REQUESTS FOR INFORMATION (RFI) –N40085-16-R-0309 IDIQ Environmental Abatement Services NSAP & PNBC

1. Is this upcoming Solicitation a renewal contract for an expiring contract? If it is who is the prime on the current contract?
RESPONSE – This is a new requirement, there is NO Incumbent.
2. I noticed that an unrestricted IDIQ procurement is out for environmental abatement at NSA Philadelphia. I was curious whether the Total Small Business set aside, N4008515R750, similar service procurement out last summer was ever awarded. If so, could you direct me to the award details?
RESPONSE – No Award was issued for RFP N4008515R7510, no proposals were received.
3. After reading all posted documents on neco.navy.mil related to this project, I am not seeing a scope of work to give us the specifications to create the bid.
RESPONSE – There is no specific work at this time. This is a solicitation to obtain the services contractor for a five year period. The specific jobs will be issued as SRO work orders when they are required. The prices developed from this solicitation will provide the basis for ordering work for specific jobs.
4. Document N40085/N4008516R0309J-0200000-06_IDIQ_16-R-0309_ELINS.pdf
<https://www.neco.navy.mil/upload/N40085/N4008516R0309J-0200000-06_IDIQ_16-R-0309_ELINS.pdf> is the only place I see radon Analysis and Reports listed as the ELIN Catalog number E729.
RESPONSE – Please see Attachment J-1800000-14 for additional information for Radon work.

RESPONSE – Yes, it is attached.

6. Current you have a “Pre cleaning” line item A700. But there is no “Containment” line item. {Containments are required during abatement work} The Abatement portion of the line items has “abatement” cost required but no containment cost are included. To trying to apply containment cost to the abatement line items will not work due to the different site conditions. Are we to use line item A700 to apply the cost of construction of our containments {Poly, negative air, labor, decon etc.}? If not we ask that you consider including a separate line item for Containments.

RESPONSE – ELINs 712 and 713 shall be used to cover these costs.

7. Will there be any instances where we would have to work above 15 feet? If so can you please include a line item for Additional cost for Working Heights between 15’- 30’ for each type of work?

RESPONSE – ELINs 712 and 713 shall be used to cover these costs.

8. Line Item A706. In the event there are multiple layers of floor tile will we multiply the line item price for each layer at the time of work? Or will you consider adding a line item for “Additional Layers of floor tile”.

RESPONSE – This should have been determined prior to the job being issued. If there are two layers of asbestos floor tiles then the Contractor shall double the SF for that project.

9. There is no There is no transportation line item. Currently line items have us include disposal but not transportation. Will the government be providing containers for the asbestos waste to be disposed? If not can you please include a line item for Waste Transportation.
