**SUMMARY OF CHANGES**

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

AMENDMENT 0006

**PRE-PROPOSAL INQUIRY**

REFERENCE			QUESTION	GOVERNMENT RESPONSE	Posted on Amend No.	Response number
Page	Section	Para				
			<p>At Building 172, the blast requirement cannot be met due to the parking lot being in close proximity to the building. There is not a single manufacturer who can quote this project. The specification is flawed and needs to be revised to utilize a curtain wall system in lieu of what is specified. This is option 10 (clin 0013).</p> <p>At building 678- the work is scheduled to be performed as a base bid item. Again the same situation regarding the flawed specification exists at this building whereby no Manufacturer can quote this project.</p> <p>This is a very important item that must be addressed via an amendment.</p>	<p>The actual dimension from the building to the parking lot on the south side of building 678 is 17.7', not 7.7'. It appears that the "1" is obscured by the line indicating the edge of the sidewalk on drawing C-100 of the documents. For both B172 and B678, the A-E has designed window supports based on the applicable explosive weights and standoff distances that can be pulled from the site plans (C-101 for B172, and C-100 for B678). The offeror should only be concerned with their glazing, window frame and connection to the steel elements shown. There is no poured concrete.</p>	<p>Amendment 0006</p>	<p>11</p>
