If a unit price is not included above, the total price for that CLIN will be divided by the quantity to arrive at a unit price. If the quantity multiplied by the quoted unit price does not equal the total CLIN price, the quoted unit price will be multiplied by the quantity to arrive at the quoted total CLIN price and the TOTAL PRICE will be recomputed accordingly.

All items shall be new, no refurbished or used items will be accepted.
Warranty shall be standard commercial warranty.
All items are required to conform to all commercial standards.

Delivery is 10 weeks after receipt of order, or sooner; Delivery Location is FOB Destination to Naval Facilities Engineering Command Hawaii, 400 Marshall Road, Building 44, JBPHH, HI, 96860. The supplier is responsible for the performance of all inspection requirements and quality control.

Payment will be made by NAVFAC Hawaii Comptroller office via Electronic Funds Transfer (EFT).

Evaluation of Quotes and Basis of Award

(a) The Government will award a purchase order for commercial items resulting from this synopsis-solicitation to the responsible quoter whose quote, conforming to this solicitation, is evaluated to be the lowest priced technically acceptable (LPTA). The ratings for the technical factors shall be Acceptable or Unacceptable. The following factors shall be used to evaluate quotes. Technical Acceptability and Past Performance are the technical factors.

Factor 1 - Technical Acceptability (meets solicitation requirements)

Factor 2 - Past Performance (no less than Satisfactory/Acceptable performance ratings)

AND

Factor 3 – Price (total evaluated price. The basis for the total evaluated price is the total of all CLINs)

(b) Submission Requirements and Evaluation:

Factor 1 –This acquisition is based on brand name items, therefore, technical acceptability will be evaluated on whether the specified brand name and part numbers for each item were quoted. Quotes based on items other than as specified will be evaluated Unacceptable.

Factor 2 – Do not submit past performance information. The Government will access the Past Performance Information Retrieval System (PPIRS) to obtain past performance information on your firm, utilizing the DUNS number obtained from the Systems for Award Management (SAM) website. If no past performance information is available, Factor 2 will be evaluated Unknown, which is considered Acceptable. If your firm has less than Satisfactory performance evaluations in PPIRS, you may submit acceptable explanations for the ratings for the Government’s consideration. Acceptable explanations will result in an Acceptable rating for Past Performance.

In order to be evaluated overall Acceptable, a rating of Acceptable shall be obtained for both Factors 1 and 2. If either one or both are rated Unacceptable, the entire technical quote will be rated Unacceptable and will be removed from further consideration for award.

(c) The Government will evaluate all prices by listing the total of all CLINS (total evaluated price) from the lowest to the highest. The Government will take the five lowest quotes received and evaluate the corresponding technical factors for acceptability. Should the Government identify one quote that represents the lowest priced technically acceptable quote, the Government will make an award as long as the total evaluated price can be determined fair and reasonable. Should there be no technically acceptable quote among the first five lowest quotes, the Government will add the next lowest quote and will evaluate the corresponding technical factors for acceptability. The Government will continue this methodology of evaluation until a quote is evaluated to be the lowest priced technically acceptable quote.

(d) Award will only be made to a firm that is determined to be responsible in accordance with FAR Part 9.
