The maximum for any ordering period shall not be exceeded except as may be provided for by formal modification to the contract. Circumstances may change after award such that the Government may need to issue orders which exceed the estimated quantity set forth for any particular CLIN during an ordering period, but will not exceed the maximum value for that ordering period. In this case, the Contractor may agree by signing the task order or starting performance.

Concurrently with the award of the basic contract, the Government intends to issue a task order to obligate the contract minimum guarantee for:

~~CLIN 0003, Base Period recurring work~~

Minimum guarantees do not apply to the option periods.
