conduct further review of its unclassified network for evidence of compromise resulting from a cyber incident to include, but is not limited to, identifying compromised computers, servers, specific data and users accounts. This includes analyzing information systems that were part of the compromise, as well as other information systems on the network that were accessed as a result of the compromise;

L03 FAR 52.211-14 NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE, EMERGENCY PREPAREDNESS, AND ENERGY PROGRAM USE (APR 2008)

Any contract awarded as a result of this solicitation will be a **DO** rated order certified for national defense, emergency preparedness, and energy program use under the Defense Priorities and Allocations System (DPAS) (15 CFR 700), and the Contractor will be required to follow all of the requirements of this regulation.

L04 FAR 52.215-20 REQUIREMENTS FOR CERTIFIED COST OR PRICING DATA AND DATA OTHER THAN CERTIFIED COST OR PRICING DATA (OCT 2010)

(applicable when certified cost or pricing data or data other than certified cost or pricing data will be required)

(a) Exceptions from certified cost or pricing data.

(1) In lieu of submitting certified cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) *Identification of the law or regulation establishing the price offered.* If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Commercial item exception.* For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include --

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), *e.g.*, wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the offeror's determination of the prices to be offered in the catalog or marketplace.

(b) Requirements for certified cost or pricing data. If the offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(1) The offeror shall prepare and submit certified cost or pricing data, and data other than certified cost or pricing data, and supporting attachments in accordance with the instructions contained in Table 15-2 of FAR 15.408, which is incorporated by reference with the same force and effect as though it were inserted here in full text. The instructions in Table 15-2 are incorporated as a mandatory format to be used in this contract, unless the Contracting Officer and the Contractor agree to a different format and change this clause to use Alternate I.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

() **Alternate I (Oct 2010).** As prescribed in [15.408\(l\)](#), (and see 15.403-5(b)(1)), substitute the following paragraph (b)(1) for paragraph (b)(1) of the basic provision:

The description may be inserted at the time of issuing the solicitation, or the Contracting Officer may specify that the offeror's format will be acceptable, or the description may be inserted as the result of negotiations.]*

() **Alternate II (Oct 1997)**. As prescribed in [15.408\(l\)](#), add the following paragraph (c) to the basic provision:

(c) When the proposal is submitted, also submit one copy each to:

L08 NAVSUP 5252.204-9400 CONTRACTOR UNCLASSIFIED ACCESS TO FEDERALLY CONTROLLED FACILITIES, SENSITIVE INFORMATION, INFORMATION TECHNOLOGY (IT) SYSTEMS OR PROTECTED HEALTH INFORMATION (JULY 2013)

Homeland Security Presidential Directive (HSPD)-12, requires government agencies to develop and implement Federal security standards for Federal employees and contractors. The Deputy Secretary of Defense Directive-Type Memorandum (DTM) 08-006 - "DoD Implementation of Homeland Security Presidential Directive - 12 (HSPD-12)" dated November 26, 2008 (or its subsequent DoD instruction) directs implementation of HSPD-12. This clause is in accordance with HSPD-12 and its implementing directives.

APPLICABILITY

This clause applies to contractor employees requiring physical access to any area of a federally controlled base, facility or activity and/or requiring access to a DoN or DoD computer/network/system to perform certain unclassified sensitive duties. This clause also applies to contractor employees who access Privacy Act and Protected Health Information, provide support associated with fiduciary duties, or perform duties that have been identified by DON as National Security Position, as advised by the command security manager. It is the responsibility of the responsible security officer of the command/facility where the work is performed to ensure compliance.

Each contractor employee providing services at a Navy Command under this contract is required to obtain a Department of Defense Common Access Card (DoD CAC). Additionally, depending on the level of computer/network access, the contract employee will require a successful investigation as detailed below.

ACCESS TO FEDERAL FACILITIES

Per HSPD-12 and implementing guidance, all contractor employees working at a federally controlled base, facility or activity under this clause will require a DoD CAC. When access to a base, facility or activity is required contractor employees shall in-process with the Navy Command's Security Manager upon arrival to the Navy Command and shall out-process prior to their departure at the completion of the individual's performance under the contract.

ACCESS TO DOD IT SYSTEMS

In accordance with SECNAV M-5510.30, contractor employees who require access to DoN or DoD networks are categorized as IT-I, IT-II, or IT-III. The IT-II level, defined in detail in SECNAV M-5510.30, includes positions which require access to information protected under the Privacy Act, to include Protected Health Information (PHI). All contractor employees under this contract who require access to Privacy Act protected information are therefore categorized no lower than IT-II. IT Levels are determined by the requiring activity's Command Information Assurance Manager. Contractor employees requiring privileged or IT-I level access, (when specified by the terms of the contract) require a Single Scope Background Investigation (SSBI) which is a higher level investigation than the National Agency Check with Law and Credit (NACLC) described below. Due to the privileged system access, a SSBI suitable for High Risk public trusts positions is required. Individuals who have access to system control, monitoring, or administration functions (e.g. system administrator, database administrator) require training and certification to Information Assurance Technical Level 1, and must be trained and certified on the Operating System or Computing Environment they are required to maintain.

Access to sensitive IT systems is contingent upon a favorably adjudicated background investigation. When access to IT systems is required for performance of the contractor employee's duties, such employees shall

in-process with the Navy Command's Security Manager and Information Assurance Manager upon arrival to the Navy command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The decision to authorize access to a government IT system/network is inherently governmental. The contractor supervisor is not authorized to sign the SAAR-N; therefore, the government employee with knowledge of the system/network access required or the COR shall sign the SAAR-N as the "supervisor".

The SAAR-N shall be forwarded to the Navy Command's Security Manager at least 30 days prior to the individual's start date. Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date. When required to maintain access to required IT systems or networks, the contractor shall ensure that all employees requiring access complete annual Information Assurance (IA) training, and maintain a current requisite background investigation. The Contractor's Security Representative shall contact the Command Security Manager for guidance when reinvestigations are required.

INTERIM ACCESS

The Navy Command's Security Manager may authorize issuance of a DoD CAC and interim access to a DoN or DoD unclassified computer/network upon a favorable review of the investigative questionnaire and advance favorable fingerprint results. When the results of the investigation are received and a favorable determination is not made, the contractor employee working on the contract under interim access will be denied access to the computer network and this denial will not relieve the contractor of his/her responsibility to perform.

DENIAL OR TERMINATION OF ACCESS

The potential consequences of any requirement under this clause including denial or termination of physical or system access in no way relieves the contractor from the requirement to execute performance under the contract within the timeframes specified in the contract. Contractors shall plan ahead in processing their employees and subcontractor employees. The contractor shall insert this clause in all subcontracts when the subcontractor is permitted to have unclassified access to a federally controlled facility, federally-controlled information system/network and/or to government information, meaning information not authorized for public release.

CONTRACTOR'S SECURITY REPRESENTATIVE

The contractor shall designate an employee to serve as the Contractor's Security Representative. Within three work days after contract award, the contractor shall provide to the requiring activity's Security Manager and the Contracting Officer, in writing, the name, title, address and phone number for the Contractor's Security Representative. The Contractor's Security Representative shall be the primary point of contact on any security matter. The Contractor's Security Representative shall not be replaced or removed without prior notice to the Contracting Officer and Command Security Manager.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO NATIONAL SECURITY POSITIONS OR PERFORMING SENSITIVE DUTIES

Navy security policy requires that all positions be given a sensitivity value based on level of risk factors to ensure appropriate protective measures are applied. Navy recognizes contractor employees under this contract as Non-Critical Sensitive ADP/IT-II when the contract scope of work requires physical access to a federally controlled base, facility or activity and/or requiring access to a DoD computer/network, to perform unclassified sensitive duties. This designation is also applied to contractor employees who access Privacy Act and

Protected Health Information (PHI), provide support associated with fiduciary duties, or perform duties that have been identified by DON as National Security Positions. At a minimum, each contractor employee must be a US citizen and have a favorably completed NACLIC to obtain a favorable determination for assignment to a non-critical sensitive or IT-II position. The NACLIC consists of a standard NAC and a FBI fingerprint check plus law enforcement checks and credit check. Each contractor employee filling a non-critical sensitive or IT-II position is required to complete:

- SF-86 Questionnaire for National Security Positions (or equivalent OPM investigative product)
- Two FD-258 Applicant Fingerprint Cards (or an electronic fingerprint submission)
- Original Signed Release Statements

Failure to provide the required documentation at least 30 days prior to the individual's start date shall result in delaying the individual's start date. Background investigations shall be reinitiated as required to ensure investigations remain current (not older than 10 years) throughout the contract performance period. The Contractor's Security Representative shall contact the Command Security Manager for guidance when reinvestigations are required.

Regardless of their duties or IT access requirements ALL contractor employees shall in-process with the Navy Command's Security Manager upon arrival to the Navy command and shall out process prior to their departure at the completion of individual's performance under the contract. Employees requiring IT access shall also check-in and check-out with the Navy Command's Information Assurance Manager. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The SAAR-N shall be forwarded to the Navy Command's Security Manager at least 30 days prior to the individual's start date. Failure to provide the required documentation at least 30 days prior to the individual's start date shall result in delaying the individual's start date. The contractor shall ensure that each contract employee requiring access to IT systems or networks complete annual Information Assurance (IA) training, and maintain a current requisite background investigation. Contractor employees shall accurately complete the required investigative forms prior to submission to the Navy Command Security Manager. The Navy Command's Security Manager will review the submitted documentation for completeness prior to submitting it to the Office of Personnel Management (OPM). Suitability/security issues identified by the Navy may render the contractor employee ineligible for the assignment. An unfavorable determination made by the Navy is final (subject to SF-86 appeal procedures) and such a determination does not relieve the contractor from meeting any contractual obligation under the contract. The Navy Command's Security Manager will forward the required forms to OPM for processing. Once the investigation is complete, the results will be forwarded by OPM to the DON Central Adjudication Facility (CAF) for a determination.

If the contractor employee already possesses a current favorably adjudicated investigation, the contractor shall submit a Visit Authorization Request (VAR) via the Joint Personnel Adjudication System (JPAS) or a hard copy VAR directly from the contractor's Security Representative. Although the contractor will take JPAS "Owning" role over the contractor employee, the Navy Command will take JPAS "Servicing" role over the contractor employee during the hiring process and for the duration of assignment under that contract. The contractor shall include the IT Position Category per SECNAV M-5510.30 for each employee designated on a VAR. The VAR requires annual renewal for the duration of the employee's performance under the contract.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO OR PERFORMING NON-SENSITIVE DUTIES

Contractor employee whose work is unclassified and non-sensitive(e.g., performing certain duties such as lawn maintenance, vendor services, etc ...) and who require physical access to publicly accessible areas to perform those duties shall meet the following minimum requirements:

- Must be either a US citizen or a US permanent resident with a minimum of 3 years legal residency in the United States (as required by The Deputy Secretary of Defense DTM 08-006 or its subsequent DoD instruction) and
- Must have a favorably completed National Agency Check with Written Inquiries (NACI) including a FBI fingerprint check prior to installation access.

To be considered for a favorable trustworthiness determination, the Contractor's Security Representative must submit for all employees each of the following:

- SF-85 Questionnaire for Non-Sensitive Positions
- Two FD-258 Applicant Fingerprint Cards (or an electronic fingerprint submission)
- Original Signed Release Statements

The contractor shall ensure each individual employee has a current favorably completed National Agency Check with Written Inquiries (NACI) or ensure successful FBI fingerprint results have been gained and investigation has been processed with OPM.

Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date.

* Consult with your Command Security Manager and Information Assurance Manager for local policy when IT-III (non-sensitive) access is required for non-US citizens outside the United States.

The address and telephone number of the Contracting Officer is:

L11 - NAVSUP 5252.245-9406 USE OF GOVERNMENT PROPERTY IN OFFEROR'S POSSESSION (JAN 1992)

If the offeror intends to use in the performance of the work required hereunder any government-owned facilities, special test equipment, or special tooling, the offeror shall so advise in its response and shall include in such response the value of such property, the number of the contract(s) under which such property was acquired, the rental provisions of such contract(s) and such other information as may be relevant. In addition to the above, the offeror shall include in its proposal, the written concurrence of its proposed use of the property from the contracting officer having cognizance of such property.

L12 - NAVSUPWSSLA01 SUBMISSION OF PROPOSALS (NOV 1998)

I. GENERAL

In addition to instructions to offerors contained elsewhere in this solicitation, the following instructions are provided.

Offerors shall submit a single proposal composed of two separate volumes as follows:

Volume I Non-price Proposal - Original and 1 copy to include all data and information required for evaluation, and exclude any reference to the pricing aspect of the offers.

Volume II Price Proposal - Original and 1 copy to include the completed solicitation documents.

In addition, offers consist of and shall include the following items as part of Volume II:

Solicitation cover sheet with appropriate blocks completed by the offeror

Solicitation pricing pages completed by the offeror

Acknowledgement of solicitation amendments pursuant to FAR 52.215-1 (if not previously acknowledged).

Representations and Certifications completed by the offeror in accordance with instructions contained elsewhere in this solicitation. If the offeror has completed all of the representations and certifications required by this solicitation in ORCA in accordance with FAR 52.204-8 and DFARS 252.204-7007 ALT A, then the offeror need not submit the hardcopy Representations and Certifications; the offeror should indicate that all of the representations and certifications required by the solicitation have been completed in ORCA.

The offeror's Small Business Subcontracting Plan (this Plan not required for Small Business offerors).

The completion and submission of the above items will constitute an offer (proposal) and will be considered the offeror's unconditional assent to the terms and conditions of this solicitation and any attachments and/or exhibits hereto. Alternate proposals

are not authorized. An objection to any of the terms and conditions of the solicitation will constitute a deficiency (see FAR 15.001) which will make the offer unacceptable.

Volume I Non-price Proposal

This volume shall address Past Performance and include all information required for proposal evaluation.

This volume of the proposal shall exclude any pricing information that would reveal the total pricing detailed in volume II of the proposal.

Each page of each copy should include the following legend:

Source Selection Information - See FAR 2.101 and 3.104

Volume II Price Proposal

This volume shall include the completed solicitation documents. Offerors should provide one annual unit price for each of the three years that includes repair/overhaul and CAVs reporting. Each page of each copy should include the following legend:

Source Selection Information - See FAR 2.101 and 3.104

IMPORTANT NOTES:

- (1) Offerors shall respond to all requirements of the solicitation document. Offerors are cautioned not to alter or disassemble the solicitation.
- (2) In the event any person who is not a bona fide employee of the offeror participated in the creation, formulation, or writing of any portion of the proposal, a certificate to this effect shall be included in the proposal which shall be signed by an officer of the offeror. Such certificate shall identify the name of the person who is not a bona fide employee, that person's employment capacity, the name of the person's firm, the relationship of that firm to the offeror, and the portion of the proposal in which the person participated.
- (3) Initial proposals and any modifications thereto are to be submitted to the Contracting Officer on or before the closing date and time cited elsewhere in this Request for Proposals. Faxes, e-mails, and/or responses through NECO or any method other than Hard Copy format are not acceptable.
- (4) Hand-carried proposals are not encouraged. The Contracting Office is located on a secured compound. Only personnel with current DoD Common Access Cards (CACs) or appropriate military credentials will be able to access the compound. There will be no ability to drop off the proposals outside the compound.

II. REQUIREMENTS FOR PROPOSAL CONTENT

- (1) Introduction and Purpose - This section specifies the format that offerors should use in proposals submitted in response to this solicitation. The intent is not to restrict the offerors in the manner in which they will perform their work but rather to ensure a certain degree of uniformity in the format of the proposals for evaluation purposes.
- (2) Any offeror who will be submitting CLASSIFIED data in its Non-price proposal shall first notify the Contracting Officer by contacting the point of contact in the solicitation. CLASSIFIED data that is forwarded as part of an offeror's proposal shall be housed in its own binder, separate from the unclassified portion.

(3) Each volume should contain the following items in addition to the other information required by this solicitation:

Cover:

The cover should indicate the following:

Title of the proposal
Proposal Category (Non-price or Price)
Volume Number (I or II)
Solicitation number
Name and address of offeror
Identification of original signature copies

Table of Contents:

The table of contents should provide detail sufficient to allow the important elements to be easily located. The use of tabs and dividers is encouraged.

(4) Requirements for Style: Each offeror shall submit a proposal that clearly and concisely sets forth the contractor's response to the requirements of the solicitation. Unnecessary elaboration or other presentations beyond that sufficient to present a complete and effective proposal are not desired and may be construed as an indication of the offeror's lack of cost consciousness. Elaborate artwork, expensive paper or bindings, and expensive visual or other presentation aids are neither necessary nor desired. The proposal shall contain all the pertinent information in sufficient detail in the one area of the proposal where it contributes most critically to the discussion. When necessary, the offeror shall refer to the initial discussion and identify its location within its proposal.

(5) Page Limitations

Volume I, "Non-price Proposal," is limited to a maximum of 25 pages in length inclusive of any charts, diagrams, and/or other graphics. Each "page" is defined as one sheet, 8 ½ " x 11", with at least one inch margins on all sides, using a font with a point size of 12 or greater (e.g., "Times New Roman" style with 12 point font). Lines shall, at a minimum, be single-spaced. Pages shall be consecutively numbered. Multiple pages, double pages, two-sided pages, or foldouts will count as an equivalent number of 8 ½" x 11" pages. The cover sheet, table of contents (not to exceed one page per volume), tabs, and dividers will not count toward the page limit. The one exception to the font size requirement shown above is that the "corporate experience and past performance information forms" may be completed with a point size of 10 or greater. Pages submitted in excess of the page limitations described above will not be evaluated.

Volume II, "Price Proposal- the completed solicitation documents (no page limitation)

III. PROPOSAL CONTENT

(1) Volume I – Non-price Proposal

The Non-price proposal shall include information/documentation in sufficient detail to clearly identify the offeror's overall qualifications and be subdivided into the sections shown below. The price factor is significantly more important than the non-price evaluation factors. The Non-price evaluation factor is past performance and is discussed below.

(A) Go/no-go factor: The following factor will be rated either acceptable or unacceptable. Only those proposals rated acceptable in the go/no-go factor will be evaluated as part of the best value/comparative analysis of proposals.

1. Past Performance

The offeror shall demonstrate relevant past performance or affirmatively state that it possesses no relevant past performance. Relevant past performance is performance under contracts or efforts within the past five years that is the same as, or similar to, the scope, magnitude, and complexity of the work described by this solicitation.

To demonstrate its past performance, the offeror shall identify up to five (5) of its most relevant contracts or efforts within the past five (5) years, and provide any other information the offeror considers relevant to the requirements of the solicitation. Offerors should provide a detailed explanation demonstrating the relevance of the contracts or efforts to the requirements of the solicitation. If subcontractor past performance is provided as part of the five (5) of its most relevant contracts or efforts, the subcontractor past performance will be given weight relative to the scope, magnitude and complexity of the aspects of the work under the solicitation that the subcontractor is proposed to perform. Therefore, the offeror's proposal should detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform.

The offeror shall provide the following information regarding its past performance:

- A. Contract number(s);
- B. Name and reference point of contact at the Federal, State, Local Government or Commercial entity for which the contract was performed;
- C. Dollar value of the Contract;
- D. Detailed description of the work performed;
- E. Names of subcontractor(s) used, if any, and a description of the extent of work performed by the subcontractor(s);
- F. The number, type and severity of any quality, delivery or cost problems in performing the contract, the corrective action taken and the effectiveness of the corrective action;
- G. For the contracts set forth in A above, provide the following:
 - 1. The actions, techniques, and methods used to identify and minimize risk in performance of the requirements of the SOW; and
 - 2. The actual success of the actions, techniques and methods used in mitigating risks.

The past performance references will be evaluated in the aggregate in order to allow offerors who may not have the entire scope, magnitude, and complexity of the requirement under one individual contract to still be considered acceptable if past performance with the full scope, magnitude, and complexity of the requirement can be demonstrated within the allotted number of references as described above.

The offeror should complete a "Past Performance Information Form" for each reference submitted. The form is an attachment to the solicitation. The forms will count toward the Volume I page limit described above. For additional information regarding a particular reference beyond that which will fit on the form, the offeror may continue onto another sheet of paper. Such continuation sheet(s) for submitted references will count toward the Volume I page limit.

The Government will consider Termination for Default, delinquencies, failure to comply with the specification and/or SOW requirements, cost overruns, amount of rework and any other information which reflects the overall quality of the offeror's past performance.

The offeror should address its past performance in complying with requirements of the clauses at FAR 52.219-8, "Utilization of Small Business Concerns," and 52.219-9, "Small Business Subcontracting Plan."

(2) Volume II – Price

The Price Proposal shall consist of the completed solicitation documents along with providing a unit price for each CLIN/SubCLIN identified in the solicitation. In addition to unit price, extended CLIN/SubCLIN price (unit price x best estimated quantities) and total overall extended prices shall be submitted. Each page of each copy should include the following legend:

Source Selection Information – See FAR 2.101 and 3.104

Price will be evaluated on the basis of price analysis and that the proposal demonstrates that the offeror understands the nature and scope of the work to be performed.

Consistency of Proposed Prices

Any understatement or overstatement of prices or inconsistencies between the Non-price and Price proposal may indicate a lack of understanding of the work and could impact the technical rating. For this reason, any such inconsistencies between proposed performance and price should be explained in the proposal.

L13 - NAVSUPWSSLA12 ACCEPTANCE PERIOD (APR 2000)

This solicitation is an RFP and, unless otherwise specified by the offeror, the Government shall have 60 days from the closing date for receipt of the proposals during which it may accept a proposal submitted hereunder. This same time period for acceptance shall apply to any Proposal Revisions submitted hereunder and shall run from the date fixed for receipt of Proposal Revisions.

L14 – NAVSUPWSSLA14 REQUEST FOR INFORMATION (APR 2000)

Offerors may submit inquiries on this procurement by writing or calling (**collect calls not accepted**) to:

L15 - NAVSUPWSSLA15 TRANSMITTAL OF OFFERS (APR 2000)

Offerors whose proposal or modifications thereto are transmitted in envelopes other than those furnished with the solicitation, or which are enclosed in packaging external to the envelope furnished with the solicitation, are cautioned to label such envelopes or packaging conspicuously with a notation that the envelope or package contains a proposal, the solicitation number, and the exact hour and date specified for receipt of offers.

Attention is directed to the solicitation clause covering late bids, or late proposals, as appropriate. Decisions of the Comptroller General of the United States categorically prohibits consideration of proposals which arrive at the bid room after the exact time set for receipt and which are sent by means other than the U. S. mail. Offerors electing to use such means are thus under an absolute duty to insure timely arrival of their proposals at the bid room designated in the solicitation.

All offers and modifications thereto, regardless of the mode of transmittal, must be sent to the exact address shown in Box 8 of SF 33 - Solicitation, Offer, and Award.

NAVSUPWSSLA18 REVIEW OF AGENCY PROTESTS (FEB 2013)

(Applicable when FAR clause 52.233-2 and/or 52.233-3 are included).

In accordance with FAR Subpart 33.103(d)(4), interested parties may request an independent review of their protest at a level above the contracting officer. The request for an independent review may be made in lieu of a protest to the contracting officer, or as an appeal of a contracting officer decision on a protest. If an agency appellate review of the contracting officer's decision on a protest is requested, it will not extend GAO's timeliness requirements. Any subsequent protest to the GAO must be filed within 10 days of knowledge of the initial adverse agency action.

The individual who will conduct the independent review is the Chief of the Contracting Office (CCO). Interested parties requesting to have an independent review of a protest or to appeal a contracting officer protest decision shall address their correspondence to:

SECTION M - EVALUATION FACTORS FOR AWARD

M01-FAR 52.247-47 EVALUATION -- F. O. B. ORIGIN (JUN 2003)

This clause of the Federal Acquisition Regulation set forth at FAR 52.247-47 is hereby incorporated by reference and made a part hereof with the same force and effect as if set forth in full.

M02- NAVSUPWSSMA01 EVALUATION CRITERIA AND BASIS FOR AWARD-SINGLE AWARD

- (1) The Government intends to award a contract or contracts resulting from this solicitation to the eligible and responsible offeror or offeror(s) whose proposal represent the best value after evaluation in accordance with the factors and subfactors in the solicitation. Award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for the non-cost factor. The offeror's proposal shall be in the form prescribed by, and shall contain a response to each of the areas identified in the Section L solicitation provision entitled "Submission of Proposals." The evaluation of proposals will consider the offeror's price proposal to be significantly more important than the offeror's Non-price proposal.
- (2) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.
- (3) The Government will first evaluate the non-price go/no go factors. The non-price evaluation factor is Past Performance.
- (4) The non-price factors will be rated as either acceptable or unacceptable based on the solicitation criteria. The contractor must achieve an acceptable rating in past performance or it will be removed from the competition. If the offeror's proposal is determined unacceptable in past performance, the proposal may not be considered for award. In the event that all contractors receive an acceptable rating in the non-price evaluation factor, the lowest priced technically acceptable proposal(s) will prevail.
- (5) The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably on past performance. The offeror should provide the information requested above for past performance evaluation, or affirmatively state that it possesses no relevant directly related or similar past performance. An offeror that the Government determines to have no relevant Past Performance or past performance that is so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance. The offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, "unknown" shall be considered "acceptable." The offeror must provide the information requested above for past performance evaluation or affirmatively state that it possesses no relevant directly related or similar past performance. An offeror failing to provide the past performance information or to assert that it has no relevant directly related or similar past performance will be considered ineligible for award. The Government will consider the quality of offeror's past performance. This consideration is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating the relative capability of the offeror and other competitors to successfully meet the requirements of the RFP. In determining the rating for the past performance evaluation factor, the Government will give greater consideration to the contracts which the Government feels are most relevant to the RFP.
- (6) Overall Non-Price Proposal Rating – Upon completion of the Non-price factor evaluations for the offerors, an Acceptable/Non-Acceptable rating for the overall Non-price volume for each offer will be assigned.
- (7) Price

Price will be calculated on the basis of price analysis. The proposal must demonstrate that the offeror understands the nature and scope of the work to be performed. The method of evaluation used by the contracting officer is solely within the discretion of the contracting officer. Overall price will be the determining factor for award between technically acceptable proposals. Price will be calculated by adding the total for all CLINs/SubCLINs of the offerors' unit price multiplied by the best estimated quantity (BEQ)

identified on Attachment A (also identified on Attachment E). To evaluate proposed prices, the Government will consider an estimated cost of transportation between offeror's shipping point and destination. Transportation rates are primarily based on shipment weight, origin and destination. The transportation cost will be added to the proposed prices. The offeror with the lowest priced, technically acceptable proposal that meets all of the criteria of the solicitation will be awarded the contract.

The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 16.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary.

If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

***Please note: Navy source approval is required prior to award in order to be technically acceptable and eligible for contract award. Award will not be delayed pending source approval.**

M03 – FAR 52.219-4 Notice of Price Evaluation for HUBZone Small Business Concerns (Jan 2011)

(a) *Definition.* See 13 CFR 125.6(e) for definitions of terms used in paragraph (d).

(b) *Evaluation preference.*

(1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except—

(i) Offers from HUBZone small business concerns that have not waived the evaluation preference; and

(ii) Otherwise successful offers from small business concerns.

(2) The factor of 10 percent shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor.

(3) A concern that is both a HUBZone small business concern and a small disadvantaged business concern will receive the benefit of both the HUBZone small business price evaluation preference and the small disadvantaged business price evaluation adjustment (see FAR clause 52.219-23). Each applicable price evaluation preference or adjustment shall be calculated independently against an offeror's base offer. These individual preference amounts shall be added together to arrive at the total evaluated price for that offer.

(4) When the two highest rated offerors are a HUBZone small business concern and a large business, and the evaluated offer of the HUBZone small business concern is equal to the evaluated offer of the large business after considering the price evaluation preference, award will be made to the HUBZone small business concern.

(c) *Waiver of evaluation preference.* A HUBZone small business concern may elect to waive the evaluation preference, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraphs (d) and (e) of this clause do not apply if the offeror has waived the evaluation preference.

__ Offer elects to waive the evaluation preference.

(d) *Agreement.* A HUBZone small business concern agrees that in the performance of the contract, in the case of a contract for

(1) Services (except construction), at least 50 percent of the cost of personnel for contract performance will be spent for employees of the concern or employees of other HUBZone small business concerns;

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern or other HUBZone small business concerns;

(3) General construction.

(i) At least 15 percent of the cost of contract performance to be incurred for personnel will be spent on the prime contractor's employees;

(ii) At least 50 percent of the cost of the contract performance to be incurred for personnel will be spent on the prime contractor's employees or on a combination of the prime contractor's employees and employees of HUBZone small business concern subcontractors;

(iii) No more than 50 percent of the cost of contract performance to be incurred for personnel will be subcontracted to concerns that are not HUBZone small business concerns; or

(4) Construction by special trade contractors.

(i) At least 25 percent of the cost of contract performance to be incurred for personnel will be spent on the prime contractor's employees;

(ii) At least 50 percent of the cost of the contract performance to be incurred for personnel will be spent on the prime contractor's employees or on a combination of the prime contractor's employees and employees of HUBZone small business concern subcontractors;

(iii) No more than 50 percent of the cost of contract performance to be incurred for personnel will be subcontracted to concerns that are not HUBZone small business concerns.

(e) A HUBZone joint venture agrees that the aggregate of the HUBZone small business concerns to the joint venture, not each concern separately, will perform the applicable percentage of work requirements.

(f)

(1) When the total value of the contract exceeds \$25,000, a HUBZone small business concern nonmanufacturer agrees to furnish in performing this contract only end items manufactured or produced by HUBZone small business concern manufacturers.

(2) When the total value of the contract is equal to or less than \$25,000, a HUBZone small business concern nonmanufacturer may provide end items manufactured by other than a HUBZone small business concern manufacturer provided the end items are produced or manufactured in the United States.

(3) Paragraphs (f)(1) and (f)(2) of this section do not apply in connection with construction or service contracts.

(g) Notice. The HUBZone small business offeror acknowledges that a prospective HUBZone awardee must be a HUBZone small business concern at the time of award of this contract. The HUBZone offeror shall provide the Contracting Officer a copy of the notice required by 13 CFR 126.501 if material changes occur before contract award that could affect its HUBZone eligibility. If the apparently successful HUBZone offeror is not a HUBZone small business concern at the time of award of this contract, the Contracting Officer will proceed to award to the next otherwise successful HUBZone small business concern or other offeror.

Alternate I (JAN 2011). As prescribed in [19.1309\(b\)\(1\)](#), substitute the following paragraphs (d)(3) and (d)(4) for paragraphs (d)(3) and (d)(4) of the basic clause:

(3) General construction, at least 15 percent of the cost of the contract performance to be incurred for personnel will be spent on the concern's employees; or

(4) Construction by special trade contractors, at least 25 percent of the cost of the contract performance to be incurred for personnel will be spent on the concern's employees.

M04 – NAVSUPMA05 BEST VALUE EVALUATION (NOV 1999)

(a) The contract resulting from this solicitation will be awarded to that responsible offeror whose offer, conforming to the solicitation, is determined most advantageous to the Government, cost/price and other factors considered. The Government reserves the right to make an award to other than the lowest priced offeror or the offeror with the highest technical evaluation if the Contracting Officer (or Source Selection Authority if other than the Contracting Officer) determines that to do so would result in the best value to the Government.

(b) The offeror's proposal shall be in the form prescribed by this solicitation and shall address all areas which affect the evaluation factors and subfactors for award delineated herein.

(c) Cost/price is significantly more important than non-cost/price evaluation factors. Following are the non-cost/price evaluation factors and significant subfactors: past performance

(d) Cost/price will be considered in the source selection decision. The relative importance of cost/price will increase with the degrees of equality of the proposals in relation to the other factors on which source selection is to be based, or when the cost/price is significantly high in relation to the value to the Government of the superiority in non-cost/price factors.

(e) Cost/price proposals will be evaluated for realism in regards to the relationship between the proposed cost/price and the technical proposal.

(1) In evaluating offers for cost reimbursable type contracts, the offeror's estimated cost may be adjusted for evaluation purposes to the costs which the offeror can reasonably be expected to incur in performance of the contract in accordance with its offer.

(2) Unrealistic personnel compensation rates or other cost elements may also be considered in the technical evaluation of both fixed price and cost type offers, which could result in a lower technical evaluation of both fixed price and cost type offers, which could result in a lower technical evaluation based on risk analysis.

M05- NAVSUPWSSMA09 USE OF PAST PERFORMANCE INFORMATION RETRIEVAL SYSTEM-STATISTICAL REPORTING (PPIRS-SR) IN PAST PERFORMANCE EVALUATION (OCT 2009)

(applicable when information from the DoD PPIRS database will be used to evaluate an offeror's past performance)

Each offeror's past performance shall be evaluated in accordance with FAR 13.106-2 or 15.305(a)(2), as applicable. The Department of Defense (DoD) has authorized use of PPIRS-SR for use by DoD activities during the acquisition of supplies and services. For purposes of this solicitation, contractor past performance will be based on data from PPIRS-SR. The offeror's quality and delivery classifications from PPIRS-SR will be used in conjunction with the offeror's references, the criteria in FAR 13.106-2 or 15.305(a)(2), as applicable, and other provisions of this solicitation.

The purpose of PPIRS-SR is to provide source selection officials with quantifiable past performance information regarding delivery and quality. This information is collected from existing DoD reporting systems during the source selection process.

QUALITY: PPIRS-SR collects quantifiable quality data from existing systems and uses that data to classify supplier performance by Federal Supply Code or Federal Service Code (FSC). Based on comparisons among suppliers in a specific FSC group, PPIRS-SR sorts suppliers into color ratings representing the supplier's overall quality performance based on the following indices:

<u>COLOR</u>	<u>POSITION</u>
Dark Blue	Top 5% of suppliers in FSC group
Purple	Next 10% of suppliers in FSC group
Green*	Next 70% of suppliers in FSC group
Yellow	Next 10% of suppliers in FSC group
Red	Bottom 5% of suppliers in FSC group

* If all supplier ratings for a specific FSC group are equal, all suppliers within that group will be classified Green. Suppliers with no history in PPIRS-SR will be displayed without a rating and, for evaluation, receive a neutral rating.

DELIVERY: Supplier delivery past performance is classified in PPIRS-SR by the supplier's percentage of on-time deliveries. On-time deliveries are calculated using the number of line items delivered and a weighting factor reflecting the length of time a delivery was overdue.

PPIRS-SR classifications are determined monthly for each supplier and can be reviewed at <http://www.ppirs.gov/>. Suppliers are granted access to review their own classifications. Offerors are encouraged to review their classifications and the PPIRS-SR methodology, reporting procedures and challenge procedures detailed in the PPIRS-SR Procedures Manual and Users Guide also available at <http://www.ppirs.gov/>.

**WEB-BASED COMMERCIAL ASSET VISIBILITY STATEMENT OF WORK
NAVSUP WSS MECHANICSBURG/PHILADELPHIA
VERSION 7.5, February 25, 2015**

I. INTRODUCTION

A. The purpose of the Web-based Commercial Asset Visibility (WEBCAV, or CAV) requirement is to provide an inventory management system for Government-owned repairable assets while at the repair facility, hereinafter referred to as "the CAV Reporter", and to track these assets as they flow through the repair cycle.

B. CAV provides Navy Planners (formerly known as Item Managers) with visibility of repairable items throughout the various stages of the repair cycle. These transactions automatically update the CAV database, which in turn will update the Navy's Supply Systems database and allow the NAVSUP WSS (formerly known as Naval Inventory Control Point/NAVICP) to obtain timely information needed to make management decisions.

C. CAV also provides the means to track in-transit material to and from the CAV Reporter.

D. CAV reporting is managed in one web site with two distinct databases. One for NAVSUP WSS Mechanicsburg and one for NAVSUP WSS Philadelphia, and reporting of assets is managed accordingly. The NAVSUP WSS (Mechanicsburg and Philadelphia) transitioned to an Enterprise Resource Planning (ERP)-based system. Since completion of the ERP implementation, the CAV website may be modified from two distinct databases to one database for both Mechanicsburg and Philadelphia. If this occurs, CAV Reporters who are reporting for both Mechanicsburg and Philadelphia will be required to report inventory in one database.

E. Notwithstanding any language to the contrary herein, all communications/actions of a NAVSUP WSS CAV Analyst hereunder are subject to concurrence by the NAVSUP WSS Procurement Contracting Officer (PCO) having cognizance of this CAV Statement of Work (SOW) and the contract vehicle to which it is attached.

F. Contractors are hereby advised that any updates to this CAV Statement of Work (SOW) are posted to <https://applications.ahf.nmci.navy.mil/cavweb/Documentation/CAVInfo/navy.htm>. Contractors are further also advised that they shall adhere to the latest SOW requirements regardless of the CAV SOW included within the award document.

II. OBJECTIVE

The objective of this SOW is to identify specific actions and tasks required to ensure that CAV contractual reporting requirements are satisfied.

III. CAV REPORTER'S PRIMARY RESPONSIBILITIES

N00383-14-R-0025 ATTACH "B"

In addition to meeting the requirements of Sections IV, V, and VI, the CAV Reporter shall comply with the following Section III requirements in accordance with the procedures, methods and schedules set forth herein:

A. CAV Transaction Reporting:

1. The CAV Reporter shall report asset status in accordance with the CAV User's Guide Version 7.3, which is hereby incorporated by reference into this SOW. The CAV User's Guide can be found in the CAV II Information section of the CAV Website at <https://applications.ahf.nmci.navy.mil/cavweb/>. Mandatory fields within the transactions are identified in the CAV Users Guide by use of "*". The CAV Reporter shall fill in all mandatory fields for each transaction.
2. The CAV Reporter shall report receipt of the following material through CAV (Note: references to "the Repair Basic Ordering Agreement (BOA)/Contract" refers to the contract vehicle to which this SOW is attached):
 - a) Any material received on a Document Number beginning with N00383/N00104 regardless of which Repair BOA/Contract number it is marked.
 - b) All incoming material, when such material is listed as a repair candidate on the Repair BOA/Contract.
 - c) All incoming material, when such material is identified as Government-Furnished Material (GFM).
 - d) NAVSUP WSS-managed items that are funded for repair, upgrade, or modification under a Naval Sea Systems Command (NAVSEA), Naval Air Systems Command (NAVAIR) or other Command contract and/or order.
 - e) Material received under a warranty clause or Quality Deficiency Report (QDR) in accordance with Attachment 'A' in the CAV User's Guide, regardless of the contract that said item was repaired or manufactured under.
 - f) When notified by NAVSUP WSS to input unique receipts.
 - g) All incoming material not repaired by your facility shall be receipted as 'Material Not on Contract.
 - h) Material and equipment on loan or to be used for testing.

NOTE: The CAV Reporter shall contact the NAVSUP WSS CAV Analyst when assistance is required regarding CAV inputs. Items under direct Foreign Military Sales (FMS) Repair contracts are not to be reported in CAV.

3. The CAV Reporter shall provide adequately trained and qualified individuals to perform the transactions.
4. The CAV Reporter shall report Proof of Shipment (POS) data in accordance with the following criteria:
 - a) If a shipment is transported by Advanced Traceability and Control (ATAC), the CAV Reporter need not report POS data via CAV. If a CAV Reporter is contracted to use

N00383-14-R-0025 ATTACH "B"

ATAC, but does a shipment outside of ATAC, the CAV Reporter shall provide POS as indicated in paragraph 4.b.

b) If a shipment is transported by a freight carrier other than ATAC, the CAV Reporter shall provide the following data:

- (1) Transportation Control Number (TCN) of the shipment
- (2) Freight Carrier Company Name and Standard Carrier Alpha Code (SCAC)
- (3) Freight Carrier Company tracking number (referred to as ProNumber or Tracking Number)

6. The CAV Reporter shall physically inventory material received for actual National Item Identification Number (NIIN) and Quantity prior to reporting receipt into CAV.

7. The CAV Reporter shall provide to the DCMA Quality Assurance Representative (QAR) the CAV Material Movement Document (MMD) as an attachment to the Wide Area Workflow (WAWF) documentation to the QAR before signing for acceptance in WAWF DD250 Receiving Report: (The QAR will validate the contract number, delivery order number, CLIN, shipping location, National Stock Numbers, Condition Code, Serial number as applicable and quantities

B. Material Supply Discrepancy Report (MSDR)/Report of Discrepancy (ROD) Notification (SF 364)

1. Whenever a NIIN, condition code, and/or quantity discrepancy exists, the CAV Reporter shall complete and submit an MSDR to the originator of the shipment within five (5) workdays after the discrepant shipment is received, via the Product Data Reporting and Evaluation Program (PDREP).

2. To gain access to the PDREP home page click on the link below
<https://www.pdrep.csd.disa.mil/> .

3. A hard copy SF364 will only be used in the event the electronic MSDR is unavailable. To access an electronically fillable copy of the SF364 go to <http://www.gsa.gov/portal/forms/type/TOP>. Input "SF364" in the "Find a Form" box, click on the "Search" button, click on the report name "Report of Discrepancy (ROD)", then click on "SF364.pdf - PDF Version" to display the form. If a hard copy SF364 is submitted, the CAV Reporter shall send/transmit an informational copy of the MSDR to NAVSUP WSS Code N8521
4. If the material is returned to the supply system, the CAV Reporter will include a copy of the MSDR/hard copy SF364 with the shipment.

C. Inventory Accuracy

1. The CAV Reporter shall maintain no less than 99% accuracy in its accountability records, CAV stock records and physical inventories for all Government-owned repairable items that come under the CAV Reporter's control and/or responsibility pursuant to the contract vehicle to which this SOW is attached.
2. The CAV Reporter shall at any time be subject to periodic physical inventory audits, conducted by either the Defense Contract Management Agency (DCMA), Office of Financial Operations (FMO) or NAVSUP WSS.
3. If the Government determines that the CAV Reporter's Inventory Accuracy is less than 99%, the CAV Reporter shall, upon direction of the Government, develop a corrective action plan mapping out the steps necessary to maintain at least 99% inventory record accuracy, which may include Monthly Record Reconciliations and/or Annual Wall-to-Wall Inventory Reconciliations.
4. The requirement for 99% Inventory Accuracy does not relieve the CAV Reporter of any responsibility it may otherwise bear regarding Government property under any other provision of this contract.

D. Reconciliation Requirements and Other Inquiries

1. The CAV Reporter shall provide assistance in resolving reporting errors/Stock-in-Transit (SIT) upon request.
2. The CAV Reporter is responsible for submitting a written request in accordance with the Lost, Damage, Destruction (LDD) provisions of their DCMA-approved property control procedures to their DCMA office for Relief of Liability for unaccountable material as a result of a physical inventory or as indicated below in paragraph 'F.' A copy of this written request for Relief of Liability must be provided to their NAVSUP WSS CAV Analyst and the NAVSUP WSS PCO having cognizance of the contract vehicle to which this SOW is attached. A copy of the written resolution must be provided to the same distribution.

E. NAVSUP WSS In-Transit Accountability (NITA)

NOTE: This portion does not apply to foreign contractors

N00383-14-R-0025 ATTACH "B"

1. NAVSUP WSS In-Transit Accountability (NITA) is used for identifying and resolving open Stock-in-Transit (SIT). NITA is accessed through a menu option within the Electronic Retrograde Management System (eRMS) website at <https://mril.navsysa.navy.mil/erms/>. A System Authorization Access Request (SAAR) form, which is required in order to receive a Logon and Password for eRMS, can be submitted via the website. . NITA data is refreshed daily. ERMS and NITA are IT Level 2 systems which means limited privilege sensitive information access. Please refer to clause 5252.204-9400, Contractor Unclassified Access to Federally Controlled Facilities, Sensitive Information, Information technology (IT) Systems or Protected Health Information (July 2013), for additional instructions.
2. Once every seven (7) calendar days, the CAV Reporter shall access NITA for identifying/resolving discrepant shipments (SIT) of Navy-owned material both to and from the CAV Reporters' facilities.
3. The CAV Reporter shall provide a response to all documents requiring Proof of Shipment (POS) for classified and sensitive material within seven (7) calendar days, and within 30 calendar days for all others via the POS entry screens in NITA. If POS has not been provided within 60 calendar days of the issue date, then the CAV Reporter shall reverse the SIT issue via the CAV system and submit an LDD to DCMA with a copy to the NAVSUP WSS CAV Analyst.
4. The CAV Reporter shall provide a response to all documents requiring Proof of Receipt (POR) for classified and sensitive material within seven (7) calendar days of the Proof of Delivery (POD) date cited in NITA, and within 30 calendar days for all others. If a POR remains unresolved 60 calendar days after the POD date, the CAV Reporter shall process a receipt TIR and submit an LDD to DCMA with a copy to the NAVSUP WSS CAV Analyst.
5. The CAV Reporter shall also respond to inquiries received via phone calls, emails or letters from Navy representatives researching the status of shipments. The CAV Reporter shall respond to these types of inquiries no later than the next working day after receipt of the inquiry.
6. The CAV Reporter shall ship all Navy-owned DLR's via traceable means. The definition of "traceable means" is any shipping process that mandates signature custody including, but not limited to, the Navy's contracted carrier under the RFI program. See Paragraph 'G' below.
7. When an incorrect quantity of material has been reported as shipped from the CAV Reporter, the CAV Reporter shall reverse the original issue of material and input a corrected issue TIR and proof of shipment for the quantity of material actually shipped.

F. DD Form 1348-1A

1. The DD Form 1348-1A replaces the DD Form 250 as a shipping document only; the CAV Reporter shall prepare and distribute a DD Form 250 as required for payment purposes. The DD Form 250 shall NOT accompany shipments of material. Including a DD Form 250 or DD Form 1149 with a shipment often causes confusion for the receiver and contributes to higher unmatched stock-in-transit levels.

2. Distribution of the DD Form 1348-1A is as follows:

- a) Shipment of a single unit – one copy of the DD Form 1348-1A inside package with the unit and one copy of the DD Form 1348-1A attached to the outside of shipping container.
- b) Bulk Shipment (more than qty 1 of the same NIIN in the same shipping container) - one copy of the DD Form 1348-1A inside each individual unit container. A second copy of the DD Form 1348-1A attached to the outside of the individual unit container within the multi-pack. A third copy of the DD Form 1348-1A attached to the outside of the multi-pack container. Bulk Shipments must be clearly labeled as such on the outside of the shipping container. CAV reporting must reflect a Bulk Shipment for this type of shipment.

NOTE: In the event of CAV being inoperable, DD Form 1348-1A shall be typed manually. When CAV is again operable; the CAV Reporter shall print a 1348-1A and complete the "shipment" transaction in CAV.

G. Direct Ship (Not Applicable To CAV Reporters Operating Under The Terms And Conditions Of A PBL, Mini-Stock Point)

1. The Direct Ship process has been designed to ensure that critical repaired "A" condition spare parts are delivered directly to Navy end users in an efficient and timely manner. Direct Ship awards (i.e., purchase orders, delivery orders, and bilateral contracts) will be easily identifiable as follows: the "Ship To" DoD Activity Address Code (DODAAC) specified at the line item level in Section B of the award document will specify the DoDAAC of the vendor's repair facility. This is the contractual final "Ship To" destination that must be used for DD250 and invoicing preparation.
2. The CAV Reporter will be required to wait up to 24 hours for a potential redistribution to fill a known backordered fleet requirement.
3. Final Inspection and Acceptance by the Government must be completed before the CAV Completion Transaction is processed (i.e., posted to "A" condition).
4. The CAV Reporter is responsible for checking the CAV Requisition Inbox for requisition(s) posted within 24 hours of reporting the Completion transaction.
5. The Direct Ship CAV Reporter will receive shipment redistribution direction through the CAV Requisition Processing Module if there is an existing fleet requirement. If a requisition is received in CAV, processing procedures can be obtained from the Requisition Processing Guide located on the CAV website.
6. If a requisition is not received within 24 hours, the CAV Reporter will schedule redistribution of material to the default storage location specified in the Purchase Order, BOA, or Contract in accordance with paragraph 'H' below.

7. If the award indicates direct ship and specifies other than source Inspection and Acceptance by the Government and FOB Origin terms and conditions, the CAV Reporter should immediately contact the PCO.

H. Redistribution Order/Ready for Issue Project - Navy Transportation - CAV

1. NAVSUP WSS has developed a process to enhance asset visibility by contracting sole responsibility of the transportation function to NAVSUP WSS's Transportation Organization, ATAC (Advanced Traceability and Control). ATAC is responsible for delivery and pickup of Government-owned assets going to and from the CAV Reporter. ATAC will send a subcontracted transporter (i.e. Federal Express, Miramar) to the repair facility to pick up material as specified herein.
2. Upon receipt of material, the CAV Reporter shall compare the quantity of units and the NIIN of the item inside the container to the quantity and NIIN on the DD Form 1348-1A document that accompanies the material. There may be multiple DD Form 1348-1A documents with the material. The appropriate DD Form 1348-1A to compare to is the one that reflects material being shipped to the CAV Reporter. Any discrepancies in quantity or NIIN must be reported in accordance with III.B. herein. If material is received without a DD Form 1348-1A, the CAV Reporter shall contact their CAV Analyst for assistance.
3. At the conclusion of any of the following actions: (1) repair of a unit, or (2) PCO or ACO modification directing that the unit is Beyond Repair (BR) or Beyond Economical Repair (BER) and the unit is to be moved to the Defense Distribution Depot, or (3) the award specifies "Direct Ship" and the unit(s) is to be moved to a Defense Distribution Depot, the CAV Reporter shall:
 - a) Complete shipping documentation in accordance with Paragraph 'F' above.
 - b) Input the Shipment Transaction in CAV (this includes the weight, dimension and pickup DODAAC fields) to trigger the pick-up directive to the ATAC transportation carrier.
 - c) Place the material that is ready for pickup in a staging area designated for ATAC pickup.
4. FOR ROUTINE SHIPMENTS – defined as normal shipments that are picked up daily by the ATAC carrier. The ATAC carrier will arrive at the CAV Reporter's facility Monday through Friday to pick up material for which a pickup directive has been received.
5. FOR EMERGENCY SHIPMENTS – defined as shipments that must leave your facility prior to the next ATAC pickup. In addition to contacting the Quality Assurance Representative (QAR) and transmitting the shipment via CAV, the CAV Reporter shall contact the ATAC shipping office between the hours of 7:00 a.m. and 4:30 p.m. Pacific Standard Time (PST) via the email address or phone numbers shown below to advise that the material is ready for pickup and must be shipped under urgent means:
 - a) ATACCustomerService@navy.mil or (619) 545-6129 or (619) 545-7059
 - b) The CAV Reporter must have the following information available to provide the ATAC office:

 - (5) Pickup Location/Address
 - (6) Destination Location/Address
 - c) Shipments identified as urgent on the weekend or after the ATAC shipping office has closed may be shipped under a non-ATAC method with the issuer scheduling the transportation. When this occurs, the CAV Reporter shall enter the CAV Shipment with Pickup DODAAC=CANCEL and enter POS in CAV.

The CAV Reporter shall also contact the DCMA transportation office for the specific address.

After receipt of the required documentation, the PCO shall provide the CAV Reporter disposition instructions or contractual authority for repair of the item. The CAV Reporter is not authorized to proceed with repair until notification to proceed is received from the PCO. Any disposal action ordered by the PCO shall be performed by the CAV Reporter in accordance with applicable regulations and DCMA disposal procedures and requirements. If it is determined that a unit should be retained by the Defense Distribution Depot, in lieu of disposal, the CAV Reporter shall prepare the units for delivery to the following:

I. Requisition Processing/SRA Requisitioning (When Applicable)

N00383-14-R-0025 ATTACH "B"

1. PBL, Mini-Stock Point, and Direct Ship CAV Reporters can receive/process requisitions through the CAV Requisition Processing module. Procedures for inbound/outbound requisitions can be obtained from the Requisition Processing Guide found on the CAV website.

2. CAV Reporters are required to use the Shop-Repairable Assembly (SRA) template when requesting a SRA to complete a Next Higher Assembly. The CAV Reporter shall comply with the following procedures for replacing SRA's when repairing a Weapons Replaceable Assembly (WRA). DCMA personnel must authorize with an appropriate written verification and the Navy Planner and/or PCO must disseminate instructions. The following applies:

a) Replacement of an SRA that has been determined to be BER or BR.

(1) If the replacement unit is to be an RFI unit consigned from the CAV Reporter's existing repair or spares contract, generate a CAV 1348 "SHIP" transaction. On the 1348 screen, type your UIC over "SHIP TO UIC/DODAAC" and overlay positions 11 and 12 of the "SHIP TO Document" with "MB" for a BER/BR unit. Complete the Material Shipment screen.

(2) If the replacement SRA is to be acquired by MILSTRIP requisition, submit a CAV-generated requisition from the CAV menu screen. On the requisition input screen, enter project code "ZN3", priority "03" or "06", advice code "5A" and the Federal Stock Class.

(3) Input a CAV receipt transaction for the BER/BR unit as condition code "F", Material on Contract. Enter "BLK" in the receipt screen field named "RECEIVED FROM". The receipt document number must be the same as the document number that was used to issue the material to your facility, or use the same document number as the CAV-generated requisition, so that the carcass-tracking match can be completed.

b) Replacement of an SRA that was determined to be Missing on Induction (MOI):

(1) If the replacement unit is to be an RFI unit consigned from the CAV Reporter's existing repair or spares contract, generate a CAV 1348 "SHIP" transaction. On the 1348 screen, type your UIC over "SHIP TO UIC/DODAAC" and overlay positions 11 and 12 of the "SHIP TO Document" with "MK" (when the turn-in-activity is known) or "MU" (when the turn-in-activity is unknown). Complete the Material Shipment screen.

(2) If the replacement SRA is to be acquired by MILSTRIP requisition, submit a CAV-generated requisition from the CAV menu screen. On the requisition input screen, enter project code "ZV3", priority "03" or "06", advice code "5A" for MOI when the turn-in activity is unknown or "5G" for MOI when the turn-in activity is known, and the Federal Stock Class.

c) Replacement of failed SRA's during repair of WRA's:

N00383-14-R-0025 ATTACH "B"

(1) If the replacement unit is to be an RFI unit consigned from the CAV Reporter's existing repair or spares contract, generate a CAV 1348 "SHIP" transaction. On the 1348 screen, type your UIC over "SHIP TO UIC/DODAAC" and overlay positions 11 and 12 of the "SHIP TO Document" with "MM". Complete the Material Shipment screen.

(2) If the replacement SRA is to be acquired by MILSTRIP requisition, submit a CAV-generated requisition from the CAV menu screen. On the requisition input screen, enter project code "ZL8", priority "03" or "06", advice code "5G" and the Federal Stock Class.

(3) Input a CAV receipt transaction for the failed SRA unit as condition code "F", Material on Contract. Enter "BLK" in the receipt screen field named "RECEIVED FROM". The receipt document number must be the same as the document number that was used to do the issue to your facility or the same as the CAV generated requisition, so that the carcass-tracking match can be completed.

IV. Dawn Of Time ("DOT") Inventory Applicable To New CAV Reporters

1. The CAV Reporter shall provide an accurate accountable record of inventory to Code N8521 at least one week prior to scheduled implementation of the CAV system.
2. The inventory list provided shall be by NIIN, Part Number (P/N), reference number, serial number, condition code, Contract number, Order Number, CLIN and location of material for each line item.
3. The CAV Reporter shall identify all employees requiring CAV access to include at a minimum the primary and alternate CAV input Point of Contacts (POCs).
4. The CAV Reporter shall ensure all employees requiring CAV access have acquired, loaded and registered their individual PKI certificates. The CAV Reporter shall fill out the appropriate SAAR to obtain access to CAV and to the eRMS system for access to NITA (see Paragraph III.E.1. above).
5. The CAV Reporter shall work with NAVSUP WSS CAV personnel prior to the implementation of the CAV system to ensure they can successfully access the CAV website.

7. The CAV Reporter shall ensure the necessary personnel are available to assist with the scheduled DOT and receive CAV training.
8. The CAV Reporter shall assist NAVSUP WSS personnel with loading the initial inventory from the accountable record into CAV.

9. Material Movement Documents (MMDs) with the unique CAV-generated Repair Cycle Document Number (RCDN) shall be printed from the CAV system for every unit entered into CAV.
10. If printed, the MMDs shall physically be attached to each unit and any differences between the actual status of the item and the CAV entries will be noted. The DCMA Property Account Officer (PAO) will review results of this "tagging" process.
11. Any necessary adjustments to CAV shall be entered. Adjustments to DOT transactions are not authorized unless directed by NAVSUP WSS. NAVSUP WSS shall be notified of all inventory discrepancies and corrective action taken. Detailed CAV records will allow NAVSUP WSS to monitor adjustments to DOT transactions.
12. Appropriate CAV reports shall be printed and provided to DCMA to ensure all transactions have been input and processed accurately during the opening inventory. DCMA will send NAVSUP WSS a certification letter in regards to the inventory.

V. CAV SYSTEM REQUIREMENTS

- C. A telephone line shall be within reach of the CAV operator to allow verbal instructions during computer inputs. The line does not have to be a dedicated direct phone line.

VI. CAV SECURITY REQUIREMENTS

- A. CAV Reporters shall comply with the following security guidelines:
 1. Challenge any unauthorized personnel attempting to alter CAV in any way.
 2. Report all accidental unauthorized access to systems/files/data to your NAVSUP WSS CAV Analyst.

1.0 SCOPE

General. The items to be furnished hereunder shall be repaired to requirements., tested, inspected, and accepted in accordance with the terms and conditions specified in this contract. Unless expressly provided for Government Furnished Property, including equipment such as fixtures, jigs, dies, patterns, mylars, special tooling, special test equipment, or any other manufacturing aid required for the repair, manufacture, and/or testing of the subject item(s) will not be provided by the Government and shall be the responsibility of the contractor. The foregoing applies notwithstanding any reference to such equipment or the furnishing thereof that may be contained in any drawing, manual, or specification for the contract items. The SOW shall take precedence over the TDP in cases of conflict.

For the purpose of the statement of work, "Overhaul" is defined as follows:
All items regardless of their condition shall be subjected to all of actions outlined in the documents and specifications listed . The contractor shall inspect all components and repair/refurbish/replace those components that fail to meet the limits specified in the documents and specifications. Parts exceeding the dimensional limits shall be scrapped or repaired in accordance with documents and specifications listed in this SOW. Parts that cannot be repaired/refurbished shall be scrapped and not processed through the material review board.(MRB).

For the purposes of this statement of work,
"REPAIR" is defined as follows: Items deemed repairable shall be subjected only to the actions necessary to correct the failed/non-operational condition. All work shall be performed as outlined in the documents and specifications listed in this SOW. The contractor shall inspect only those components/areas identified in the Testing and Evaluation phase as being defective, and repair, replace and or refurbish those failing to meet the limits specified in the documents and specifications listed in section 1 of this SOW. Parts exceeding the dimensional limits shall be scrapped or repaired in accordance with the requirements of the Statement of Work.

Repair Requirements. The contractor shall provide the necessary facility, labor, materials, parts, and test and tooling equipment required to return the items to a Ready For Issue (RFI) condition. RFI is defined as that condition allowing the items to perform properly and reliably in an operational environment in a manner they were intended to operate. The contractor must perform the repairs at their facility identified in the contract. Any processes which cannot be performed within this facility must be performed by Prime / OEM approved sources. Repairs performed by the contractor or subcontractor shall be performed in accordance with repair manual (s). Changes to such manuals used for repairs under this contract, or changes to drawings or specifications used in the manufacture of parts utilized in these repairs, require Procuring Contracting Officer (PCO) approval in accordance with the Configuration Management provisions of this Statement

of Work. In addition, requests for approval of changes to a repair source or repair facility shall be submitted in writing to the PCO prior to making any such change. Any repairs performed using unapproved changes to such manuals, drawings, specifications, or change to repair source or facility are done at the contractor's own risk. If the Government disapproves the requested change, the contractor shall replace any delivered items repaired using such unapproved manual, drawing, specification, repair source or repair facility change. The contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a requested change to manuals, drawings, specifications, or to a repair source or facility.

Beyond Economical Repair (BER). An item is BER if the cost of the repair exceeds TBD of the production quantity price to replace the item, current at time of award. This replacement price is for the purposes of BER determinations only, and may not be used or relied on by the offeror in the pricing of the repairs required by this contract. Items determined BER are not included in the contract price. The contractor shall obtain written concurrence from DCMA for all units determined by the contractor to be BER. All such determinations, including the basis for the determination, the repair required, the proposed price to repair and the DCMA written concurrence shall be provided by the contractor to the PCO, with a copy to the inventory manager. After receipt of the required documentation, the PCO shall provide the contractor disposition instructions or contractual authority for repair of the item. The contractor is not authorized to proceed with the repair until notification to proceed is received from the PCO. Any disposal ordered shall be performed by the contractor in accordance with all applicable regulations and in accordance with all DCMA disposal procedures and requirements.

Missing on Induction (MOI). A Weapons Repairable Assembly (WRA) is subject to this MOI provision if the item received by the contractor for repair is missing one or more Shop Repairable Assemblies (SRAs). Contractor replacement of MOI SRAs is not included in the contract price. The contractor shall immediately notify DCMA when an item is received with MOI SRA(s) and shall obtain written verification from DCMA for all WRAs determined to have MOI SRA(s). The contractor shall provide all such determinations, including identification of the missing SRA(s), and the DCMA written verification, to the Inventory Manager with a copy to the PCO and ACO prior to induction and/or repair of the WRA. The contractor shall not induct and/or repair WRAs with MOI SRAs until instructions on how to proceed are provided to the contractor by the Inventory Manager (where no adjustment price to the contract is required) or by the PCO.

Items received by the contractor missing consumable parts are not MOI items. Rather, repair of such items and replacement of the missing consumable parts are included in the contract price and the item shall be inducted and repaired by the contractor under this contract.

Replacing Failed or Missing Shop Replaceable Assembly (SRA) when repairing a Weapons Replaceable Assembly (WRA).

- A. When the contractor believes one or more SRA(s) within a WRA are either:

Beyond Economic Repair (BER) or Beyond Repair (BR) i. e. the unit is not capable of being repaired because of the extent of physical damage), or Missing on Induction (MOI), the contractor shall obtain written verification from DCMA and advice from the Inventory Manager whether a SRA may be replaced by one or more of the following options:

Ship in place from an existing spares or repair contract, if any, MILSTRIP the SRA(s), otherwise be provided direction for obtaining the SRA(s) at no cost to the contractor.

The detailed procedures are set forth in Section 6.0 of the WEB-BASED COMMERCIAL ASSET VISIBILITY (CAV) STATEMENT OF WORK. Detailed instructions regarding the option #3 process must be provided by the PCO.

B. When not otherwise provided for (or precluded) by other terms of this contract, the contractor may seek written authorization to replace failed SRA(s) with Ready For Issue SRA(s). When authorized, the procedures set forth in paragraph 3.0 of Section 6.2 of the WEB-BASED COMMERCIAL ASSET VISIBILITY (CAV) STATEMENT OF WORK shall be followed.

2.0 PARTS AND MATERIAL

General. The contractor is responsible for supplying all parts and material necessary to perform the required repairs under this contract unless parts or material are specifically identified as Government Furnished Material (GFM). The exhaust frame assembly best build will have P/N 6900T77G02 outer flowpath installed. All parts and material used in performance of this contract shall be in accordance with the latest approved revision of applicable drawings and specifications and shall be new in accordance with FAR 52.211-5, Material Requirements, which is incorporated by reference herein. Authorization to use other than new material as defined by FAR 52.211-5 requires written approval from the PCO. In addition, cannibalization must be approved by the PCO. Cannibalization of units that have not been inducted is not authorized and requires specific approval by the PCO. The contractor shall ensure it has access for the duration of this contract to updated drawings and specifications for parts and material required for repairs performed under this contract. Any change to such parts/material drawings or specifications requires Government approval in accordance with the Configuration Management provisions of this Statement of Work.

Written approval from the PCO must be obtained prior to any change to the manufacturing source or manufacturing facility for all parts which require source approval, unless the contractor is the Design Control Agent (DCA) (i.e. the entity responsible for maintaining the latest configuration data) for the contract item. If the contractor is the DCA, the contractor may approve changes to manufacturing source or manufacturing facility for all parts, including those which require source approval. Any repairs performed using unapproved changes to such drawings, specifications or manufacturing source or facility are done at the contractor's own risk. If the Government disapproves the requested change, the contractor shall replace any delivered items repaired using such unapproved change. The contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a requested change to the drawings, specifications or manufacturing source or facility.

Purchased Material Control and Parts Control. The contractor shall establish and maintain a system of control over purchased parts and material. Such controls shall, at a minimum, assure that the parts and material purchased are in compliance with the requirements of this contract.

Receiving Inspection of Purchased Parts and Material. Purchased parts and material shall (1) be inspected by the contractor upon receipt at the contractor's facility to assure conformance with all requirements of the applicable drawings and specifications or (2) the contractor shall provide, prior to contract award, evidence for Government review and approval of a purchased parts and material system which provides for the inspections to assure conformance with all requirements of the applicable drawings and specifications. Evidence of such inspections shall be maintained by the contractor or subcontractor for Government review at least thirty six (36) months following the conclusion of the contract.

4.0 CONFIGURATION MANAGEMENT

The Contractor shall maintain the total baseline configuration of the contract items, including, but not limited to, hardware, software and firmware, in accordance with the configuration management provisions of this contract.

4.1 Definitions.

4.1.1 Critical Application Item (CAI) – CAI is defined as an item that is essential to weapon system performance or operation, or the preservation of life or safety of operational personnel, as determined by the military services. The subset of CAIs, whose failure could have catastrophic or critical safety consequences (Category I or II as defined by MIL-STD-882), are Critical Safety Items (CSI).

4.1.2 Critical Safety Item (CSI) - CSI is defined as a part, an assembly, installation, or production system with one or more critical or critical safety characteristics that, if missing or not conforming to the design data, quality requirements, or overhaul and maintenance documentation, would result in an unsafe condition that could cause loss or serious damage to the end item or major components, loss of control, un-commanded engine shutdown, or serious injury or death to personnel and unsafe conditions, which relate to hazard severity categories I and II of MIL-STD-882, System Safety Requirements. CSIs are a subset of CAIs and include, but are not limited to, items determined to be life-limited, fracture critical, or fatigue sensitive. A Critical Safety Item may also be known by terms such as a Flight Safety Critical Aircraft Part, Flight Safety Part, or Flight Safety Critical Part. For purposes of this contract, the term used will be Critical Safety Item.

4.1.3 Engineering Change Proposal (ECP) – An ECP is the documentation by which an engineering change and its implementation for items to be delivered under this contract is proposed, justified and submitted to the appropriate authority for approval or disapproval. Class I and Class II ECPs will be classified as follows:

4.1.3.1. Class I ECP. An engineering change will be classified as Class I if:

a. it affects any physical or functional requirement in approved functional or configuration documentation, or

b. it affects any approved functional, allocated or product configuration documentation, cost to the Government, warranties or contract milestones, or

c. it affects approved product configuration documentation and one or more of the following: Government furnished equipment (including Government test equipment and associated programs such as Test Program Sets/Software ; safety; compatibility, interoperability, or logistic support; delivered technical manuals for which changes are not funded; will require retrofit of delivered units; preset adjustments or schedules affecting operating limits or performance to the extent a new identification number is required; interchangeability, substitutability, or replacement of any item down to non-repairable assemblies, sources on a source control drawing; or skills manning, training, biomedical factors or human engineering design.

4.1.3.2. Class II ECP. An engineering change is Class II if it does not impact any of the Class I factors specified above.

4.1.4. Deviation – A deviation is the specific written authorization to depart from a particular requirement of the item’s configuration for a specific number of units or for a specific amount of time. It is also a specific written authorization to accept items, which are found to depart from specified requirements, but which nevertheless are considered suitable for use “as is” or after correction by a specified method. The term deviation encompasses what previously had been defined as both a deviation and waiver and therefore includes requests to depart from a known requirement before, during or after manufacture. Deviations will be classified as follows:

4.1.4.1. Major. A deviation is major when it involves a departure from requirements or specifications involving: health, performance, interchangeability, reliability, survivability, maintainability or durability of the item or parts, effective use or operation of the item or system, weight or size, and appearance (when a factor).

4.1.4.2. Critical. A deviation is critical when the deviation involves or impacts safety.

4.1.4.3. Minor. A deviation is minor when the deviation does not involve factors listed above for either critical or major deviations.

4.2 Configuration Management/ECPs

4.2.1. The Government will maintain configuration control and change authority for all modifications or changes affecting form, fit, function, or interface parameters of the contract items and sub-assemblies. Guidelines for preparing Class I and Class II ECPs may be found in MIL-HDBK-61A, Configuration Management Guidance and

ANSI/EIA-649, National Consensus Standard for Configuration Management. The Contractor will maintain configuration of the items in accordance with the requirements of this contract.

4.2.2. The Contractor shall submit an Engineering Change Proposal (ECP) for any Class I or II changes that impact the items covered by this contract. An ECP shall be designated Class I or Class II, as defined in this contract.

4.2.2.1. If the Contractor has an ECP pending with another Government activity or has an approved ECP that the Contractor proposes to incorporate under this contract, the Contractor will notify the PCO of the status of the ECP and provide a copy of the ECP submission. Any such Class I ECPs, however, will be incorporated only by modification to the contract.

4.2.2.2. A properly documented ECP submitted under this contract shall be processed as follows:

4.2.2.2.1. Any Class I ECP must be submitted to the contracting officer for approval/disapproval. A Class I change will not be implemented until a contract modification is issued by the contracting officer.

4.2.2.2.2. Any Class II ECP involving a non-critical item or a CAI shall be submitted to the cognizant Defense Contract Management Agency (DCMA) for concurrence in classification and may be implemented only upon receiving DCMA concurrence. Any Class II ECP involving a CSI must be clearly identified as involving a CSI, must be submitted to the contracting officer for review by the contracting officer and the Navy's Basic Design Engineer, and may be implemented only upon the approval of the contracting officer. When authorized in writing by the contracting officer, or when the Naval Air Systems Command has delegated approval authority in writing to the DCMA to concur in Class II ECPs involving CSIs for the Contractor (which is specific to the Contractor's location and CAGE code), a Class II ECP involving a CSI may be submitted to the DCMA and implemented upon DCMA's concurrence with classification. If the affected Class II ECP item or items have not been identified as CAI, CSI or as non-critical by the Government, the Contractor will contact the contracting officer to obtain a classification for the affected items. The Government will not be responsible for any contract delay or disruption or any increased costs of performance of the contractor due to a misclassification of an ECP by the contractor, including those costs associated with replacement of delivered items resulting from such a misclassification. Class II changes shall be made at no additional cost to the Government.

4.2.2.3. The Contractor shall coordinate with the cognizant NAVAIR PMA office prior to any ECP submission. The Contractor will provide copies of configuration changes affecting FMS customers to NAVICP FMS, Code P751.

4.2.2.4. Under this contract, a Class I ECP may be prepared in the contractor's format but in a medium compatible with Government information management systems.

In addition, a Class I ECP shall provide all information required by DI-CMAN-80639C – Engineering Change Proposal. A Class II ECP may be prepared in the contractor's format. The minimum required data is: name and part number of item affected; name and part number of next higher assembly; description of the engineering change; need and reason for the change; all government contract numbers for which the change applies; and the change document number. Justification codes are not required for Class II ECPs.

4.2.2.5 The contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a Class I or Class II ECP.

4.3 Configuration Management/Deviations

4.3.1 The Contractor shall not manufacture any item for acceptance by the Government that incorporates a known departure from technical or contractual requirements unless a request for a deviation has been approved. Authorized deviations are a temporary departure from the requirements only and do not authorize a change to the item's configuration baseline.

4.3.2. Deviation requests shall be prepared in accordance with DI-CMAN-80640C – Request for Deviation. Guidelines for preparing deviations may also be found in MIL-HDBK-61A, Configuration Management Guidance and ANSI/EIA-649, National Consensus Standard for Configuration Management.

4.3.3. Major, critical and minor deviations are classified in accordance with the definitions in this contract.

4.3.4. A Request for Deviation shall be processed as follows upon submission of a properly documented request:

4.3.4.1. For items involving a major or critical deviation, delivery and/or shipment of such items of items under this contract is not permitted until authorized in writing by the contracting officer.

4.3.4.2. For any non-critical item or CAI involving a minor deviation, delivery and/or shipment of such items under this contract is not permitted until authorized by the cognizant DCMA. Minor deviations affecting CSI must be identified as involving a CSI, must be submitted to the contracting officer for review by the contracting officer and the Navy's Basic Design Engineer, and may be delivered only upon the approval of the contracting officer. When authorized in writing by the contracting officer or when the Naval Air Systems Command has delegated authority in writing to the DCMA to approve minor deviations involving CSIs for the Contractor (which is specific to the Contractor's location and CAGE code), a minor deviation affecting a CSI may be reviewed by the DCMA and may be delivered if authorization from DCMA is received. If the affected item or items have not been identified as CAI, CSI or as non-critical by the Government, the Contractor will contact the contracting officer to obtain a classification for the affected items.

4.3.5. Recurring deviations are discouraged and shall be minimized. The contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a major/critical or minor deviation. In addition, the Government may be entitled consideration from the contractor if a deviation is approved.

5.0 QUALITY ASSURANCE REQUIREMENTS

5.1 The Contractor shall establish, implement, document and maintain a quality system that ensures conformance to all applicable requirements of ISO 9001-2000 Quality System or SAE AS9100B. The Contractor's quality management system/program shall be designed to promptly detect, correct and prevent conditions that adversely affect quality.

5.2 CALIBRATION SYSTEM REQUIREMENT

5.2.1 Contractor shall maintain a calibration system that meets the requirements of ANSI/NCSL Z540, ISO-10012-1 or an equivalent calibration program acceptable to the Government.

Inspection is required for any vendor other than the Prime Manufacturer. 100% of all overhauled units shall be tested / inspected by the contractor I/A/W the requirements of the drawing, repair manuals listed in Repair Manuals / Procedures found in the table of contents along with the specifications for the subject item.
