SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION 00010 - SOLICITATION CONTRACT FORM

The following have been added by full text:

AMENDMENT 0004

The purpose of this amendment is as follows:

a. Enter into discussions with those offerors determined to be in the competitive range. Only those offerors who have been selected to participate in discussions are eligible to participate in this procurement. Evaluation Notices were sent under separate cover. Once discussions have been closed with the next amendment (0005), a proposal due date will be provided for Final Proposal Revisions (FPR).

b. Incorporate design changes with drawings as follows:

1. Fiber Optic Cable Tie-in location. The customer (DoDEA Schools) is in the process of repairing a recently damaged existing fiber optic cable. The repair will entail cutting a section of the existing fiber optic cable and replacing it with a new section, spliced at both ends (the southern splice will be on pole UP-1A1, shown on Drawing T-010). Had the new Bolden ES-MS fiber optic cable, that will connect/serve the existing Admin (DSO) Building, been connected at the location shown in the original drawings --an unwanted extra splice would have existed in the final cable run. The new fiber optic cable will now tie-in to the location of the splice repair on pole UP-1A1 (and remove the existing splice repair).

2. Operable Glass Partition stacking location. The customer (DoDEA Schools) wants the widest possible opening between Learning Studios and Hubs in each learning neighborhood, when operable glass partitions are stacked, to enhance collaboration for education. This change stacks operable glass partitions such that the ceiling track runs behind each Studio's permanent door, and partitions stack against the nearby wall. Other MEP and IT/AV outlet and system changes were made to synchronize with the new stacking locations.

3. Revision to LIMS shower to better accommodate changing table and shower seat.

4. The drawings described in Item 4. below are located in either of two files:

AMEND 4 Bolden File 1.pdf

AMEND 4 Bolden File 2.pdf

The .pdf files above, are compilations of the associated drawings and are not in a particular order. However, work is associated to all drawings contained in the .pdf files

5. Insert revised drawings listed below, dated 27 Oct 2014, and delete existing corresponding existing drawing. Exception: drawing file T-010 TELECOM SITE PLAN is dated 9 Oct 2014.
