

ATTACHMENT J-0200000-04
 REVISED EXHIBIT LINE ITEM NUMBERS
 SOLICITATION/CONTRACT #N40085-16-R-2216

The Contractor will price the specified COL4 Base Measures and all related ELINS for the Base Year (i.e. CLIN (Line Item) 0001, ELINs A001 through A044) (see note 1). Contractors shall provide a unit price for any ELINs even if the quantity is zero (0). In total, Line Item 0001 is the sum of ELINs A001 through A044 and represents the minimum FFP award for the Base period of performance.

The subsequent CLINs for the base year (i.e. CLINs 0002 through 0034, ELINs A045 through A077) relate to increases in services as defined in the applicable ELIN. The Contractor will price only the additional cost associated with the service increase above the level preceding it so that each amount builds on the one before it. See the below order of precedence for the COL levels and an example of how to price the different COLs:

1. COL4 Base Measures
2. COL4 Additional Measures Level 2 (Option)
3. COL 3 Base Measures (Option)
4. COL 3 Additional Measures Level 2 (Option)

These CLINs are optional and will be ordered sequentially (see note 2) to achieve the desired level of service. For each Option Period, the Contractor shall price ELINs in the same manner as explained above for the Base Year.

Note 1:
 Base Year Firm Fixed Price which includes all prestige area services, semi-improved grounds, un-improved grounds and COL4 Base Measures for all customers.

ELIN / Sub ELIN	Description	Quantity	Unit of Issue	Unit Price	Total
LINE ITEM 0001- Firm Fixed Price Cover Page					
A001	Customer A Prestige Area Services	1	AC	\$3.00	\$3.00
A002	Customer A Semi-Improved Grounds	0	AC	\$3.00	\$0.00
A003	Customer A Un-Improved Grounds	1	AC	\$3.00	\$3.00
A004	Customer A COL4 Base Measures	1	AC	\$10.00	\$10.00
CNRMA Subtotal					\$16.00
LINE ITEM 0001- FIRM FIXED PRICE BASE YEAR TOTAL (A001 TO A040)					\$16.00

LINE ITEM 0002- OPTION					
A041	Customer A COL 4 Additional Measures Level 2	1	AC	\$2.00	\$2.00
LINE ITEM 0002 - OPTION TOTAL					\$2.00

LINE ITEM 0012- OPTION					
A051	Customer A COL 3 Base Measures	1	AC	\$4.00	\$4.00
LINE ITEM 0012 - OPTION TOTAL					\$4.00

LINE ITEM 0022- OPTION					
A061	Customer A COL 3 Additional Measures Level 2	1	AC	\$5.00	\$5.00
LINE ITEM 0022 TO 0031- OPTION TOTAL					\$5.00

TOTAL FOR BASE YEAR TO INCLUDE ALL LINE ITEMS (0001 TO 0031)				\$
---------------------------------------------------------------------	--	--	--	-----------

Note 2:
 COL4 Base Measures is the minimal amount of services to which any additional services is added to. Example: If the contract is awarded at COL4 Base Measures and we now need COL3 Additional Measures Level 2, then the total unit price for the acreage is \$10.00 + \$2.00 + \$4.00 + \$5.00 = \$21.00.

 SOLICITATION/CONTRACT N40085-16-R-2216
 EXHIBIT A

The Contractor will price the specified COL4 Base Measures and all related ELINS for the Base Year (i.e. CLIN (Line Item) 0001, ELINs A001 through A042) (see note 1). Contractors shall provide a unit price for any ELINs even if the quantity is zero (0). In total, Line Item 0001 is the sum of ELINs A001 through A042 and represents the minimum FFP award for the Base period of performance.

The subsequent CLINs for the base year (i.e. CLINS 0002 through 0071, ELINs A043 through A112) relate to increases in services as defined in the applicable ELIN. The Contractor will price only the additional cost associated with the service increase above the level preceding it so that each amount builds on the one before it. See the below order of precedence for the COL levels and an example of how to price the different COLs:

1. COL4 Base Measures
2. COL4 Additional Measures Level 2 (Option)
3. COL 3 Base Measures (Option)
4. COL 3 Additional Measures Level 2 (Option)
5. COL 2 Base Measures
6. COL 1 Base Measures

These CLINs are optional and will be ordered sequentially to achieve the desired level of service. For each Option Period, the Contractor shall price ELINs in the same manner as explained above for the Base Year.

ATTACHMENT J-0200000-04
EXHIBIT LINE ITEM NUMBERS
SOLICITATION/CONTRACT N40085-16-R-2216
EXHIBIT B

The Contractor will price the specified COL4 Base Measures and all related ELINS for Option One (i.e. CLIN (Line Item) 0001, ELINs A001 through A042) (see note 1). Contractors shall provide a unit price for any ELINs even if the quantity is zero (0). In total, Line Item 0001 is the sum of ELINs A001 through A042 and represents the minimum FFP award for Option One of performance.

The subsequent CLINs for the base year (i.e. CLINS 0002 through 0071, ELINs A043 through A112) relate to increases in services as defined in the applicable ELIN. The Contractor will price only the additional cost associated with the service increase above the level preceding it so that each amount builds on the one before it. See the below order of precedence for the COL levels and an example of how to price the different COLs:

1. COL4 Base Measures
2. COL4 Additional Measures Level 2 (Option)
3. COL 3 Base Measures (Option)
4. COL 3 Additional Measures Level 2 (Option)
5. COL 2 Base Measures
6. COL 1 Base Measures

These CLINs are optional and will be ordered sequentially to achieve the desired level of service. For each Option Period, the Contractor shall price ELINs in the same manner as explained above for Option One.

PROVIDE PRICES TO PERFORM FACILITY SERVICES For one year- FIRM FIXED PRICE - IN ACCORDANCE WITH SECTION C, SPEC ITEM 3

ELINs B700 through B787

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B700	COLs1 and COLs 2 Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches and a particular pattern if requested. Edge to provide a uniform edged cut. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 3 working days.	23	AC		\$ -	
B701	General Grass Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 4 working days.	12	AC		\$ -	
B702	Vacant Housing Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches regardless of existing grass height, fences or shape of lot. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Maximum lot size is 2,400 S.F. Work to be completed in 3 working days.	1,150	EA		\$ -	
B703	Field Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Work to be completed in 3 working days.	1,150	AC		\$ -	
B704	Industrial Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Storage areas, railroad beds and ramps, etc.. are considered Industrial Areas. Work will be completed in 3 working days.	63	AC		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B705	Mound Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Mounds are man-made rises that may cover buildings or structures. Excess clippings and debris shall be removed same day as cutting. Work to be completed in 3 working days.	23	AC		\$ -	
B706	Edging	Edging to provide a uniform edged cut. Grass clippings shall be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 3 working days.	23,000	LF		\$ -	
B707	Border Edging (Plastic) for Plant Beds	Install plastic border edging constructed of an industrial polyethylene specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. Remove debris daily. Work to be completed in 3 working days.	12,000	LF		\$ -	
B708	Border Edging (Wood) for Plant Beds	Install treated wood timbers specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. Timber minimum is 2" x 6". Remove debris daily. Work to be completed in 3 working days.	3,450	LF		\$ -	
B709	Border Edging (Steel) for Plant Beds	Install metal border edging specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. The metal minimum is 1/4" thick x 5' wide. Remove debris daily. Work to be completed in 4 working days.	1,150	LF		\$ -	
B710	Leaf and Debris Raking for Lawns and Plant Beds	Rake and remove leaves, pine straw, pine cones, limbs, gumballs, nuts and other accumulated debris from lawns or Plant Bed areas. All debris shall be removed the same day as raked. Work to be completed in 4 working days.	57	AC		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B711	Sod Placement - Fescue	Provide sod resulting in a level, healthy grass area per industry standards and manufacturer's recommendations. Work to be completed in 16 working days.	230	SY		\$ -	
B712	Sod Placement - Bermuda	Provide sod resulting in a level, healthy grass area per industry standards and manufacturer's recommendations. Work to be completed in 16 working days.	575	SY		\$ -	
B713	Dethatch and Aerate Lawns	Set tines according to type of grass and de-thatch by machine or by hand in small areas. Remove thatched material from the lawn and dispose of debris daily. Work shall be completed within 4 working days.	115	AC		\$ -	
B714	Seeding with Rye/Fescue	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	57	AC		\$ -	
B715	Seeding with Bermuda (Fall - Unhulled)	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	1,150	AC		\$ -	
B716	Seeding with Bermuda (Spring - Hulled)	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	1,150	AC		\$ -	
B717	Fertilization (with 25-4-7)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	2,300	LB		\$ -	
B718	Fertilization (with 19-5-9)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	23,000	LB		\$ -	
B719	Fertilization (with 12-25-12)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	11,500	LB		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B720	Fertilization (with 10-10-10)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
B721	Fertilization (with 10-20-20)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
B722	Liming of Lawns	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 8 working days.	28,750	LB		\$ -	
B723	Fertilization with Broadleaf Weed Control	Uniformly apply fertilizer with broadleaf weed control to the lawn area per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
B724	Vegetation Herbicide	Apply herbicide on undesirable vegetation per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work will be completed in 2 working day.	23,000	SF		\$ -	
B725	Broadleaf Weed Control	Apply broadleaf weed control per the manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
B726	Lawn Repair	Repair lawns to match the existing, adjoining lawn area. Loosen existing soil, rough grade, fine grade fertilize and seed or sod. Work to be completed in 6 working days.	23,000	SF		\$ -	
B727	Topsoil Placement	Place topsoil to depth requested, till mix with sub-soil and roll to provide a smooth depression-free surface. Work to be completed in 4 working days.	1,150	CY		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B728	Soil Removal	Remove soil to directed depth (up to 24") and protect utilities and adjacent turf. Existing grass, sod, or other vegetation is considered part of soil removal. Remove all materials from Government property within same day. Work to be completed in 4 working days.	575	CY		\$ -	
B729	Creation of Plant Beds	The edge of the plant bed shall extend a sufficient distance from the drip line of the shrubs and groundcovers to provide a natural delineation between the lawn area and the plant bed (mowing line) and to insure their protection from damage by lawn mowers. Work to be completed in 10 working days.	3,450	SF		\$ -	
B730	Liming of Plant Beds	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 6 working days.	23,000	LB		\$ -	
B731	Herbiciding of Plant Beds	Apply pre-emergent and post-emergent herbicides per Herbicide Application Requirements. Work to be completed in 2 working days.	23,000	SF		\$ -	
B732	Mulching of Plant Beds	Use organic or inert mulch to match existing mulch unless directed otherwise. The Government will direct type mulch required for new beds. Care shall be taken not to place mulch on top of annuals or bulbs partially emerging from dormancy. Work to be completed in 6 working days.	253,000	SF		\$ -	
B733	Mulch Removal	Mulch shall be removed in its entirety and stockpiled for future use. Care shall be taken not to disturb or damage shrubs and plants during the mulch removal process. Work to be completed in 4 working days.	86,250	SF		\$ -	
B734	Cultivation/Edging of Plant Beds	Remove all vegetation including the root system and cultivate area to a uniform depth. Add soil amendments to aid in drainage and root penetration. A clean cut edge shall be developed. Edging material(s), soil analysis, liming, mulching and fertilization shall be ordered on other ELINs. Work to be completed in 6 working days.	86,250	SF		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B735	Vegetation Removal (Light)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Light vegetation removal is a surface area having a maximum vegetation coverage of up to 30%. Work to be completed in 4 working days.	34,500	SF		\$ -	
B736	Vegetation Removal (Medium)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of 31% to 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
B737	Vegetation Removal (Heavy)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of more than 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
B738	Landscape Filter Fabric	Install this water permeable woven material for weed control as ordered by the Contracting Officer, per manufacturer's recommendations. Work the be completed in 6 working days.	5,750	SY		\$ -	
B739	Fertilization of Trees	Fertilize trees with approved commercial fertilizer under the entire area of the drip line starting from the trunk or stem outward. Work will be completed in 2 working days.	5,750	EA		\$ -	
B740	Fertilization of Shrubs, Hedges, or Ground Cover	Fertilize as recommended by the manufacturer for the type of plant. Work will be completed in 2 working days.	5,750	SF		\$ -	
B741	Fertilization of Roses	Roses are to be fertilized with a product recommended for the type plant and conditions of each location. Work will be completed in 2 working days.	690	EA		\$ -	
B742	Trimming of Shrubs	Maintain the natural form of the plant by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	13,225	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B743	Trimming of Hedges	Maintain the natural form of the plant or plant row by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	80,500	LF		\$ -	
B744	Trimming of Groundcover	Maintain ground cover at the plants natural height and within the designated bed area. Trim ground cover off of buildings, trees, or other plants as designated. At the bed and lawn edge line show a defined clean edge. Work will be completed in 4 working days.	207,000	SF		\$ -	
B745	Pruning of Shrubs and Hedges (Rejuvenation)	Pruning shall involve severe pruning of overgrown shrubs to within a few inches of the ground, or as directed by the Contracting Officer, to restore the plant to its natural shape. Trimmings shall be disposed of daily. Work will be completed in 4 working days.	2,300	EA		\$ -	
B746	Pruning Roses	Prune rose canes in a manner consistent with current industry standards for pruning. Trimmings and debris shall be disposed of daily. Work will be completed in 4 working days.	230	EA		\$ -	
B747	Tree Pruning (Up to 12" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some cases the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimming and debris shall be disposed of daily. Work will be completed in 6 working days.	115	EA		\$ -	
B748	Tree Pruning (12 1/8" to 24" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some cases the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	115	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B749	Tree Pruning (24 1/8" to 36" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some case the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	230	EA		\$ -	
B750	Tree Pruning (36 1/8" to 48" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some case the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	115	EA		\$ -	
B751	Tree Pruning (48 1/8" and Above in Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some case the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	23	EA		\$ -	
B752	Pollarding Crape Myrtles	Remove all lateral branches back to the same spot on the multiple trunks. This is usually performed in the spring to developed large flower panicles. Work will be completed in 6 working day.	115	EA		\$ -	
B753	Limb Removal (Over 1" Caliper)	Remove dead, split, weakly attached or other branches that exceed 3" in diameter as directed by the Contracting Officer. Remove debris from the work site daily. Work will be completed in 4 working day.	115	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B754	Sucker Removal from Base of Tree Trunk	Remove all sucker growth in its entirety from the base of the tree trunk and up to 12" surrounding the trunk without any damage occurring to the tree. "EA" represents each TREE TRUNK. Remove debris from the work site daily. Work will be completed in 4 working days.	230	EA		\$ -	
B755	Sapper Removal from Tree Trunk	Remove all sapper growth (less than one inch in Caliper) in its entirety from between the lower limbs and the base of the tree trunk without any damage occurring to the tree. "EA" represents each TREE. Remove debris from the work site daily. Work will be completed in 4 working days.	230	EA		\$ -	
B756	Tree Removal (Up to 6" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	46	EA		\$ -	
B757	Tree Removal (6 1/8" to 12" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	23	EA		\$ -	
B758	Tree Removal (12 1/8" to 24" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	23	EA		\$ -	
B759	Tree Removal (24 1/8" to 36" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	17	EA		\$ -	
B760	Tree Removal (36 1/8" to 48" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	17	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
B761	Tree Removal (48 1/8" and Above Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 6 working days.	23	EA		\$ -	
B762	Stump Removal (Large)	Remove large stumps (4" diameter and up, measuring across the stump) to a depth of 18" below grade. Remove all debris from the process and fill void where stump was removed with earth similar to existing earth. Rake and grade new soil and seed area to match existing grass. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	2,875	IN		\$ -	
B763	Stump Removal (Small)	Remove small stumps (up to 4" diameter, measuring across the stump) to a depth of 18" below grade. Remove all debris from the process and fill void where stump was removed with earth similar to existing earth. Rake and grade new soil and seed area to match existing grass. Remove all debris from Government property daily. Work will be completed within 2 working days of receiving a digging permit.	57	EA		\$ -	
B764	Surface Ground Root Removal	Remove surface roots to a depth of 6" below grade. Unit of measure is linear inches of root requiring removal. Remove all debris from the process and fill void where roots were removed with earth similar to existing earth. Rake and grade new soil and see area to match existing grass. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	1,150	IN		\$ -

ATTACHMENT J-0200000-04
EXHIBIT LINE ITEM NUMBERS
SOLICITATION/CONTRACT N40085-16-R-2216
EXHIBIT C

The Contractor will price the specified COL4 Base Measures and all related ELINS for Option Two (i.e. CLIN (Line Item) 0001, ELINs C001 through C042) (see note 1). Contractors shall provide a unit price for any ELINs even if the quantity is zero (0). In total, Line Item 0001 is the sum of ELINs C001 through C042 and represents the minimum FFP award for Option Two of performance.

The subsequent CLINs for Option Two (i.e. CLINS 0002 through 0071, ELINs C043 through C112) relate to increases in services as defined in the applicable ELIN. The Contractor will price only the additional cost associated with the service increase above the level preceding it so that each amount builds on the one before it. See the below order of precedence for the COL levels and an example of how to price the different COLs:

1. COL4 Base Measures
2. COL4 Additional Measures Level 2 (Option)
3. COL 3 Base Measures (Option)
4. COL 3 Additional Measures Level 2 (Option)
5. COL 2 Base Measures
6. COL 1 Base Measures

These CLINs are optional and will be ordered sequentially to achieve the desired level of service. For each Option Period, the Contractor shall price ELINs in the same manner as explained above for Option Two.

PROVIDE PRICES TO PERFORM FACILITY SERVICES FOR ONE YEAR- FIRM FIXED PRICE - IN ACCORDANCE WITH SECTION C, SPEC ITEM 3

ELINs C700 through C787

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C700	COLs1 and COLs 2 Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches and a particular pattern if requested. Edge to provide a uniform edged cut. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 3 working days.	23	AC		\$ -	
C701	General Grass Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 4 working days.	12	AC		\$ -	
C702	Vacant Housing Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches regardless of existing grass height, fences or shape of lot. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Maximum lot size is 2,400 S.F. Work to be completed in 3 working days.	1,150	EA		\$ -	
C703	Field Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Work to be completed in 3 working days.	1,150	AC		\$ -	
C704	Industrial Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Storage areas, railroad beds and ramps, etc.. are considered Industrial Areas. Work will be completed in 3 working days.	63	AC		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C705	Mound Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Mounds are man-made rises that may cover buildings or structures. Excess clippings and debris shall be removed same day as cutting. Work to be completed in 3 working days.	23	AC		\$ -	
C706	Edging	Edging to provide a uniform edged cut. Grass clippings shall be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 3 working days.	23,000	LF		\$ -	
C707	Border Edging (Plastic) for Plant Beds	Install plastic border edging constructed of an industrial polyethylene specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. Remove debris daily. Work to be completed in 3 working days.	12,000	LF		\$ -	
C708	Border Edging (Wood) for Plant Beds	Install treated wood timbers specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. Timber minimum is 2" x 6". Remove debris daily. Work to be completed in 3 working days.	3,450	LF		\$ -	
C709	Border Edging (Steel) for Plant Beds	Install metal border edging specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. The metal minimum is 1/4" thick x 5' wide. Remove debris daily. Work to be completed in 4 working days.	1,150	LF		\$ -	
C710	Leaf and Debris Raking for Lawns and Plant Beds	Rake and remove leaves, pine straw, pine cones, limbs, gumballs, nuts and other accumulated debris from lawns or Plant Bed areas. All debris shall be removed the same day as raked. Work to be completed in 4 working days.	57	AC		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C711	Sod Placement - Fescue	Provide sod resulting in a level, healthy grass area per industry standards and manufacturer's recommendations. Work to be completed in 16 working days.	230	SY		\$ -	
C712	Sod Placement - Bermuda	Provide sod resulting in a level, healthy grass area per industry standards and manufacturer's recommendations. Work to be completed in 16 working days.	575	SY		\$ -	
C713	Dethatch and Aerate Lawns	Set tines according to type of grass and de-thatch by machine or by hand in small areas. Remove thatched material from the lawn and dispose of debris daily. Work shall be completed within 4 working days.	115	AC		\$ -	
C714	Seeding with Rye/Fescue	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	57	AC		\$ -	
C715	Seeding with Bermuda (Fall - Unhulled)	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	1,150	AC		\$ -	
C716	Seeding with Bermuda (Spring - Hulled)	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	1,150	AC		\$ -	
C717	Fertilization (with 25-4-7)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	2,300	LB		\$ -	
C718	Fertilization (with 19-5-9)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	23,000	LB		\$ -	
C719	Fertilization (with 12-25-12)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	11,500	LB		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C720	Fertilization (with 10-10-10)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
C721	Fertilization (with 10-20-20)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
C722	Liming of Lawns	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 8 working days.	28,750	LB		\$ -	
C723	Fertilization with Broadleaf Weed Control	Uniformly apply fertilizer with broadleaf weed control to the lawn area per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
C724	Vegetation Herbicide	Apply herbicide on undesirable vegetation per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work will be completed in 2 working day.	23,000	SF		\$ -	
C725	Broadleaf Weed Control	Apply broadleaf weed control per the manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
C726	Lawn Repair	Repair lawns to match the existing, adjoining lawn area. Loosen existing soil, rough grade, fine grade fertilize and seed or sod. Work to be completed in 6 working days.	23,000	SF		\$ -	
C727	Topsoil Placement	Place topsoil to depth requested, till mix with sub-soil and roll to provide a smooth depression-free surface. Work to be completed in 4 working days.	1,150	CY		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C728	Soil Removal	Remove soil to directed depth (up to 24") and protect utilities and adjacent turf. Existing grass, sod, or other vegetation is considered part of soil removal. Remove all materials from Government property within same day. Work to be completed in 4 working days.	575	CY		\$ -	
C729	Creation of Plant Beds	The edge of the plant bed shall extend a sufficient distance from the drip line of the shrubs and groundcovers to provide a natural delineation between the lawn area and the plant bed (mowing line) and to insure their protection from damage by lawn mowers. Work to be completed in 10 working days.	3,450	SF		\$ -	
C730	Liming of Plant Beds	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 6 working days.	23,000	LB		\$ -	
C731	Herbiciding of Plant Beds	Apply pre-emergent and post-emergent herbicides per Herbicide Application Requirements. Work to be completed in 2 working days.	23,000	SF		\$ -	
C732	Mulching of Plant Beds	Use organic or inert mulch to match existing mulch unless directed otherwise. The Government will direct type mulch required for new beds. Care shall be taken not to place mulch on top of annuals or bulbs partially emerging from dormancy. Work to be completed in 6 working days.	253,000	SF		\$ -	
C733	Mulch Removal	Mulch shall be removed in its entirety and stockpiled for future use. Care shall be taken not to disturb or damage shrubs and plants during the mulch removal process. Work to be completed in 4 working days.	86,250	SF		\$ -	
C734	Cultivation/Edging of Plant Beds	Remove all vegetation including the root system and cultivate area to a uniform depth. Add soil amendments to aid in drainage and root penetration. A clean cut edge shall be developed. Edging material(s), soil analysis, liming, mulching and fertilization shall be ordered on other ELINs. Work to be completed in 6 working days.	86,250	SF		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C735	Vegetation Removal (Light)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Light vegetation removal is a surface area having a maximum vegetation coverage of up to 30%. Work to be completed in 4 working days.	34,500	SF		\$ -	
C736	Vegetation Removal (Medium)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of 31% to 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
C737	Vegetation Removal (Heavy)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of more than 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
C738	Landscape Filter Fabric	Install this water permeable woven material for weed control as ordered by the Contracting Officer, per manufacturer's recommendations. Work the be completed in 6 working days.	5,750	SY		\$ -	
C739	Fertilization of Trees	Fertilize trees with approved commercial fertilizer under the entire area of the drip line starting from the trunk or stem outward. Work will be completed in 2 working days.	5,750	EA		\$ -	
C740	Fertilization of Shrubs, Hedges, or Ground Cover	Fertilize as recommended by the manufacturer for the type of plant. Work will be completed in 2 working days.	5,750	SF		\$ -	
C741	Fertilization of Roses	Roses are to be fertilized with a product recommended for the type plant and conditions of each location. Work will be completed in 2 working days.	690	EA		\$ -	
C742	Trimming of Shrubs	Maintain the natural form of the plant by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	13,225	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
C743	Trimming of Hedges	Maintain the natural form of the plant or plant row by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	80,500	LF		\$ -	
C744	Trimming of Groundcover	Maintain ground cover at the plants natural height and within the designated bed area. Trim ground cover off of buildings, trees, or other plants as designated. At the bed and lawn edge line show a defined clean edge. Work will be completed in 4 working days.	207,000	SF		\$ -	
C745	Pruning of Shrubs and Hedges (Rejuvenation)	Pruning shall involve severe pruning of overgrown shrubs to within a few inches of the ground, or as directed by the Contracting Officer, to restore the plant to its natural shape. Trimmings shall be disposed of daily. Work will be completed in 4 working days.	2,300	EA		\$ -	
C746	Pruning Roses	Prune rose canes in a manner consistent with current industry standards for pruning. Trimmings and debris shall be disposed of daily. Work will be completed in 4 working days.	230	EA		\$ -	
C747	Tree Pruning (Up to 12" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some cases the contractor may be asked to provide two or more functions. SOLICITATION/CONTRACT N40085-16-R-2216
EXHIBIT D

The Contractor will price the specified COL4 Base Measures and all related ELINS for Option Three (i.e. CLIN (Line Item) 0001, ELINs D001 through D042) (see note 1). Contractors shall provide a unit price for any ELINs even if the quantity is zero (0). In total, Line Item 0001 is the sum of ELINs D001 through D042 and represents the minimum FFP award for Option Three period of performance.

The subsequent CLINs for the base year (i.e. CLINS 0002 through 0071, ELINs D043 through D112) relate to increases in services as defined in the applicable ELIN. The Contractor will price only the additional cost associated with the service increase above the level preceding it so that each amount builds on the one before it. See the below order of precedence for the COL levels and an example of how to price the different COLs:

1. COL4 Base Measures
2. COL4 Additional Measures Level 2 (Option)
3. COL 3 Base Measures (Option)
4. COL 3 Additional Measures Level 2 (Option)
5. COL 2 Base Measures
6. COL 1 Base Measures

These CLINs are optional and will be ordered sequentially to achieve the desired level of service. For each Option Period, the Contractor shall price ELINs in the same manner as explained above for Option Three.

PROVIDE PRICES TO PERFORM FACILITY SERVICES FOR ONE YEAR- FIRM FIXED PRICE - IN ACCORDANCE WITH SECTION C, SPEC ITEM 3

D717	Fertilization (with 25-4-7)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	2,300	LB		\$ -	
D718	Fertilization (with 19-5-9)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	23,000	LB		\$ -	
D719	Fertilization (with 12-25-12)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	11,500	LB		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
D720	Fertilization (with 10-10-10)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
D721	Fertilization (with 10-20-20)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
D722	Liming of Lawns	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 8 working days.	28,750	LB		\$ -	
D723	Fertilization with Broadleaf Weed Control	Uniformly apply fertilizer with broadleaf weed control to the lawn area per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
D724	Vegetation Herbicide	Apply herbicide on undesirable vegetation per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work will be completed in 2 working day.	23,000	SF		\$ -	
D725	Broadleaf Weed Control	Apply broadleaf weed control per the manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
D726	Lawn Repair	Repair lawns to match the existing, adjoining lawn area. Loosen existing soil, rough grade, fine grade fertilize and seed or sod. Work to be completed in 6 working days.	23,000	SF		\$ -	
D727	Topsoil Placement	Place topsoil to depth requested, till mix with sub-soil and roll to provide a smooth depression-free surface. Work to be completed in 4 working days.	1,150	CY		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
D728	Soil Removal	Remove soil to directed depth (up to 24") and protect utilities and adjacent turf. Existing grass, sod, or other vegetation is considered part of soil removal. Remove all materials from Government property within same day. Work to be completed in 4 working days.	575	CY		\$ -	
D729	Creation of Plant Beds	The edge of the plant bed shall extend a sufficient distance from the drip line of the shrubs and groundcovers to provide a natural delineation between the lawn area and the plant bed (mowing line) and to insure their protection from damage by lawn mowers. Work to be completed in 10 working days.	3,450	SF		\$ -	
D730	Liming of Plant Beds	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 6 working days.	23,000	LB		\$ -	
D731	Herbiciding of Plant Beds	Apply pre-emergent and post-emergent herbicides per Herbicide Application Requirements. Work to be completed in 2 working days.	23,000	SF		\$ -	
D732	Mulching of Plant Beds	Use organic or inert mulch to match existing mulch unless directed otherwise. The Government will direct type mulch required for new beds. Care shall be taken not to place mulch on top of annuals or bulbs partially emerging from dormancy. Work to be completed in 6 working days.	253,000	SF		\$ -	
D733	Mulch Removal	Mulch shall be removed in its entirety and stockpiled for future use. Care shall be taken not to disturb or damage shrubs and plants during the mulch removal process. Work to be completed in 4 working days.	86,250	SF		\$ -	
D734	Cultivation/Edging of Plant Beds	Remove all vegetation including the root system and cultivate area to a uniform depth. Add soil amendments to aid in drainage and root penetration. A clean cut edge shall be developed. Edging material(s), soil analysis, liming, mulching and fertilization shall be ordered on other ELINs. Work to be completed in 6 working days.	86,250	SF		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
D735	Vegetation Removal (Light)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Light vegetation removal is a surface area having a maximum vegetation coverage of up to 30%. Work to be completed in 4 working days.	34,500	SF		\$ -	
D736	Vegetation Removal (Medium)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of 31% to 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
D737	Vegetation Removal (Heavy)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of more than 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
D738	Landscape Filter Fabric	Install this water permeable woven material for weed control as ordered by the Contracting Officer, per manufacturer's recommendations. Work the be completed in 6 working days.	5,750	SY		\$ -	
D739	Fertilization of Trees	Fertilize trees with approved commercial fertilizer under the entire area of the drip line starting from the trunk or stem outward. Work will be completed in 2 working days.	5,750	EA		\$ -	
D740	Fertilization of Shrubs, Hedges, or Ground Cover	Fertilize as recommended by the manufacturer for the type of plant. Work will be completed in 2 working days.	5,750	SF		\$ -	
D741	Fertilization of Roses	Roses are to be fertilized with a product recommended for the type plant and conditions of each location. Work will be completed in 2 working days.	690	EA		\$ -	
D742	Trimming of Shrubs	Maintain the natural form of the plant by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	13,225	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
D743	Trimming of Hedges	Maintain the natural form of the plant or plant row by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	80,500	LF		\$ -	
D744	Trimming of Groundcover	Maintain ground cover at the plants natural height and within the designated bed area. Trim ground cover off of buildings, trees, or other plants as designated. At the bed and lawn edge line show a defined clean edge. Work will be completed in 4 working days.	207,000	SF		\$ -

EXHIBIT LINE ITEM NUMBERS
SOLICITATION/CONTRACT N40085-16-R-2216
EXHIBIT E

The Contractor will price the specified COL4 Base Measures and all related ELINS for Option Four (i.e. CLIN (Line Item) 0001, ELINs E001 through E042) (see note 1). Contractors shall provide a unit price for any ELINs even if the quantity is zero (0). In total, Line Item 0001 is the sum of ELINs E001 through E042 and represents the minimum FFP award for Option Four period of performance.

The subsequent CLINs for Option Four (i.e. CLINS 0002 through 0071, ELINs E043 through E112) relate to increases in services as defined in the applicable ELIN. The Contractor will price only the additional cost associated with the service increase above the level preceding it so that each amount builds on the one before it. See the below order of precedence for the COL levels and an example of how to price the different COLs:

1. COL4 Base Measures
2. COL4 Additional Measures Level 2 (Option)
3. COL 3 Base Measures (Option)
4. COL 3 Additional Measures Level 2 (Option)
5. COL 2 Base Measures
6. COL 1 Base Measures

These CLINs are optional and will be ordered sequentially to achieve the desired level of service. For each Option Period, the Contractor shall price ELINs in the same manner as explained above for the Forth Option Year.

PROVIDE PRICES TO PERFORM FACILITY SERVICES FOR ONE YEAR- FIRM FIXED PRICE - IN ACCORDANCE WITH SECTION C, SPEC ITEM 3

ELINs E700 through E787

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E700	COLs1 and COLs 2 Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches and a particular pattern if requested. Edge to provide a uniform edged cut. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 3 working days.	23	AC		\$ -	
E701	General Grass Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 4 working days.	12	AC		\$ -	
E702	Vacant Housing Mowing	Grass shall be mowed and trimmed to a uniform height of 3 inches regardless of existing grass height, fences or shape of lot. All debris shall be removed. Grass clippings shall also be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Maximum lot size is 2,400 S.F. Work to be completed in 3 working days.	1,150	EA		\$ -	
E703	Field Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Work to be completed in 3 working days.	1,150	AC		\$ -	
E704	Industrial Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Storage areas, railroad beds and ramps, etc.. are considered Industrial Areas. Work will be completed in 3 working days.	63	AC		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E705	Mound Mowing	Grass shall be mowed and trimmed to a uniform height of 4 inches. Mounds are man-made rises that may cover buildings or structures. Excess clippings and debris shall be removed same day as cutting. Work to be completed in 3 working days.	23	AC		\$ -	
E706	Edging	Edging to provide a uniform edged cut. Grass clippings shall be removed from walkways, driveways, hard surfaces, etc., promptly upon completion of the work. Work to be completed in 3 working days.	23,000	LF		\$ -	
E707	Border Edging (Plastic) for Plant Beds	Install plastic border edging constructed of an industrial polyethylene specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. Remove debris daily. Work to be completed in 3 working days.	12,000	LF		\$ -	
E708	Border Edging (Wood) for Plant Beds	Install treated wood timbers specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. Timber minimum is 2" x 6". Remove debris daily. Work to be completed in 3 working days.	3,450	LF		\$ -	
E709	Border Edging (Steel) for Plant Beds	Install metal border edging specifically designed for this purpose, per manufacturer's specifications to provide a clear cut division between planted areas and adjacent lawns. The metal minimum is 1/4" thick x 5' wide. Remove debris daily. Work to be completed in 4 working days.	1,150	LF		\$ -	
E710	Leaf and Debris Raking for Lawns and Plant Beds	Rake and remove leaves, pine straw, pine cones, limbs, gumballs, nuts and other accumulated debris from lawns or Plant Bed areas. All debris shall be removed the same day as raked. Work to be completed in 4 working days.	57	AC		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E711	Sod Placement - Fescue	Provide sod resulting in a level, healthy grass area per industry standards and manufacturer's recommendations. Work to be completed in 16 working days.	230	SY		\$ -	
E712	Sod Placement - Bermuda	Provide sod resulting in a level, healthy grass area per industry standards and manufacturer's recommendations. Work to be completed in 16 working days.	575	SY		\$ -	
E713	Dethatch and Aerate Lawns	Set tines according to type of grass and de-thatch by machine or by hand in small areas. Remove thatched material from the lawn and dispose of debris daily. Work shall be completed within 4 working days.	115	AC		\$ -	
E714	Seeding with Rye/Fescue	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	57	AC		\$ -	
E715	Seeding with Bermuda (Fall - Unhulled)	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	1,150	AC		\$ -	
E716	Seeding with Bermuda (Spring - Hulled)	Place seed with equipment and application quantities suggested by the manufacturer. Work will be completed in 2 working days.	1,150	AC		\$ -	
E717	Fertilization (with 25-4-7)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	2,300	LB		\$ -	
E718	Fertilization (with 19-5-9)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	23,000	LB		\$ -	
E719	Fertilization (with 12-25-12)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	11,500	LB		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E720	Fertilization (with 10-10-10)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
E721	Fertilization (with 10-20-20)	Uniformly apply appropriate granular slow release type fertilizer for lawns per manufacturer's recommendations. Work will be completed in 2 working days.	115,000	LB		\$ -	
E722	Liming of Lawns	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 8 working days.	28,750	LB		\$ -	
E723	Fertilization with Broadleaf Weed Control	Uniformly apply fertilizer with broadleaf weed control to the lawn area per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
E724	Vegetation Herbicide	Apply herbicide on undesirable vegetation per manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work will be completed in 2 working day.	23,000	SF		\$ -	
E725	Broadleaf Weed Control	Apply broadleaf weed control per the manufacturer's recommendations. Chemicals are limited to approved use as per the Integrated Pest Management Plan (IPMP). Work to be completed in 2 working days.	17	AC		\$ -	
E726	Lawn Repair	Repair lawns to match the existing, adjoining lawn area. Loosen existing soil, rough grade, fine grade fertilize and seed or sod. Work to be completed in 6 working days.	23,000	SF		\$ -	
E727	Topsoil Placement	Place topsoil to depth requested, till mix with sub-soil and roll to provide a smooth depression-free surface. Work to be completed in 4 working days.	1,150	CY		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E728	Soil Removal	Remove soil to directed depth (up to 24") and protect utilities and adjacent turf. Existing grass, sod, or other vegetation is considered part of soil removal. Remove all materials from Government property within same day. Work to be completed in 4 working days.	575	CY		\$ -	
E729	Creation of Plant Beds	The edge of the plant bed shall extend a sufficient distance from the drip line of the shrubs and groundcovers to provide a natural delineation between the lawn area and the plant bed (mowing line) and to insure their protection from damage by lawn mowers. Work to be completed in 10 working days.	3,450	SF		\$ -	
E730	Liming of Plant Beds	Determine pH of soil, and based on test provide liming to achieve a pH of around 6.2. Work to be completed in 6 working days.	23,000	LB		\$ -	
E731	Herbiciding of Plant Beds	Apply pre-emergent and post-emergent herbicides per Herbicide Application Requirements. Work to be completed in 2 working days.	23,000	SF		\$ -	
E732	Mulching of Plant Beds	Use organic or inert mulch to match existing mulch unless directed otherwise. The Government will direct type mulch required for new beds. Care shall be taken not to place mulch on top of annuals or bulbs partially emerging from dormancy. Work to be completed in 6 working days.	253,000	SF		\$ -	
E733	Mulch Removal	Mulch shall be removed in its entirety and stockpiled for future use. Care shall be taken not to disturb or damage shrubs and plants during the mulch removal process. Work to be completed in 4 working days.	86,250	SF		\$ -	
E734	Cultivation/Edging of Plant Beds	Remove all vegetation including the root system and cultivate area to a uniform depth. Add soil amendments to aid in drainage and root penetration. A clean cut edge shall be developed. Edging material(s), soil analysis, liming, mulching and fertilization shall be ordered on other ELINs. Work to be completed in 6 working days.	86,250	SF		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E735	Vegetation Removal (Light)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Light vegetation removal is a surface area having a maximum vegetation coverage of up to 30%. Work to be completed in 4 working days.	34,500	SF		\$ -	
E736	Vegetation Removal (Medium)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of 31% to 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
E737	Vegetation Removal (Heavy)	Remove all vegetation including the root system around, fixtures, structures or other appurtenances. Heavy vegetation removal is a surface area having a maximum vegetation coverage of more than 70%. Work to be completed in 4 working days.	34,500	SF		\$ -	
E738	Landscape Filter Fabric	Install this water permeable woven material for weed control as ordered by the Contracting Officer, per manufacturer's recommendations. Work the be completed in 6 working days.	5,750	SY		\$ -	
E739	Fertilization of Trees	Fertilize trees with approved commercial fertilizer under the entire area of the drip line starting from the trunk or stem outward. Work will be completed in 2 working days.	5,750	EA		\$ -	
E740	Fertilization of Shrubs, Hedges, or Ground Cover	Fertilize as recommended by the manufacturer for the type of plant. Work will be completed in 2 working days.	5,750	SF		\$ -	
E741	Fertilization of Roses	Roses are to be fertilized with a product recommended for the type plant and conditions of each location. Work will be completed in 2 working days.	690	EA		\$ -	
E742	Trimming of Shrubs	Maintain the natural form of the plant by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	13,225	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E743	Trimming of Hedges	Maintain the natural form of the plant or plant row by removing new growth. Cuttings shall be disposed of daily. Work will be completed in 4 working days.	80,500	LF		\$ -	
E744	Trimming of Groundcover	Maintain ground cover at the plants natural height and within the designated bed area. Trim ground cover off of buildings, trees, or other plants as designated. At the bed and lawn edge line show a defined clean edge. Work will be completed in 4 working days.	207,000	SF		\$ -	
E745	Pruning of Shrubs and Hedges (Rejuvenation)	Pruning shall involve severe pruning of overgrown shrubs to within a few inches of the ground, or as directed by the Contracting Officer, to restore the plant to its natural shape. Trimmings shall be disposed of daily. Work will be completed in 4 working days.	2,300	EA		\$ -	
E746	Pruning Roses	Prune rose canes in a manner consistent with current industry standards for pruning. Trimmings and debris shall be disposed of daily. Work will be completed in 4 working days.	230	EA		\$ -	
E747	Tree Pruning (Up to 12" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some cases the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimming and debris shall be disposed of daily. Work will be completed in 6 working days.	115	EA		\$ -	
E748	Tree Pruning (12 1/8" to 24" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some cases the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	115	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E749	Tree Pruning (24 1/8" to 36" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some case the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	230	EA		\$ -	
E750	Tree Pruning (36 1/8" to 48" Caliper)	Prune trees in a manner consistent with the current industry standards for pruning. Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some case the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	115	EA		\$ -

Contractor may be directed by the Government to thin crown, clean crown, or reduce crown, or raise crown by pruning, or in some case the contractor may be asked to provide two or more functions. Climbing and spikes are not allowed. Trimmings and debris shall be disposed of daily. Work will be completed in 6 working days.	23	EA		\$ -	
E752	Pollarding Crape Myrtles	Remove all lateral branches back to the same spot on the multiple trunks. This is usually performed in the spring to developed large flower panicles. Work will be completed in 6 working day.	115	EA		\$ -	
E753	Limb Removal (Over 1" Caliper)	Remove dead, split, weakly attached or other branches that exceed 3" in diameter as directed by the Contracting Officer. Remove debris from the work site daily. Work will be completed in 4 working day.	115	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E754	Sucker Removal from Base of Tree Trunk	Remove all sucker growth in its entirety from the base of the tree trunk and up to 12" surrounding the trunk without any damage occurring to the tree. "EA" represents each TREE TRUNK. Remove debris from the work site daily. Work will be completed in 4 working days.	230	EA		\$ -	
E755	Sapper Removal from Tree Trunk	Remove all sapper growth (less than one inch in Caliper) in its entirety from between the lower limbs and the base of the tree trunk without any damage occurring to the tree. "EA" represents each TREE. Remove debris from the work site daily. Work will be completed in 4 working days.	230	EA		\$ -	
E756	Tree Removal (Up to 6" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	46	EA		\$ -	
E757	Tree Removal (6 1/8" to 12" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	23	EA		\$ -	
E758	Tree Removal (12 1/8" to 24" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	23	EA		\$ -	
E759	Tree Removal (24 1/8" to 36" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	17	EA		\$ -	
E760	Tree Removal (36 1/8" to 48" Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 4 working days.	17	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E761	Tree Removal (48 1/8" and Above Caliper)	Cut down and remove trees using standard trade practices and safety procedures. Remove all debris from Government property daily and rake area clean. Work will be completed 6 working days.	23	EA		\$ -	
E762	Stump Removal (Large)	Remove large stumps (4" diameter and up, measuring across the stump) to a depth of 18" below grade. Remove all debris from the process and fill void where stump was removed with earth similar to existing earth. Rake and grade new soil and seed area to match existing grass. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	2,875	IN		\$ -	
E763	Stump Removal (Small)	Remove small stumps (up to 4" diameter, measuring across the stump) to a depth of 18" below grade. Remove all debris from the process and fill void where stump was removed with earth similar to existing earth. Rake and grade new soil and seed area to match existing grass. Remove all debris from Government property daily. Work will be completed within 2 working days of receiving a digging permit.	57	EA		\$ -	
E764	Surface Ground Root Removal	Remove surface roots to a depth of 6" below grade. Unit of measure is linear inches of root requiring removal. Remove all debris from the process and fill void where roots were removed with earth similar to existing earth. Rake and grade new soil and see area to match existing grass. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	1,150	IN		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E765	Shrub Removal (All Sizes)	Remove shrubs and their root system n their entirety. Fill void to grade with topsoil, deed and fertilize to blend with the surrounding area. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	115	EA		\$ -	
E766	Ground Cover Removal	Remove ground cover to a depth of not less than four inches deep, including all root systems. Fill void to grad with topsoil, deed and fertilize to blend with the surrounding area. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	1,725	SF		\$ -	
E767	Transplanting of Trees (Up to 2" Caliper)	Remove trees from existing location and transplant in a new location in accordance with best trade practices. Use excess soil from planting area to fill void where tree was removed. Rake to grade and seed if in a lawn area. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	11	EA		\$ -	
E768	Transplanting of Trees (2 1/8" to 5" Caliper: By Mechanical Tree Spade Only)	Remove trees from existing location and transplant in a new location in accordance with best trade practices. Use excess soil from planting area to fill void where tree was removed. Rake to grade and seed if in a lawn area. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	11	EA		\$ -	
E769	Transplanting of Shrubs (Up to 3' Height and Spread)	Remove shrubs from existing location and transplant in a new location in accordance with best trade practices. Use excess soil from planting area to fill void where shrub was removed. Rake to grade and seed if in a lawn area. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	28	EA		\$ -	

ELIN	Product Name	Description Extended	Quantity	Unit of Issue	Unit Price	Extended Price	IMAP CAC(s)
E770	Transplanting of Shrubs (3'1" to 6' Height and Spread)	Remove shrubs from existing location and transplant in a new location in accordance with best trade practices. Use excess soil from planting area to fill void where shrub was removed. Rake to grade and seed if in a lawn area. Remove all debris from Government property daily. Work will be completed within 4 working days of receiving a digging permit.	28	EA		\$ -
