AMENDMENT 0004

Technical Specification

2.3.2.4.3 Rotate Bearing Seating Surfaces

Delete paragraphs 2 and 3 in this section and replace with the following:

“The contractor shall submit an inspection report of the results that includes an evaluation of the measurements with respect to the bearing manufacturer's installation criteria for surfaces. The contractor is not required to have a bearing manufacturer's representative on-site during initial surface inspections. The Government shall approve any machining of the bearing seating surfaces, prior to work being performed. Use of any filler materials for leveling the bearing seats is prohibited. The contractor shall prepare the bearing mounting surfaces and ensure that the mounting surfaces meet the flatness requirements of the bearing manufacturer.

After the machining is performed, the contractor with support from a bearing manufacturer's representative shall repeat the measuring and marking requirements stated previously. The contractor shall submit a certified inspection report of the results and bearing manufacturer's inspection and evaluation of the surfaces.”
