B.1 PRICING OF CLINS

The contract pricing is structured into 22 Contract Line Item Numbers (CLINs). The base year is covered by CLINs 0001, 0002, and 0003. The first 12-month option period is covered by CLINs 0004, 0005, and 0006. The second 12-month option period is covered by CLINs 0007, 0008, 0009, and 0010. The third 12-month option period is covered by CLINs 0011, 0012, 0013, and 0014. The fourth 12-month option period is covered by CLINs 0015, 0016, 0017 and 0018. The 6-month option period under FAE 52.217-8 is covered by CLINs 0019, 0020, 0021, and 0022. The firm-fixed (FFP) price base year requirement and the overall guaranteed minimum for the contract is CLIN 0001. CLINs 000 1, 0002, 0004, 0005, 0007, 0008, 0009, 0011, 0012, 0013, 0015, 0016, 0017, 0019, 0020, and 0021 account for the Recurring Work requirements in each option period. CLINs 0003, 0006, 0010, 0014, 0018, and 0022 contain Non-recurring work requirements that are pre-priced as part of your offer.

Section B CLINs are supported by Section J Exhibit Line Item Numbers (ELINs). Before Pricing Section B, complete the Section J ELINs Attachment excel spreadsheet. The spreadsheet includes multiple worksheets, which must be completed. Submit the completed spreadsheet with your proposal in hard copy and electronic format. The spreadsheet contains 22 tabs of ELINs, each corresponding to a Section B CLIN. They are identified for example, as: “Recurring Work Base Period ” (which is CLIN 0001), “Non-recurring Work Base Period” (which is CLIN 0003), etc. “Recurring Work First Option Period “ (which is CLIN 0004), Non-recurring Work First Option Period ” (which is CLIN 0006), Recurring Work Second Option Period ” (which is CLIN 0007) etc. ELINS with prefix “A” support the Base Year, ELINs with prefix “B” support the First Option Period, ELINs with prefix “C” support the Second Option Period, ELINs with prefix “D” support the Third Option Period, ELINs with Prefix “E” support the Fourth Option Period, and ELINS with the Prefix “F” support the 52.217-8 Option Period. Therefore the total of ELINs A001 through A012 will be the amount you should enter in Section B CLIN 0001. The total of A013 through A017 will be the amount you should enter in Section B CLIN 0002. The total of A700 through A729 will be the amount you should enter in Section B CLIN 0003. And the total of B001 through B012 will be the amount you should enter in Section B CLIN 0004. Continue pricing accordingly and make sure that the total of each Tab of

ELINs is equal to its corresponding CLIN value entered in Section B. The total of all Section J ELINs should equal the total of all Section B CLINs 0001 through 0022.

B.2 NTE AND MIN GUARANTEE

The maximum or not-to-exceed (NTE) value of an ordering period is the total of all the CLINs in that ordering period. The maximum for any ordering period shall not be exceeded except as may be provided for by formal modification to the contract. Circumstances may change after award such that the Government may need to issue orders which exceed the estimated quantity set forth for any particular CLIN during an ordering period, but will not exceed the maximum value for that ordering period. In this case, the Contractor may agree by signing the task order or starting performance.

Concurrently, with the award of the basic contract, the Government intends to issue a task order to obligate the contract minimum guarantee for:

CLIN 0001, Base Period recurring work

Minimum guarantees do not apply to the option periods.

B.3 PRICING DISCREPANCIES

In the event there is a difference between the unit prices and extended total amounts, the extended total amounts will be held to be the intended offer and the total amount shall be recomputed accordingly.

If the offeror provides a total amount for a CLIN or ELIN, but fails to enter the unit price, the total amount divided by the CLIN or ELIN quantity will be held to be the intended unit price.

In the event there is a discrepancy between the Section J ELIN pricing and the Section B CLIN price, the Section B CLIN will be held to be the intended offer.

B. 4 INFORMATIONAL SUBCLINS

Informational SubCLINs will be incorporated at the time of award with appropriate funding/lines of accounting by customer. These SubCLINS represent funding for each CLIN by customer. The contractor shall not submit totals for SubCLINS.

B.5 PHASE-IN AND PHASE-OUT

Pricing shall include applicable Phase-In and Phase-Out costs. There is no separately priced CLIN for Phase-In and Phase-Out.

B.6 FULLY LOADED PRICING

All pricing, including recurring and non-recurring work ELIN pricing, shall be fully loaded. No other allocations, fees, O/Hs, G&A, and profits will be applied when an option is exercised or work is ordered

B.7 UNIT PRICE ADJUSTMENTS

This contract incorporates Construction Wage Rate Requirements Wage Determinations and Service Contract Labor Standards Wage Determinations from the previous service provider. In accordance with subparagraph (b) of the Fair Labor Standards and Service Contract Labor Standards—Price Adjustment Clause, FAR 52.222-43 and subparagraph (b) of the Construction Wage Rate Requirements—Price Adjustment Clause, FAR 52.222-32 offerors shall not include escalation of wage and fringe benefit rates for Service Contract Labor Standards (formerly known as the Service Contract Act (SCA) of 1965) covered employees and/or Construction Wage Rate Requirements (formerly known as the Davis-Bacon Act) covered employees in the option periods of performance. Wage and fringe benefit rates used for the base performance period will be used in pricing labor costs for all periods of performance in the option years. In accordance with the referenced clauses, the contractor may be entitled to an adjustment in contract price only when a new Service Contract Labor Standards wage determination or Construction Wage Rate Requirements wage determination is modified into the contract and it affects wages and fringe benefits of covered employees.

AUG 1996

CLAUSES INCORPORATED BY FULL TEXT

FAC 5252.223-9300 INSPECTION BY REGULATORY AGENCIES (JUN 1994)

Work performed under this contract is subject to inspection by State and Federal Government Regulatory agencies including those described below.

Permission has been granted by the Navy permitting Federal and State occupational health and safety officials to enter Navy shore installations, without delay and at reasonable times, to conduct routine safety and health investigations. Permission also extends to safety and health investigations based on reports of unsafe conditions. Occupational Health

and Safety Administration (OSHA) officials may also investigate accidents or illnesses involving the Contractor's employees. Inspections may also be carried out by the Department of Labor to inspect for compliance with labor laws.

The Contractor shall cooperate with regulatory agencies and shall provide personnel to accompany the agency inspection or review teams. Contractor personnel shall be knowledgeable concerning the work being inspected, and participate in responding to all requests for information, inspection or review findings by regulatory agencies.

5252.237-9300 SCHEDULE OF DEDUCTIONS (NOV 1998)

(a) Within fifteen (15) days after the contract award, the successful Contractor shall provide an acceptable Schedule of Deductions for the base period and each option year of the contract. No work may commence until such Schedule of Deductions is approved by the Contracting Officer. The total of the Schedule of Deductions must equal the amount entered in Contract Line Items 001, 002, 004, 005, 007, 008, 009, 0011, 0012, 0013, 0015, 0016, 0017, 0019, 0020, and 0021. If for any reason this contract is modified, including the exercise of an option, and the modification affects the schedule of deductions, the contractor shall submit a revised schedule of deductions within fifteen (15) days of the date of the modification. Prices shown in the Schedule of Deductions will be utilized in conjunction with the "CONSEQUENCES OF THE CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICE" clause in making deductions to the contract price for nonperformed or unsatisfactory work.

(b) Unbalancing in the Schedule of Deductions submitted shall be the cause for withholding approval and requiring resubmittal of a balanced schedule. The Contractor's failure to provide an approved Schedule of Deductions shall be grounds for TERMINATION FOR DEFAULT. The Government reserves the right to unilaterally establish a Schedule of Deductions in the event the successful Contractor fails to present the Schedule of Deductions within fifteen (15) calendar days of the date of contract award or presents a Schedule of Deductions which is unbalanced or materially deficient. The approved Schedule of Deductions shall be part of the contract. DO NOT SUBMIT the Schedule of Deductions with the offer.

5252.246-9303 CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED SERVICES (OCT 2004)

The Contractor shall perform all of the contract requirements. The Government will inspect and assess Contractor performance in accordance with FAR 52.246-4, INSPECTION OF SERVICES - FIXED PRICE. The Government will require re-performance, withhold payment, or seek other suitable consideration for unsatisfactory or non-performed work. When defects can't be corrected by re-performance, the Government may reduce the price to reflect the reduced value of services performed.

(a) PROCEDURES. In the case of unsatisfactory or non-performed work, the Government:

(1) may give the Contractor written notice of observed deficiencies prior to withholding payment for unsatisfactory or non-performed work and/or assessing liquidated damages. Such written notice shall not be a prerequisite for withholding payment for non-performed work. The Government may specify, as provided for below, that liquidated damages can be assessed against the Contractor. Such liquidated damages are to compensate the Government for administrative costs and other expenses resulting from the unsatisfactory or non-performed work.

(2) may, at its option, allow the Contractor an opportunity to re-perform the unsatisfactory or non-performed work, at no additional cost to the Government. In the case of daily work, corrective action must be completed within 4 hours of notice to the Contractor. In the case of other work, corrective action must be completed within 24 hours of notice. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the value of all observed defects. The original inspection results of the Contractor's work will not be modified upon re-inspection. However, the Contractor will be paid for satisfactorily re-performed work.

- (3) shall withhold from the Contractor's invoice all amounts associated with the unsatisfactory or non-performed work at the prices set out in the Schedule or provided by other provisions of this contract, unless the Contractor is required to re-perform and satisfactorily complete the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the value of all observed defects.
- (4) may, at its option, perform the work by Government personnel or by other means. The Government will reduce the amount of payment to the Contractor, by the amount paid to any Government personnel (based on wages, retirement and fringe benefits) plus material, or by the actual costs incurred to accomplish the work by other means. If the actual costs cannot be readily determined, the prices set out in the Schedule will be used as the basis for the deduction. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 20 percent of the computed cost.
- (b) The Contractor is responsible for maintaining an effective Quality Control Program during the course of the contract. Failure to maintain adequate quality control may result in Termination for Default.
- (c) Re-performance by the Contractor does not waive the Government's right to terminate for nonperformance in accordance with FAR clause 52.249-8, DEFAULT (FIXED-PRICE SUPPLY AND SERVICE) of Section I and all other remedies for default as may be provided by law.
- (d) When WATCHSTANDING SERVICES apply. If the Contractor fails to provide qualified personnel or allows any post to be unmanned for a total of 10 minutes in any shift, the Government may assign other persons to perform such work or withhold payment as specified below;
- (1) When Watchstanding Services are performed by Government employees, withholdings shall be computed based on the current Federal Pay Schedule including wages, retirement and fringe benefits of the Government employees (civilian or military) who actually performed the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the computed cost.
- (2) When non-performed Watchstanding Services are obtained under another contract, the Government will withhold an amount equal to the cost to the Government under that contract. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the cost.
- (3) If no guard replacement is furnished by the Government and the work is not performed, the Government will withhold an amount equal to the cost to the Government of having a Government employee perform the work. In addition, the Government can assess liquidated damages, as referenced above, in the amount of 10 percent of the computed cost.
- (4) The Contractor will be held liable for property losses sustained by the Government as a direct, consequential result of a failure to furnish the required personnel.
- (5) Computations of the costs for Government employees to perform work not performed by the Contractor shall be in conformance with FAR 52.222-42, STATEMENT OF EQUIVALENT RATE FOR FEDERAL HIRES.

5252.246-9304 ESTIMATING THE PRICE OF NONPERFORMED OR UNSATISFACTORY WORK (OCT 2004)

In the event the price of non-performed or unsatisfactory work cannot be determined from the prices set out in the Schedule, or on the basis of the actual cost to the Government, estimating methods may be used to determine an amount, which reflects the reduced value of services performed. The Government may estimate the cost using wage rates and fringe benefits included in the wage determinations included in the contract, Government estimates of the Contractor's overhead and profit rates, and Government estimates of material costs if applicable. Liquidated damages, to compensate the Government for administrative costs and other expenses resulting from the non-performed or unsatisfactory performance, will be calculated in accordance with the CONSEQUENCES OF CONTRACTOR'S FAILURE TO PERFORM REQUIRED WORK clause. (End of clause)

If the Government requires a shorter term or exercises an option for a period shorter than twelve months, the proposed monthly ELIN prices will be used as the basis for establishing the reduced term. The Government may extend the term of the contract in accordance with FAC 5252.217-9301, Option to Extend the Term of the Contract – Services incorporated into the resulting contract.

Additionally, the Government may need to extend the performance period beyond the established 60 months stated above. FAR 21.217-8, Option to Extend Services provides the regulatory authority to extend contract performance up to an additional six (6) months

(End of clause)

5252.248-1 VALUE ENGINEERING (MAR 1989) (NAVFAC DEVIATION NOV 1998)

(a) The Contractor is entitled, as prescribed in this clause, to share in cost savings resulting from the implementation of cost reduction projects, which are presented to the Government in the form of Cost Reduction Proposals (CRP) and approved by the Contracting Officer. These cost reduction projects may require changes to the terms, conditions or Section C, Performance Work Statement, of this contract. Any cost reduction projects must not change the essential function of any products to be delivered or the essential purpose of services to be provided under the contract.

(b) Definitions.

(1) Cost savings - as contemplated by this clause, means savings that result from instituting changes to this contract, as identified in an approved Cost Reduction Proposal.

(2) Cost Reduction Proposal (CRP) - For the purpose of this clause, a Cost Reduction Proposal means a proposal that achieves cost savings as described in this clause. These alternatives must result in a net reduction in the contract price to the Government. The proposal will include technical and cost information sufficient to enable the Contracting Officer to evaluate the CRP and approve or disapprove it.

(3) Contractor implementation costs - As used in this clause, contractor implementation costs shall mean those costs which the Contractor incurs on this contract in developing, preparing, submitting, and negotiating a CRP; as well as those costs the Contractor will incur to make any structural or organizational changes in order to implement an approved CRP.

(4) Government cost - As used in this clause, the term government costs means internal costs of the Government agency, which result directly from development, and implementation of the CRP. These may include, but are not limited to, costs associated with the administration of the contract or with such contractually related

functions such as testing, operations, maintenance and logistics support. These costs also include costs associated with other Agency contracts (including changes in contract price or cost and fee) that may be affected as a result of the implementation of a CRP. They do not include the normal administrative costs of reviewing and processing the CRP.

(c) General. The Contractor shall develop, prepare and submit CRPs with supporting information, as detailed in paragraph (e) and (f) of this clause to the Contracting Officer. The CRP will describe the proposed cost reduction activity in sufficient detail to enable the Contracting Officer to evaluate it and to approve or disapprove it. The Contractor shall share in any net cost savings realized from approved and implemented CRPs that reduce the price of this contract. The Contractor's actual percentage share of the cost savings shall be a matter for negotiation with the Contracting Officer, but shall not, in any event, exceed 50% of the total net cost savings recognized by the Contracting Officer. The Contractor may propose changes in other activities that impact performance on its contract, including government and other contractor operations, if such changes will optimize cost savings. A Contractor shall not be entitled to share, however, in any cost savings that are internal to the Government, or which result from changes made to any contracts to which it is not a party even if those changes were proposed as a part of its CRP. Early communication between the Contractor and the Government is encouraged.

(d) Computation of cost savings. The cost savings to be shared between the Government and the Contractor will be computed by the Contracting Officer by comparing a current estimate to complete (ETC) for the covered contract, as structured before implementation of the proposed CRP, to a revised ETC which takes into account the implementation of that CRP. The cost savings to be shared shall be reduced by any cost overrun, whether experienced or projected, that is identified on this contract before implementation of the CRP. Although a CRP may result in cost savings that extend far into the future, the period in which the Contractor may share in those savings, will be limited to the remaining term of the contract. Implementation costs of the Contractor savings initiative must be considered and specifically identified in the revised ETC. The Contracting Officer shall offset Contractor cost savings by any increased costs (whether implementing or recurring) to the Government when computing the total cost savings to be shared. The Contractor shall not be entitled, under this clause, to share in any cost reductions to the contract that are the result of changes stemming from any action other than an approved CRP.

(e) Processing of Cost Saving Initiatives. There is an initial submittal, which shall include the following information, as applicable, in sufficient detail for the Government to determine the feasibility of further investigation of the initiative.

(1) Initiative title and description, including contract references (paragraph numbers), if appropriate; estimated total price; what the Contractor would provide; what the Government would provide; the duration of the agreement; anticipated total revenues, expenses and net gains for the agreement period; pay back schedule; risk assessment; percentage of distribution of revenues generated; drawings and maps of the affected areas and facilities; potential impacts to the Government; potential benefits; the impact to the BOSC, etc. Initiatives should minimize any adverse impact to operations and mission capability, legal requirements, and public health and safety.

(f) Supporting Information. As a minimum, the Contractor shall provide the following supporting information with each CRP:

(1) Identification of the current contract requirements or established procedures and/or organizational support, which are proposed to be changed.

(2) A description of the difference between the current process or procedure and the proposed change. This description shall address how proposed changes will meet the Government's requirements and discuss the advantages and disadvantages of the existing practice and the proposed changes.

(3) A list of contract requirements, which must be revised, if any, if the CRP is approved, along with proposed revisions. Any changes to the Government contract management process should also be addressed.

(4) Detailed cost estimates, which reflect the implementation costs of the CRP.

(5) An updated ETC for the covered contract, unchanged and a revised ETC for the covered contract, which reflects changes resulting from implementing the CRP. If the CRP proposes changes to only a limited number of elements of the contract, the ETCs need only address those portions of the contract that have been impacted. Each ETC shall depict the level of costs incurred or to be incurred by year, or to the level of detail required by the Contracting Officer. If other CRPs have been proposed or approved on a contract, the impact of these CRPs must be addressed in the computation of the cost savings to ensure that the cost savings identified are attributable only to the CRP under consideration in the instant case.

(6) Identification of any other previous submissions of the CRP, including the dates submitted, the agencies and contracts involved, and the disposition of those submittals.

(g) Administration.

(1) Within 60 days of receipt, the Contracting Officer shall complete an initial evaluation of any proposed cost reduction plan to determine its feasibility. Failure of the Contracting Officer to provide a response within 60 days shall not be construed as approval of the CRP. The Government shall promptly notify the Contractor of the results of its initial evaluation and indicate what, if any, further action will be taken. If the Government determines that the proposed CRP has merit, it will open discussions with the Contractor to establish the cost savings to be recognized, the Contractor's share of the cost savings, and a payment schedule. The Contractor shall continue to perform in accordance with the terms and conditions of the existing contract until a contract modification is executed by the Contracting Officer. The modification shall constitute approval of the CRP, adjust the contract cost and/or price, establish the Contractor's share of cost savings, and incorporate the agreed to payment schedule.

(2) The Contractor will receive payment by submitting invoices to the Contracting Officer for approval. The amount and timing of individual payments will be made in accordance with the schedule to be established with the Contracting Officer. Notwithstanding the overall savings recognized by the Contracting Officer as a result of an approved CRP, payment of any portion of the Contractor's share of the savings shall not be made until the Government begins to realize a net cost savings on the contract (i.e., implementation, startup and other increased costs resulting from the change have been offset by cumulative cost savings). Savings associated with unexercised options will not be paid unless and until the contract options are exercised. It shall be the responsibility of the Contractor to provide such justification as the Contracting Officer deems necessary to substantiate that cost savings are being achieved.

(3) Any future activity, including a merger or acquisition undertaken by the Contractor (or to which the Contractor becomes an involved party), which had the effect of reducing or reversing the cost savings realized from an approved CRP for which the Contractor has received payment may be cause for recomputing the net cost savings associated with any approved CRP. The Government reserves the right to make an adjustment to the Government's share of cost savings and to receive a refund of moneys paid if necessary. Such adjustment shall not be made without notifying the Contractor in advance of the intended action and affording the Contractor an opportunity for discussion.

(h) Limitations. Contract requirements that are imposed by statute shall not be targeted for cost reduction exercises. The Contractor is precluded from receiving reimbursements under both this clause and other incentive clauses of the contract, if any, for the same cost reductions.

(i) Disapproval of, or failure to approve any proposed cost reduction proposal shall not be considered a dispute subject to remedies under the Disputes clause.

(j) Cost savings paid to the Contractor in accordance with the provisions of this clause do not constitute profit or fee within the limitations imposed by 10 U.S.C. 2306(d) and 41 U.S.C. 254(b).

(k) The Government reserves the right to use the cost saving initiatives developed in this contract wherever and whenever they would be determined advantageous to the Government.

It is the Government's intent to incorporate the offeror's proposal into the final contract while at the same time eliminating any contradictory or conflicting requirements between the two. In the event of a conflict between any part or parts of the offer and part or parts of the requirement, the government has the right to selectively choose that part or those parts which are the more advantageous of the two.
 - e. The non-price proposal submittal shall not exceed 100 pages. Blank tab dividers are excluded from the page limitation. Past Performance Questionnaires sent directly to the Contracting Office will count toward the page limitation.
 - f. Offerors shall put company name on every Non-Price page.
 - g. Paper will be white, 8 ½ by 11 inches and have margins of 1 inch on all four sides. Double-side printing is allowed; however each side will be counted as one page.
 - h. Foldouts are only permitted for the organization charts. Foldouts are limited to 11 by 17 inch white paper that must be folded to fit within the 3-ring D-binder, printing on one side only. 11 by 17 foldouts are considered one page.
 - i. Text will be black using a font no smaller than 11 point and single line spacing, Times New Roman or Courier.

- (4) All binder covers and spine inserts will contain the solicitation number and title, the offeror's name including individual point of contact, with phone number AND email address.

Offers are solicited on an "all or none" basis and FAR 52.215-1, INSTRUCTIONS TO OFFERORS-COMPETITIVE ACQUISITION in Section L, is hereby modified. Failure to submit offers for all line items listed shall be cause for rejection of the offer.

Section M - Evaluation Factors for Award

M.1 BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the lowest priced, technically acceptable offer.
2. As stated in the solicitation, the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, in accordance with NFAS 15.101-2, the number of proposals to be evaluated for technical acceptability may be limited to the five lowest priced offers at the discretion of the Contracting Officer. If the number of proposals to be evaluated is limited, technical proposals shall be provided to the evaluator(s) without any identification of prices or any ranked order of prices. If no proposals are found to be technically acceptable within the first group of proposals, then the process described will be conducted again as many times as necessary, until such time as the Government identifies a technically acceptable proposal. If the Contracting Officer later determines that discussions are necessary, the procedures in FAR 15.306 shall be followed.
3. The LPTA process is selected as appropriate for this acquisition because the best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.
4. An overall non-price factors rating must be at least "ACCEPTABLE" in order to be eligible for award. An "UNACCEPTABLE" rating in any factor results in the overall non-price factors proposal being rated "UNACCEPTABLE" unless corrected through discussions. An overall non-price factors rating of "UNACCEPTABLE" makes a proposal ineligible for award.

M.2 EVALUATION FACTORS

1. The solicitation requires the evaluation of price and the following non-price factors:

- Factor 1 – Corporate Experience
- Factor 2 – Management and Technical Approach
- Factor 3 – Safety
- Factor 4 – Past Performance

The distinction between corporate experience and past performance is corporate experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

2. Basis of Evaluation and Submittal Requirements for Each Factor.

- (a) Price:

- (1) Solicitation Submittal Requirements:

- (i) Provide a completed Section B of the solicitation.

(ii) Provide a completed Section J Exhibit Line Item Number (ELIN) Pricing Attachment. There are multiple worksheets within this file that require completion.

(iii) Offerors shall submit pricing data (Section B and Section J Exhibit Line Item Numbers Attachment) in hard copy and in EXCEL (Microsoft Office Version 2007 compatible) format on a CD-ROM. Offerors may utilize the pricing attachments in EXCEL (Microsoft Office Version 2007 compatible) format in Section J for submission of pricing data. Because the pricing evaluation will concentrate on the electronic files submitted, in the event of a discrepancy between the proposal hard copies and the proposal electronic copies, the proposal electronic copies will take precedence.

(2) Basis of Evaluation: The Government will evaluate price based on the total price. Total price consists of the basic requirements and all option items (see Section B of the solicitation). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in Section M of the solicitation. In accordance with FAR 52.217-5, Evaluation of Options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.
- (ii) Comparison of proposed prices with the IGCE.
- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

The Government will evaluate remaining pricing submittals to ensure the following:

- (i) Pricing submitted within Section B and Section J Exhibit Line Item Number (ELIN) Pricing is consistent.
- (ii) Fair and reasonable ELIN/unit pricing and identification of unbalanced pricing as appropriate.

(b) Technical Factors:

(1) Factor 1, Corporate Experience:

(i) Solicitation Submittal Requirements: The offeror shall submit at least one (1) and no more than five (5) examples of recent, relevant projects that the offeror (including joint venture and partnerships) completed and served as the prime contractor. Relevant projects include those that demonstrate the capability to perform services similar in size, scope, and complexity as described in the statement of work/specifications of the RFP with a contract value of at least \$250,000.00

per year or greater and shall be: 1) ongoing with at least 12 months of contract performance completed by the date of receipt of proposals, or 2) shall be completed, within the last five (5) years. For each project the offeror shall provide:

- a. Contract number, title, location, and original award date.
- b. Type of Contract (i.e. fixed price, cost reimbursable, etc.)
- c. Client points of contact with current telephone and facsimile numbers, and electronic mail addresses if available (Confidential clients are not acceptable and will result in non-consideration of the project). Failure to provide an acceptable point of contact and a correct telephone number may result in a lower rating.
- d. Description of work (service) performed- similar scope, size and complexity.
- e. Description of the relevance of this project to this solicitation.
- f. Percentage of the work that the firm subcontracted out.
- g. The final/revised contract completion date.
- h. Dollar value; annually and contract life.

An offeror may rely on the prime contractor experience of corporate affiliates (e.g., subsidiaries, sister companies and parent companies) to demonstrate experience, providing the offeror submits the following:

- a. A one-page narrative clearly demonstrating that the corporate affiliates will have meaningful participation in the project by identifying the personnel or resources from the corporate affiliates that will be dedicated to the project; and

- b. An organization chart that demonstrates the corporate relationship of the affiliates.

(ii) Basis of Evaluation: For experience, the Government seeks to evaluate the relevant experience of the offeror as a prime contractor previously performing relevant contracts directly responsible to the owner. Projects completed by the offeror or its corporate affiliates (e.g., subsidiaries, sister companies, and parent companies) in any capacity other than a prime contractor will be considered unacceptable. Projects completed by a proposed subcontractor will be considered unacceptable. Projects ongoing with less than 12 months of contract performance completed by the date of receipt of proposals, or projects completed more than five (5) years prior to the issuance of the RFP will be considered unacceptable. Projects with a total value below \$250,000.00 per year will be considered unacceptable. The prime contractor does not have to self-perform all the work identified in the PWS; however, the prime contractor must demonstrate that it has managed projects that included these services. If the offeror is a Joint Venture (JV), each member of the JV must demonstrate prime contractor experience on at least one relevant project. If each member of the Joint Venture does not have at least one relevant experience project, then the offeror will be considered unacceptable. For multiple award contracts (MACs) or indefinite delivery/indefinite quantity (ID/IQ) contracts, the specific relevant task order(s) that constitute a single project on the same site, not the entire MAC or ID/IQ contract, will be considered a project for evaluation purposes.

(2) Factor 2, Management and Technical Approach:

- (i) Solicitation Submittal Requirements: The offeror shall clearly demonstrate its understanding of current industry

standards, policies, procedures, and processes utilized in accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement. The offeror shall address each of the following components separately:

a. Workforce Management. Provide and explain a plan to organize, manage, and supervise workforce personnel to accomplish the requirements of this contract. The plan shall include an organization chart identifying the on-site organization and staff that will be used to perform this contract as well as the lines of management authority, supervision, span of control, and accountability, including the relationship between overall management (corporate and on-site), administration, sub-annex area organizations, and subcontractors. The plan's organization chart shall include all direct and indirect FTEs and labor hours. The plan shall identify the function(s) of the various groups of the organization, direct and indirect staffing and associated trade classifications with skill level (journeyman, etc.) consistent with the FTEs and labor hours provided in Section J Attachment JB1 FTE. The plan shall indicate the number of productive hours per year for each full time and part time employee.

b. Describe staffing levels for the entire contract effort. Provide a completed summary Attachment JB1 FTE for the total effort to include the prime contractor and all subcontractors for the Base Period. In summary, provide the rationale for the Basis of Estimate (BOE) including each specification item listed in Section J Attachment JB1 FTE. BOE shall include individual labor classifications, annual direct and indirect labor hours, and FTEs for performing the service requirements. Detailed estimate worksheets are not required.

c. Include the methodology to be implemented to accomplish the performance requirements in each annex/sub-annex and detail how the proposed approach will effectively achieve each performance objective and standard. The offeror's methodology shall demonstrate an approach to performing all requirements for the following annexes/sub-annexes:

- 1502000 Facility Investment
- 1503010 Custodial
- 1503020 Pest Control
- 1503030 Integrated Solid Waste Management
- 1503050 Grounds Maintenance & Landscaping
- 1503060 Pavement Clearance

Each spec item for this sub-annex shall be address within the offeror's methodology. The offeror's methodology clearly demonstrates an understanding of current industry standards, policies, procedures, and processes utilized in accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement.

d. Scheduling. Provide the methodology used (i.e. management indicators) to determine if/when there is a need to adjust the recurring work schedule. Describe scheduling procedures that will minimize interference with normal occurrence of Government business and the flexibility to adjust schedules to allow for access outside regular working hours and the flexibility to adjust to workload fluctuations. Describe procedures to manage foreseeable fluctuations in workload, for handling workload surges for IDIQ orders and natural disasters that could occur.

e. Quality Control Management. Provide a summary "Quality Control Plan" (QC), i.e. the quality processes (practices, resources, and activities) and minimum controls that will be used to ensure full compliance with all performance objectives and standards as described in Section C 0200000 Management and Administration. Describe the methods to be used to document, measure, and control and improve the quality processes. Describe the plan for training employees in the quality processes. Limit the Quality Control Management submission to no more than five (5) pages.

f. Phase-In and Phase-Out Plans. Provide an approach to each phase-in and phase-out plan. The phase-in plan is limited to no more than 30 calendar days. Each plan shall include: 1) a schedule for all key events; 2) personnel actions and responsibilities regarding employees at all levels; acquisition, delivery, storage, inventory and disposal of equipment, working stock, and materials (to include inbound items as applicable).

(ii) Basis of Evaluation: This factor will be evaluated as an overall factor with no sub-factors. The standard is met when the offeror demonstrates an acceptable understanding of current industry standards, policies, procedures, and processes utilized in accomplishing the complexity and magnitude of service requirements set forth in the performance objectives and standards of the Performance Work Statement. The Government will evaluate the proposal to ensure the offeror's approach demonstrates the following: (1) adequate staffing levels supported by a reasonable Basis of Estimate (BOE); (2) an approach/methodology to effectively achieve performance objectives and standards that reflects the best industry and/or commercial practices for each performance objective and standard; (3) an approach that demonstrates an effective and resource efficient approach to workforce management, scheduling, quality control, and phase-in and phase-out plans.

(3) Factor 3, Safety:

(i) Solicitation Submittal Requirements: The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR and DART Rates shall not be submitted for subcontractors.)

a. Experience Modification Rate (EMR):

For the three previous complete calendar years [2012, 2013, 2014], submit your EMR (which compares your company's annual losses in insurance claims against its policy premiums over a three year period). If you have no EMR, affirmatively state so, and explain why. Any extenuating circumstances that affected the EMR and upward or downward trends should be addressed as part of this element.

b. OSHA Days Away from Work,

Restricted Duty, or Job Transfer (DART) Rate: For the three previous complete calendar years [2012, 2013, 2014], submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA DART Rate data and upward or downward trends should be addressed as part of this element.

c. Technical Approach for Safety:

Describe the plan that the Offeror will implement to evaluate safety performance of potential subcontractors, as a part of the selection process for all levels of subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages.

(ii) Basis of Evaluation: The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The Government will evaluate the Offeror's overall safety record, the Offeror's plan to select and monitor subcontractors, any and innovative safety methods that the Offeror plans to implement for this procurement. The Government's sources of information for evaluating safety may include, but are not limited to, OSHA, NAVFAC's Facility Accident and Incident Reporting (FAIR) database, and other related databases. While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the Offeror. The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
- OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate
- Offeror Technical Approach to Safety
- Other sources of information available to the Government

(1) Experience Modification Rate (EMR): The Government will evaluate the EMR to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rating.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate: The Government will evaluate the OSHA DART Rate to determine if the Offeror has demonstrated

a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rates.

(3) Technical Approach to Safety: The Government will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The Government will also evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement.

(c) Past Performance

(1) Factor 4, Past Performance:

(i) Solicitation Submittal Requirements: FOR EACH PROJECT IDENTIFIED IN RESPONSE TO FACTOR 1, IF A COMPLETED CPARS EVALUATION IS AVAILABLE, IT SHALL BE SUBMITTED WITH THE PROPOSAL. If there is not a completed CPARS evaluation, the Past Performance Questionnaire (PPQ) included in the solicitation is provided for the offeror or its team members to submit to the client for each project the offeror includes in its proposal for Factor 1, Corporate Experience. AN OFFEROR SHALL NOT SUBMIT A PPQ WHEN A COMPLETED CPARS IS AVAILABLE.

If a CPARS evaluation is not available, ensure correct phone numbers and email addresses are provided for the client point of contact. Completed PPQs should be submitted with your proposal. If the offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the offeror should complete and submit with the proposal the first page of the PPQ (Attachment C, N6945015R2119-1PPQ), which will provide contract and client information for the respective project(s). Offerors should follow-up with clients/references to ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Susan Forchette or Rebecca Jones via email at susan.forchette@navy.mil or rebecca.m.jones@navy.mil prior to proposal closing date. Offerors shall not incorporate by reference into their proposal PPQs or CPARS previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation.

Also, include performance recognition documents received within the last five (5) years such as awards, award fee determinations, customer letters of commendation, and any other forms of performance recognition.

In addition to the above, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the offeror's proposal, inquiries of owner representative(s), and any other known sources not provided by the offeror.

While the Government may elect to consider data from other sources, the burden of providing detailed, current, accurate and complete past performance information rests with the offeror.

(ii) Basis of Evaluation: The degree to which past performance evaluations and all other past performance information reviewed by the Government (e.g., PPIRS, Federal Awardee

Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), performance recognition documents, and information obtained from any other source) reflect a trend of satisfactory performance considering:

- A pattern of successful completion of tasks;
- A pattern of deliverables that are timely and of good quality;
- A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.);
- Recency of tasks performed that are identical to, similar to, or related to the task at hand; and
- A respect for stewardship of Government funds
