JUSTIFICATION FOR SOLE SOURCE/BRAND NAME SOLE SOURCE <\$150K

PO Number: [REDACTED]		
The material and/or service listed on this form is:	<input type="checkbox"/> Sole Source	<input checked="" type="checkbox"/> Brand Name

Restricted to the following source or manufacturer:

- Manufacturer: SPIE, Society of Photo-Optical Instrumentation Engineers, Inc.
- Manufacturer POC and Phone Number: [REDACTED]
- Manufacturer Address: PO Box 10 Bellingham, WA 98227
- Dealer POC and Phone Number (if applicable) NA
- Dealer Address (if applicable): NA

Description of the item(s) or service(s) required and the estimated cost(s):

Item#	MFG Name	MFG Part#	Description	Qty	U/I	Unit Price	Ext Price
1	SPIE Digital Subscription		Annual Subscription Renewal Fee	1	ea	[REDACTED]	[REDACTED]

***** If additional items are required, please provide on a separate spreadsheet**

Required Delivery Date (RDD) or Period of Performance (POP): 1 January 2015 – 31 December 2015 + 2 Option Years.

Specific characteristics of the material or service that limit the availability to a sole source/brand product (unique features, function of the item, etc.). Describe in detail why only this source/brand can furnish the requirements to the exclusion of other sources/brands.

Copyrighted proprietary scholarly content required to support NPS mission of instruction and research, and to maintain accreditation. An IP authenticated subscription to a significant collection of optics and photonics research covering a broad range of applied optics and photonics science and engineering papers from a well-respected industry source. Content to include applications from imaging, sensors, biomedicine, manufacturing, and energy to nanotechnology, communications, entertainment, and electronics. Access to archival and state-of-the-art research. COUNTER compliant usage statistics, user friendly search and browse tools, RSS feeds, email alerts, bibliographic citations and multimedia content.

Published by the International Society for Optics and Photonics, the SPIE Digital Library contains the world's largest collection of optics and photonics research. Content covers the broadest range of applied optics and

photonics science and engineering papers anywhere. Technologies span applications from imaging, sensors, biomedicine, manufacturing, and energy to nanotechnology, communications, entertainment, and electronics. Engineers and scientists in academic, corporate, and government laboratories depend on the SPIE Digital Library for the critical knowledge they need to stay current and competitive. Over 40,000 SPIE papers are cited in more than 20,000 high-technology patents registered with the U.S. Patent and Trademark Office. Thousands more appear in the international patent literature. The SPIE Digital Library is both a rich technical archive and a go-to resource for state-of-the-art research. The SPIE Digital Library has been in use at the Knox Library since 2000. The cost to transfer, replace, and rebuild the statistical information will exceed any reduction in annual costs and man hours and thus the brand name justification is warranted.

The requested material or service represents the minimum requirements of the Government.

The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect or interface with the existing system.

A patent, copyright or proprietary data limits competition.

The items are "direct replacement" parts/components for existing equipment. Provide the information about the Next Higher Assembly (NHA)/equipment which the replacement parts are going into (e.g., description, model, part number, Original Equipment Manufacturer (OEM), etc.).

Other information to support sole source/brand name sole source procurement. The rationale must then justify "either" substantial duplication of cost to the Government that is not recovered through competition or unacceptable delays in fulfilling the mission of the agency.

TECHNICAL OR REQUIREMENTS CERTIFICATION

I CERTIFY THAT THE STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE/BRAND NAME SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
