GENERAL INFORMATION

B.1 **Contract Title:** Overhead Door Maintenance and Repair services at the Naval Undersea Warfare Center Division Newport, Newport, Rhode Island.

B.2 **Type of Contract:** This is a Combination Firm Fixed Price/Indefinite Delivery-Indefinite Quantity type contract as noted in Section L, Instructions, Conditions, and Notices to Bidders.

B.3 **Minimum Guarantee:** The Firm Fixed Price portion of the base year only is the minimum guarantee for this contract. It can be paid in either the base year or over the entire term of the contract. Refer to Section H, Special Contract Requirements, 5252.216-9313 Maximum Quantities.

B.4 **Set-Aside:** This procurement is unrestricted (full and open competition) with a HubZone price evaluation preference. Refer to Section I, FAR Clause 52.219-4, Notice of Price Evaluation Preference For HUBZone Small Business Concerns (JAN 2011)

B.5 NAICS Code: The NAICS Code assigned to this procurement is 238290 with a small business size standard of \$15,000,000.00. Refer to On-Line Representations and Certifications Applications (ORCA) via System for Award Management (SAM) at <https://www.sam.gov/portal/public/SAM>

B.6 Wage Determination (Service)/ Davis Bacon Wage Decision (Construction): Service Contract Act (SCA) wages are included in this solicitation. Refer to Section J.

B.7 Bid Guarantee/Bonding Requirements: NOT REQUIRED for this procurement.

B.8 Contract Term: This contract contains provisions for a Base Period with four (4) Option Periods, not to exceed five (5) years. The Government has the option to extend the term of the contract in accordance with Section I, Contract Clauses, 5252.217-9301, Option to Extend the Term of the Contract-Services (Jun 1994). In the option periods, the Government may adjust the prices, if applicable, based on the new Department of Labor Wage Determination.

B.9 Period of Performance: The period of performance will be determined at the time of award.

B.10 Evaluation of Proposals: Proposers shall submit a lump sum price for Section B, CLINs 0001 through 0010 and unit prices for Exhibit A through Exhibit E, referenced in Section J. For the purposes of evaluating offers for award, the Government will utilize the pricing submitted for the base year and all option periods. Refer to Section M, FAR 52.217-5, Evaluation of Options (JUL 1990).

In order to permit efficient competition, the Navy will utilize the following methodology: Proposals will initially be screened for price and placed in order (lowest price to highest price). The technical proposals shall then be provided to the evaluator(s) without any identification of prices or any rank order of prices. The Navy will then evaluate the technical factors of the three (3) lowest priced proposals. Award will go to the lowest priced technically acceptable proposal from among the three (3) lowest priced proposals. However, if no proposals are found to be technically acceptable within the first group of proposals, the Navy, at its sole discretion, reserves the right to increase the number of proposals it will review under this methodology. As a result, the technical factors of some proposals may not be evaluated by the Navy. If discussions are deemed necessary by the Contracting Officer, all proposals will be evaluated (both technical and price) for the purpose of establishing a competitive range.

NOTE: Offerors MUST be evaluated as technically ACCEPTABLE under factors 1, 2, 3, and 4 in order to be considered technically acceptable overall.

B.11 Contract Line Items And Contract Exhibit Line Items

a. Proposers shall enter unit prices and amounts for Contract Line Items (CLINs) and Contract Exhibit line items (ELINs) as indicated in the schedules and accompanying exhibits.

b. In the event there is a difference between a unit price and the extended total amount, the unit price will be held to be the intended bid and the total of the CLIN and ELIN will be recomputed accordingly. The CLIN will also be recomputed to take into account the change in the contract ELINs. If the bidder provides a total amount for an ELIN, but fails to enter the unit price, the total amount divided by the ELIN quantity will be held to be the intended unit price.

c. The Schedule of Firm Fixed Price Work (CLIN 0001, 0003, 0005, 0007, and 0009) and the Schedule of Indefinite Quantity Work (CLIN 0002, 0004, 0006, 0008, and 0010) will be used as the basis for deductions in accordance with FAC 5252.246-9303, "CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES" clause, Section E.

B.12 Unit Price Adjustments In Option Periods

This contract incorporates the Service Contract Act (SCA). The SCA Wage Determination incorporated in Section J is for the Base Year performance period only. The latest Wage Determination available at the time for each option exercise will be incorporated into the contract and the unit prices will be adjusted in accordance with FAR Clauses 52.222-43, Fair Labor Standards Act and Service Contract Act – Price Adjustment. The contractor warrants, by submission of his proposal that the price does not include any contingency for future wage increases.

B.13 Indefinite Quantity Individual Contract Line Item Quantities

Once the estimated quantities for individual line items shown in the Schedule have been ordered, additional quantities may be ordered as long as the overall not-to-exceed (NTE) amount of the contract per year is not exceeded and the Contractor agrees by signing the task order.

B.14 Unit Prices For Labor

a. A portion of the work included in the scope of this contract cannot be identified in advance in sufficient detail to be as a Unit Price Task in this contract. Labor for this work will be ordered and paid for based on unit prices for labor proposed by the Contractor listed in the Schedule of Indefinite Quantity Work.

b. Estimated hours in the Schedule are a forecast of future requirements. These estimated hours are for performing "Indefinite Quantity Work" accomplished in the time period shown.

c. The Contractor shall enter, in the unit price bid space, the unit price for performing composite labor. The composite labor price shall include all direct and indirect costs associated with performing an hour of work. The composite labor price should be the Contractor's hourly craft wage adjusted to allow for the offerors work force productivity (i.e., the Contractor's estimate of how its' work force will perform in relation to the Means Facilities Cost Data and/or the Engineered Performance Standards). The Composite Labor Rate shall include all costs for preparation of the cost proposal, job preparation, travel, pre- expended bin materials and supplies, ordering and stockpiling job material, additional material handling, items of equipment necessary to perform work (i.e. bucket truck, lifting equipment, staging, etc.), equipment set up time, lift time, craft delay allowance, profit, tools, equipment, field and home office overhead, clerical support, supervision, inspection, fees, taxes, licenses, bonds, permits, insurance, etc.

B.15 Period Of Performance – Less than One Year

Offers shall be submitted for the performance of work for a period of one year. The contractor is cautioned to recognize that the initial term of the contract may be for a period of less than a year in accordance with the "Term of Contract" clause in Section F. In the event that the period of performance is less, the Government will reduce the individual line item quantities to reflect work remaining in the contract term and no other adjustments to the pro-rated contract price will be made.

B.16 Contractor's Payment Schedule

Contractors are required to submit a Contractor's Payment Schedule with the proposal. Refer to Section L, Contractor's Payment Schedule.

B.17 Incorporation Of Technical Proposal

a. The Contractor's technical proposal, including revisions and amendments made prior to contract award and a copy of which is in the possession of both parties, will be incorporated into this contract upon award by

reference with the same force and effect as if set forth in full text. All contractor personnel shall meet or exceed the qualification standards, experience levels, and trade backgrounds set forth in the technical proposal.

b. In the event of an inconsistency between the provisions of this contract and the technical proposal, the inconsistency shall be resolved by giving precedence in the following order: (i) the contract (excluding the technical proposal), and then (ii) the technical proposal.

B.18 Request For Proposals (RFP) Information/Clarification Questions

Contractors are required to review the entire solicitation package before submitting questions. All questions must be submitted **at least 10 days before proposals are due**, either by email to pamela.waller@navy.mil or fax to: 757-341-0079. This is the most efficient way to ensure all questions are addressed in a timely manner.

B.19 Request For Proposal (RFP) Files

It is the sole responsibility of the offeror to obtain the RFP files, along with any amendments, from this website.

Unprotected editable file copies of the RFP documents including: Word, Excel and/or .pdf files (Adobe Acrobat Files) will not be provided. Please plan accordingly.

0002	A700 and A701	0007	D001 through D003
0003	B001 through B003	0008	D700 and D701
0004	B700 and B701	0009	E001 through E003
0005	C001 through C003	0010	E700 and E701

B.22 PROPOSAL DELIVERY:

NOTICE TO ALL PROPOSERS

Commander, Navy Installations Command (CNIC), has established the Navy Commercial Access Control System (NCACS), a standardized process for granting unescorted access privileges to vendors, contractors, suppliers and service providers not otherwise entitled to the issuance of a Common Access Card (CAC). This is for those who seek access to and can provide justification to enter Navy installations and facilities. Visiting vendors may obtain daily passes directly from the individual Navy installations by submitting identification credentials for verification and undergoing a criminal screening/ background

check. Alternatively, if the vendor so chooses, it may voluntarily elect to obtain long-term credentials through enrollment, registration, background vetting, screening, issuance of credentials, and electronic validation of credentials at its own cost through a designated independent contractor NCACS service provider. Credentials will be issued every five years and access privileges will be reviewed/renewed on an annual basis. The costs incurred to obtain Navy installation access of any kind are not reimbursable, and the price(s) paid for obtaining long-term NCACS credentials will not be approved as a direct cost of this contract.

Application for and use of badges will be as directed. To obtain access to the installation, you must participate in the Navy Commercial Access Control System (NCACS), or obtain passes each day from the Base Pass and Identification Office. Costs for obtaining passes through the NCACS are the responsibility of the Contractor. One-day passes, issued through the Base Pass and Identification Office, will be furnished without charge. Furnish a completed EMPLOYMENT ELIGIBILITY VERIFICATION (DHS FORM I-9) form for all personnel requesting badges. This form is available at <http://www.uscis.gov/portal/site/uscis> by searching or selecting Employment Verification (Form I-9). Allow 7 to 10 days for processing applications for badges. Immediately report instances of lost or stolen badges to the Contracting Officer.

- a. NCACS Program: NCACS is a voluntary program in which Contractor personnel who enroll, and are approved, are subsequently granted access to the installation for a period up to one year, or the length of the contract, whichever is less, and are not required to obtain a new pass from the Base Pass and Identification Office for each visit. The Government performs background screening and credentialing. Throughout the year the Contractor employee must continue to meet background screening standards. Periodic background screenings are conducted to verify continued NCACS participation and installation access privileges. Under the NCACS program, no commercial vehicle inspection is required, other than for Random Anti-Terrorism Measures (RAM) or in the case of an elevation of Force Protection Conditions (FPCON). Information on costs and requirements to participate and enroll in NCACS is available at <http://www.rapidgate.com/vendors/how-to-enroll> or by calling 1-877-727-4342. Contractors should be aware that the costs incurred to obtain NCACS credentials, or costs related to any means of access to a Navy Installation, are not reimbursable. Any time invested, or price(s) paid, for obtaining NCACS credentials will not be compensated in any way or approved as a direct cost of any contract with the Department of the Navy.
- b. One-Day Passes: Participation in the NCACS is not mandatory, and if the Contractor chooses to not participate, the Contractor's personnel will have to obtain daily passes, be subject to daily mandatory vehicle inspection, and will have limited access to the installation. The Government will not be responsible for any cost or lost time associated with obtaining daily passes or added vehicle inspections incurred by non-participants in the NCACS.
- c. The Contractor shall obtain the required employee badges and vehicle passes from the Government at his own expense, or daily passes at no additional cost. Each employee shall wear the Government issued badge over the front of the outer clothing. When an employee leaves the Contractor's service, the employee's Passes and Badges shall be returned within 5 calendar days.

Be advised by this notice that the level of security at various Navy Installations may change at any time. As the level of security heightens, the amount of time required to gain access to all Navy Installation also increases.

CLAUSES INCORPORATED BY FULL TEXT

5252.246-9303 CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES (OCT 2004)

The Contractor shall perform all of the contract requirements. The Government will inspect and assess Contractor performance in accordance with FAR 52.246-4, INSPECTION OF SERVICES – FIXED PRICE and the Section E provision entitled GOVERNMENT PERFORMANCE ASSESSMENT. The Government will require re-performance, withhold payment, or seek other suitable consideration for unsatisfactory or non-performed work. When defects can't be corrected by re-performance, the Government may reduce the price to reflect the reduced value of services performed.

(a) **PROCEDURES.** In the case of unsatisfactory or nonperformed work, the Government:

(1) may give the Contractor written notice of observed deficiencies prior to withholding payment for unsatisfactory or non-performed work and/or assessing liquidated damages. Such written notice shall not be a prerequisite for withholding payment for nonperformed work. The Government may specify, as provided for below, that liquidated damages can be assessed against the Contractor. Such liquidated damages are to compensate the Government for administrative costs and other expenses resulting from the unsatisfactory or nonperformed work.

(2) may, at its option, allow the Contractor an opportunity to re-perform the unsatisfactory or nonperformed work, at no additional cost to the Government. In the case of daily work, corrective action must be completed within four hours of notice to the Contractor. In the case of other work, corrective action must be completed within twenty-four hours of notice. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the value of all observed defects. The original inspection results of the Contractor's work will not be modified upon re-inspection. However, the Contractor will be paid for satisfactorily re-performed work.

(3) shall withhold from the Contractor's invoice all amounts associated with the unsatisfactory or nonperformed work at the prices set out in the Schedule or provided by other provisions of this contract, unless the Contractor is required to re-perform and satisfactorily complete the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the value of all observed defects.

(4) may, at its option, perform the work by Government personnel or by other means. The Government will reduce the amount of payment to the Contractor, by the amount paid to any Government personnel (based on wages, retirement and fringe benefits) plus material, or by the actual costs incurred to accomplish the work by other means. If the actual costs cannot be readily determined, the prices set out in the Schedule will be used as the basis for the deduction. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 20 percent of the computed cost.

(b) The Contractor is responsible for maintaining an effective Quality Control Program during the course of the contract. Failure to maintain adequate quality control may result in Termination for Default.

(c) Re-performance by the Contractor does not waive the Government's right to terminate for nonperformance in accordance with FAR clause 52.249-8, "DEFAULT (FIXED-PRICE SUPPLY AND SERVICE)" of Section I and all other remedies for default as may be provided by law.

(d) When WATCHSTANDING SERVICES apply. If the Contractor fails to provide qualified personnel or allows any post to be unmanned for a total of N/A minutes in any shift, the Government may assign other persons to perform such work or withhold payment as specified below:

- (1) When Watchstanding Services are performed by Government employees, withholdings shall be computed based on the current Federal Pay Schedule including wages, retirement and fringe

benefits of the Government employees (civilian or military) who actually performed the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of ____ __ percent of the computed cost.

(2) When non-performed Watchstanding Services are obtained under another contract, the Government will withhold an amount equal to the cost to the Government under that contract. In addition, the Government can assess liquidated damages, as referenced above, in the amount of ____ __ percent of the cost.

(3) If no guard replacement is furnished by the Government and the work is not performed, the Government will withhold an amount equal to the cost to the Government of having a Government employee perform the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of ____ __ percent of the computed cost.

(4) The Contractor will be held liable for property losses sustained by the Government as a direct, consequential result of a failure to furnish the required personnel.

(5) Computations of the costs for Government employees to perform work not performed by the Contractor shall be in conformance with FAR 52.222-42, "STATEMENT OF EQUIVALENT RATE FOR FEDERAL HIRES." (End of clause)

5252.246-9304 ESTIMATING THE PRICE OF NONPERFORMED OR UNSATISFACTORY WORK (OCT 2004)

In the event the price of non-performed or unsatisfactory work cannot be determined from the prices set out in the Schedule, or on the basis of the actual cost to the Government, estimating methods may be used to determine an amount, which reflects the reduced value of services performed. The Government may estimate the cost using wage rates and fringe benefits included in the wage determinations included in the contract, Government estimates of the Contractor's overhead and profit rates, and Government estimates of material costs if applicable. Liquidated damages, to compensate the Government for administrative costs and other expenses resulting from the non-performed or unsatisfactory performance, will be calculated in accordance with the CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED WORK clause. (End of clause)

52.232-32 PERFORMANCE-BASED PAYMENTS (APR 2012)

(a) Amount of payments and limitations on payments. Subject to such other limitations and conditions as are specified in this contract and this clause, the amount of payments and limitations on payments shall be specified in the contract's description of the basis for payment.

(b) Contractor request for performance-based payment. The Contractor may submit requests for payment of performance-based payments not more frequently than monthly, in a form and manner acceptable to the Contracting Officer. Unless otherwise authorized by the Contracting Officer, all performance-based payments in any period for which payment is being requested shall be included in a single request, appropriately itemized and totaled. The Contractor's request shall contain the information and certification detailed in paragraphs (l) and (m) of this clause.

(c) Approval and payment of requests.

(1) The Contractor shall not be entitled to payment of a request for performance-based payment prior to successful accomplishment of the event or performance criterion for which payment is requested. The Contracting Officer shall determine whether the event or performance criterion for which payment is requested has been successfully accomplished in accordance with the terms of the contract. The Contracting Officer may, at any time, require the Contractor to substantiate the successful performance of any event or performance criterion which has been or is represented as being payable.

(2) A payment under this performance-based payment clause is a contract financing payment under the Prompt Payment clause of this contract and not subject to the interest penalty provisions of the Prompt Payment Act. The designated payment office will pay approved requests on the 30th day after receipt of the request for performance-based payment by the designated payment office. However, the designated payment office is not required to provide payment if the Contracting Officer requires substantiation as provided in paragraph (c)(1) of this clause, or inquiries into the status of an event or performance criterion, or into any of the conditions listed in paragraph (e) of this clause, or into the Contractor certification. The payment period will not begin until the Contracting Officer approves the request.

(3) The approval by the Contracting Officer of a request for performance-based payment does not constitute an acceptance by the Government and does not excuse the Contractor from performance of obligations under this contract.

(d) Liquidation of performance-based payments.

(1) Performance-based finance amounts paid prior to payment for delivery of an item shall be liquidated by deducting a percentage or a designated dollar amount from the delivery payment. If the performance-based finance payments are on a delivery item basis, the liquidation amount for each such line item shall be the percent of that delivery item price that was previously paid under performance-based finance payments or the designated dollar amount. If the performance-based finance payments are on a whole contract basis, liquidation shall be by either predesignated liquidation amounts or a liquidation percentage.

(2) If at any time the amount of payments under this contract exceeds any limitation in this contract, the Contractor shall repay to the Government the excess. Unless otherwise determined by the Contracting Officer, such excess shall be credited as a reduction in the unliquidated performance-based payment balance(s), after adjustment of invoice payments and balances for any retroactive price adjustments.

(e) Reduction or suspension of performance-based payments. The Contracting Officer may reduce or suspend performance-based payments, liquidate performance-based payments by deduction from any payment under the contract, or take a combination of these actions after finding upon substantial evidence any of the following conditions:

(1) The Contractor failed to comply with any material requirement of this contract (which includes paragraphs (h) and (i) of this clause).

(2) Performance of this contract is endangered by the Contractor's --

(i) Failure to make progress; or

(ii) Unsatisfactory financial condition.

(3) The Contractor is delinquent in payment of any subcontractor or supplier under this contract in the ordinary course of business.

(f) Title.

(1) Title to the property described in this paragraph (f) shall vest in the Government. Vestiture shall be immediately upon the date of the first performance-based payment under this contract, for property acquired or produced before that date. Otherwise, vestiture shall occur when the property is or should have been allocable or properly chargeable to this contract

(2) "Property," as used in this clause, includes all of the following described items acquired or produced by the Contractor that are or should be allocable or properly chargeable to this contract under sound and generally accepted accounting principles and practices:

(i) Parts, materials, inventories, and work in process;

(ii) Special tooling and special test equipment to which the Government is to acquire title;

(iii) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment and other similar manufacturing aids, title to which would not be obtained as special tooling under subparagraph (f)(2)(ii) of this clause; and

(iv) Drawings and technical data, to the extent the Contractor or subcontractors are required to deliver them to the Government by other clauses of this contract.

(3) Although title to property is in the Government under this clause, other applicable clauses of this contract (e.g., the termination or clauses) shall determine the handling and disposition of the property.

(4) The Contractor may sell any scrap resulting from production under this contract, without requesting the Contracting Officer's approval, provided that any significant reduction in the value of the property to which the Government has title under this clause is reported in writing to the Contracting Officer.

(5) In order to acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Contractor shall obtain the Contracting Officer's advance approval of the action and the terms. If approved, the basis for payment (the events or performance criteria) to which the property is related shall be deemed to be not in compliance with the terms of the contract and not payable (if the property is part of or needed for performance), and the Contractor shall refund the related performance-based payments in accordance with paragraph (d) of this clause.

(6) When the Contractor completes all of the obligations under this contract, including liquidation of all performance-based payments, title shall vest in the Contractor for all property (or the proceeds thereof) not --

(i) Delivered to, and accepted by, the Government under this contract; or

(ii) Incorporated in supplies delivered to, and accepted by, the Government under this contract and to which title is vested in the Government under this clause.

(7) The terms of this contract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this clause.

(g) Risk of loss. Before delivery to and acceptance by the Government, the Contractor shall bear the risk of loss for property, the title to which vests in the Government under this clause, except to the extent the Government expressly assumes the risk. If any property is lost (see 45.101), the basis of payment (the events or performance criteria) to which the property is related shall be deemed to be not in compliance with the terms of the contract and not payable (if the property is part of or needed for performance), and the Contractor shall refund the related performance-based payments in accordance with paragraph (d) of this clause.

(h) Records and controls. The Contractor shall maintain records and controls adequate for administration of this clause. The Contractor shall have no entitlement to performance-based payments during any time the Contractor's records or controls are determined by the Contracting Officer to be inadequate for administration of this clause.

(i) Reports and Government access. The Contractor shall promptly furnish reports, certificates, financial statements, and other pertinent information requested by the Contracting Officer for the administration of this clause and to determine that an event or other criterion prompting a financing payment has been successfully accomplished. The Contractor shall give the Government reasonable opportunity to examine and verify the Contractor's records and to examine and verify the Contractor's performance of this contract for administration of this clause.

(j) Special terms regarding default. If this contract is terminated under the Default clause,

(1) the Contractor shall, on demand, repay to the Government the amount of unliquidated performance-based payments, and

(2) title shall vest in the Contractor, on full liquidation of all performance-based payments, for all property for which the Government elects not to require delivery under the Default clause of this contract. The Government shall be liable for no payment except as provided by the Default clause.

(k) Reservation of rights.

(1) No payment or vesting of title under this clause shall --

(i) Excuse the Contractor from performance of obligations under this contract; or

(ii) Constitute a waiver of any of the rights or remedies of the parties under the contract.

(2) The Government's rights and remedies under this clause --

(i) Shall not be exclusive, but rather shall be in addition to any other rights and remedies provided by law or this contract; and

(ii) Shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this clause or the exercise of any other right, power, or privilege of the Government.

(l) Content of Contractor's request for performance-based payment. The Contractor's request for performance-based payment shall contain the following:

(1) The name and address of the Contractor;

(2) The date of the request for performance-based payment;

(3) The contract number and/or other identifier of the contract or order under which the request is made;

(4) Such information and documentation as is required by the contract's description of the basis for payment; and

(5) A certification by a Contractor official authorized to bind the Contractor, as specified in paragraph (m) of this clause.

(m) Content of Contractor's certification. As required in paragraph (l)(5) of this clause, the Contractor shall make the following certification in each request for performance-based payment:

I certify to the best of my knowledge and belief that --

(1) This request for performance-based payment is true and correct; this request (and attachments) has been prepared from the books and records of the Contractor, in accordance with the contract and the instructions of the Contracting Officer;

(2) (Except as reported in writing on _____), all payments to subcontractors and suppliers under this contract have been paid, or will be paid, currently, when due in the ordinary course of business;

(3) There are no encumbrances (except as reported in writing on _____) against the property acquired or produced for, and allocated or properly chargeable to, the contract which would affect or impair the Government's title;

(4) There has been no materially adverse change in the financial condition of the Contractor since the submission by the Contractor to the Government of the most recent written information dated _____; and

(5) After the making of this requested performance-based payment, the amount of all payments for each deliverable item for which performance-based payments have been requested will not exceed any limitation in the contract, and the amount of all payments under the contract will not exceed any limitation in the contract.

52.232-36 PAYMENT BY THIRD PARTY (MAY 2014)

(a) General.

(1) Except as provided in paragraph (a)(2) of this clause, the Contractor agrees to accept payments due under this contract, through payment by a third party in lieu of payment directly from the Government, in accordance with the terms of this clause. The third party and, if applicable, the particular Governmentwide commercial purchase card to be used are identified elsewhere in this contract.

(2) The Governmentwide commercial purchase card is not authorized as a method of payment during any period the System for Award Management (SAM) indicates that the Contractor has delinquent debt that is subject to collection under the Treasury Offset Program (TOP). Information on TOP is available at <http://fms.treas.gov/debt/index.html>. If the SAM subsequently indicates that the Contractor no longer has delinquent debt, the Contractor may request the Contracting Officer to authorize payment by Governmentwide commercial purchase card.

(b) Contractor payment request.

(1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall make payment requests through a charge to the Government account with the third party, at the time and for the amount due in accordance with those clauses of this contract that authorize the Contractor to submit invoices, contract financing requests, other payment requests, or as provided in other clauses providing for payment to the Contractor.

(2) When the Contracting Officer has notified the Contractor that the Governmentwide commercial purchase card is no longer an authorized method of payment, the Contractor shall make such payment requests in accordance with instructions provided by the Contracting Officer during the period when the purchase card is not authorized.

(c) Payment. The Contractor and the third party shall agree that payments due under this contract shall be made upon submittal of payment requests to the third party in accordance with the terms and conditions of an agreement between the Contractor, the Contractor's financial agent (if any), and the third party and its agents (if any). No payment shall be due the Contractor until such agreement is made. Payments made or due by the third party under this clause are not payments made by the Government and are not subject to the Prompt Payment Act or any implementation thereof in this contract.

(d) Documentation. Documentation of each charge against the Government's account shall be provided to the Contracting Officer upon request.

(e) Assignment of claims. Notwithstanding any other provision of this contract, if any payment is made under this clause, then no payment under this contract shall be assigned under the provisions of the assignment of claims terms of this contract or the Assignment of Claims Act of 1940 (31 U.S.C. 3727, 41 U.S.C. 6305).

(f) Other payment terms. The other payment terms of this contract shall govern the content and submission of payment requests. If any clause requires information or documents in or with the payment request, that is not provided in the third party agreement referenced in paragraph (c) of this clause, the Contractor shall obtain instructions from the Contracting Officer before submitting such a payment request.

(a) Definitions. As used in this provision--

“Discussions” are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

“In writing or written” means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

“Proposal modification” is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

“Proposal revision” is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

“Time”, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time

specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals. (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show--

(i) The solicitation number;

(ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);

(3) Submission, modification, or revision, of proposals.

(i) Offerors are responsible for submitting proposals, and any modifications, or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)(A) Any proposal, modification, or revision received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall--

(1) Mark the title page with the following legend: This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with-- the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

(2) Mark each sheet of data it wishes to restrict with the following legend: Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award. (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract without discussions with offerors (except

clarifications as described in FAR 15.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(11) If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(i) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(ii) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(iii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(iv) A summary of the rationale for award.

(v) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

(vi) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

5252.215-9300 CONTENT OF PROPOSALS (JAN 2003)

PROPOSAL REQUIREMENTS

(a) The technical proposal and the price/cost proposal shall be submitted in separate volumes. The technical proposal shall not contain any cost/pricing information, except for salary information provided on resumes. The technical proposal presented by the offeror to whom the award is made will be incorporated into the contract at time of award.

(b) The offeror shall submit the following information:

(1) Four (4) completed signed solicitation packages (SF33 & Amendments, if applicable), including executed representations and certifications (SAM), and cost/prices in Section B and any accompanying exhibits (A – E).

(2) Four (4) copies of the technical proposal.

(c) PRICE.

(1) Solicitation Submittal Requirements: Offerors shall submit an original and one copy of the price proposal in a separate three ring binder. Each price proposal shall contain Exhibits A through E and Section B (CLINs 0001 through 0010). Also included in the binders should be the signed SF33, amendments, and the Representations and Certifications (SAM). Confirm submission of the most recent Vets 100A Report and provide current financial statements and data, including financial institution. The price proposal shall be submitted at the same time as the technical proposal. In addition to providing a hard copy of the price proposals, offerors shall also provide one (1) non-rewritable CD with pricing information. Offerors are advised that in the event of a discrepancy between pricing information contained on the CD and the hard copy, the hard copy will govern.

(d) TECHNICAL PROPOSAL. Each technical proposal shall be precise, detailed, and complete as to clearly and fully demonstrate a thorough knowledge and understanding of the requirements. As a minimum, the proposal must contain sufficient detail so that it may be evaluated in accordance with the EVALUATION FACTORS provision, Section M. The technical proposal shall be in 8-1/2 x 11 format, font size 12, limited to 75 pages, inclusive of all charts, resumes, forms and other documentation responsive to the solicitation requirements. Price proposals are not part of the 75 page limitation. Technical proposal shall be submitted in three-ring binders, with a cover page including name of prime contractor, DUNS and CAGE numbers for prime, address, phone, email and fax numbers, contract number and point of contact. The offeror shall outline the general plan of work and methods to be employed, describing each work task at the level necessary to convey a complete understanding of the proposed approach to the reviewer. Accordingly, the offeror shall provide a narrative description that addresses each of the following four technical factors:

- Factor 1 – Technical Approach/Management
- Factor 2 – Corporate Experience
- Factor 3 – Safety

Factor 4 – Past Performance

NOTE: The distinction between corporate experience and past performance is corporate experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

(1) **Factor 1, Technical Approach/Management:**

(i) Solicitation Submittal Requirements: The offeror shall submit a narrative response that clearly demonstrates its understanding of and approach to accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement. Each of the topics below must be included in the narrative and tabbed in the technical proposal and discussed separately.

(a) Phase-In Transition Plan. Describe what you will do to “start-up” for performance of this contract. The phase-in transition period is 30 days as per F.2 of the RFP. Include a schedule of key events from contract award until contract commencement; personnel actions and responsibilities of key personnel.

(b) Workforce Management. Describe the lines of management authority, supervision, span of control and accountability, including the relationship between overall management (corporate and on-site), administration, and subcontractors. Provide an Organization chart of your proposed organization and workforce.

(c) Safety and Security. Describe procedures to ensure compliance with environmental, safety and security requirements. Include a summary of the anticipated safety plan.

(2) **Factor 2, Corporate Experience:**

(i) Solicitation Submittal Requirements: Offerors shall provide information on at least one (1) up to a maximum of five (5) Overhead Door Maintenance and Repair Contracts performed (as the prime contractor) within the past five (5) years, including current (on-going) contracts. Contracts should be similar in size, scope, complexity, context and relevancy to the current requirement. Include a short description of the work performed, contract number, title, location of work, and a list of clients and points of contact on individual contracts with accurate telephone numbers. Offerors may include past experience information regarding predecessor companies and key personnel who have relevant experience and subcontractors that will perform major or critical aspects of the requirement. **However, the prime contractor will not be found acceptable on the basis of the subcontractor’s experience only. As noted above, the offeror shall be the prime contractor on at least one (1) contract of similar size, scope, complexity, context and relevancy as the current requirement.** Offerors shall provide experience information using form in Section J. Offerors are responsible for ensuring point of contacts and phone numbers are current and correct.

(3) **Factor 3, Safety:**

(i) Solicitation Submittal Requirements: The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR and DART Rates shall not be submitted for subcontractors.)

(1) Experience Modification Rate (EMR): For the three previous complete calendar years 2012, 2013 and 2014, submit your EMR (which compares your company’s annual losses in insurance claims against its policy premiums over a three year period). If you have no EMR, affirmatively state so, and explain why. Any extenuating circumstances that affected the EMR and upward or downward trends should be addressed as part of this element. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: For the three previous complete calendar years 2012, 2013 and 2014, submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA DART Rate data and upward or downward trends should be addressed as part of this element. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach for Safety: Describe the plan that the Offeror will implement to evaluate safety performance of potential subcontractors, as a part of the selection process for all levels of subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages.

(c) Past Performance

(1) **Factor 4, Past Performance:**

(i) Solicitation Submittal Requirements: Offerors shall clearly demonstrate a history of successful performance within the past five (5) years. The offeror shall be the prime contractor on a maximum of five (5) contracts (including current/on-going contracts) of similar size, scope, complexity, context and relevancy to the RFP. The prime contractor will not be found acceptable on the basis of the subcontractor's experience only.

IF A COMPLETED CPARS EVALUATION IS AVAILABLE, IT SHALL BE SUBMITTED WITH THE PROPOSAL. IF THERE IS NOT A COMPLETED CPARS EVALUATION, the Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror or its team members to submit to the client for each project the offeror includes in its proposal for Factor (insert applicable factor number, usually Factor 1, and insert factor title, usually Corporate Experience). AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE.

IF A CPARS EVALUATION IS NOT AVAILABLE, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ (Section J), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Pamela Waller, via email at pamela.waller@navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Also include performance recognition documents received within the last (5) years such as awards, award fee determinations, customer letters of commendation, and any other forms of performance recognition.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

A copy of the blank Past Performance Questionnaire to be used for requesting client references is included in Section J.

5252.237-9302 SITE VISIT (JUL 1995)

- a. The site will be available for visitation. The specific date will be announced via an amendment to the solicitation. The site visit is restricted to regular working hours.
- b. Visitors may be required to present documentation evidencing personal identification and firm affiliation.

Section M - Evaluation Factors for Award

BASIS OF AWARD

M.1 Basis for Award

- a. The Government will select the lowest-priced technical acceptable offer at a reasonable cost to the Government.

M.2 Evaluation Factors

- a. Technical Evaluation Factors 1 through 4 are listed below:

- Factor 1 – Technical Approach/Management
- Factor 2 – Corporate Experience
- Factor 3 – Safety
- Factor 4 – Past Performance

The distinction between corporate experience and past performance is corporate experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

2. Basis of Evaluation and Submittal Requirements for Each Factor.

- (a) Price:

(1) Solicitation Submittal Requirements: Offerors shall submit an original and one copy of the price proposal in a separate three ring binder. Each price proposal shall contain Exhibits A through E and Section B (CLINs 0001 through 0005). Also included in the binders should be the signed SF33, amendments, and the Reqs and Certifications (ORCA). The price proposal shall be submitted at the same time as the technical proposal. In addition to providing a hard copy of the price proposals, offerors shall also provide one (1) non-rewritable CD with pricing information. Offerors are advised that in the event of a discrepancy between pricing information contained on the CD and the hard copy, the hard copy will govern.

(2) Basis of Evaluation: The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (see Section B of the solicitation). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in Section M of the solicitation. In accordance with FAR 52.217-5, Evaluation of Options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.
- (ii) Comparison of proposed prices with the IGCE.
- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

Proposals will be evaluated for completeness and reasonableness as follows:

(1) Completeness. All pricing information required by the solicitation has been provided, all mathematic computations are correct and the pricing application understood, prices are on an “all or none” basis, and failure to submit a price on an item or a number of items may cause this factor and the entire offer to be determined unacceptable.

(2) Reasonableness. Price analysis comparisons indicate the offered price to be fair and reasonable, balanced across option years, and balanced between fixed-price and IDIQ items.

Unreasonable, unbalanced or incomplete pricing may cause a proposal to be determined unacceptable.

(b) Technical Factors:

(1) **Factor 1, Technical Approach/Management:**

(i) Solicitation Submittal Requirements: The offeror shall submit a narrative response that clearly demonstrates its understanding of and approach to accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement. Each of the topics below must be included in the narrative and tabbed in the technical proposal and discussed separately.

a. Phase-In Transition Plan. Describe what you will do to “start-up” for performance of this contract. The phase-in transition period is 30 days as per F.2 of the RFP. Include a schedule of key events; personnel actions and responsibilities of key personnel.

b. Workforce Management. Describe the lines of management authority, supervision, span of control and accountability, including the relationship between overall management (corporate and on-site), administration, and subcontractors. Provide an Organization chart of your proposed organization and workforce.

c. Safety and Security. Describe procedures to ensure compliance with environmental, safety and security requirements. Include a summary of the anticipated safety plan.

(ii) Basis of Evaluation:

The Technical Approach/Management factor shall be evaluated based upon the following criteria:

- (a) The proposal demonstrates an acceptable understanding of the performance objectives and standards.
- (b) The proposal provides a feasible technical approach with the capability to, at least, meet solicitation performance objectives and standards.
- (c) The proposal offers a low to moderate performance risk to the Government.

(2) **Factor 2, Corporate Experience:**

(i) Solicitation Submittal Requirements: Offerors shall provide information on at least one (1) up to a maximum of five (5) Overhead Door Maintenance And Repair Contracts performed (as the prime contractor) within the past five (5) years, including current (on-going) contracts. Contracts should be similar in size, scope, and complexity to the current requirement. Include a short description of the work performed, contract number, title, location of work, and a list of clients and points of contact on individual contracts with accurate telephone numbers. Offerors may include past experience information regarding predecessor companies and key personnel who have relevant experience and subcontractors that will perform major or critical aspects of the requirement. **However, the prime contractor will not be found acceptable on the basis of the subcontractor’s experience only. As noted above, the offeror shall be the prime contractor on at least one (1) contract of similar size, scope, complexity, context and relevancy as the current requirement.** Offerors shall provide

experience information using form in Section J. Offerors are responsible for ensuring points of contact and phone numbers are current and correct.

(ii) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience and depth of experience in performing relevant projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. The Government will only review five projects. Any projects submitted in excess of the five (5) for Experience will not be considered.

(3) **Factor 3, Safety:**

(i) Solicitation Submittal Requirements: The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR and DART Rates shall not be submitted for subcontractors.)

(1) Experience Modification Rate (EMR): For the three previous complete calendar years 2012, 2013 and 2014, submit your EMR (which compares your company's annual losses in insurance claims against its policy premiums over a three year period). If you have no EMR, affirmatively state so, and explain why. Any extenuating circumstances that affected the EMR and upward or downward trends should be addressed as part of this element. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: For the three previous complete calendar years 2012, 2013 and 2014, submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA DART Rate data and upward or downward trends should be addressed as part of this element. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach for Safety: Describe the plan that the Offeror will implement to evaluate safety performance of potential subcontractors, as a part of the selection process for all levels of subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages.

(ii) Basis of Evaluation:

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The Government will evaluate the Offeror's overall safety record, the Offeror's plan to select and monitor subcontractors, any and innovative safety methods that the Offeror plans to implement for this procurement. The Government's sources of information for evaluating safety may include, but are not limited to, OSHA, NAVFAC's Facility Accident and Incident Reporting (FAIR) database, and other related databases. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the Offeror. The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
- OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate
- Offeror Technical Approach to Safety
- Other sources of information available to the Government

(1) Experience Modification Rate (EMR): The Government will evaluate the EMR to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rating. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: The Government will evaluate the OSHA DART Rate to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rates. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach to Safety: The Government will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The Government will also evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement. Those Offerors whose plan demonstrates a commitment to hire subcontractors with a culture of safety and who propose innovative methods to enhance a safe working environment may be given greater weight in the evaluation.

(4) **Factor 4, Past Performance:**

(i) Solicitation Submittal Requirements: Offerors shall clearly demonstrate a history of successful performance within the past five (5) years. The offeror shall be the prime contractor on a maximum of five (5) contracts (including current/on-going contracts) of similar size, scope, complexity, context and relevancy to the RFP. The prime contractor will not be found acceptable on the basis of the subcontractor's experience only.

IF A COMPLETED CPARS EVALUATION IS AVAILABLE, IT SHALL BE SUBMITTED WITH THE PROPOSAL. IF THERE IS NOT A COMPLETED CPARS EVALUATION, the Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror or its team members to submit to the client for each project the offeror includes in its proposal for Factor (insert applicable factor number, usually Factor 1, and insert factor title, usually Corporate Experience). AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE.

IF A CPARS EVALUATION IS NOT AVAILABLE, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ (Section J), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Pamela Waller, via email at pamela.waller@navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Also include performance recognition documents received within the last (5) years such as awards, award fee determinations, customer letters of commendation, and any other forms of performance recognition.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PIIRS) using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

A copy of the blank Past Performance Questionnaire to be used for requesting client references is included in Section J.

(ii) Basis of Evaluation:

The degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., PPIRS, Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance considering:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;
- A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.);
- Recency of tasks performed that are identical to, similar to, or related to the task at hand; and
- A respect for stewardship of Government funds

52.217-5 EVALUATION OF OPTIONS (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).
