Date: February 17, 2015

Huntron Inc
15720 Main Street, Ste 100
Mill Creek, WA 98012

Ref: Sole Source Huntron

To whom it may concern:

Huntron, founded in 1976, is a supplier of tools for engineers and technicians, who test, diagnose and troubleshoot printed circuit assemblies. Huntron is located in Mill Creek, Washington, USA. Huntron is a small business who manufactures a family of Huntron Trackers, the TrackerPXI and a full line of Access Robotic One or Two Head Probers.

We quote and sell the following products through a direct Sales channel and direct through Huntron.

Product List:

Huntron Tracker 2800	P/N: 99-0401
Huntron Tracker 2800 – Workstation SW	P/N: 99-0422
Huntron Tracker 2800S	P/N: 99-0402
Huntron Tracker 2800S – Workstation SW	P/N: 99-0423
Huntron Tracker Model 30	P/N: 99-0392
Huntron Scanner II	P/N: 99-0393
Huntron Tracker 3200S – Workstation SW	P/N: 99-0432
Huntron TrackerPXI	P/N: 99-0390
Huntron Access Robotic Prober	P/N: 99-0395
Huntron Access 2 Robotic Prober	P/N: 99-0394
Huntron Access Prober – 30	P/N: 99-0396
Huntron Access 2 Prober – 30	P/N: 99-0397
Huntron Access DH Prober – 30	P/N: 99-0416
Huntron Access DH Prober - 30 with controller	P/N: 99-0419
Huntron Access DH for Tracker or other Test Instrument	P/N: 99-0421
Huntron Access DH – controller for Tracker or other Test Instruments	P/N: 99-0425
Huntron Access DH – controller for Integration	P/N: 99-0426
Huntron Access DH – 30 with controller for Integration	P/N: 99-0430

We also have a relationship with Techni-Tool who is authorized to sell the Huntron Trackers and to administer sales through GSA. Huntron's only

HUNTRON

approved GSA contracting agent is: Techni-Tool Inc, 1547 N. Trooper Rd., P.O. Box 1117, Worcester, PA 19490-1117. Techni-Tool's main point of contact is Terry Bochnowicz (610) 940-5429, email: terryb@techni-tool.com.

Huntron is also the provider of Huntron Tracker Products for the DOD and the Navy's 2M MTR Gold Disk Program.

Huntron Access Probers are listed under Patent # 5,003,254 Title: Multi-Axis universal circuit board test fixture. The words Huntron, Tracker, and Huntron Access are registered trademarks. Huntron Workstation Software is Copyright protected.

MEMORANDUM FOR SIMPLIFIED ACQUISITIONS (<\$150K)

From: David McIntyre, TRF Code 741
 To: Contracting Officer, Fleet and Industrial Supply Center Jacksonville

___ Subj: **JUSTIFICATION FOR SOLE SOURCE ACQUISITION OF HUNTRON DUAL HEAD PROBER WITH TRACKER30 INSIDE & CONTROLLER P/N 99-0419**
 Ref: (a) Procurement Request No. (s) **N4446615RC173KC**
 (b) Federal Acquisition Regulation 6.302-1

1. **SOLE SOURCE:** This justification is provided to support contracting without full and open competition for subject requirement as authorized by 10 U.S.C. 2304(c)(1) in that the supplies or services are available from only one responsible source and no other type of supplies/services will satisfy the minimum needs of this agency. This determination is based on the following facts:

- ___ Specifications/drawings (attached) contain **proprietary** use legends.
- ___ This is a one-time buy making reverse engineering costs prohibitive.
- ___ The restrictive rights legend will be challenged.
- TECHNI-TOOL** is the **only** source of supply. The following firms were contacted and have indicated that they cannot provide an item that will meet the needs of the Government.

(Company Name)	(Person Contacted)	(Date of call)	(Reason*)

*Possible reasons that a firm could not provide a supply or service include it is something the company does not manufacture, their product line does not meet the minimum performance requirements of the Government, they could not meet the Government's delivery requirement and similar reasons.

- ___ This is an aircraft/ship repair part/service that is **available only from** the original equipment manufacturer. Award to any other source would pose safety of flight issues/shipboard safety issues/shipboard habitability and/or would result in unacceptable delays in fulfilling the requirement.
- ___ Action will be implemented to identify additional sources for future buys.
- Action cannot be taken to establish additional sources because the original equipment manufacturer, Huntron, has a single outside vendor, Techni-Tool. The requested equipment is a GSA Advantage contract item available only through Techni-Tool. See attached supporting documents.
- ___ Action taken to establish NSN when applicable
- ___ Supply or service is required to be delivered by 60-90 days ARO.
- Additional comments (if any) The requested equipment is desired specifically to support the Navy Gold Disk Program at Trident Refit Facility. Huntron is the provider of Huntron Access & Tracker products for the DOD and the Navy's 2M MTR Gold Disk Program. Huntron's Access Probers are listed under the patent 5,003,254 Title: Multi-Axis universal circuit board test fixture. The words Huntron, Tracker, and Huntron Access are registered trademarks. Huntron Workstation software is copyright protected.

2. I hereby certify that the above information is accurate and complete to the best of my knowledge and belief.
