	TOTAL BID OPTION 3:				
	TOTAL: BASE AND OPTIONS				

Note: If options are awarded, the work will be accomplished during the same period of performance as the basic award. Options must be exercised within 90 days after contract award. No additional time will be provided for the work required by the options exercised and the period of performance shall remain as per basic contract. There will be no provision for economic price adjustment. The Government has the unilateral right to award any single option or combination of options.

This form will be used to breakout the lump sum price submitted with your proposal. The breakout of that lump sum will enable the Contracting Officer to assess the reasonableness of the price submitted and to identify areas that may be in error. In the event discussions are necessary, this breakout form may be utilized as a basis of queries made regarding the price submitted.
