SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

MOD 02

N40085-15-Q-7215; REMOVE ASBESTOS AT NAVAL SUPPORT ACTIVITY (NSA) PHILADELPHIA, PA AND PHILADELPHIA NAVY YARD, PA.

THE PURPOSE OF THIS AMENDMENT IS TO INCORPORATE THE REVISED SOW FOR THE SUBJECT RFQ. THE REVISED SECTION OF THE SOW IS IN SECTION 2.4 AND IS BOLDED FOR EASE OF RECOGNITION.

RFQ DUE DATE IS 2/27/2015 AT 3:00PM EASTERN TIME.

ALL OTHER TERMS REMAIN UNCHANGED.

SECTION C - DESCRIPTIONS AND SPECIFICATIONS

The following have been added by full text:

REVISED SOW

REFERENCE NUMBER: BZTWYT

REVISED SOW

SPECIFICATIONS AND CONDITIONS

SECTION 1: GENERAL

1.1 GENERAL DESCRIPTION: Contractor shall provide all labor, material, equipment, supplies and supervision perform asbestos pipe lagging removal, asbestos encapsulation and asbestos tile removal. The work is located at the Philadelphia Naval Business Center and the Naval Support Activity- Philadelphia. Refer to Section 2 for detailed description of work.

1.2 LOCATION: Philadelphia Naval Business Center, Building 633, Philadelphia, PA 19112 and the Naval Support Facility, 700 Robbins Avenue Philadelphia, PA 19111, Buildings 2C, 5B and 26. A representative of the Officer in Charge, NAVFAC Contracts, will indicate the exact location.

1.3 TIME OF COMPLETION: Work shall be prosecuted diligently and shall be completed for use within 60 calendar days of award (this includes 15 days for bonds and insurance). The time stated for completion shall include final clean up of the premises. Contractor is required to furnish proof of any cause for delay and must request an extension of the completion date in writing through the Contracting Officer.

1.4 GOVERNMENT POINT OF CONTACT: The Government Representative, Mr. Mark Gallagher, 215-897-4958 is a representative of the Contracting Officer. All scheduling and coordination will be through the Government Representative.

1.5 PAYMENT: Will be made in one lump sum after completion and acceptance of the work by the Government Representative. All Payments will be made in accordance with WAWF.

1.6 GOVERNMENT FURNISHED MATERIALS/UTILITIES: The Government will furnish the following utility services at existing outlets, for use as may be required for the work to be performed under the contract: electricity and fresh water. Information concerning the location of existing outlets may be obtained from the Contracting Officer. The Contractor shall provide and maintain, at his/her expense, the necessary service lines from existing Government outlets to the site of the work.

Utilities specified above will be furnished at no cost to the Contractor. In the event that the Government is unable to provide the required types of utilities, the Contractor shall, at his/her expense, arrange for the required utilities.

1.7 PROSECUTION OF WORK: Work shall be performed during normal duty hours 0700-1600, Monday through Friday. No work shall be performed after normal duty hours or on Government holidays unless authorized by the Contracting Officer.

1.8 CLEAN-UP OF SITE: Shall be performed on a daily basis. The Contractor shall remove all debris generated by the work off station. Contractors are not permitted to use Government dumpsters or other Contractor dumpsters for disposal of debris.

1.9 DUST CONTROL: The amount of dust resulting from demolition shall be controlled to prevent the spread of dust to occupied portions of the construction site and to avoid creation of a nuisance in the surrounding area. Use of water will not be permitted when it will result in, or create, hazardous or objectionable conditions such as ice, flooding and pollution.

1.10.1 SUBMITTALS:

The Contractor shall submit the following within five (5) calendar days after award:

- 1.10.1 Activity Hazard Analysis to cover all aspects of the job in accordance with EM 385-1-1. See Attachment 1 for blank form and paragraph 3.6.2 for additional information.
- 1.10.2 Attachment 2 Mobile Construction Equipment
- 1.10.3 Attachment A Lift Plan
- 1.10.4 Licenses and Certifications for Asbestos Removal in the City of Philadelphia, PA

Submittals will be approved by the OIC, NAVFAC Contracts or his representative prior to the start of work.

1.11 SITE VISIT: Contact the Government Representative to arrange a site visit if one has not already been scheduled. Contractor shall verify all conditions, dimensions and methods at site.

1.12 LIST OF ATTACHMENTS:

- 1.12.1 Attachment 1: Activity Hazard Analysis.
- 1.12.2 Attachment 2: Mobile Construction Equipment
- 1.12.3 Attachment 3: Site map PNBC
- 1.12.4 Attachment 4: Site Map NSA-P
- 1.12.5 Attachment A: Lift Plan

SECTION 2: DETAILED DESCRIPTION: The Contractor shall provide all labor, material, tools, equipment, supplies and supervision to perform the following work. *All work shall be performed in accordance with EM 385-1-1.*

2.1 Apply, monitor and remove (upon completion of work) proper lockout and tag out devices in accordance with the U. S. Army Corps of Engineers Safety and Health Requirements Manual, EM-385-1-1. Coordinate all

Lockout/Tag out control activities with the Government Quality Assurance Representative or other designated Government representative. The Contractor shall also follow all City of Philadelphia, PA regulations in the performance of all work

PNBC Building 633 – Northeast side of building above the LSD-41 test site:

2.2 The Contractor shall remove approximately 4' of asbestos pipe insulation each from the two main steam lines (8 LF total) located in the loft area above the LSD-41 test site where the piping goes into a sleeve at the roof.

2.3 The Contractor shall erect staging to safely perform this work and erect the proper containment to prevent contamination of any other areas of the building.

NSA-P Building 5B – Warehouse area

2.4 The Contractor shall encapsulate eleven (15) support hangers that have asbestos covering on them. The hangers are located in the overhead of the warehouse and will require a lift to reach the work area. The lines are 1" piping with approximately 1" of asbestos insulation around the piping

Building 26 – 2nd floor canteen area

2.5 The Contractor shall provide a proper containment area for the removal of asbestos tiles to prevent contamination of adjacent areas. There are two sets of tiles to be removed from the floor. The existing floor area is approximately 850 SF and contains 12" x 12" tiles on top of 9" x 9" tiles. The tiles are VCT and asbestos tiles. The Contractor shall remove floor tiles and mastic down to a bare floor.

Building 2C – purchase files area to include office, restroom, closet, and file room.

2.6 The Contractor shall also remove and dispose of the overhead ceiling. The ceiling is comprised of acoustic tiles glued with mastic to a masonite board sub-base. The mastic has tested positive for asbestos and is adhered to both surfaces. Remove all and dispose of as asbestos contaminated material. The overhead ceiling is approximately 19' x 15' in the office area, 4'6" x 11' in the restroom, and 4'6" x 8' in the closet (approx. 372 SF).

2.7 The Contractor shall remove asbestos pipe insulation from all of the piping located along the wall (rest room floor to overhead) and in the overhead (app. 260 LF total). The piping is located in the rest room, closet and file room at this location and goes across the newer hallway adjacent to the office space. The piping is ¾" to 1" piping. **Note: There is an active spill located in the closet.**

2.8 The Contractor shall remove and dispose of the doors and frames that separate the office area from the rest room and closet spaces. The Contractor shall also remove the two windows and frames from the north side exterior wall. The windows, doors and frames are contaminated with lead paint and shall be treated and disposed of in accordance with all regulations and guidelines. The Contractor shall provide a method for securing the window openings to prevent intrusion by persons or the elements upon completion of the window removal.

2.9 The Contractor shall also remove and dispose of the asbestos tile in the office, rest room, and closet areas. The tile and mastic have tested positive for asbestos. Remove all and dispose of as asbestos contaminated material. The floor area is approximately 372 SF and has 9" x 9" tiles. The tiles are asbestos tiles. The Contractor shall remove floor tiles and mastic down to a bare floor.

All Work

2.10 All containment areas shall be encompassed in a single enclosure constructed of six (6) mil polyvinyl chloride at a minimum.

2.11 All materials, shelving and other obstructions are removed from the area prior to commencement of work.

2.12 The Government will provide 3rd Party Air Monitoring services under a separate contract.

2.10 All work shall be coordinated with the Government Quality Assurance Representative.

SECTION 3: ADMINISTRATIVE AND SAFETY REQUIREMENTS

3.1 Directives: The Contractor and his employees shall comply with all referenced regulations, directives, and instructions. Applicable Department of Defense (DOD), Secretary of the Navy (SECNAV), Chief of Naval Operations (OPNAV), and other directives, instructions, and regulations are available from the Contracting Officer.

3.2 Station Regulations:

3.2.1 The Contractor and his employees shall become acquainted with and obey all Government regulations as posted, or as requested by the Contracting Officer.

3.2.2 The Contractor shall participate actively in the activity energy conservation program. The Contractor shall comply with the base energy conservation program and shall become familiar with its requirements. The Contractor superintendent shall represent the Contractor's interests at all meetings of the activity's Energy Conservation and Resource Management Committee. Use of high-energy consuming tools or equipment will be approved by the Contracting Officer prior to use.

3.3 Fire Protection: The Contractor and his employees shall know where fire alarms are located and how to turn them on. The Contractor shall handle and store all combustible supplies, materials, waste and trash in a manner that prevents fire or hazards to persons, facilities, and materials. Contractor employees operating critical equipment shall be trained to properly respond during a fire alarm or fire in accordance with activity instructions.

3.4 Environmental Protection: The Contractor shall comply with all federal, state and local environmental protection laws and the regulations and standards. The Contractor shall coordinate all environmental protection matters with the Contracting Officer. The Activity Environmental Protection Coordinator or other authorized officials may inspect any of the facilities operated or maintained by the Contractor at any time and without prior notice. If a regulatory agency assesses a monetary fine against the Government for violations resulting from Contractor actions, the Contractor shall reimburse the Government for the amount of the fine and related costs. The Contractor shall clean up any oil or chemical spills resulting from his operations at his own expense. The Contractor shall not create a nuisance or hazard to the health of military or civilian personnel.

3.5 Disposal: Debris, rubbish, non-hazardous waste and non-usable material resulting from the work under this contract shall be disposed of by the Contractor at his expense off Government property, unless otherwise directed. In either case, the Contractor must dispose of all hazardous waste in accordance with all applicable environmental law, including but not limited to, the Resource Conservation and Recovery Act and its associated state and local regulations. **Prior to disposal of any hazardous waste, the Contractor shall obtain approval from the Contracting Officer.**

3.5.1 Segregate and recycle all debris generated by the work and remove off station to a licensed facility. Debris shall be removed and transported in such a manner that prevents spillage on streets or adjacent areas. Local regulations regarding hauling and disposal shall apply.

3.5.2 Submit a report with invoice that includes the following:

- a. Amount (by weight) and type of waste materials disposed of in a landfill or incinerator. Provide destination and the tip fee per ton.

- b. Amount (by weight) and type of materials salvaged for sale, salvaged for reuse, and recycled. Provide destination and revenue generated for each material.

3.6 Safety Requirements and Reports:

3.6.1 All work shall be conducted in a safe manner and shall comply with all requirements of the U. S. Army Corps of Engineers Safety and Health Requirements Manual, EM-385-1-1. The Contractor shall be responsible for instructing his employees in appropriate safety measures and shall not permit them to place machines and other equipment in traffic lanes or other locations in such a manner as to create safety hazards. The Contractor shall employ a competent person as defined in EM-385-1-1 to function as the Site Safety and Health Officer (SSHO). The following paragraphs denote minimum safety requirements. Contractor shall consult EM-385-1-1 for additional information or any safety issues not discussed in this specification.

3.6.1.1 Personal Protective Equipment Minimum Requirements:

- a. **Head Protection:** All persons working in or visiting hard-hat areas shall be provided with and required to wear Type I or Type II, Class G meeting the requirements of ANSI Z89.1.
Hardhat areas are those areas with potential hazard of head injury.
- b. **Clothing:** Employees shall wear clothing suitable for the weather and work conditions: the minimum for construction sites shall be short sleeve shirt, long pants (excessively long or baggy pants are prohibited).
- c. **Protective Footwear:** Employees shall wear safety-toed boots meeting ANSI Z41 while working on construction sites.
- d. **Eye and Face Protection:** All eye and face protection shall meet the requirements of ANSI/ASSE Z87.1, employees shall also use eye side protection.
- e. High visibility vests will be worn when working around construction equipment or when working on highways.

3.6.1.2. **Display of Safety Information:** Within one calendar day after commencement of work, erect a safety bulletin board at the job site. The following information shall be displayed on the safety bulletin board in clear view of the on-site construction personnel, maintained current, and protected against the elements and unauthorized removal.

- a. Map denoting the route to the nearest emergency care facility.
- b. Emergency phone numbers.
- c. Copy of AHA's.
- d. OSHA 300A form.

3.6.1.3 **Emergency Medical Treatment:** Contractor shall arrange for their own emergency medical treatment. The Government has no responsibility to provide emergency medical treatment.

3.6.1.4 **Use of Hand and Power Tools:** Hand and power tools shall be of a manufacturer listed by a nationally recognized testing laboratory for the specific application for which they are to be used.

Use, inspection and maintenance:

- a. Hand and power tools shall be used, inspected, and maintained in accordance with the manufacturers' instructions and recommendations and shall be used only for the purpose for which designed.
- b. Hand and power tools shall be inspected, tested, and determined to be in safe operating condition before use. Continued periodic inspections shall be made to assure safe operating condition and proper maintenance.
- c. Hand and power tools shall be in good repair and with all required safety devices installed and properly adjusted. Tools having defects that will impair their strength or render them unsafe shall be removed from service.
- d. Loose and frayed clothing, loose long hair and dangling jewelry (including dangling earrings, chains and wristwatches) shall not be worn while working with any power tools.

Guarding – Power tools designed to accommodate guards shall be equipped with such guards:

- a. All guards must be functional.
- b. Reciprocating, rotating, and moving parts of equipment shall be guarded if exposed to contact by employees or otherwise create a hazard.

3.6.1.5 **Portable Extension Cords:** Portable extension cords shall be sized in accordance with manufacturer ratings for the tool to be used and shall be protected from damage. All damaged extension cords shall be immediately removed from service. Portable extension cords shall meet the requirements of NFPA 70.

3.6.1.6 **Ladders:** All portable ladders shall be of sufficient length and shall be placed so that workers will not stretch or assume a hazardous position. The top or top step of a stepladder shall not be used as a step unless it has been designed to be so used by the manufacturer. Ladders may be used as work platforms only when use of small hand tools or handling of light material is involved.

3.6.1.7 **Lockout/Tag Out:** Coordinate all control activities with the Designated Government Representative. Apply, monitor and remove proper lockout and tag out devices.

3.6.1.8 **Sanitation Requirements:** Provide drinking water and toilets as needed for construction personnel.

3.6.1.9 **Fire Protection:** Provide two ABC fire extinguishers at the work site to guard against potential fires.

3.6.1.10 **Fuel-Powered Tools:** When fuel-powered tools are used, they will not be fueled while running, while hot, or near an open flame.

3.6.1.11 **Machinery and Mobile Equipment:** The Contractor shall complete an equipment checklist for any construction equipment (backhoes, lift trucks, bobcats) that will be used on site.

3.6.1.12 **Excavation:** All digging requires the Contractor to contact the NEW YORK DIG SAFE One-Call System at 1-800-962-7962 before digging.

3.6.1.13 **Confined Space:** For Confined Space areas follow procedures outlined in Section 34 of EM-385-1-1.

3.6.2 Activity Hazard Analysis:

The principle purpose of an Activity Hazard Analysis (AHA) is to reduce the overall risk of the hazards associated with construction work. An AHA will be developed by the Contractor for every operation involving a type of work presenting hazards not experienced in previous project operations or where a new work crew or subcontractor is to perform work.

The analysis must identify and evaluate hazards and outline the proposed methods and techniques for the safe completion of each phase of work. At a minimum, define activity being performed (can use the Definable Features of Work). A Definable Feature of Work (DFOW) is a task, which is separate and distinct from other tasks, has the same control requirements and work crews, sequence of work, specific safety and health hazards anticipated (slip or trips, cuts, dust or chips in eyes), control measures (to include personal protective equipment) to eliminate or reduce each hazard to acceptable levels, equipment to be used (hand tools, backhoe), inspection requirements (list the inspection requirements for the activity to ensure the controls are working, and equipment is inspected to ensure proper operation), training requirements for all involved (any unique training required to make the established controls work) and the competent person in charge of that phase of work.

The AHA shall be continuously reviewed and, when appropriate, modified to address changing site conditions or operations. The analysis should be used during daily inspections to ensure the implementation and effectiveness of the activity's safety and health controls. Activity Hazard Analysis shall be updated as necessary to provide an effective response to changing work conditions and activities.

3.6.3 Accident Reports and Notifications:

3.6.3.1 **Accident Reports:** For recordable injuries and illnesses, and property damage accidents resulting in a least \$2,000 in damages, the prime Contractor shall conduct an accident investigation to establish the root cause of the accident, complete the Navy Contractor Significant Incident Report (CSIR) and provide the report to the Contracting Officer within five calendar days of the accident. The Contracting Officer will provide copies of any required or special forms.

3.6.3.2 **Accident Notification:** Notify the Contracting Officer as soon as practical, but not later than four hours after any accident meeting the definition of recordable injuries or illnesses or high visibility accidents, property damage equal to or greater than \$2,000. Information shall include Contractor name, contract title, type of contract, name of activity, installation or location where accident occurred, date and time of accident, names of personnel injured, extent of property damage (if any), extent of injury (if known) and brief description of accident (to include type of construction equipment used, PPE used, etc.). Preserve the conditions and evidence on the accident site until the Government investigation team arrives on site and Government investigation is conducted.

3.6.3.3 **Definition of a Recordable Injury or Illness:** Any work related injury or illness that results in:

- a. Death, regardless of the time between the injury and death, or the length of the illness;
- b. Days away from work;
- c. Restricted work;
- d. Transfer to another job;
- e. Medical treatment beyond first aid;
- f. Lose of consciousness;
- g. A significant injury or illness diagnosed by a physician or other licensed health care professional, even if it did not result in a. through f. listed above.

3.6.4 **Monthly Exposure Report:** This report is a compilation of employee-hours worked each month for all site workers, both prime and subcontractors, and is recorded daily on the Contractor Production Report.

3.6.5 The Contractor's workspace may be inspected periodically for OSHA and Navy violations. Abatement of violations will be the responsibility of the Contractor and/or the Government as determined by the Contracting Officer. The Contractor shall provide assistance to the Safety Office escort and the federal or state OSHA inspector if a complaint is filed. Any fines levied on the Contractor by federal or state OSHA offices due to safety/health violations shall be paid promptly.

3.6.6 If the Contractor fails or refuses to promptly comply with safety requirements, the Contracting Officer may issue an order stopping all or part of the work until satisfactory corrective action has been taken. No part of the time lost due to any such stop order shall be made the subject of claim for extension of time or for excess costs or damages to the Contractor.

3.6.7 The Safety Office will investigate all complaints of unsafe or unhealthful working conditions received from Contractor's employees, federal civilian employees, or military personnel. The Safety Office will notify the Contracting Officer of the results of such investigations.

3.7 Passes and Badges: All Contractor employees shall obtain the required employee and vehicle passes. The Contractor shall, prior to the start of the contract, submit to the Contracting Officer an estimate of the number of personnel expected to be utilized at any one time on the contract. The Government will issue badges without charge. Each employee shall wear the Government issued badge over the front of the outer clothing. When an employee leaves the Contractor's service, the employee's pass and badge shall be returned within three calendar days. Passes and badges issued to Contractor employees shall not negate the requirement for employee identification required in the "IDENTIFICATION OF CONTRACTOR EMPLOYEES" paragraph.

All Contractor employees shall obtain the required employee and vehicle passes. Obtain access to the installation by participating in the Navy Commercial Access Control System (NCACS) or by obtaining passes each day from the Base Pass and Identification Office. Costs for obtaining passes through the NCACS are the responsibility of the

Contractor. One-day passes, issued through the Base Pass and Identification Office, will be furnished without charge.

Furnish a completed EMPLOYMENT ELIGIBILITY VERIFICATION (DHS FORM I-9) form for all personnel requesting badges. This form is available at <http://www.uscis.gov/portal/site/uscis> by searching or selecting Employment Verification (Form I-9). Immediately report instances of lost or stolen badges to the Contracting Officer.

a. NCACS Program: NCACS is a voluntary program in which Contractor personnel who enroll, and are approved, are subsequently granted access to the installation for a period up to one year, or the length of the current contract period, whichever is less, and are not required to obtain a new pass from the Base Pass and Identification Office for each visit. The Government performs background screening and credentialing. Throughout the year, the Contractor employee must continue to meet background-screening standards. Periodic background screenings are conducted to verify continued NCACS participation and installation access privileges. Under the NCACS program, no commercial vehicle inspection is required, other than for Random Anti-Terrorism Measures (RAM) or in the case of an elevation of Force Protection Conditions (FPCON). Information on costs and requirements to participate and enroll in NCACS is available at <http://www.rapidgate.com/vendors/how-to-enroll> or by calling 1-877-727-4342. Contractors should be aware that the costs incurred to obtain NCACS credentials, or costs related to any means of access to a Navy Installation, are not reimbursable. Any time invested, or price(s) paid, for obtaining NCACS credentials will not be compensated in any way or approved as a direct cost of any contract with the Department of the Navy.

b. One-Day Passes: Participation in the NCACS is not mandatory, and if the Contractor chooses to not participate, the Contractor's personnel will have to obtain daily passes, be subject to daily mandatory vehicle inspection, and will have limited access to the installation. The Government will not be responsible for any cost or lost time associated with obtaining daily passes or added vehicle inspections incurred by non-participants in the NCACS.

3.8 Identification of Contractor Employees:

3.8.1 The Contractor shall provide to the Contracting Officer the name or names of the responsible supervisory person or persons authorized to act for the Contractor.

3.8.2 The Contractor shall furnish sufficient personnel to perform all work specified within the contract.

3.8.3 Contractor employees shall conduct themselves in a proper, efficient, courteous and businesslike manner.

3.8.4 The Contractor shall remove from the site any individual whose continued employment is deemed by the Contracting Officer to be contrary to the public interest or inconsistent with the best interests of National Security.

3.8.5 No employee or representative of the Contractor will be admitted to the site of work unless he/she furnishes satisfactory proof that he/she is a citizen of the United States.

3.8.6 All Contractor/subcontractor employees working under this contract shall be identified by a distinctive nameplate, emblem, or patch attached in a prominent place on an outer garment. Employee identification shall not be substituted for station required passes or badges.

3.9 Identification of Contractor Vehicles: The company name shall be displayed on each of the Contractor's vehicles in a manner and size that is clearly visible. All vehicles shall display a valid state license plate and safety inspection sticker, if applicable, and shall be maintained in good repair.

3.10 Permits: The Contractor shall, without additional expense to the Government, obtain all appointments, licenses, and permits required for the prosecution of the work. The Contractor shall comply with all applicable

federal, state, and local laws. Evidence of such permits and licenses shall be provided to the Contracting Officer before work commences.

3.11 Proof of Citizenship: No employee or representative of the Contractor will be admitted to the site of work unless satisfactory proof of citizenship is furnished, or, if an alien, legal residency within the United States is confirmed.
