PROPOSAL DELIVERY:**NOTICE TO ALL PROPOSERS**

Commander, Navy Installations Command (CNIC), has established the Navy Commercial Access Control System (NCACS), a standardized process for granting unescorted access privileges to vendors, contractors, suppliers and service providers not otherwise entitled to the issuance of a Common Access Card (CAC). This is for those who seek access to and can provide justification to enter Navy installations and facilities. Visiting vendors may obtain daily passes directly from the individual Navy installations by submitting identification credentials for verification and undergoing a criminal screening/ background check. Alternatively, if the vendor so chooses, it may voluntarily elect to obtain long-term credentials through enrollment, registration, background vetting, screening, issuance of credentials, and electronic validation of credentials at its own cost through a designated independent contractor NCACS service provider. Credentials will be issued every five years and access privileges will be reviewed/renewed on an annual basis. The costs incurred to obtain Navy installation access of any kind are not reimbursable, and the price(s) paid for obtaining long-term NCACS credentials will not be approved as a direct cost of this contract.

Application for and use of badges will be as directed. To obtain access to the installation, you must participate in the Navy Commercial Access Control System (NCACS), or obtain passes each day from the Base Pass and Identification Office. Costs for obtaining passes through the NCACS are the responsibility of the Contractor. One-day passes, issued through the Base Pass and Identification Office, will be furnished without charge. Furnish a completed EMPLOYMENT ELIGIBILITY VERIFICATION (DHS FORM I-9) form for all personnel requesting badges. This form is available at <http://www.uscis.gov/portal/site/uscis> by searching or selecting Employment Verification (Form I-9). Allow 7 to 10 days for processing applications for badges. Immediately report instances of lost or stolen badges to the Contracting Officer.

- a. NCACS Program: NCACS is a voluntary program in which Contractor personnel who enroll, and are approved, are subsequently granted access to the installation for a period up to one year, or the length of the contract, whichever is less, and are not required to obtain a new pass from the Base Pass and

Identification Office for each visit. The Government performs background screening and credentialing. Throughout the year the Contractor employee must continue to meet background screening standards. Periodic background screenings are conducted to verify continued NCACS participation and installation access privileges. Under the NCACS program, no commercial vehicle inspection is required, other than for Random Anti-Terrorism Measures (RAM) or in the case of an elevation of Force Protection Conditions (FPCON). Information on costs and requirements to participate and enroll in NCACS is available at <http://www.rapidgate.com/vendors/how-to-enroll> or by calling 1-877-727-4342. Contractors should be aware that the costs incurred to obtain NCACS credentials, or costs related to any means of access to a Navy Installation, are not reimbursable. Any time invested, or price(s) paid, for obtaining NCACS credentials will not be compensated in any way or approved as a direct cost of any contract with the Department of the Navy.

- b. One-Day Passes: Participation in the NCACS is not mandatory, and if the Contractor chooses to not participate, the Contractor's personnel will have to obtain daily passes, be subject to daily mandatory vehicle inspection, and will have limited access to the installation. The Government will not be responsible for any cost or lost time associated with obtaining daily passes or added vehicle inspections incurred by non-participants in the NCACS.
- c. The Contractor shall obtain the required employee badges and vehicle passes from the Government at his own expense, or daily passes at no additional cost. Each employee shall wear the Government issued badge over the front of the outer clothing. When an employee leaves the Contractor's service, the employee's Passes and Badges shall be returned within 5 calendar days.
- d. Be advised by this notice that the level of security at various Navy Installations may change at any time. As the level of security heightens, the amount of time required to gain access to all Navy Installation also increases.

CLAUSES INCORPORATED BY FULL TEXT

**5252.246-9303 CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM
REQUIRED SERVICES (OCT 2004)**

The Contractor shall perform all of the contract requirements. The Government will inspect and assess Contractor performance in accordance with FAR 52.246-4, INSPECTION OF SERVICES – FIXED PRICE and the Section E provision entitled GOVERNMENT PERFORMANCE ASSESSMENT. The Government will require re-performance, withhold payment, or seek other suitable consideration for unsatisfactory or non-performed work.

When defects can't be corrected by re-performance, the Government may reduce the price to reflect the reduced value of services performed.

(a) **PROCEDURES.** In the case of unsatisfactory or nonperformed work, the Government:

(1) may give the Contractor written notice of observed deficiencies prior to withholding payment for unsatisfactory or non-performed work and/or assessing liquidated damages. Such written notice shall not be a prerequisite for withholding payment for nonperformed work. The Government may specify, as provided for below, that liquidated damages can be assessed against the Contractor. Such liquidated damages are to compensate the Government for administrative costs and other expenses resulting from the unsatisfactory or nonperformed work.

(2) may, at its option, allow the Contractor an opportunity to re-perform the unsatisfactory or nonperformed work, at no additional cost to the Government. In the case of daily work, corrective action must be completed within two hours of notice to the Contractor. In the case of other work, corrective action must be completed within twenty-four hours of notice. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 15 percent of the value of all observed defects. The original inspection results of the Contractor's work will not be modified upon re-inspection. However, the Contractor will be paid for satisfactorily re-performed work.

(3) shall withhold from the Contractor's invoice all amounts associated with the unsatisfactory or nonperformed work at the prices set out in the Schedule or provided by other provisions of this contract, unless the Contractor is required to re-perform and satisfactorily complete the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 15 percent of the value of all observed defects.

(4) may, at its option, perform the work by Government personnel or by other means. The Government will reduce the amount of payment to the Contractor, by the amount paid to any Government personnel (based on wages, retirement and fringe benefits) plus material, or by the actual costs incurred to accomplish the work by other means. If the actual costs cannot be readily determined, the prices set out in the Schedule will be used as the basis for the deduction. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 15 percent of the computed cost.

(b) The Contractor is responsible for maintaining an effective Quality Control Program during the course of the contract. Failure to maintain adequate quality control may result in Termination for Default.

(c) Re-performance by the Contractor does not waive the Government's right to terminate for nonperformance in accordance with FAR clause 52.249-8, "DEFAULT (FIX D-PRICE SUPPLY AND SERVICE)" of Section I and all other remedies for default as may be provided by law.

5252.246-9304 ESTIMATING THE PRICE OF NONPERFORMED OR UNSATISFACTORY WORK (OCT 2004)

In the event the price of non-performed or unsatisfactory work cannot be determined from the prices set out in the Schedule, or on the basis of the actual cost to the Government, estimating methods may be used to determine an amount, which reflects the reduced value of services performed. The Government may estimate the cost using wage rates and fringe benefits included in the wage determinations included in the contract, Government estimates of the Contractor's overhead and profit rates, and Government estimates of material costs if applicable. Liquidated damages, to compensate the Government for administrative costs and other expenses resulting from the non-performed or unsatisfactory performance, will be calculated in accordance with the CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED WORK clause. (End of clause)

ACCEPTANCE

The performance and quality of work delivered by the contractor, including services rendered and any documentation or written material compiled shall be subject to inspection, review, and acceptance by the Government.

CONTRACTOR QUALITY CONTROL (QC)

a. The Contractor shall establish and maintain a Quality Control Program in accordance with the FAR 52.246-4, "INSPECTION OF SERVICES - FIXED PRICE" clause, Section E, to ensure that the work performed under the contract conforms to the contract requirements. The Contractor shall submit to the Contracting Officer, a Quality Control Plan (QCP) for approval 15 calendar days after award of the contract. A general description of the Contractor's Quality Control (QC) program shall be available for Government review during the preaward survey.

b. The Contractor's QCP shall provide top Contractor management with an effective and efficient means of identifying and correcting problems throughout the entire scope of operations.

c. The QCP shall include:

- 1) A description of the Contractor's quality control system. The system must cover all contract services, specify work to be inspected on either a schedule or unscheduled basis, and describe how inspections are to be conducted.
- 2) The names(s) and qualifications of the individual(s) responsible for performing the quality control inspections, and the extent of their authority.
- 3) Provisions for recording the results of inspections and for recording corrective action taken.
- 4) Provisions to update and revise the QCP during the performance of the contract.

d. A file of all Quality Control inspections both performed and scheduled, inspection results, and dates and details of corrective actions taken shall be maintained by the Contractor through the term of this contract. The file shall be the property of the Government and made available to the Contracting Officer during regular working hours. The file shall be turned over to completion/termination of the contract.

GOVERNMENT QUALITY ASSURANCE (QA)

In accordance with the FAR 52.246-4, "INSPECTION OF SERVICES - FIXED PRICE" clause, Section E, each phase of the services rendered under this contract is subject to Government inspection, during the Contractor's operations and after completion of the tasks. The Government's Quality Assurance Surveillance Program is not a substitute for Quality Control by the Contractor. All findings of unsatisfactory or non-performed work will be administered in accordance with the "CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES" clause, Section E. All costs associated with rework are the responsibility of the Contractor. The Government reserves the right to choose the inspection methods to be used in implementing its Quality Assurance Program and to vary the inspection methods utilized during the work, without notice to the Contractor.

PERFORMANCE EVALUATION MEETINGS

a. The Contractor shall meet with the Government's representative monthly during the first (3) months of the contract. Thereafter, meetings will be as often as necessary at the discretion of the Contracting Officer, but not less than quarterly. A mutual effort will be made to resolve all problems identified. The written minutes of these meetings, prepared by the Government, shall be signed by the Contractor's representative and the Government's representative. Should the Contractor not concur with the minutes, the Contractor shall state, in writing, to the Contracting Officer any areas of disagreement within three calendar days.

Spec Item	Title	Description
1.3	Acquisition of Additional Work	The Government reserves the right to acquire additional fixed crane maintenance services at additional locations in addition to the services and locations identified in the Firm-Fixed Price requirements of this contract. Additional services will be incorporated into the contract in accordance with the CHANGES clause, SECTION I or ordered under the indefinite delivery indefinite quantity provisions of the contract. Items of work not covered by this contract but within the general intent are considered in the scope of this contract.
1.4	Background Information	Naval Station Newport is home to more than 42 naval and defense commands and activities. Newport is the Navy's premier site for training officers, officer candidates, senior enlisted personnel and midshipman candidates, as well as conducting advanced undersea warfare and development systems. Naval Station Newport's mission is to fulfill the diverse requirements of its tenant commands by providing the facilities and infrastructure that are essential to their optimum performance. Navy personnel assigned to Newport come from all parts of the United States and many free nations of the world. Newport is the home for the Navy's most prestigious educational institution, the Navy War College. Each year over 500 outstanding mid-career level officers of the Navy, all other services, civilian federal agencies, and international naval officers come here to pursue a rigorous 10 month course of post-graduate studies. Military and Civilian personnel get deeply involved in local community affairs. Naval Station Newport is the largest employer in Rhode Island, with 5,000 civilian employees and 9,300 students schooled each year.
1.5	Verification of Workload and Conditions	Throughout the PWS, the workload data is generally referred to as being located in Section J. Section J provides data such as inventories, maps, floor plans, and tables to represent the type, quantity and location of services to be provided. However, offerors are encouraged to visit the project site during the site visit for offerors and to visit the technical library during posted hours as part of its due diligence to assess the nature of work and conditions under which work is to be performed.
1.6	Climate Patterns	The Local weather is strongly influenced by the Atlantic Ocean, due to the close proximity to the coast. Rhode Island has a humid continental climate with warm summers and cold winters. The climate is generally milder along the coast, particularly in the winter. January temperatures in Newport RI average 38 degrees F high and 23 degrees F low. July temperatures average 78 degrees F to 64 degrees F low. However, summer temperatures may reach the lower 90 degrees F and temperatures in the Winter can fall below 0 degrees F. Precipitation (Rainfall and Snowfall) in Rhode Island is distributed throughout the year. Most areas receive approximately 46 inches of liquid yearly, although parts of the coast are somewhat wetter.
1.7	Related Information	There are four types of Related Information that can be found in the Description and Related Information columns of the specification as follows: Informational Notes as used throughout this PWS provides additional information to offerors to be used in developing a thorough understanding of the work to be performed in this contract. Any block of text marked "Informational Notes" throughout Annexes 1 through 18 is subject to this disclaimer. Offerors may not rely upon the "Informational Notes" as material representations of the Government.

0100000 – General Information		
Spec Item	Title	Description
		<p>Information provided in "Informational Notes" does not create a contractual requirement on either party to this contract.</p> <p>Clarifying Information describes client expectations in a more detailed manner than the Performance Objective and Performance standard alone.</p> <p>Constraining Information describes limitations to the work performed to meet the Performance Objective and Performance Standard.</p> <p>Requirement Information further describes client requirements associated with each Performance Objective.</p>
1.8	Navy Approach to Service Contracting	<p>The Department of Navy (DoN) spends over \$1 billion in annual obligations to meet global requirements for facility operations and maintenance provided through Facility Support Contracts (FSC) and additional billions to provide other base operations support services (OBOS). The Head of the Contracting Activity (HCA) of the Naval Facilities Engineering Command (NAVFAC) has focused increased attention on re-engineering FSC contracts in response to customer and industry feedback, budget constraints, and the impact of a variety of contracting, program management and financial management regulations. The Navy also supports the following principles:</p>
1.8.1	Partnering Philosophy	<p>The first principle is that the Navy views its contractors as partners and not just abstract service providers. The Navy wants its contractors to succeed because partners' success drives the Navy's successful mission completion. Within the bounds of acquisition policy the Navy intends to work to find solutions that will be beneficial to both the Government and its partners.</p>
1.8.2	Contractor's Knowledge	<p>The second principle is that the Navy will receive insightful management from its contractors. This management will include the knowledge, skills, authority and willingness to use contractor resources to find better ways of serving Navy clients' strategic and operational goals and objectives. The Navy's use of performance-based objectives evidences this principle. Although performance work statements will typically contain several levels of performance assessment, the Navy wants its contractors to exercise maximum discretion within bounds of prudent risk management to adjust processes and resources needed to reach specified objectives at the highest performance level.</p>
1.8.3	Industry Best Practices	<p>The third principle is that the Navy will adopt industry best commercial practices and maintain state-of-the-art service delivery. It is the Navy's and contractor's responsibility as partners to reach this goal. To that end, the Navy's emphasis will be in evaluating performance objectives (end results).</p>
1.9	Standard Template	<p>Key to implementing a programmatic approach is using a standard template that ensures Navy-wide consistency yet affords appropriate tailoring to meet local needs. This contract conforms to the standard template and has been tailored for this solicitation. NAVFAC intends to use this template-based approach for future service contracts. Offerors should develop an understanding of the template as part of performing due diligence in reaching an understanding of the Navy's requirements and expectations.</p>

0100000 – General Information		
Spec Item	Title	Description
		The standard template contains 18 standard annexes. Annex 1 will always contain information that is relevant to the entire scope of the contract. Annex 2 contains on-site project management and administration requirements that are relevant to the entire scope of the contract. Annexes 3 through 18 contain the technical information and requirements peculiar to that technical annex. Within each technical annex, the organization of information and requirements are also standardized. Specification item 1 will always contain General Information. Specification item 2 will always contain the management and administrative requirements.
1.10	Navy PBSA Approach	The Navy's approach to performance-based service acquisition (PBSA) includes four component parts which are 1) performance outcomes, 2) measurable standards, 3) consideration of incentives, and 4) performance assessment plan.
1.11	Technical Proposal Certification	The Contractor warrants that its proposal incorporated herein by reference will meet or exceed the performance objectives set forth in this contract.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that --

(1) The offeror and/or any of its principals (___) are, (___) are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency,

(2) (___) Have, (___) have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) (___) Are, (___) are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) (___) Have, (___) have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.
