SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

AMENDMENT 0004

1. QUESTION: : On Page 48 of the RFP in the last paragraph of L.4 TEAMING ARRANGEMENTS, it states:

If an Offeror is relying on past performance or experience from teaming arrangement companies or affiliates /subsidiaries/ parent companies (Offeror's names is not exactly as stated on the SF 1442), the proposal shall clearly demonstrate that teaming arrangement companies or affiliate/subsidiary/parent companies will have meaningful involvement in the performance of the contract.

On Page 52 of the RFP within the FACTOR 1 – RELEVANT EXPERIENCE clause; in **BOLD** it states:
Submitted relevant project experience shall be as a Prime Contractor.

These two statements seem contradictory – please clarify if utilizing a Teaming Arrangement will the sub-contractors relevant past project experience be evaluated equally to the Prime?

RESPONSE: SEE REVISED FACTOR 1 AND L.4 REVISED ISSUED WITH AMENDMENT 0003.

FROM: JOINT VENTURES OF AN SBA APPROVED MENTOR/PROTÉGÉ AGREEMENT:

IF THE OFFEROR IS A JOINT VENTURE (JV), RELEVANT PROJECT EXPERIENCE SHOULD BE SUBMITTED FOR PROJECTS COMPLETED BY THE JOINT VENTURE ENTITY. IF THE JOINT VENTURE DOES NOT HAVE SHARED EXPERIENCE, PROJECTS MAY BE SUBMITTED FOR THE JOINT VENTURE MEMBERS. OFFERORS ARE LIMITED TO A TOTAL OF SIX (6) PROJECTS COMBINED; THEREFORE, EACH JOINT VENTURE SHALL SUBMIT THREE (3) PROJECTS INCLUDING AT LEAST ONE NEW PAVING PROJECT AND AT LEAST ONE PAVING REPAIR PROJECT AS DESCRIBED ABOVE. IF THE JOINT VENTURE IS A MENTOR/PROTÉGÉ, PROJECTS SHALL COME FROM BOTH ENTITIES. THE PROTÉGÉ MUST DEMONSTRATE EXPERIENCE OF AT LEAST THREE (3) PROJECTS, INCLUDING AT LEAST ONE NEW PAVING PROJECT AND AT LEAST ONE PAVING REPAIR PROJECT AS DESCRIBED ABOVE AND THE EXPRIENCE MUST BE THAT OF A PRIME CONTRACTOR. THE OFFEROR SHALL SUBMIT A SIGNED COPY OF THE JOINT VENTURE AGREEMENT INDICATING THE PROPOSED PARTICIPATION OF EACH JOINT VENTURE MEMBER. OFFERORS CONTEMPLATING A JOINT VENTURE SHALL SHOW EVIDENCE IN THEIR PROPOSAL THAT THE JOINT VENTURE AGREEMENT HAS BEEN RECEIVED BY THE SBA PRIOR TO PROPOSAL DUE DATE IF SBA'S APPROVAL IS REQUIRED. TEAMING ARRANGEMENTS ARE NOT CONSIDERED JOINT VENTURE AGREEMENTS.

TO:

JOINT VENTURES OF AN SBA APPROVED MENTOR/PROTÉGÉ AGREEMENT:

IF THE JOINT VENTURE IS AN SBA APPROVED MENTOR/PROTÉGÉ, RELEVANT PROJECT EXPERIENCE SHOULD BE SUBMITTED FOR PROJECTS COMPLETED EITHER BY THE MENTOR, THE PROTÉGÉ, OR THE JOINT VENTURE ENTITY. THE OFFEROR SHALL SUBMIT A SIGNED COPY OF THE JOINT VENTURE AGREEMENT INDICATING THE PROPOSED PARTICIPATION OF EACH JOINT VENTURE MEMBER. OFFERORS CONTEMPLATING A JOINT VENTURE SHALL SHOW EVIDENCE IN THEIR PROPOSAL THAT THE JOINT VENTURE AGREEMENT HAS BEEN RECEIVED BY THE SBA PRIOR TO PROPOSAL DUE DATE IF SBA'S APPROVAL IS REQUIRED. FAILURE TO SUBMIT EVIDENCE IN THEIR PROPOSAL THAT THE JOINT VENTURE AGREEMENT HAS BEEN RECEIVED BY THE SBA PRIOR TO PROPOSAL DUE DATE IF SBA'S APPROVAL IS REQUIRED WILL BE CONSIDERED UNACCEPTABLE.

2. QUESTION: PAGE 47 SECTION L.1.7 Per the Price Proposal requirements on page 47, we are to submit Section K, as required. I don't see Section K" in the RFP. There are Reqs & Certs on page 63 in Section 0070 – Contract Clauses. Are we to submit the Reqs & Certs that are located there? If so are we to submit the entire 00700 section?

RESPONSE: YES, FOLLOW THE REQUIREMENTS PER THE SOLICITATION AND L.1.6 AND L.1.7.

General Decision Number: DC160001 09/09/2016 DC1

Superseded General Decision Number: DC20150001

County: District of Columbia Statewide.

HEAVY CONSTRUCTION PROJECTS (Including Sewer and Water Lines); HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

=====
Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local),

a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of

each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

SECTION 00100 - BIDDING SCHEDULE/INSTRUCTIONS TO BIDDERS

The following have been modified:

SECTION M

SECTION M EVALUATION FACTORS FOR AWARD

M.1 BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the lowest priced, technically acceptable offer.
2. The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
3. The lowest price technically acceptable process is selected as appropriate for this acquisition, because the best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.
4. The number of proposals to be evaluated for technical acceptability shall be limited to the **three (3)** lowest prices offerors. If no proposal are found to be technically acceptable within the first group of proposals, then the process described will be conducted again as many times as necessary, until such time as the Government identifies technical acceptable proposals.
5. An overall non-price factors rating must be at least "ACCEPTABLE" in order to be eligible for award. An "UNACCEPTABLE" rating in any factor results in the overall non-price factors proposal being rated "UNACCEPTABLE" unless corrected through discussions. An overall non-price factors rating of "UNACCEPTABLE" makes a proposal ineligible for award.

M.2 EVALUATION FACTORS FOR AWARD

1. The solicitation requires the evaluation of price and the following non-cost/price factors:

Factor 1– Relevant Experience

Factor 2 – Safety

Factor 3 – Past Performance

The distinction between experience and past performance is that experience pertains to the volume of work completed by a contractor that are comparable to the types of work described under the definition of recent, relevant projects, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

2. The relative order of importance of the non-cost/price evaluation factors is the technical factors 1, 2, and 3 are of equal importance to each other and, when combined are equal in importance to the past performance evaluation/performance confidence assessment factor (Factor 3). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-cost/price evaluation factors) are approximately equal to price.

The importance of price will increase if the Offerors' non-cost/price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-cost/price proposal's superiority to the Government. Award will be made to the responsible Offeror(s) whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

Volume Technical Proposal - submit one (1) original and four (4) copies in 8-1/2 x 11 format, font size 10. Proposals shall be submitted in three ring binders and tabbed appropriately by major evaluation factor. In addition, submit two (2) complete copies of the technical proposal on CDs. The document should be **Adobe Acrobat files** (pdf format). No pen and ink changes are allowed. **Page limit is one hundred (100) pages total for Volume 1: Technical Proposal.** Submission over this page limit will **NOT** be evaluated.

Volume 2: Price Proposal - Submit one (1) original and two (2) copies of the price proposal in a three ring binder. Submit on one (1) CD, a complete copy of the price proposal. Documents should be in Microsoft Word or Excel. Please **do not** submit Adobe Acrobat files. Staples or other binding shall not be used. Elaborate brochures or documentation, detailed art work, or other embellishments are unnecessary and are not desired. The proposal shall be written to the greatest extent possible on a stand-alone basis so that its content may be evaluated with a minimum of cross-referencing to other volumes of the proposal. Cross-referencing within a proposal volume is permitted where its use would conserve space without impairing clarity. Hyperlinking of cross-references is permissible. Information required for proposal evaluation, but not provided in its designated volume or cross-referenced, is assumed omitted from the proposal.

3. Basis of Evaluation and Submittal Requirements for Each Factor.

- a. **PRICE**

- 1) Solicitation Submittal Requirements:

Within the Price Proposal, offerors shall provide the following:

- a) Completed Section B, Contract Line item Numbers (CLINs)
- b) Completed Section J, ELIN Pricing, Attachment J-01ELINs.xls.

Unit Price Schedule:

This contract will be awarded as one lump sum with unit prices required for specifically selected work. The contract will be based on the pre-priced line items incorporated at the time of award. **Contractors shall use the Bare Costs for the materials, labors, and equipment times mark-ups to calculate the value of items identified in the pre-priced line item description.** A schedule of the unit price work is contained in Standard Form SF 1442, "Solicitation, Offer and Award." See Contract Clauses, "FAR 52.211-18, Variation in Estimated Quantity" and "FAR 52.236-16, Quantity Surveys," "DFARS.236-7008, Contract Prices." A copy of the Bid Schedule and line item description are attached "Section J, ELIN Pricing, Attachment J-01ELINs.xls".

Calculations for the Option Years:

Contractors shall use the Multiplying Factor Column in the Bid Schedule to calculate the values of the Option Years. For example; for the first option year, the contractor shall take the base year line item values and time those values by a percentage increase or decrease to calculate the value of the first year option. For second, third and fourth option years the contractor may follow the same calculation methods outlined for the first option year or may choose to use the first option year value times percentage increase or decrease to calculate the value of the second option year and so on.

Non-prepriced items:

The contract will be based on the pre-priced line items incorporated at the time of award. If work is required under this contract that has not had pre-priced line items established, the contractor shall base the price on the applicable RS Means estimating guide current at the time the required request for proposal is issued. RSMeans "Building Construction Cost Data" shall be used for this purpose. Contractors shall use the Bare Costs for the Materials, labors and equipment times the agreed upon mark-ups to calculate the value of the Non-prepriced items.

2) Basis of Evaluation:

The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (see Section B of the solicitation). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in Section M of the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- i. Comparison of proposed prices received in response to the RFP.
- ii. Comparison of proposed prices with the IGCE.
- iii. Comparison of proposed prices with available historical information.
- iv. Comparison of market survey results.

b. Non-cost/price Factors:

FACTOR 1 – RELEVANT EXPERIENCE:

(1) **Factor 1 - Relevant Experience:**

(i) **Solicitation Submittal Requirements:** The Offeror shall submit the following:

Each Offeror **SHALL** submit a **TOTAL OF SIX (6)** construction projects that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the projects proposed for this IDQ Paving contract.

For purposes of this evaluation, a relevant project is defined as follows:

Size: A paving project ranging between \$50,000 and \$1,000,000. Projects submitted above or below this stated dollar range will not be considered relevant.

Scope/Complexity: Of the six (6) projects submitted, the Offeror **SHALL** demonstrate three (3) projects for each of the following categories:

- ... New paving of roadways, airfields, sidewalks, curbs, and gutters.
- ... Paving repair and/or replacement of roadways, airfields, sidewalks, curbs and gutters.

Submitted relevant project experience shall be as a Prime Contractor.

Projects submitted for the Offeror shall be complete or 50% completed within the past five (5) years of the date of issuance of this RFP.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

Use of the attached Construction Experience Form (**Attachment C**) is **MANDATORY and SHALL** be used to submit project information. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page [or two (2) single-sided pages].

For all submitted projects, the description of the project shall clearly describe the scope of work performed including unique features, square footage, and methods of construction. The relevancy of the project, in accordance with the parameters identified above shall also be provided.

If the Joint Venture is an SBA approved mentor/protégé, relevant project experience should be submitted for projects completed either by the mentor, the protégé, or the Joint Venture entity. The Offeror shall submit a signed copy of the Joint Venture agreement indicating the proposed participation of each Joint Venture member. Offerors contemplating a Joint Venture shall show evidence in their proposal that the joint venture agreement has been received by the SBA prior to proposal due date if SBA's approval is required. Failure to submit evidence in their proposal that the joint venture agreement has been received by the SBA prior to proposal due date if SBA's approval is required will be considered unacceptable.

Experience of proposed subcontractors will not be considered.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/ LTD member companies (name is not exactly as stated on the SF 1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

(ii) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience in performing relevant construction projects as defined in the solicitation submittal requirements.

In order to receive an **ACCEPTABLE** rating, **ALL REQUIRED NUMBER OF PROJECTS** submitted **MUST BE RELEVANT**.

FACTOR 2 – Safety

(i) Solicitation Submittal Requirements:

The Offeror **SHALL** submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each Contractor who is part of the partnership or joint venture. EMR and DART Rates shall not be submitted for subcontractors).

(1) Experience Modification Rate (EMR):

For the three (3) previous complete calendar years (2013, 2014 and 2015), submit your EMR (which compares your company's annual losses in insurance claims against its policy premiums

over a two (2) year period). If you have no EMR, affirmatively state so and explain why.

(2) **OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:**

For the three (3) previous complete calendar years (2013, 2014 and 2015), submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why.

(ii) **Basis of Evaluation:**

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety. The Government's sources of information for evaluating safety may include, but are not limited to, OSHA, NAVFAC's Enterprise Safety Applications Management System (ESAMS), and other related databases. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the Offeror.

In order to receive an **ACCEPTABLE** rating, the risk level shall be no greater than 1.0 for the EMR and no greater than 2.99 for the DART.

(c) **Past Performance**

Factor 3. Past Performance:

(i) **Solicitation Submittal Requirements:**

If a completed Contractor Performance Assessment Reporting System (CPARS) evaluation [formerly known as Construction Contractor Appraisal Support System (CCASS)] is available, it shall be submitted with the proposal for each project included in Factor 1. If there is not a completed CPARS evaluation then submit Past Performance Questionnaires (PPQ) (Attachment D) for each project included in Factor 1. The Offeror should provide completed Past Performance Questionnaires (PPQ) in the proposal. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror should complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to help ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Cynthia Crowder (202-685-3157), cyndi.crowder@navy.mil

Offerors may provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 1. Offerors may also address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor.

Performance award or additional information submitted will not be considered.

(ii) **Basis of Evaluation:**

This evaluation focuses on how well the Offeror performed on the relevant projects submitted under Factor 1 – Experience and past performance on other projects currently documented in known sources. Emphasis will be

placed on relevant projects. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of a partnership or joint venture identified in the Offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror.

The Government will consider the currency and relevance of the information, the source of the information, context of the data, and general trends in the Contractor's performance. This evaluation is separate and distinct from the Contracting Officer's responsibility determination.

*ADJECTIVE RATINGS AND DEFINITIONS TO BE USED TO BEST REFLECT
YOUR EVALUATION OF THE CONTRACTOR'S PERFORMANCE*

RATING	DEFINITION	NOTE
(E) Exceptional	Performance meets contractual requirements and exceeds many to the Government/Owner's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor was highly effective.	An Exceptional rating is appropriate when the Contractor successfully performed multiple significant events that were of benefit to the Government/Owner. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.
(VG) Very Good	Performance meets contractual requirements and exceeds some to the Government's/Owner's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.	A Very Good rating is appropriate when the Contractor successfully performed a significant event that was a benefit to the Government/Owner. There should have been no significant weaknesses identified.
(S) Satisfactory	Performance meets minimum contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.	A Satisfactory rating is appropriate when there were only minor problems, or major problems that the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified. Per DOD policy, a fundamental principle of assigning ratings is that contractors will not be assessed a rating lower than Satisfactory solely for not performing beyond the requirements of the contract.
(M) Marginal	Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.	A Marginal is appropriate when a significant event occurred that the contractor had trouble overcoming which impacted the Government/Owner.
(U) Unsatisfactory	Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.	An Unsatisfactory rating is appropriate when multiple significant events occurred that the contractor had trouble overcoming and which impacted the Government/Owner. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating.
(N) Not Applicable	No information or did not apply to your contract	Rating will be neither positive nor negative.
