SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

AMENDMENT 0003

The purpose of this amendment is to provide the following:

1. Solicitation/RFP Revisions
2. Clarifications
3. Attachments/Uploads

All other terms and conditions remain unchanged.

SOLICITATION/RFP REVISIONS

FACTOR 2 – Safety

REPLACE Factor 2 – Safety, in its entirety, with the following:

Factor 2 – Safety

(a) Submittal Requirements:

The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each Contractor who is part of the partnership or joint venture; however, only one safety narrative is required. TRC and DART Rates shall not be submitted for subcontractors.)

(1) OSHA Total Recordable Case (TRC) Rate:

For the three (3) [01 January 2013 – 31 December 2015] previous complete calendar years, submit your OSHA Total Recordable Case (TRC) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA TRC Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA TRC Rate data should be addressed as part of this element. OSHA TRC rates above 4.0, in any of the previous three years, will be considered UNACCEPTABLE, unless an adequate explanation is provided to address the extenuating circumstances that affected the rate.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:

For the three (3) [01 January 2013 – 31 December 2015] previous complete calendar years, submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the

OSHA DART Rate data should be addressed as part of this element. OSHA DART rates above 3.0, in any of the previous three years, will be considered UNACCEPTABLE, unless an adequate explanation is provided to address the extenuating circumstances that affected the rate.

(3) Technical Approach for Safety:

Describe the plan that the Offeror will implement to qualify, evaluate, select and oversee its potential subcontractors. The Safety narrative shall be limited to one page. Offerors must submit both (1) a plan to include the safety performance of subcontractors in the selection process for all levels of subcontractors and (2) a plan to monitor the safety of those subcontractors during contract performance, highlighting what specific management practices will be in place for providing deliberate safety program management and mishap prevention support to those sub-contractors whose EMR is greater than 1.0, whose TRC is greater than 4.0 and whose DART rate is greater than 3.0. Offerors who fail to submit either of these will be rated UNACCEPTABLE.

(b) Basis of Evaluation:

The Government is seeking to determine whether the Offeror has an acceptable safety record. The Government will evaluate the Offeror's overall safety record as evidenced by the TRC and DART rates, if the Offeror's plan includes safety in the evaluation and selection of subcontractors, and if the narrative includes a plan to monitor the safety performance of subcontractors during performance. The evaluation will collectively consider the following:

- OSHA Total Recordable Case (TRC) Rate
- OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate
- Offeror Technical Approach to Safety

(1) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:

The Government will evaluate the OSHA TRC Rate to determine if the Offeror's OSHA TRC rate is above 4.0 and extenuating circumstances that impact the rates. OSHA TRC rates above 4.0, in any of the previous three years, will be considered UNACCEPTABLE, unless an adequate explanation is provided to address the extenuating circumstances that affected the rate.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:

The Government will evaluate the OSHA DART Rate to determine if the Offeror's OSHA DART rate is above 3.0 and extenuating circumstances that impact the rates. OSHA DART rates above 3.0, in any of the previous three years, will be considered UNACCEPTABLE, unless an adequate explanation is provided to address the extenuating circumstances that affected the rate.

(3) Technical Approach to Safety:

The Government will evaluate the narrative to determine if subcontractor safety performance will be considered in the qualification, evaluation, selection, of all levels of subcontractors on the upcoming project, and both the plan to monitor the safety of those subcontractors during contract performance, highlighting what specific management practices will be in place for providing deliberate safety program management and mishap prevention support to those sub-contractors whose EMR is greater than 1.0, whose TRC is greater than 4.0 and whose DART rate is greater than 3.0. Offerors who fail to address either of these items (i.e. whether the safety performance of subcontractors will be evaluated in the

selection process for all levels of subcontractors and whether the safety of those subcontractors will be monitored during contract performance) will be rated UNACCEPTABLE.

Factor 3 – Past Performance; (1) Solicitation Submittal Requirements; Paragraph 2

Add the following sentence: “Page limitations shall exclude Past Performance Questionnaires and/or CPARS/CCASS evaluations.”

Page 9 of 75 of the SF1442: Proposal Organization and Number of Copies; (i) Volume 1: Technical Proposals

Add the following sentence to item (4): “Page limitations shall exclude cover page and tab dividers.”

CLARIFICATION

X-Ray Machines:

The largest x-ray machine hold parcels as large as 5-ft X 4-ft. Government personnel will be on hand to assist in the transport of materials that are off loaded by the GC at the loading dock to the x-ray machine(s). Government personnel will load materials through the x-ray machine(s). At the discretion of the Government, materials may remain palletized if the bound size meets the height and width requirements; this decision will be made after observation and measurement.

Specification Section 013000-1.5.2 - “Dedicated Security Coordinator”:

The dedicated Security Coordinator shall be on site and address issues as they arise, the dedicated security coordinator may have other duties.

Height from existing ceiling to the deck above:

Training Wing Level 01: Ceiling = 9’-0”; Plenum is approx. 5’-6”; Training Wing Level 02: Ceiling = 9’-0”; Plenum is approx. 9’-6”; K-Space / East Building: Ceiling = 9’-0”; Plenum is approx. 4’-1”
