SUPPLIES OR SERVICES AND PRICE

B.1 PRICING OF CLINS

The contract pricing is structured into 36 Contract Line Item Numbers (CLINs). The base year is covered by CLINs 0001 through 0006. Each of the four one-year option periods is likewise covered by six CLINs. The firm-fixed (FFP) price base year requirement and the overall guaranteed minimum for the contract is CLIN 0001. CLINs 0007 through 0011, CLINs 0013 through 0017, CLINs 0019 through 0023, and CLINs 0025 through 0029 account for the FFP requirements in each option period. CLINs 0006, 0012, 0018, 0024, and 0030 contain IDIQ requirements. CLINs 0031 through 0035 represent the 52.217-8 Option to Extend FFP requirements and CLIN 0036 represents the 52.217-8 Option to Extend IDIQ requirement.

Section B CLINs are supported by Section J Exhibit Line Item Numbers (ELINs). Before Pricing Section B, complete the Section J ELINs Attachment excel spreadsheet. The spreadsheet includes multiple worksheets, which must be completed. Submit the completed spreadsheet with your proposal in hard copy and electronic format. The spreadsheet contains 12 tabs of ELINs, each corresponding to a Section B CLIN. They are identified for example, as: "ELIN-Base Period FFP" (which is CLIN 0001); including ELINs for the FFP Base Period Options (which is CLIN 0002-0005), "ELIN-Base Period IDIQ" (which is CLIN 0006), etc. "ELIN-1st Opt Period-FFP" (which is CLIN 0007); including ELINs for the FFP 1st Option Period (which is CLIN 0008-0011), ELIN-1st Opt Period-IDIQ" (which is CLIN 0012), "ELIN-2nd Opt Period-FFP" (which is CLIN 0013) etc. ELINs with prefix "A" support the Base Year, ELINs with prefix "B" support Option Period 1, ELINs with prefix "C" support Option Period 2. ELINs with prefix "D" support Option Period 3, and ELINs with Prefix "E" support Option Period 4. Therefore the total of ELINs A001AA through A008BJ will be the amount you should enter in Section B CLIN 0001. ELIN A009AA will be the amount you should enter in Section B CLIN 0002. ELIN A010AA will be the amount you should enter in Section B CLIN 0003. ELIN A0011AA will be the amount you should enter in Section B CLIN 0004. ELIN A012AA will be the amount you should enter in Section B CLIN 0005 and ELINs A700-A751 will be the amount you should enter into Section B CLIN 0006. Continue pricing accordingly and make sure that the total of each Tab of ELINs is equal to its corresponding CLIN value entered in Section B. The total of all Section J ELINs should equal the total of all Section B CLINs 0001 through 0036.

B.2 INDEFINITE QUANTITY ITEMS

Once the estimated quantities for individual line items shown in the Schedule have been ordered, additional quantities may be ordered as long as the overall not-to-exceed (NTE) amount of the contract is not exceeded and the Contractor agrees by signing the task order.

B.3 PRICING DISCREPANCIES

In the event there is a difference between the unit prices and extended total amounts, the extended total amounts will be held to be the intended offer and the total amount shall be recomputed accordingly.

If the offeror provides a total amount for a CLIN or ELIN, but fails to enter the unit price, the total amount divided by the CLIN or ELIN quantity will be held to be the intended unit price.

In the event there is a discrepancy between the Section J ELIN pricing and the Section B CLIN price, the Section B CLIN will be held to be the intended offer.

B.4 INFORMATIONAL SUBCLINS

Informational SubCLINs will be incorporated at the time of award with appropriate funding/lines of accounting by customer. These SubCLINs represent funding for each CLIN by customer. The contractor shall not submit totals for SubCLINs.

B.5 PHASE-IN AND PHASE-OUT

Pricing shall include applicable Phase-In and Phase-Out costs. There is no separately priced CLIN for Phase-In and Phase-Out.

B.6 FULLY LOADED PRICING

All pricing, including FFP and IDIQ ELIN pricing, shall be fully loaded. No other allocations, fees, O/Hs, G&A, and profits will be applied when an option is exercised or work is ordered.

B.7 UNIT PRICE ADJUSTMENTS IN OPTION PERIODS

This contract incorporates Davis Bacon Wage Determinations, Service Contract Act (SCA), and Collective Bargaining Agreements (CBAs) from the previous service provider. In accordance with subparagraph (b) of the

Fair Labor Standards and Service Contract Act—Price Adjustment Clause, FAR 52.222-43 and subparagraph (b) of the Davis-Bacon Act—Price Adjustment Clause, FAR 52.222-32 offerors shall not include escalation of wage and fringe benefit rates for Service Contract Act covered employees and/or Davis-Bacon Act covered employees in the option periods of performance. Wage and fringe benefit rates used for the base performance period will be used in pricing labor costs for all periods of performance in the option years. In accordance with the referenced clauses, the contractor may be entitled to an adjustment in contract price only when a new SCA wage determination, DBA wage determination, or CBA is modified into the contract and it affects wages and fringe benefits of covered employees.

CLAUSES INCORPORATED BY FULL TEXT

FAC 5252.223-9300 INSPECTION BY REGULATORY AGENCIES (JUN 1994)

Work performed under this contract is subject to inspection by State and Federal Government Regulatory agencies including those described below.

Permission has been granted by the Navy permitting Federal and State occupational health and safety officials to enter Navy shore installations, without delay and at reasonable times, to conduct routine safety and health investigations. Permission also extends to safety and health investigations based on reports of unsafe conditions. Occupational Health and Safety Administration (OSHA) officials may also investigate accidents or illnesses involving the Contractor's employees. Inspections may also be carried out by the Department of Labor to inspect for compliance with labor laws.

The Contractor shall cooperate with regulatory agencies and shall provide personnel to accompany the agency inspection or review teams. Contractor personnel shall be knowledgeable concerning the work being inspected, and participate in responding to all requests for information, inspection or review findings by regulatory agencies.

5252.246-9303 CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES (OCT 2004)

The Contractor shall perform all of the contract requirements. The Government will inspect and assess Contractor performance in accordance with FAR 52.246-4, INSPECTION OF SERVICES - FIXED PRICE. The Government will require re-performance, withhold payment, or seek other suitable consideration for unsatisfactory or non-performed work. When defects can't be corrected by re-performance, the Government may reduce the price to reflect the reduced value of services performed.

- (a) PROCEDURES. In the case of unsatisfactory or non-performed work, the Government:
- (1) may give the Contractor written notice of observed deficiencies prior to withholding payment for unsatisfactory or non-performed work and/or assessing liquidated damages. Such written notice shall not be a prerequisite for withholding payment for non-performed work. The Government may specify, as provided for below, that liquidated damages can be assessed against the Contractor. Such liquidated damages are to compensate the Government for administrative costs and other expenses resulting from the unsatisfactory or non-performed work.
 - (2) may, at its option, allow the Contractor an opportunity to re-perform the unsatisfactory or non-performed work, at no additional cost to the Government. In the case of daily work, corrective action must be completed within 4 hours of notice to the Contractor. In the case of other work, corrective action must be completed within 24 hours of notice. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the value of all observed defects. The original inspection results of the Contractor's work will not be modified upon re-inspection. However, the Contractor will be paid for satisfactorily re-performed work.
 - (3) shall withhold from the Contractor's invoice all amounts associated with the unsatisfactory or non-performed work at the prices set out in the Schedule or provided by other provisions of this contract, unless the Contractor is required to re-perform and satisfactorily complete the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the value of all observed defects.
 - (4) may, at its option, perform the work by Government personnel or by other means. The Government will reduce the amount of payment to the Contractor, by the amount paid to any Government personnel (based on wages, retirement and fringe benefits) plus material, or by the actual costs incurred to accomplish the work by other means. If the actual costs cannot be readily determined, the prices set out in the Schedule will be used as the basis for the

deduction. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the computed cost.

(b) The Contractor is responsible for maintaining an effective Quality Control Program during the course of the contract. Failure to maintain adequate quality control may result in Termination for Default.

(c) Re-performance by the Contractor does not waive the Government's right to terminate for nonperformance in accordance with FAR clause 52.249-8, DEFAULT (FIXED-PRICE SUPPLY AND SERVICE) of Section I and all other remedies for default as may be provided by law.

(d) When WATCHSTANDING SERVICES apply. If the Contractor fails to provide qualified personnel or allows any post to be unmanned for a total of 10 minutes in any shift, the Government may assign other persons to perform such work or withhold payment as specified below;

(1) When Watchstanding Services are performed by Government employees, withholdings shall be computed based on the current Federal Pay Schedule including wages, retirement and fringe benefits of the Government employees (civilian or military) who actually performed the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the computed cost.

(2) When non-performed Watchstanding Services are obtained under another contract, the Government will withhold an amount equal to the cost to the Government under that contract. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the cost.

(3) If no guard replacement is furnished by the Government and the work is not performed, the Government will withhold an amount equal to the cost to the Government of having a Government employee perform the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the computed cost.

(4) The Contractor will be held liable for property losses sustained by the Government as a direct, consequential result of a failure to furnish the required personnel.

(5) Computations of the costs for Government employees to perform work not performed by the Contractor shall be in conformance with FAR 52.222-42, STATEMENT OF EQUIVALENT RATE FOR FEDERAL HIRES.

5252.246-9304 ESTIMATING THE PRICE OF NONPERFORMED OR UNSATISFACTORY WORK (OCT 2004)

In the event the price of non-performed or unsatisfactory work cannot be determined from the prices set out in the Schedule, or on the basis of the actual cost to the Government, estimating methods may be used to determine an amount, which reflects the reduced value of services performed. The Government may estimate the cost using wage rates and fringe benefits included in the wage determinations included in the contract, Government estimates of the Contractor's overhead and profit rates, and Government estimates of material costs if applicable. Liquidated damages, to compensate the Government for administrative costs and other expenses resulting from the non-performed or unsatisfactory performance, will be calculated in accordance with the CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED WORK clause. Section I - Contract Clauses

CONTRACT CLAUSESFAR 52.222-99 DEV**52.222-99, Establishing a Minimum Wage for Contractors. (DEVIATION)**

The contracting officer shall insert the following clause in solicitations and resultant contracts that include the FAR clause 52.222-6 and/or 52.222-41, and work is to be performed in whole or in part in the United States (the 50 States and the District of Columbia).

**ESTABLISHING A MINIMUM WAGE FOR CONTRACTORS
(DEVIATION 2014-O0017) (JUNE 2014)**

This clause implements Executive Order 13658, Establishing a Minimum Wage for Contractors, dated February 12, 2014, and OMB Policy Memorandum M-14-09, dated June 12, 2014.

(a) Each service employee, laborer, or mechanic employed in the United States (the 50 States and the District of Columbia) in the performance of this contract by the prime Contractor or any subcontractor, regardless of any contractual relationship which may be alleged to exist between the Contractor and service employee, laborer, or mechanic, shall be paid not less than the applicable minimum wage under Executive Order 13658. The minimum wage required to be paid to each service employee, laborer, or mechanic performing work on this contract between January 1, 2015, and December 31, 2015, shall be \$10.10 per hour.

(b) The Contractor shall adjust the minimum wage paid under this contract each time the Secretary of Labor's annual determination of the applicable minimum wage under section 2(a)(ii) of Executive Order 13658 results in a higher minimum wage. Adjustments to the Executive Order minimum wage under section 2(a)(ii) of Executive Order 13658 will be effective for all service employees, laborers, or mechanics subject to the Executive Order beginning January 1 of the following year. The Secretary of Labor will publish annual determinations in the Federal Register no later than 90 days before such new wage is to take effect. The Secretary will also publish the applicable minimum wage on www.wdol.gov (or any successor website). The applicable published minimum wage is incorporated by reference into this contract.

(c) The Contracting Officer will adjust the contract price or contract unit price under this clause only for the increase in labor costs resulting from the annual inflation increases in the Executive Order 13658 minimum wage beginning on January 1, 2016. The Contracting Officer shall consider documentation as to the specific costs and workers impacted in determining the amount of the adjustment.

(d) The Contractor Officer will not adjust the contract price under this clause for any costs other than those identified in paragraph (c) of this clause, and will not provide price adjustments under this clause that result in duplicate price adjustments with the respective clause of this contract implementing the Service Contract Labor Standards statute (formerly known as the Service Contract Act) or the Wage Rate Requirements (Construction) statute (formerly known as the Davis Bacon Act).

(e) The Contractor shall include the substance of this clause, including this paragraph (e) in all subcontracts.

In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

Section M - Evaluation Factors for Award

EVALUATION FACTORS FOR AWARD
BASIS FOR AWARD

1. In accordance with the Federal Acquisition Regulation, the Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the lowest priced, technically acceptable offer.
2. As stated in the solicitation, the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
3. The LPTA process is selected as appropriate for this acquisition because the best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.
4. An overall non-price factors rating must be at least "ACCEPTABLE" in order to be eligible for award. An "UNACCEPTABLE" rating in any factor results in the overall non-price factors proposal being rated "UNACCEPTABLE" unless corrected through discussions. An overall non-price factors rating of "UNACCEPTABLE" makes a proposal ineligible for award.

EVALUATION FACTORS FOR AWARD

The solicitation requires the evaluation of price and the following non-price factors:

- Factor 1 – Corporate Experience
- Factor 2 – Management & Technical Approach
- Factor 3 – Safety
- Factor 4 – Past Performance

The distinction between corporate experience and past performance is corporate experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

Basis of Evaluation and Submittal Requirements for Each Factor.

(a) Price:

(1) Solicitation Submittal Requirements:

- a. Provide completed Section B, Supplies or Services and Prices, of the solicitation.

- b. Provide a completed Section J Exhibit Line Item Number (ELIN) Pricing Attachment. There are multiple worksheets within this file that require completion.
 - (a) Offerors shall submit pricing data (Section B and Section J Exhibit Line Item Numbers Attachment) in hard copy and in EXCEL (Microsoft Office Version 2007 compatible) format on a CD-ROM. Offerors may utilize the pricing attachments in EXCEL (Microsoft Office Version 2007 compatible) format in Section J for submission of pricing data. Because the pricing evaluation will concentrate on the electronic files submitted, in the event of a discrepancy between the proposal hard copies and the proposal electronic copies, the proposal electronic copies will take precedence.

Basis of Evaluation: The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (see Section B of the solicitation). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in Section M of the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (a) Comparison of proposed prices received in response to the RFP.
- (b) Comparison of proposed prices with the IGCE.
- (c) Comparison of proposed prices with available historical information.
- (d) Comparison of market survey results.

(2) The Government will evaluate remaining pricing submittals to ensure the following:

- (a) Pricing submitted within the Section B and Section J Exhibit Line Item Number (ELIN) Pricing is consistent.
- (b) Fair and reasonable ELIN/unit pricing and identification of unbalanced pricing as appropriate.

(b) Technical Factors:

(1) Factor 1, Corporate Experience:

(i) Solicitation Submittal Requirements: The offeror shall submit at least one (1) and no more than five (5) examples of recent, relevant projects that the offeror (including joint venture and partnerships) completed and served as the prime contractor. Relevant projects include those that demonstrate the capability to perform services similar in size, scope, and complexity as described in the statement of work/specifications of the RFP with a contract value of approximately \$1,000,000.00 per year or greater and shall be: 1) ongoing with at least 12 months of contract performance completed by the date of receipt of proposals, or 2) shall be completed, within the last five (5) years. For each project the offeror shall provide:

- (a) Contract number, title, location, and original award date.

- (b) Type of Contract (i.e. fixed price, cost reimbursable, etc.)
- (c) Client points of contact with current telephone and facsimile numbers, and electronic mail addresses if available (Confidential clients are not acceptable and will result in non-consideration of the project). Failure to provide an acceptable point of contact and a correct telephone number may result in a lower rating.
- (d) Description of work (service) performed- similar scope, size and complexity.
- (e) Describe the relevance of this project to this solicitation.
- (f) Percentage of the work that your firm subcontracted out.
- (g) Provide the final/revised contract completion date.
- (h) Dollar value; annually and contract life.

An offeror may rely on the prime contractor experience of corporate affiliates (e.g., subsidiaries, sister companies and parent companies) to demonstrate experience, providing the offeror submits the following:

- (a) A one-page narrative clearly demonstrating that the corporate affiliates will have meaningful participation in the project by identifying the personnel or resources from the corporate affiliates that will be dedicated to the project; and
- (b) An organization chart that demonstrates the corporate relationship of the affiliates.

(ii) **Basis of Evaluation:** For experience, the Government seeks to evaluate the relevant experience of the offeror as a prime contractor directly responsible to the owner; managing multiple subcontractors and coordinating with multiple stakeholders. Projects completed by the offeror or its corporate affiliates (e.g., subsidiaries, sister companies, and parent companies) in any capability other than a prime contractor will be considered unacceptable. Projects completed by a proposed subcontractor will be considered unacceptable. Projects ongoing with less than 12 months of contract performance completed by the date of receipt of proposals, or projects completed more than five (5) years prior to the issuance of the RFP will be considered unacceptable. Projects with a total value below \$1,000,000.00 per year will be considered unacceptable. The prime contractor does not have to self-perform all the work identified in the PWS; however, the prime contractor must demonstrate that it has managed projects that included these services. If the offeror is a Joint Venture (JV), each member of the JV must demonstrate prime contractor experience on at least one relevant project. If each member of the Joint Venture does not have at least one relevant experience project, then the offeror will be considered unacceptable. For multiple award contracts (MACs) or indefinite delivery/indefinite quantity (ID/IQ) contracts, the specific relevant task order(s) that constitute a single project on the same site, not the entire MAC or ID/IQ contract, will be considered a project for evaluation purposes.

(2) Factor 2, Management and Technical Approach

Solicitation Submittal Requirements:

The offeror shall clearly demonstrate its understanding of current industry standards, policies, procedures, and processes utilized in accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement. The offeror shall address each of the following components separately:

- (a) **Workforce Management.** Provide and explain a plan to organize, manage, and supervise workforce personnel to accomplish the requirements of this

contract. The plan shall include an organization chart identifying the on-site organization and staff that will be used to perform this contract as well as the lines of management authority, supervision, span of control, and accountability, including the relationship between overall management (corporate and on-site), administration, sub-annex area organizations, and subcontractors. The plan's organization chart shall include all direct and indirect FTEs and labor hours. The plan shall identify the function(s) of the various groups of the organization, direct and indirect staffing and associated trade classifications with skill level (journeyman, etc.) consistent with the FTEs and labor hours provided in Section J Attachment JB1 FTE. The plan shall indicate the number of productive hours per year for each full time and part time employee.

- (b) Describe staffing levels for the entire contract effort. Provide a completed summary Attachment JB1 FTE for the total effort to include the prime contractor and all subcontractors for the Base Period. In summary, provide the rationale for the Basis of Estimate (BOE) including each specification item listed in Section J Attachment JB1 FTE. BOE shall include individual labor classifications, annual direct and indirect labor hours, and FTEs for performing the service requirements. Detailed estimate worksheets are not required.
- (c) Include the methodology to be implemented to accomplish the performance requirements in each annex/sub-annex and detail how the proposed approach will effectively achieve each performance objective and standard. The offeror's methodology shall demonstrate an approach to performing all requirements for the following annexes/sub-annexes:
- 1501000 Facility Management
 - 1502000 Facility Investment
 - 1503020 Pest Control
 - 1503040 Other (Swimming Pools)
 - 1503050 Grounds Maintenance
 - 1503060 Pavement Clearance
 - 1800000 Environmental

Each spec item for each annex/sub-annex shall be address within the offeror's methodology. Copies of certificates and licenses are not required. The offeror's methodology shall include the offeror's acknowledgement of ensuring that each identified certification, training, and licensing are met. The offeror's methodology clearly demonstrates an understanding of current industry standards, policies, procedures, and processes utilized in accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement.

- (d) Scheduling. Provide the methodology used (i.e. management indicators) to determine if/when there is a need to adjust the recurring work schedule. Describe scheduling procedures that will minimize interference with normal occurrence of Government business and the flexibility to adjust schedules to

allow for access outside regular working hours and the flexibility to adjust to workload fluctuations. Describe procedures to manage foreseeable fluctuations in workload, for handling workload surges for IDIQ orders and natural disasters that could occur.

- (e) Quality Control Management. Provide a summary “Quality Control Plan” (QC), i.e. the quality processes (practices, resources, and activities) and minimum controls that will be used to ensure full compliance with all performance objectives and standards as described in Section C 0200000 Management and Administration. Describe the methods to be used to document, measure, and control and improve the quality processes. Describe the plan for training employees in the quality processes. Limit the Quality Control Management submission to no more than five (5) pages.
- (f) Phase-In and Phase-Out Plans. Provide an approach to each phase-in and phase-out plan. The phase-in plan is limited to no more than 30 calendar days. Each plan shall include: 1) a schedule for all key events; 2) personnel actions and responsibilities regarding employees at all levels; acquisition, delivery, storage, inventory and disposal of equipment, working stock, and materials (to include inbound items as applicable).
- (g) Energy Management. Describe procedures to comply with CNRSEINST 4101.1 Energy Management requirements. CNRSEINST 4101.1 is provided as an attachment in Section J. Proposal shall address approach for instilling a culture of conservation and use of technology and influence over operations to execute work requirements at the lowest possible energy use and cost. Include approach for complying with Federal Energy Management Program (FEMP) energy efficient, water (Water Sense) conserving, and low power standby power product type selection and use.

Basis of Evaluation: This factor will be evaluated as an overall factor with no sub-factors. The standard is met when the offeror demonstrates an acceptable understanding of current industry standards, policies, procedures, and processes utilized in accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement. The Government will evaluate the proposal to ensure the offeror’s approach demonstrates the following: (1) adequate staffing levels supported by a reasonable Basis of Estimate (BOE); (2) an approach/methodology to effectively achieve performance objectives and standards that reflects the best industry and/or commercial practices for each performance objective and standard; (3) acknowledgement of ensuring that each identified certification, training, and licensing are met; (4) an approach that demonstrates an effective and resource efficient approach to workforce management, scheduling, quality control, phase-in and phase-out plans, and energy management.

(3) Factor 3, Safety:

- (a) Solicitation Submittal Requirements: The offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR and DART Rates shall not be submitted for subcontractors.)

- a. Experience Modification Rate (EMR): For the three previous complete calendar years [2011, 2012, 2013], submit your EMR (which compares your company's annual losses in insurance claims against its policy premiums over a three year period). If you have no EMR, affirmatively state so, and explain why. Any extenuating circumstances that affected the EMR and upward or downward trends should be addressed as part of this element. Lower EMRs will be given greater weight in the evaluation.
- b. OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: For the three previous complete calendar years [2011, 2012, 2013], submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA DART Rate data and upward or downward trends should be addressed as part of this element. Lower OSHA DART Rates will be given greater weight in the evaluation.
- c. Technical Approach for Safety: Describe the plan that the offeror will implement to evaluate safety performance of potential subcontractors, as a part of the selection process for all levels of subcontractors. Also, describe any innovative methods that the offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages.

Basis of Evaluation: The Government is seeking to determine that the offeror has consistently demonstrated a commitment to safety and that the offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The Government will evaluate the offeror's overall safety record, the offeror's plan to select and monitor subcontractors, any and innovative safety methods that the offeror plans to implement for this procurement. The Government's sources of information for evaluating safety may include, but are not limited to, OSHA, NAVFAC's Facility Accident and Incident Reporting (FAIR) database, and other related databases. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the offeror. The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
 - OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate
 - Offeror Technical Approach to Safety
 - Other sources of information available to the Government
- (i) Experience Modification Rate (EMR): The Government will evaluate the EMR to determine if the offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rating. Lower EMRs will be given greater weight in the evaluation.

- (ii) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: The Government will evaluate the OSHA DART Rate to determine if the offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rates. Lower OSHA DART Rates will be given greater weight in the evaluation.
- (iii) Technical Approach to Safety: The Government will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The Government will also evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement. Those offerors whose plan demonstrates a commitment to hire subcontractors with a culture of safety and who propose innovative methods to enhance a safe working environment may be given greater weight in the evaluation.

(4) Factor 4, Past Performance

(a) Solicitation Submittal Requirements:

FOR EACH PROJECT IDENTIFIED IN RESPONSE TO FACTOR 1, IF A COMPLETED CPARS EVALUATION IS AVAILABLE, IT SHALL BE SUBMITTED WITH THE PROPOSAL. If there is not a completed CPARS evaluation, the Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror or its team members to submit to the client for each project the offeror includes in its proposal for Factor 1, Corporate Experience. AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE.

If a CPARS evaluation is not available, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ (Attachment C, N6945015R2104-1PPQ), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Robert Garske or Rebecca Jones via email at robert.garske@navy.mil or rebecca.m.jones@navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Also, include performance recognition documents received within the last five (5) years such as awards, award fee determinations, customer letters of commendation, and any other forms of performance recognition.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using

all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the offeror.

Basis of Evaluation: The degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., PPIRS, Federal Awardee Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance considering:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;
- A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.);
- Recency of tasks performed that are identical to, similar to, or related to the task at hand; and
- A respect for stewardship of Government funds
