Offerors are reminded to include a completed copy of FAR 52.212-3 ALT I, 52.222-22, and DFARS 252.209-7991 with quotes.

This announcement will close at 4:00 P.M. Hawaii Standard Time Wednesday, April 6, 2016. All quotes along with representations and certifications are to be emailed to Frederick Ray, Contract Specialist at Frederick.ray@navy.mil. If the Government decides, as a result of questions asked, that there are issues that need to be addressed to all potential vendors, an amendment to the solicitation will be issued reflecting the questions and answers. The resultant contract will be based on lowest price technically acceptable.

Procedures in FAR 13.106 are applicable to this procurement. Offerors are to submit a quote in accordance with the performance work statement. The Government will award a contract resulting from this solicitation to the responsible vendor whose quotation conforming to the solicitation will be most advantageous to the Government. Award will be made on the basis of the lowest evaluated price of the submission meeting or exceeding the acceptability standards for non-cost factors. Factors are as follows:

Last revised: 7/23/14

Factor 1: Technical

Offer must meet or exceed the requirements in the solicitation and any subsequent amendments. The Government will evaluate the Technical Submission, to include (a) technical capability/approach and (b) past performance, as ‘acceptable’ or ‘unacceptable.’ An offeror must receive an ‘acceptable’ rating in both sub-factors to be considered for an ‘acceptable’ rating for the technical factor.

Sub-factor 1.1: Technical Capability

The technical capability submission shall clearly demonstrate the contractor’s capabilities and expertise in sufficient detail to determine technical acceptability. The offeror shall demonstrate an understanding of the solicitation requirements by describing in detail their approach, methods, and techniques to effectively achieve the performance objectives/standards.

Technical Acceptable/Unacceptable Ratings	
Rating	Description
Acceptable	Proposal clearly meets the minimum requirements of the solicitation.
Unacceptable	Proposal does not clearly meet the minimum requirements of the solicitation.

Factor 1.2 : Past Performance

The quoter shall submit, as part of its quote, information on previously performed contracts or on-going contracts that are similar to the statement of work/item description in the solicitation performed for Federal, State or local Governments, and for commercial firms. Information shall be provided on either 1) all such contracts within the past three years, or 2) the last three such contracts performed, whichever is fewer, and shall be limited to the name and address of the organization for which the product was supplied and services were performed and the number (phone, fax or Internet) of a contact for each contract listed. The quoter should not describe past performance history in the quote. The information should include, however, discussion of any major problems encountered on the contracts listed and the corrective actions taken to resolve them. The information may also include a description of any quality awards earned by the quoter. The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Quoters lacking relevant past performance history will not be evaluated favorably or unfavorably on past performance. However, the quote of a company with no relevant past performance history, while not rated favorably or unfavorably for past performance, may not represent the most advantageous quote to the Government and thus, may be an unsuccessful quote when compared to the responses of other quoters. The quoter should provide the information requested above for past performance evaluation, or affirmatively state that it possesses no relevant directly related or similar past performance. The assessment of the quoter’s past performance will be used as a means of evaluating the relative capability of the responder and other competitors to successfully meet the requirements of the RFQ.

Past Performance Evaluation Ratings	
Rating	Description
Acceptable	Based on the offeror’s performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror’s performance record is unknown.
Unacceptable	Based on the offeror’s performance record, the Government has no reasonable expectation that the offeror will be able to successfully perform the required effort.

Note: In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)). Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, “unknown” shall be considered “acceptable.”

Factor 2: Price

For offers which meet technical acceptability, award will be made to the lowest priced offeror. Offerors shall submit a completed schedule with unit pricing for all ELIN items under the ELIN Attachment. The Government will evaluate the pricing submission based on a cumulative of the base period and all option years, to include a six-month extension in accordance with FAR 52.217-8 **ONLY FOR ELINS WITH ESTIMATED QUANTITIES LISTED**. The Government will calculate the six month extension at 50% of the proposed estimated total for Option Year 4.

WRITTEN ORDERS

Written orders will contain the following information consistent with the terms of the contract:

- (a) Date of order;
- (b) Contract number and order number;
- (c) Requisition number;
- (d) Item number and description, quantity ordered, unit price and contract price;
- (e) Place of delivery or performance (including consignee);
- (f) Packaging, packing, and shipping instructions if any required;
- (g) Accounting and appropriation data;
- (h) Inspection invoicing and payment provisions to the extent not covered in the contract; and any other pertinent information.

Ordering Authority

Any supplies and services to be furnished under this contract shall be ordered through by issuance of written task orders. Task orders may be issued from the effective date through the end of the period of performance of the last option exercised. Orders may only be issued by the following activities:

Fleet Logistics Center
Regional Contracting Department
Pearl Harbor, Hawaii

System for Award Management (SAM). Quoters must be registered in the SAM database to be considered for award. Registration is free and can be completed on-line at <http://www.sam.gov/>.

All quotes shall include price(s), a point of contact, name and phone number, GSA contract number if applicable, business size, and payment terms. Each response must clearly indicate the capability of the offeror to meet all specifications and requirements.
