

Q&A
N62271-15-Q-1040

- Q1. What is the estimated budget for this requirement?
- A1. The government does not disclose budgetary information relating to procurements.
- Q2. What is the historical level of hours to be performed for this requirement, Full Time or Part Time?
- A2. The government estimates approximately 192 labor hours for MN4053 and approximately 144 labor hours for MN3172. This would be considered 2/3 time for our other instructors.
- Q3. Has performance of incumbent been satisfactory?
- A3. There is no incumbent currently instructing these courses, however; contracted instruction in the past has been satisfactory.
- Q4. Will our candidate's past work experience suffice for past performance information?
- A4. Candidate must meet our minimum qualifications and be able to document those qualifications.
- Q5. Per the SOW, "The courses will be taught either from a DL studio at the Graduate School of Business and Public Policy (GSBPP) at the Naval Postgraduate School, Monterey, California or at the contractor's location. Class preparation, grading and student advising may be performed either in a specified NPS DL facility or remotely at the contractor's location," *is it preferred to be onsite?*
- A5. Both courses are taught via web-based programs and can be taught from on the NPS campus or from the contractor's location. We do not have a preference. If the contractor chooses to teach from the NPS campus location, the govt will provide equipment and space. If the contractor chooses to teach from off-campus, the govt will not provide equipment or space.
