INSTRUCTIONS TO OFFERORS

A. DESCRIPTION OF REQUIREMENT

1. This acquisition will result in the award of a Firm-Fixed Price (FFP) contract for DESIGN BUILD FOR RM09-0759, REPAIR Q4 NGIS/UH BUILDING R63 NAVAL STATION NORFOLK, VIRGINIA.

2. Restoration/modernization of this facility is required by FRAGORD 04 to CNIC N4 POM12 WARNORD: Project Submission Guidance in Support of the Elimination of Q4 Bachelor Quarters (BQ/Q4) and by ADDENDUM 7 to the CNIC N4 PROJECT DEVELOPMENT AND ASSESSMENT WARNING ORDER FOR SHORE PROGRAM REVIEW, FISCAL YEARS 2013-2017 (PR-13): BACHELOR QUARTERS (BQs) (Q4) AND (Q3) Naval Station Norfolk has a continuing responsibility to provide adequate, habitable housing for bachelor enlisted personnel. The 2009 Basic Facility requirements for Naval Station Norfolk show a deficit of 3,312 beds for E1-E4 permanent party personnel. Bachelor housing is also required to eliminate all gang heads located in permanent party BQs. Unified Facilities Criteria (UFC) 4-010-01, DoD Minimum Antiterrorism Standards for Buildings, requires compliance with the standards contained therein if the project cost for an existing building exceeds 50% of the building Plant Replacement Value (PRV). This condition applies to the work proposed for Building IF and of major cost impact are the provisions of Standard 10.

D. BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at anytime prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the proposal determined to represent the best value—the proposal most advantageous to the Government, price and other factors considered.
2. The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
3. The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.
4. Phase I proposals will be evaluated based on their technical merits for the identified criteria for technical factors 1, 2, and 3. Factor 1 will only be rated as Acceptable or Unacceptable. If an offeror is rated Unacceptable, then they will not be considered for award. A maximum of five offerors will be selected to submit Phase II proposals. However, the Contracting Officer may select additional offerors for Phase II if deemed necessary. The proposal due date for Phase II will be established by amendment after the completion of Phase I. The technical evaluation ratings from Phase I will carry over to Phase II. For the overall rating and best value consideration, only Factors 4,5,6 and 7 will be considered All technical factors when combined are of equal importance to the performance confidence assessment (past performance) rating; and all technical factors and the performance confidence assessment (past performance) rating, when combined are significantly more important than price.
5. Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal. The evaluation report must document the evaluation board's assessment of the identified weakness(es) and the associated risk to successful contract performance resulting from the weakness(es). This assessment must provide the rationale for proceeding to award without discussions.

E. EVALUATION FACTORS FOR AWARD

1. The solicitation requires the evaluation of price and the following non-price factors and subfactors:

Phase I:

- Factor 1 – Technical Approach
- Factor 2 – Experience
- Factor 3 – Past Performance

Phase II:

Factor 4 – Safety

Factor 5 – Technical Solution

Factor 6 – Energy and Sustainable Design

Factor 7 – Small Business Utilization

Subfactor 7A – Past Performance in Utilization of Small Business Concerns

Subfactor 7B – Small Business Participation

The difference between experience and past performance is that experience pertains to the type of work completed by a contractor that is comparable to the type of work in the RFP in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

2. The relative order of importance of the non-price evaluation factors and subfactors is the technical Factors, 1, 2, 4, 5, 6 and 7 are of equal importance to each other, respectively and, when combined are equal in importance to the past performance evaluation/performance confidence assessment factor (Factor 3). When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the non-price evaluation factors) are approximately equal to price. For purposes of determining the technical rating for Factor 7, subfactors 7A and 7B are equal to each other.

The importance of price will increase if the Offerors' non-price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-price proposal's superiority to the Government. In any event, award will be made to the responsible Offeror(s) representing the best value to the Government, price and non-price factors considered.

3. Basis of Evaluation and Submittal Requirements for Each Factor.**(a) Price:****(1) Solicitation Submittal Requirements:**

The offeror shall submit (1) original, marked "Original", and (1) copy, marked "copy", in a separate three ring binder with the following:

- ... SF1442, signed with all amendments acknowledged
- ... Price Proposal Form
- ... Copy of Representation and Certifications from ORCA
- ... Bid Bond
- ... VETS-4212
- ... Include a cover page with Solicitation Number, Solicitation Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact, phone number, and email address.

The Offeror is required to submit a complete Pricing Schedule that includes completion of all line items (CLINS).

(2) Basis of Evaluation:

The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (all CLINs). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.
- (ii) Comparison of proposed prices with the IGCE.
- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

(3) Solicitation Submittal Requirements Non-Price Factors:

Solicitation Submittal Requirements for Technical: Submit information for technical factors 1 through 3 under Phase 1. Submit information for technical factors 4 through 7 under Phase II. For each phase, the offeror shall submit one (1) original, marked "Original", one (1) CD-ROM, and four (4) copies, marked "copy", in a separated three ring binder with the following:

- ... Text pages 8 ½ x 11 format
- ... Drawings 11x17 inches and folded down to 8 ½ x 11 inches
- ... 11 point font, Times New Roman
- ... A complete electronic copy of the technical proposal as a single pdf file on a CD-ROM (included with the "Original" technical submission)
- ... Include a cover page with Solicitation Number, Solicitation Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact, Title, Phone number, and email address.

(b) Non-Price Factors:

Phase 1, Non-Price Evaluation Factors:

Factor 1 – Technical Approach:

(a) Solicitation Submittal Requirements:

The composition and management of the firms proposed as the design-build (DB) team for this contract will be evaluated in this factor.

The Offeror shall submit the following information:

- (1) Provide a narrative describing the proposed primary construction firms and primary design firms for this contract and the rationale for proposing this arrangement. Provide the role, responsibilities, and contractual relationships between the various firms (see FAR Subpart 9.6). The narrative shall also include a simple organizational chart that clearly identifies the lines of authority between the entities. If the experience of a significant subcontractor is being claimed in Factor 2, the firm must be named in the above narrative and organizational chart.
- (2) The technical approach narrative shall be limited to one (1) double-sided page (or two (2) single-sided pages) including the organizational chart. The information requested in item #3 below is not included in this page limitation.
- (3) In addition to the narrative, the Offeror shall submit a signed copy of a joint venture agreement, partnership agreement, teaming agreement, or letter of commitment for each member of the Offeror's team identified above (e.g., joint venture partner, partner, team member, subcontractor, parent company, subsidiary, or other affiliated company, etc.).

(b) Basis of Evaluation:

The assessment of the Offeror's technical approach will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. This factor will be rated on an Acceptable or Unacceptable basis. Offerors that are rated Unacceptable will be found ineligible to proceed to Phase II.

Factor 2 – Experience:

(a) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

(1) Construction Experience:

Submit a minimum of one (1) up to a maximum of five (5) relevant construction projects for the Offeror that best demonstrates your experience on relevant projects (similar in size, scope, and complexity to the RFP). Any projects submitted in excess of five (5) will not be considered. For purposes of this evaluation, a relevant project is further defined as:

Size: Facility of at least 25,000 total square feet, **and** construction cost of \$15,000,000 or greater.

Scope/Complexity: Comprehensive, whole building (interior and exterior) renovation of a multi-story (minimum of two stories) facility that includes the following:

- ... Building envelope ; **and**
- ... Comprehensive plumbing, mechanical, and electrical renovation.

All projects submitted must have been completed within the past seven (7) years of the date of issuance of this RFP.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather, Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment A) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods). In addition, the description should also address any sustainable features for the project, including specific descriptions of those features. Clearly identify projects that are certified by the U.S. Green Building Council (USGBC) LEED and the rating level. Also identify if the project is LEED "Self Certified" or "Sustainable Validated" project (i.e. those that were not able to achieve LEED certification).

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects may be submitted for the Joint Venture members. Offerors who fail to submit experience for all Joint Venture members may be rated lower. Offerors are still limited to a total of five (5) projects combined.

If an Offeror is utilizing experience information of affiliates/ subsidiaries/ parent/ LLC/ LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

Experience of proposed subcontractors will not be considered for construction experience.

(2) Design Experience

Submit a minimum of one (1) up to a maximum of five (5) design projects for the design team that best demonstrates design experience on relevant projects (similar in size, scope, and complexity to the RFP). For purposes of this evaluation, a relevant project is further defined as:

Size: Facility of at least 25,000 total square feet, **and** estimated construction cost of \$15,000,000 or greater.

Scope/Complexity: Comprehensive, whole building (interior and exterior) renovation of a multi-story (minimum of two stories) facility that includes the following:

- ... Building envelope ; **and**
- ... Comprehensive plumbing, mechanical, and electrical renovation.

Projects submitted shall be completed within the past seven (7) years of the date of issuance of this RFP. For design-build projects, the design portion of the contract shall have been completed within the past seven (7) years of the date of issuance of this RFP.

A project is defined as a complete design effort performed under a single task order or contract/subcontract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole should not be submitted as a project; rather Offerors should submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment A) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods). In addition, the description should also address any sustainable features for the project, including specific descriptions of those features. Clearly identify projects that are certified by the U.S. Green Building Council (USGBC) LEED and the rating level. Also identify if the project is LEED "Self Certified" or "Sustainable Validated" project (i.e. those that were not able to achieve LEED certification).

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract. If meaningful involvement is not demonstrated, experience of the affiliate/subsidiary/parent firm will not be considered.

The Offeror may utilize experience of a design subcontractor to demonstrate design experience under this evaluation factor. The Offer must provide a supporting joint venture agreement, partnership agreement, teaming agreement, or letter of commitment and an explanation of the meaningful involvement for the design subcontractor.

(b) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience and depth of experience in performing relevant construction and design projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. Any projects submitted in excess of the five (5) for Construction Experience and five (5) for Design Experience will not be considered.

Relevant projects where the Offeror and the proposed design firm(s) have previously worked together may receive a higher rating than those that have not worked together.

Relevant projects that demonstrate design-build experience may receive a higher rating than those that do not have design-build experience.

Relevant projects that demonstrate experience with sustainable features may receive a higher rating than those that do not demonstrate experience with sustainable features.

Relevant projects that demonstrate experience with ATFP and Progressive Collapse design and/or construction may receive a higher rating than those that do not demonstrate experience with ATFP and Progressive Collapse.

Relevant projects that demonstrate experience with multi-unit residential living facilities such as Bachelor Quarters, dormitories, condominiums, or apartment buildings may receive a higher rating than those that do not demonstrate experience with multi-unit residential facilities.

Factor 3 - Past Performance:

(a) Solicitation Submittal Requirements:

If a completed Construction Contractor Appraisal Support System (CCASS), Architect-Engineer Contractor Appraisal Support System (ACASS) or Contractor Performance Assessment Reports System (CPARS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 1 for construction experience. If there is not a completed CCASS or CPARS evaluation, then submit Past Performance Questionnaires (Attachment B) for each project included in Factor 1. The Offeror should provide completed Past Performance Questionnaires (PPQ) in the proposal. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror shall complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to help ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Ronald V. Smiley, (757) 341-0836 or Ronald.smiley2@navy.mil.

Offerors may provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 2 – Experience. Offerors may also address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor.

Performance award or additional information submitted will not be considered.

(b) Basis of Evaluation:

This evaluation focuses on how well the Offeror performed on the relevant projects submitted under Factor 2 – Experience and past performance on other projects currently documented in known sources. More emphasis will be placed on more relevant projects. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of

a partnership or joint venture identified in the Offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror.

The Government will consider the currency and relevance of the information, the source of the information, context of the data, and general trends in the Contractor's performance. This evaluation is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the Offeror's past performance will be used as a means of evaluating the Offeror's probability to successfully meet the requirements of the RFP.

Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably in past performance and will receive an Unknown Confidence rating.

Phase 2, Non-Price Evaluation Factors:

Factor 4 – Safety:

(a) Solicitation Submittal Requirements:

The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each Contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR and DART Rates shall not be submitted for subcontractors.)

(1) Experience Modification Rate (EMR): For the **three** previous complete calendar years [**2013, 2014, and 2015**], submit Offeror's EMR (which compares your company's annual losses in insurance claims against its policy premiums over a **three** year period). If you have no EMR, affirmatively state so, and explain why. Any extenuating circumstances that affected the EMR and upward or downward trends should be addressed as part of this element. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: For the **three** previous complete calendar years [**2013, 2014, 2015**], submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA DART Rate data and upward or downward trends should be addressed as part of this element. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach for Safety: Describe the plan that the Offeror will implement to evaluate safety performance of potential subcontractors, as a part of the selection process for all levels of subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages.

(b) Basis of Evaluation:

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The Government will evaluate the Offeror's overall safety record, the Offeror's plan to select and monitor subcontractors, any and innovative safety methods that the Offeror plans to implement for this procurement. The Government's sources of information for evaluating safety may include, but are not limited to, OSHA, NAVFAC's Facility Accident and Incident Reporting (FAIR) database, and other related databases. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the Offeror. The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
- OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate

- Offeror Technical Approach to Safety
- Other sources of information available to the Government

(1) Experience Modification Rate (EMR):

The Government will evaluate the EMR to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rating. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:

The Government will evaluate the OSHA DART Rate to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rates. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach to Safety:

The Government will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The Government will also evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement. Those Offerors whose plan demonstrates a commitment to hire subcontractors with a culture of safety and who propose innovative methods to enhance a safe working environment may be given greater weight in the evaluation.

Factor 5 – Technical Solution

(a) Solicitation Submittal Requirements:

Provide a narrative describing your understanding and approach to executing the project that meets the requirements of the RFP. The narrative shall address the project site work, utilities, site access, anti-terrorism/force protection features, building layout, building envelope, building systems including structure, HVAC, and electrical, and a description of the general concept proposed to meet low impact development (LID).

Narrative shall not exceed six (6) double-sided pages (or 12 single-sided pages). Up to three (3) conceptual 11” x 17” drawings may be provided to supplement the narrative.

Offeror shall use the conceptual floor, elevation, site, and other plans provided with the RFP as the basis for their design.

(b) Basis of Evaluation:

The Government will evaluate the narrative and conceptual drawings (if included) considering the extent to which the Offeror demonstrates a clear understanding of the architectural and engineering requirements of the project. The Government will evaluate the Offeror's technical solution to determine adherence to the technical requirements of the RFP.

Factor 6 – Energy and Sustainable Design

(a) Solicitation Submittal Requirements:

Provide the following information, which describes how the project will meet or exceed the following sustainable design contract requirements.

(1) EPC Act 2005 Energy Efficiency Narrative:

Using the guidance outlined in Part 3 of this RFP, provide a detailed narrative to describe whether the proposed solution will meet or exceed the goal of a 30% energy reduction using the ASHRAE Std 90.1-2010, Appendix G, Building Performance Rating Method, excluding receptacle and process loads. Provide the proposed percent energy reduction. Provide the assumptions the Offeror will use to obtain a high-performance building, which will comply with these energy reduction goals. Describe the Offeror's proposed building with regards to building orientation, shape, fenestration, solar heat gain coefficients (SHGC), wall and roof insulation values (U-values), HVAC systems, water heating systems, lighting systems, and control systems. Organize/divide the assumptions into four areas; building orientation and configuration, building envelope, mechanical systems, and electrical systems. If the Offeror cannot achieve the 30% reduction within the budget identified, the Offeror shall state the percentage of energy reduction it estimates will be obtained within their proposal. Do not exceed two (2) double-sided pages (or four (4) single-sided pages). *Note: Building performance rating and percent energy reduction are calculated in terms of energy usage rather than energy cost.*

(b) Basis of Evaluation:

The Government will evaluate the Offeror's response to the Energy and Sustainable Design Factor considering the proposed energy savings, reduction to the total cost of ownership, and/or an increase in the reliability and maintainability of the facility.

EPC Act 2005 Energy Efficiency Narrative: The Government will evaluate the Offeror's proposed energy budget reduction relative to ASHRAE Std 90.1-2010 energy efficiency goals, including evaluation of assumptions.

Factor 7 – Small Business Utilization:

Factor 7 consists of two Subfactors, 7A, Past Performance in Utilization of Small Business Concerns, and 7B, Small Business Participation. The evaluation of Subfactors 7A and 7B are of equal importance to the determination of Factor 7 Rating.

Definitions: "SB" as used herein, is intended to include Small Business concerns, Small Disadvantaged Business concerns (SDB), Women-Owned Small Business concerns (WOSB), Historically Underutilized Business Zone Small Business concerns (HUBZone), Veteran-Owned Small Business concerns (VOSB), and Service-Disabled Veteran-Owned Small Business concerns (SDVOSB). All small business programs are self-certifying programs with the exception of HUBZone certifications, see HUBZone SB Certifications below. Small Business Program requirements and definitions may be found in the Federal Acquisition Regulations (FAR), Part 19.

HUBZone SB Certifications: Offerors are reminded that HUBZone SB concerns must obtain formal certification from the Small Business Administration (SBA) if they expect to receive the evaluation benefits associated with the HUBZone SB programs either as a prime or subcontractor(s). For more information on the HUBZone SB certification requirements and available benefits, contact your local SBA representative. Certified HUBZone SB firms are listed on the U.S. Small Business Administration's Dynamic Small Business Search (DSBS) website at http://web.sba.gov/pro-net/search/dsp_dsbs.cfm. It is the responsibility of the prime contractor to periodically check the DSBS as certifications are subject to change.

Subfactor 7A – Past Performance in Utilization of Small Business Concerns:(a) Solicitation Submittal Requirements:

Proposals that do not include responses addressing ALL elements of the requirements stated below (a. through d.) must include an explanation why that element is not addressed.

- a. Provide performance evaluation ratings (i.e., SF1420, DD2626, or equivalent) obtained on the implementation of small business subcontracting plans for all of the Offeror's construction projects

- referenced under Factor 2, Experience. Recently completed project evaluations are desired, however, in the absence of recently completed project evaluations, interim ratings for projects that are 80% complete may be considered. If more than five evaluation ratings are provided, only the first five will be considered. In addition, the Government may consider past performance information on other projects as made available to the Government from other sources (such as the Construction Contractor Appraisal Support Systems (CCASS)), Architect-Engineer Contract Administration Support System (ACASS) and Contractor Performance Assessment Reporting System (CPARS)).
- b. Provide small business subcontracting history. Large businesses with Federal prime contracting experience shall provide final or current Subcontracting Report for Individual Contracts (SF294) or Individual Subcontracting Reports (ISR's) on prime (only) contracts submitted under Factor 2, Experience. If Factor 5 submitted contracts are not prime contracts, submit SF294s or ISRs for contracts of similar scope performed as the prime contractor. If goals were not met on any submitted contracts, an explanation for each unmet goal is required. Large Businesses with no documented SF294/ISR history shall submit a subcontracting history on Attachment C, Small Business Past Performance. If more than five (5) reports are provided, only the first 5 reports will be considered
 - c. Small Business proposers shall provide a subcontracting history on Attachment (C), Small Business Past Performance.
 - d. If an Offeror is utilizing past performance information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the solicitation), the proposal shall clearly demonstrate that the affiliates/subsidiaries/parent/LLC/LTD member companies will have meaningful participation of all members in the management of the subcontracting program/plan by identifying the personnel or resources from the member companies that will be dedicated to managing the plan, and an organization chart which demonstrates the reporting chain within the membership.

If the Offeror is a Joint Venture, Partnership LLC or other entity consisting of more than one entity, provide past performance information, elements a. through d., for each individual business entity(s) that will be responsible for managing the subcontracting program/plan.

Proposals including information on any of the following additional elements may be rated higher, based on the evaluated extent to which the information addresses the basis of evaluation in paragraph (ii):

- a. Provide information on national-level, and industry-issued awards that offerors received for outstanding support to SB concerns within the past five (5) years. Include purpose, issuer, and date of award(s). National and industry-issued awards received beyond five (5) years will not be considered.
- b. Provide information on previous, existing, planned or pending mentor-protégé agreements (MPA) under any Federal Government, or other, and program held within the last five years. Information should include, at a minimum, the members, objectives, period of performance, and major accomplishments during the MPA.
- c. Provide information on past use of Community Rehabilitation Program (CRP) organizations certified under the AbilityOne Program by SourceAmerica or the National Industry for the Blind (NIB). Information should include the contract type, type of work performed, period of performance, and number of employed severely handicapped persons.

(b) Basis of Evaluation:

The extent to which the proposal demonstrates the proposer's level of past performance in utilizing Small Business (SB) concerns, AbilityOne, Mentor-Protégé Agreements, and other socio-economic programs, as defined in FAR Parts 26.1 and 26.2, in subcontracting, and in meeting established Small Business subcontracting goals.

Subfactor 7B – Small Business Participation:

(a) Solicitation Submittal Requirements:

Identify in terms of dollar value and percentage of the total acquisition, the extent of work you will perform as the prime contractor. If submitting an offer as a Joint-Venture, identify the percentage of work each member will be responsible for and indicate the size status of each member, e.g., LB, SB, SDB, WOSB, HUBZone SB, etc.

If you are a Large Business, submit a Small Business Subcontracting Plan for this project in the format provided in Attachment D for this factor, to include all information required in the attachment. If you are a Small Business, submit a subcontracting participation breakdown in the format provided in Attachment E for this factor. All proposers: To demonstrate commitment in using small business concerns, the Small Business Subcontracting Plan or subcontracting participation breakdown may list all subcontractors by name. If the proposed Small Business Subcontracting goals do not meet the minimum NAVFAC Small Business Subcontracting Targets, include a detailed explanation describing the actions taken to arrive at that determination, along with an explanation for the goals that actually were proposed. For proposals submitted on design-build solicitations, the proposer must identify its designer/design team in its Subcontracting Plan or Small Business Participation Breakdown.

Firm commitments to subcontract to multiple companies: The Offeror may provide a demonstration of commitments in planned subcontracts by listing multiple names of companies that will be used to support specific small business category (i.e., SB, SDB, WOSB, HUBZone SB, VOSB and SDVOSB).

(b) Basis of Evaluation:

The following will be evaluated on all proposals:

- a. The extent to which the proposal demonstrates maximum practicable participation of SBs in terms of the total value of the acquisition, including options.
- b. The extent to which the proposal demonstrates a commitment to use SB concerns that are specifically identified in the proposal, including but not limited to use of mentor protégé programs.
- c. The extent to which the proposal demonstrates SB participation in a variety of industries expected during the performance of work.
- d. The realism of the proposal to meet the proposed goals.

The following will be evaluated on proposals submitted by Large Business firms:

- a. The extent to which the proposal provides Small Business Subcontracting goals that meet or exceed the minimum NAVFAC Small Business Subcontracting Targets, and utilization of AbilityOne CRP organizations. Proposals that provide goals exceeding the NAVFAC Subcontracting Targets may be rated higher. The proposed goals and NAVFAC Subcontracting Targets are expressed as a percentage of total subcontracted values. The minimum NAVFAC Subcontracting Targets are as follows:

Program	FY 2016
SB	65%
SDB	15%
WOSB	15%
HUBZone	6%
SDVOSB	5%

- b. The extent to which the proposer’s Small Business Subcontracting Plan establishes reasonable efforts demonstrating the subcontracting targets can be met during the performance of the contract:

- Attachment D – Small Business Subcontracting Plan
- Attachment E – Small Business Offeror Small Business Participation Breakdown

Designated country construction material means a construction material that is a WTO GPA country construction material, an FTA country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

Domestic construction material means--

- (1) An unmanufactured construction material mined or produced in the United States;
- (2) A construction material manufactured in the United States, if--
 - (i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or
 - (ii) The construction material is a COTS item.

Foreign construction material means a construction material other than a domestic construction material.

Least developed country construction material means a construction material that--

- (1) Is wholly the growth, product, or manufacture of a least developed country; or

“Free Trade Agreement country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a Free Trade Agreement (FTA) country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a FTA country into a new and different construction material distinct from the materials from which it was transformed.

“Least developed country construction material” means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a least developed country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

WTO GPA country construction material means a construction material that--

- (1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(b) Construction materials.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR 12.505(a)(2)). In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements (FTAs) apply to this acquisition. Therefore, the Buy American restrictions are waived for designated country construction materials.

(2) The Contractor shall use only domestic or designated country construction material in performing this contract, except as provided in paragraphs (b)(3) and (b)(4) of this clause.

(3) The requirement in paragraph (b)(2) of this clause does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate ``none"]

(4) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(3) of this clause if the Government determines that--

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the restrictions of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute.

(1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(4) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(4)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
-----------------------------------	-----------------	----------	---------------------

Item 1:

Foreign construction material....

Domestic construction material...

Item 2:

Foreign construction material....

Domestic construction material... ..

\1\ Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.225-12 NOTICE OF BUY AMERICAN REQUIREMENT-- CONSTRUCTION MATERIALS UNDER TRADE AGREEMENTS (MAY 2014)

(a) Definitions. “Commercially available off-the-shelf (COTS) item,” “construction material,” “designated country construction material,” “domestic construction material,” and “foreign construction material,” as used in this provision, are defined in the clause of this solicitation entitled “Buy American -- Construction Materials Under Trade Agreements” (Federal Acquisition Regulation (FAR) clause 52.225-11).

(b) Requests for determination of inapplicability. An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of FAR clause 52.225-11 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) Evaluation of offers. (1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction materials, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(4)(i) of FAR clause 52.225-11.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) Alternate offers. (1) When an offer includes foreign construction material, other than designated country construction material, that is not listed by the Government in this solicitation in paragraph (b)(3) of FAR clause 52.225-11, the offeror also may submit an alternate offer based on use of equivalent domestic or designated country construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of FAR clause 52.225-11 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of FAR clause 52.225-11 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic or designated country construction material, and the offeror shall be required to furnish such domestic or designated country construction material. An offer based on use of the foreign construction material for which an exception was requested-- (i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

The vehicle/equipment must be secured as specified in paragraph entitled "SECURITY REQUIREMENTS." The intent is to reduce the Contractor loss of time at the security gate. No private vehicles will be allowed to enter the Limited Area.
 - (2) Delivery Vehicles. Guard force personnel will inspect vehicles delivering construction materials while the driver is being processed for entry into the Limited Area.. A Security Escort will then escort the driver and vehicle in the Limited Area. To provide this service, delivery schedules should be promulgated in advance and vendors made aware that a reasonable delay can be expected if delivery is other than the time specified. Deliveries after 1600 hours will not be allowed entry into the Limited Area without prior approval of the Physical Security Officer.

Existing utility lines and features revealed during the course of construction, shall also be accurately located and dimensioned. Variations in the interior utility systems shall be clearly defined and dimensioned; and coordinated with exterior utility connections at the building five-foot line, where applicable. Existing topographic features which differ from those shown on the contract drawings shall also be accurately located and recorded. Where a choice of materials or methods is permitted herein, or where variations in scope or character of methods is permitted herein, or where variations in scope or character of work from that of the original contract are authorized, the drawings shall be marked to define the construction actually provided. The representations of such changes shall conform to standard drafting practice and shall include such supplementary notes, legends and details as necessary to clearly portray the as-built construction. These drawings shall be available for review by the Contracting Officer at all times. Upon completion of the work, both sets of the marked up prints shall be certified as correct, signed by the Contractor, and delivered to the Contracting Officer for his approval before acceptance. Requests for partial payments will not be approved if the marked prints are not kept current, and request for final payment will not be approved until the market prints are delivered to the Contracting Officer.

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198

indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
 Wage and Hour Division
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
