

Q1. It is my understanding this request would not be subject to SCA, due to the professional role. Correct? If not, please provide the incumbent's hire date (for vacation pricing) and the WD with the requested job code.

A1. SCA does not apply to this acquisition, Exempt Computer Professional.

Q2. The RFQ requests a letter of commitment/resume from the candidate. Since there is an incumbent performing services, can we source our own candidate, have a letter of committal from that candidate, and offer the incumbent right of first refusal? If not, please provide a manning document with the incumbent's name and contact information so we may obtain these items.

A2. FAR 22.12 Nondisplacement of Qualified Workers Under Service Contracts does not apply as the contract is under the Simplified Acquisition Threshold. The incumbent contractor is:

Oroday, Inc. DBA Digital Consulting Services
2393 Teller Rd Ste 104
Newbury Park, CA 91320-6091

Q3. When is the anticipated date of award, so we may convey the start date to our candidates?

A3. September 2016

Q4. In the SOW, Section 5.0 Minimum Technical Requirements, there is a requirement for "2 years of experience in web content development and administration in the Liferay Portal version 6.2 Content Management System", as well as other experience requirements with Liferay 6.2. Could you please justify why experience with this specific version of Liferay Portal is required?

A4. NPS currently maintains web content templates and application display templates that utilize specific API's for Liferay Portal version 6.2. We also support sites with staging and dynamic data lists features that are specific to Liferay Portal version 6.2.

Q5. Given the fact that this version has been available for such a short period of time, is it possible that a candidate with one year of experience with this version could sufficiently perform the tasks outlined in the SOW?

A5. NPS would accept a candidate with a minimum of 1 year experience in Liferay Portal version 6.2 AND a minimum of 1 year experience in Liferay Portal version 6.1 or higher.

Q6. Past Performance – provide up to three examples of similar projects completed involving Liferay content migration, development of custom Liferay content and display templates

Since we are already addressing our corporate experience in Item (A), would the experience and references of the proposed consultant be sufficient to address this?

A6. Yes.

Q7. Since this is a staffing requirement for a single consultant, we expect the evaluation to be more focused on consultant's experience rather than the experience of the company. Could the evaluation be modified to accommodate this?

A7. The evaluation will not be modified. In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance.
