Section SF 30 - BLOCK 14 CONTINUATION PAGE

STATEMENT OF WORK

GENERAL INFORMATION:

Document Type: Combined Synopsis/Solicitation Notice

Solicitation Number: N69450-16-Q-5327

Set Aside: 100% Total Small Business

NAICS Code: 238350, Size standard in Millions: \$15.0

DESCRIPTION / SCOPE OF WORK: Contractor is to provide all Labor, Materials, equipment, Tools, Transportation and Management necessary to renovate Bldg 4728, Security Building, at NAS Kingsville, TX.

This announcement constitutes the only solicitation; no separate written solicitation will be issued.

BASIS FOR AWARD: AWARD WILL BE BASED ON LOWEST PRICE.

Target Price Range is less than \$150K

Anticipated award date: 5 days after close of solicitation

Quotes are to be received no later than 5 p.m. central standard time on 06 June 2016. Proposals should be emailed to joel.overson@navy.mil

Any changes to the solicitation or RFI's will be posted on FEDBIZOPS (www.fbo.gov) for the mutual benefit of all bidders.

ADDITIONAL INFORMATION:

Solicitation document shall be signed by bidders and all applicable Certifications and Representations shall be completed. Offer should be in sufficient detail to ensure that the technical team can determine the offer complies with the Statement of Work (SOW).

All payments are to be paid via the Internet through the Wide Area Work Flow (WAWF) system. WAWF may be accessed at <https://wawf.eb.mil>. WAWF training may be accessed online at <http://www.wawftraining.com>. Payment information may be accessed using the DFAS website at <https://www.dfas.mil>. Your purchase order/contract number or invoice will be required to inquire status of your payment.

Be advised that all interested parties must be registered in the System for Award Management (SAM) Database in order to receive payment for products/services

rendered to the Government as the result of an award. If you are not registered you may request an application at (334) 206-7828 or through the SAM website at <https://sam.gov>.

Rapid Gate Information: The Navy has implemented a new security access program for the Corpus Christi and Kingsville Naval Air Stations. This program, called Rapid gate, will reduce expenses, reduce risk, and insure quicker access for people coming to the installation. You must either call 1-877-727-4342 or go online to <http://rapidgate.com> Once the company is enrolled, your employees can register at the installation. If your company employees have been authorized the common access card (CAC), it is not necessary to enroll in the rapid gate program.

SITE VISIT INFORMATION:

1. One site visit will be held to ensure all potential offerors have uniform information in order to make an accurate proposal.
2. Site visit will be conducted on **13 May 2016 at 10:00 a.m.** central time at NAS Kingsville, TX. All potential offerors are encouraged to attend the site visit to perform an inspection of the size and current layout.
3. Offerors are expected to satisfy themselves as to the general and local conditions that may affect the cost of the performance of the work to the extent that such information is reasonably obtainable. It is considered impractical to determine, without inspection, the exact nature of the work and site conditions under which the work is to be performed.
4. To attend please contact the Site Visit POC.

Site Visit POC:

Mr. James Bustos

james.e.bustos@navy.mil

361-516-6062

Deadline for receipt of this form is one week prior to the site visit. It is the responsibility of the contractor to confirm this form is received. After submission of form should a person not be available to attend, send a cancellation email to the same POC.

5. Interested parties are advised to arrive by an hour early in order to receive security passes and clearance.
6. The contractor may require, and should have, their own ear plugs, safety glasses and safety shoes to have access to the work site.

Building 4728 Base Security – Refurbishment

1. GENERAL REQUIREMENTS

- 1.1. The contractor shall provide all labor, materials, equipment, tools, transportation and management necessary to accomplish the project. Report any unforeseen findings to the attention of the Contracting Officer's Representative (COR) assigned to the project. COR is the individual designated by as the authorized representative of the Contracting Officer. The COR is responsible for monitoring performance and technical management of the effort required and should be contacted regarding questions or problems of a technical nature. The COR will be the CM, ET, and/or PAR assigned to the project.
- 1.2. For bidding, design, and construction, field verify all project information provided. Field verify the existing conditions.
- 1.3. Material and equipment laydown area shall be coordinated with the COR.
- 1.4. Protocols for material/equipment unloading and loading shall be observed and coordinated with the COR.
- 1.5. "Provide" shall mean to furnish and install new, complete in every detail, and ready for its intended use.
- 1.6. Project work is for Building 4728 Base Security located at the Naval Air Station in Kingsville, Texas.

2. SCOPE OF WORK

- 2.1. Provide design, procurement, construction, installation, and removal services for the project work as necessary and as required.
- 2.2. See Enclosure One for the Building 4728 room number and room name locations referenced.
- 2.3. See Enclosure Two for the certificate of analysis for the paint lead levels found in the building interior (building design year: 1983). As part of the design requirement, disturbing of any paint shall require the implementation of the lead safe work practices to include, but not limited to:
 - Occupational Health & Safety Administration (OSHA)
 - ... 29 CFR 1910 Occupational Health and Safety Standards
 - ... 29 CFR 1926.62 Lead
 - Unified Facilities Guide Specifications (UFGS)
 - ... UFGS 02 82 33.13 20 Removal/Control and Disposal of Paint with Leadand shall abide by all federal, state, regional, and local requirements (most stringent shall prevail).

2.3.1. **Flooring** (*Existing flooring material is on a concrete substrate; provide all substrate preparations and repairs.*)

- 2.3.1.1. Provide removal and proper disposal of existing glued-down broadloom carpet and provide new commercial-grade carpet tile (~3,046 sq. ft.) for the following room numbers and room names: 7, 8, 9, 10, 11, SIPR, 12, 13, 14, 15, 16, 17 and 18.
- 2.3.1.2. Provide removal and proper disposal of existing vinyl composition tile (~1,285 sq. ft.) for the following room number and room name: 7 and Lobby.
- 2.3.1.3. Provide new commercial-grade luxury vinyl tile (~975 sq. ft.) for the Lobby. See the Lobby's VCT removal requirement stated above.
- 2.3.1.4. Provide removal and proper disposal of existing wall base and provide new wall base (~1,114 lin. ft.) for the following room numbers and room names: 2, 7, 8, 9, 10, 11, SIPR, 12, 13, 14, 15, 16, 17, 18, 19, 19A, 19B, North Corridor, South Corridor and Lobby.
- 2.3.1.5. Provide flooring strips required at all locations.

(1) Existing flooring material is on a concrete substrate.

(2) Carpet has been removed. Adhesive remains on concrete substrate.

2.3.2. Painting (*Provide all substrate preparations and repairs.*)

- 2.3.2.1. Provide repainting of interior walls (~12,349 sq. ft.) for the following room numbers and room names: 1, 1A, 2, 5, 6, 7, 8, 9, 10, 11, SIPR, 12, 13, 14, 15, 16, 17, 18, 19, 19A, 19B, 20, 21, North Corridor, South Corridor, and Lobby.
- 2.3.2.2. Provide repainting of all existing painted interior door frames and painted window frames.
- 2.3.2.3. Provide repainting for the entire, white-colored, exterior, stucco-type, upper wall along the building's south side (~671 sq. ft.). Also, provide substrate preparation and repaint the faded "POLICE" signage lettering located above the building's south entrance door (~10 sq. ft.). This signage lettering's color shall approximate the color of the lettering's less-faded color along the lettering's bottoms.
- 2.3.2.4. Provide repainting of the ceiling and ceiling fixtures for the North Foyer (~75 sq. ft.) and the South Foyer (~40 sq. ft.).

2.3.3. Cleaning Locker

- 2.3.3.1. Provide relocation of the ice making machine, its water filtering system, piping and all appurtenances to the Kitchen. See the next section below for additional requirements.
- 2.3.3.2. Provide a new push door (approximately 3' x 7', birch veneer face, Type II bond, heavy duty, flush, particleboard core, good grade rotary cut, transparent conversion varnish factory finish without stain), push plate, pull handle and plate, kickplate, door hardware, hinges, and door closer and all required appurtenances for mounting onto an existing metal door frame. Coordinate the new door's swing to that required by the existing metal door frame.

2.3.4. Kitchen

- 2.3.4.1. Provide removal and proper disposal of an approximately 7.5 foot long, hard plastic laminate countertop along with its wood base and wall cabinetry. Also, remove and properly dispose the countertop's hard plastic laminate backsplash, stainless steel sink and faucet. The existing electrical outlet located on the backsplash shall be made ready for use for a relocated ice making machine as mentioned in this section.

- 2.3.4.2. Provide one (1) new stainless steel sink and faucet of the same type and style as the existing. Provide all plumbing required for the new sink and faucet. The new sink's location shall be the same as the existing sink. The area under the sink shall not be enclosed and shall be equipped with an unpainted, non-corroding, metal shelf. The new sink shall be supported by an unpainted, non-corroding, sturdy, base.
 - 2.3.4.3. Provide two (2) wall-mounted, height adjustable, unpainted, non-corroding, metal shelves directly above the new sink. These new shelves shall not be enclosed.
 - 2.3.4.4. Provide relocation of the ice making machine and its water filtering system located in the adjacent Cleaning Locker to the Kitchen. Re-install the ice making machine and its water filtering system on the north side and adjacent to the new sink described above. Provide new drain piping, water supply piping and all plumbing required for the ice making machine's relocation. Route the new drain piping to the floor drain located in the adjacent Cleaning Locker.
 - 2.3.4.5. Provide a new, approximately nine (9) foot long, painted, taped and floated, double-sided gypsum wall using galvanized metal framing. This new wall shall be provided with a new door (approximately 3' x 7', birch veneer face, Type II bond, heavy duty, flush, particleboard core, good grade rotary cut, transparent conversion varnish factory finish without stain), with keyed mortise lockset, door lite (6" x 28" tempered glazed opening), door hardware, hinges, swings into the Kitchen, door closer and painted steel door frame with door silencers. This new wall shall be located flush along the intersection of the Kitchen and the North Corridor. The wall's height shall maintain a 12-inch opening along the ceiling. The wall's top horizontal edge shall be provided with a neat, smooth, and clean finish on both sides. The new wall's intersection along the existing walls shall not show any gaps or separations.
- 2.3.5. **Room 1**
- 2.3.5.1. Provide substrate preparations and repairs, and repaint both sides of one (1) interior metal door and frame.
- 2.3.6. **Room 6**
- 2.3.6.1. Provide substrate preparations and repairs, and repaint both sides of one (1) interior metal door and frame on the north wall.
- 2.3.7. **Room 10**
- 2.3.7.1. Provide removal and proper disposal of an existing interior gypsum half-wall with a hard plastic laminate countertop (~25 sq. ft.) and a door swing support wood post. The existing electrical outlets and their appurtenances located on this half-wall shall remain and be made ready for use in their current position on a new wall as described below.
 - 2.3.7.2. Provide a new, approximately 10.25 foot long, full height, painted, taped and floated, double-sided gypsum wall to fully enclose Room 10. The new wall's intersection along the existing walls shall not show any gaps or separations.

2.3.8. Room 15

- 2.3.8.1. Provide removal and proper disposal of an existing wooden swinging half-door along with its door mounting brackets located at Room 15. Provide finishing and painting work as required to any remaining surfaces associated with the removal of this swinging half-door.
- 2.3.8.1.1. Provide new, painted, taped and floated, double-sided gypsum walls using galvanized metal framing totaling approximately 160 square feet. The first wall section shall be approximately 54 inches high and mounted atop the existing hard plastic laminate countertop. This new wall atop the countertop shall be centered along the countertop's angled section and then aligned along the countertop's outside edge for the remaining portion. This new wall atop the countertop shall be continuous and shall be coordinated with the Contracting Officer's Representative (COR). This new wall mounted atop the countertop shall have three (3) each, 2 ft. x 3 ft. sliding windows with locking lever, aluminum frame and standard glazing. The window locations shall be coordinated with the COR. The windows shall be provided with a finished opening on both sides of the wall. This wall's intersection along the countertop shall be finished on both sides and shall not show any gaps or separations.
- 2.3.8.1.2. The last wall section shall be located on the north side to close this room and shall have a new door (approximately 3' x 7', birch veneer face, Type II bond, heavy duty, flush, particleboard core, good grade rotary cut, transparent conversion varnish factory finish without stain) with keyed mortise lockset, door lite (6" x 28" tempered glazed opening), door hardware, hinges, swings into Room 15, door closer and painted steel door frame with door silencers. The countertop shelving between this last wall section shall be closed, trimmed and painted. The door location shall be coordinated with the COR. The gap between this last wall section and the countertop mounted wall shall be closed with wall construction.
- 2.3.8.1.3. All new wall sections for Room 15 shall maintain a 12-inch opening along the ceiling and their top horizontal edge along the 12-inch opening shall be provided with a neat, smooth, and clean finish on both sides. All new walls' intersection along the existing walls and countertop shall not show any gaps or separations.
- 2.3.9. **Room 19, 19A and 19B** (*Carpet has been removed. Adhesive remains on concrete substrate*).
- 2.3.9.1. Provide grinding and polishing of the existing concrete floor. Apply a chemical densifier to strengthen the top most layer of the concrete floor. Provide a grinding and polishing process that transition from metal to resin bonds and polishing with progressively finer grinding tools up to an

800-grit to achieve a Level 3 gloss level with a 50 to 60 gloss reading. Airborne dust and silica shall not be allowed. Provide filling-in of joints and cracks with the type of material required as per industry standards. Provide a penetrating guard and sealer to increase the concrete's resistance to fats, oils, water and acids. The densifier, guard and sealer shall be low volatile organic compounds type. At completion, the polished concrete floor shall adhere to the OSHA recommended slip resistance of 0.6. Submit floor maintenance written instructions.

- 2.3.9.2. Provide new, two (2) each, two-inch wide, floor stripes in the Patrol Room totaling approximately 30 linear feet. Coordinate location, layout and color with the COR.

2.3.10. North Corridor

- 2.3.10.1. Provide a new, painted, taped and floated, double-sided gypsum wall using galvanized metal framing. This new wall shall be a full height wall up to the ceiling and shall include a new push door (approximately 3' x 7', birch veneer face, Type II bond, heavy duty, flush, particleboard core, good grade rotary cut, transparent conversion varnish factory finish without stain), door lite (6" x 28" tempered glazed opening), push plate, pull handle and plate, door hardware, hinges, swings into the Corridor, door closer, kickplate, floor doorstops (holder and bumper) and painted steel door frame with door silencers. This new wall shall be located flush along the intersection of the North Corridor and the Lobby. The new wall's intersection along the existing walls shall not show any gaps or separations.
- 2.3.10.2. Provide substrate preparation and repaint both sides of one (1) exterior metal door and frame located at the Corridor's east end located adjacent to Room 5 and Room 6.
- 2.3.10.3. Provide removal of an existing fire extinguisher along with its recessed wall cabinet located at the west end of the Corridor across from the Kitchen. Patch and paint the removed wall cabinet's opening in the gypsum board. Reinstall the removed fire extinguisher and its recessed wall cabinet into the Kitchen's new wall (Corridor side) on the east side of the Kitchen's new door.

2.4. SPECIFICATIONS *(Also see Section 3 – Applicable Reference Documents for additional applicable Specifications).*

- 2.4.1. Provide submittals for all materials, equipment and designs.
- a. The Government's approval or acceptance of submittals is not to be construed as a complete check, and indicates only that the general method of construction, materials, detailing and other information are satisfactory and appear to meet the Solicitation and Accepted Proposal.
 - b. Approval or acceptance of submittals will not relieve the Contractor of the responsibility for any error which may exist, as the Contractor under the Contractor Quality Control (CQC) requirements of this contract is responsible for the satisfactory construction of all work.

- c. No payment for work or materials incorporated into the work will be made if all required Government approvals have not been obtained. No payment will be made for any materials incorporated into the work for any conformance review submittals or information only submittals found to contain errors or deviations from the Solicitation or Accepted Proposal.
- 2.4.2. Coordinate all color selections (for example: floor covering, walls, wall base, doors) with the COR.
- 2.4.3. Government shall remove, and return upon completion, all room items required for the project work.
- 2.4.4. The COR, Contractor, Door Hardware subcontractor, using Activity, and Base Locksmith shall meet to discuss key requirements for the facility.
- 2.4.5. No work will be performed for the Mechanical Room.
- 2.4.6. Flooring transition strips shall be as per industry standards and practices, and manufacturer requirements.
- 2.4.7. Provide all types of substrate preparations and repairs to complete the project.
- 2.4.8. Provide determination for integrating the existing paint coating system's compatibility with a planned repair or the new paints' over-coating system.
- 2.4.9. New doors shall not require transoms or fire-rating.
- 2.4.10. New doors shall comply with the Window and Door Manufacturers Association I. S. 1A.
- 2.4.11. New door hardware shall comply with the Builders Hardware Manufacturers Association and Unified Facilities Guide Specification 08 71 00 Door Hardware.
- 2.4.12. Install doors in accordance with the manufacturer's instructions and details.
- 2.4.13. New doors shall swing into their respective rooms and corridor.
- 2.4.14. New doors shall be free of urea-formaldehyde resins.
- 2.4.15. Provide a non-staining adhesive on natural finish doors.
- 2.4.16. Warrant doors free of defects as set forth in the door manufacturer's standard door warranty.
- 2.4.17. Cut studs square and set with firm bearing against webs of top and bottom tracks. Position studs vertically in tracks. Do not splice studs. Provide at least two studs at jambs of doors and other openings 2 feet wide or larger. Provide jack studs over openings, as necessary, to maintain stud spacing. Provide tripled studs at corners, positioned to receive interior and exterior finishes. Fasten studs to top and bottom tracks by welding or screwing both flanges to the tracks. Framed wall openings shall include headers and supporting components. Headers shall be installed in all openings that are larger than the stud spacing in a wall.
- 2.4.18. Install sealer gasket under bottom of track on concrete slab or foundation. Sealer gasket shall be closed-cell neoprene foam, 1/4-inch thick, selected from manufacturer's standard widths to match width of bottom track on concrete slab or foundation.
- 2.4.19. Provide all substrate preparatory work required for all project work as per industry standards and practices, and manufacturer requirements.
- 2.4.20. Provide gypsum wall repairs (for example: patching, replacing, painting) required as a result of wall base removal.

- 2.4.21. Properly prepare each substrate area receiving a floor covering to include, but not limited to, cleaning, leveling, and patching. All preparation measures shall be exhausted to ensure that flooring coverings shall be installed in accordance with the manufacturer's recommendations and specifications.
- 2.4.22. Maintain a clean job site and work environment and ensure the clearing of all construction debris, left over materials, and waste in all rooms where the installation takes place.
- 2.4.23. Provide the Carpet and Rug Institute (CRI) Indoor Air Quality (IAQ) label for carpet, carpet cushion, and adhesives. Carpet, carpet cushion, and adhesives bearing the label will indicate that the carpet has been tested and meets the Regulatory Requirements and criteria of the CRI IAQ Carpet Testing Program, and minimizes the impact on indoor air quality.
- 2.4.24. Provide manufacturer's standard performance guarantees or warranties including minimum ten year wear warranty, two year material and workmanship and ten year tuft bind and delamination.
- 2.4.25. Furnish first quality carpet; free of visual blemishes, streaks, poorly dyed areas, fuzzing of pile yarn, spots or stains, and other physical and manufacturing defects. Provide carpet materials and treatments as reasonably non-allergenic and free of other recognized health hazards. Provide a static control construction on all grade carpets which gives adequate durability and performance. Submit Manufacturer's catalog data and printed documentation stating physical characteristics, durability, resistance to fading, and flame resistance characteristics for each type of carpet material and installation accessory. Submit manufacturer's catalog data for the following items: 1) Carpet Cushion and 2) Carpet Moldings. Submit samples.
- 2.4.26. Static Control: Provide static control to permanently regulate static buildup to less than 3.5 kV when tested at 20 percent relative humidity and 70 degrees F in accordance with American Association of Textile Chemists and Colorists (AATCC) 134.
- 2.4.27. Flammability and Critical Radiant Flux Requirements: Carpet shall comply with 16 CFR 1630 – Standard for the Surface Flammability of Carpets and Rugs. The carpet's critical radiant flux level as it applies to building type and area of application shall be made in accordance with the latest edition of UFC 3-600-01 or NFPA 101.
- 2.4.28. Adhesives and concrete primers shall comply with applicable regulations regarding toxic and hazardous materials.
- 2.4.29. Repair holes, cracks, depressions, or rough areas using material recommended by the floor covering or adhesive manufacturer. Free floor of any foreign materials and sweep clean. Do not install floor covering on surfaces that are unsuitable and will prevent a proper installation. Prepare subfloor in accordance with flooring manufacturer's recommended instructions.
- 2.4.30. Test concrete slab for moisture content and excessive alkalinity in accordance with the Carpet and Rug Institute's Carpet Installation Standard (CRI CIS).
- 2.4.31. Conduct installation in accordance with the manufacturer's printed instructions and CRI CIS.

- 2.4.32. Follow ventilation, personal protection, and other safety precautions recommended by the adhesive, floor covering, paint, and materials manufacturer. Continue ventilation during installation and for at least 72 hours following installation.
- 2.4.33. Submit three copies of the floor coverings' manufacturer's maintenance instructions describing recommended type of cleaning equipment and material, spotting and cleaning methods, and cleaning cycles.
- 2.4.34. After installation of the floor covering, remove debris, scraps, and other foreign matter. Remove soiled spots and adhesive from the face of the floor covering with appropriate spot remover.
- 2.4.35. Cut off and remove protruding face yarn. Vacuum carpet clean with a high-efficiency particulate air (HEPA) filtration vacuum.
- 2.4.36. Provide two (2) unopened carton of extra carpet tile material of the same dye lot, type, color and pattern as which was installed.
- 2.4.37. Paints shall be of zero volatile organic compounds and shall contain anti-microbial agents that shall inhibit the growth of microbes on the paint film surface. Submit the paint product data.
- 2.4.38. Submit manufacturer's Material Safety Data Sheets (MSDS) for coatings, solvents, and other potentially hazardous materials.
- 2.4.39. Comply with Unified Facilities Guide Specification 09 90 00 Paints and Coatings.
- 2.4.40. Do not use coatings having a lead content over 0.06 percent by weight of nonvolatile content.
- 2.4.41. Do not use coatings containing zinc-chromate or strontium-chromate.
- 2.4.42. Materials shall not contain asbestos.
- 2.4.43. Materials shall not contain mercury or mercury compounds.
- 2.4.44. Materials shall not contain American Conference of Governmental Industrial Hygienists (ACGIH) 0100 confirmed human carcinogens (A1) or suspected human carcinogens (A2).
- 2.4.45. Comply with the application instructions of the paint manufacturer.
- 2.4.46. Apply coating materials using safety methods and equipment in accordance with the following:
 - Work shall comply with applicable Federal, State, and local laws and regulations, and with the Accident Prevention Plan, including the Activity Hazard Analysis as specified in Section 01 35 26 Government Safety Requirements and in Appendix A of EM 385-1-1. The Activity Hazard Analysis shall include analyses of the potential impact of painting operations on painting personnel and on others involved in and adjacent to the work zone.
- 2.4.47. To protect personnel from overexposure to toxic materials, conform to the most stringent guidance of:
 - a. The applicable manufacturer's Material Safety Data Sheets or local regulation.
 - b. 29 CFR 1910.1000.
 - c. ACGIH 0100, threshold limit values.

- 2.4.48. Comply, at minimum, with manufacturer recommendations for space ventilation during and after installation.
- 2.4.49. Do not apply coating when air or substrate conditions are:
 - a. Less than five degrees F above dew point;
 - b. Below 50 degrees F or over 95 degrees F, unless specifically pre-approved by the COR and the product manufacturer. Under no circumstances shall application conditions exceed manufacturer recommendations.
- 2.4.50. At the time of application, paint shall show no signs of deterioration. Uniform suspension of pigments shall be maintained during application.
- 2.4.51. Each coat of paint shall be applied so dry film shall be of uniform thickness and free from runs, drops, ridges, waves, pinholes or other voids, laps, brush marks, and variations in color, texture, and finish. Hiding shall be complete.

2.5. **Demolition Work**

- 2.5.1. See Scope of Work.

3. **APPLICABLE REFERENCE DOCUMENTS**

The advisory provisions of the applicable reference documents shall be mandatory, as though the word “shall” had been substituted for “should” wherever it appears. Reference to the “authority having jurisdiction” shall be construed to mean “Contracting Officer”. Comply with the applicable reference documents at the time of contract award. Unified Facilities Criteria (UFC) and Unified Facilities Guide Specifications (UFGS) reference documents can be found at the following website address: <http://www.wbdg.org/>. Applicable reference documents are, but not limited to:

- 3.1. Federal, State and Local regulations: the most stringent standard shall prevail.
- 3.2. American Industrial Hygiene Association (AIHA)
- 3.3. American Conference of Governmental Industrial Hygienists (ACGIH)
- 3.4. American Society of Testing and Materials (ASTM)
- 3.5. Master Painters Institute (MPI)
- 3.6. National Electric Code (NEC)
- 3.7. Occupational Health & Safety Administration (OSHA)
 - ... 29 CFR 1910 Occupational Health and Safety Standards
 - ... 29 CFR 1926.62 Lead
- 3.8. NASKINGS INSTRUCTION 5500.1J “Key and Lock Control Program”
- 3.9. Window and Door Manufacturers Association I. S. 1A.

4. PRE-AWARD SITE VISIT

- 4.1. Prior to submitting proposals, prospective bidders can and will be expected to visit the job site, inspect the work in place and satisfy themselves as to the character and amount of work to be accomplished. Bidders will refer to Federal Biz Ops advertisement for the scheduled site visit time and date. Failure by the Contractor to familiarize oneself with available information regarding site conditions prior to bid shall not relieve the Contractor from the responsibility of successfully completing the work. It is very important bidders contact the COR for a day pass application (SECNAV 5512/1) enclosed in the solicitation to fill in within 10 days of the scheduled site visit. Failure to comply may mean denial to attend the site visit scheduled.

5. CONTRACTOR PERSONNEL BASE ACCESS REQUIREMENTS

- 5.1. The base access protocol implemented is the RAPID-Gate system. The system provides background checks of contractor personnel. A personnel badge that affords base access for one year shall be issued to each Contractor employee that meets background check criteria. There are costs for contractors to participate in the RAPID-Gate program which include a fee for the Contractor's firm and a fee per Contractor employee. Costs to participants are recaptured through increased productivity of their employees due to the reduction in waiting times at the Pass and Identification Office and Entry Control Points (ECP). Contractors are required to participate in the Rapid Gate Program.

6. PERFORMANCE PERIOD

- 6.1. Background checks and requests for daily passes must be filled in (SECNAV 5512/1) and submitted to the assigned COR a minimum 10 days prior to any new work.
- 6.2. Performance Period: Performance period shall be 66 calendar days. The performance period begins upon the date of award of the contract and ends on the contract completion date (CCD). The performance period shall include pre-construction submittals, material procurement, pre-construction meetings, construction, commissioning, punch-list completion, and acceptance of closeout documentation.

7. LIQUIDATED DAMAGES: FAR 52.211-12

- 7.1. See contract clauses

8. PROJECT SCHEDULE

- 8.1. The Project Schedule shall show submittals, government review periods, material/equipment delivery, utility outages, on-site construction, inspection, testing, and closeout activities. The Bar Chart shall be time scaled and generated using an electronic spreadsheet program.

- 8.2. The contractor shall use the critical path method (CPM) to schedule and control project activities. Project schedules shall be prepared and maintained electronically. Save files in applicable format to be importable. Schedule shall be, updated at least monthly for any project exceeding 60 calendar days. The schedule shall be, built as follows.
- 8.3. The project schedule shall show design periods, submittals, government review periods, material/equipment delivery, utility outages, all on-site construction, inspection, testing, and closeout activities. Government and Contractor on-site work activities shall be driven by work schedules that reflect Saturdays, Sundays and all Federal Holidays as non-work days unless notified.
- 8.4. The schedule; shall display Start Contract and End Contract milestone activities. No activities shall be open-ended; each activity shall have predecessor and successor ties. Schedule shall be cost-loaded to aid in the submission of invoices.
- 8.5. Date/time constraint(s) and/or lags, other than those required by the contract, shall not be, allowed unless accepted by the QA. The Contractor shall include as the last activity in the contract schedule, a milestone activity named "Contract Completion Date." The CCD milestone shall have a "Mandatory Finish" constraint equal to the CCD.

9. PRE-CONSTRUCTION MEETING FOR PROJECTS

- 9.1. The Contractor shall participate in the pre-construction meeting to discuss administrative and contract requirements. The contractor will work with the COR to set up. During the meeting, the Contractor shall discuss the conceptual process of the project with drawings, specifications, catalog cuts, job plans, and all required documents as available at the time of the meeting.

10. PRE-CONSTRUCTION SUBMITTAL REQUIRMENTS

- 10.1. The Contractor shall have the following submitted within 14 calendar days of award and prior to the Pre-Construction Meeting:
 - 10.1.1. Approved Site Safety and Health Officer (SSHO) employee (must work for the prime contractor)
 - 10.1.2. Approved Quality Control employee (must work for the prime contractor)
 - 10.1.3. Approved Site Superintendent employee (must work for the prime contractor)
 - 10.1.4. Approved Project Schedule
 - 10.1.5. Accident Prevention Plan (APP): (must be site specific) with Activity Hazard Analysis (AHA) for each Definable Feature of Work.
 - 10.1.6. Emergency Action Plan: can be separate or an attachment to Accident Prevention Plan.
 - 10.1.7. Quality Control Plan: will identify the Contractor's Organizational Chart and provide associated documentation, methods, and testing to ensure quality.
 - 10.1.8. Material/Equipment Submittal Plan will identify projected dates that material submittals shall be, forwarded to the government. Manufacturing lead-time shall be, afforded for manufacturing of equipment. Contractor must provide

- proof of manufacturing. Purchase from vendor to the KO and request a no cost time extension via the Request for Information (RFI) process.
- 10.1.9. Schedule of Prices: Submit on forms furnished by the Government. The initial schedule of prices may be preliminary for construction activities until the design is developed. Include a detailed breakdown of the contract price, with quantities for each kind of work. Include General Conditions, profit, and overhead in the unit prices. Break down into design and each construction category if stated in Attachment A. The Contractor may invoice for bonds once the Government has approved the bonds, however, no other requests for payment will be processed without an approved Schedule of Prices.

11. SUBMITTAL REGISTER:

- 11.1. Each submittal is to be complete and in sufficient detail to allow ready determination of compliance with contract requirements.
- 11.2. Contractor shall check and approve all items prior to submittal and stamp, sign, and date indicating action taken. Proposed deviations from the contract requirements shall be, clearly identified. Include within submittals items such as: Contractor's, manufacturer's, or fabricator's drawings; descriptive literature including (but not limited to) catalog cuts, diagrams, operating charts or curves; test reports; test cylinders; samples; Operations and Maintenance (O&M) Manuals (including parts list); certifications; warranties; and other such required submittals.
- 11.3. Project Schedule
- 11.4. Accident Prevention Plan (must be site specific)
- 11.5. Activity Hazard Analysis
- 11.6. Emergency Action Plan
- 11.7. Quality Control Plan
- 11.8. Material/Equipment Submittals, (use NASK PWD transmittal form)
- 11.9. Environmental Plan
- 11.10. Proof of manufacturing purchase from vendor, as requested.
- 11.11. Material Safety Data Sheets (MSDS) as applicable.
- 11.12. Licenses and Permits
- 11.13. Digging Permit (14 days prior to excavation)
- 11.13.1. **NAVFAC Red-Zone (NRZ) Checklist/POA&M**
- 11.13.2. **Closeout Submittals UFGS-01 78 00**
- 11.13.2.1. Construction Contract Specifications
- 11.13.2.2. Real Property Equipment
- 11.13.2.3. Real Property Record
- 11.13.2.4. Warranty Management Plan
- 11.13.2.5. Warranty Tags
- 11.13.2.6. Properly completed DD Form 1354 with associated costs

12. POST- CONSTRUCTION SUBMITTALS

- 12.1. Prior to the CCD, the contractor shall provide one hardcopy and electronic copy on CD+R of all required closeout submittals.

- 12.2. Reference section 12.13.2 of this document to see required closeout submittals
- 12.2.1. Acceptable format shall be, compatible with NASK PW latest software versions in AUTODESK- (AUTOCAD) DWG format, Adobe Acrobat and Microsoft Office format. Data shall be, provided during acceptance period in a digital optical disc storage format (DVD+R).

13. SUBMITTALS AND PROCEDURES

- 13.1. **Updated Project Schedule:** Update the Project schedule at monthly intervals, if applicable or, as revisions occur. The updated schedule shall be, kept current, reflecting actual activity progress and plan for completing the remaining work. Submit copies of purchase orders and confirmation of delivery dates as directed by the assigned COR.
- 13.2. **Three week look ahead and schedule:** At the start of construction, the Contractor shall prepare and issue a 3-Week Look Ahead schedule to provide a more detailed day-to-day plan of upcoming work identified on the Project Schedule. The work plans shall be, keyed to activity numbers when a Network Analysis type schedule is required and updated each week to show the planned work for the current and following two-week period. Additionally, include upcoming outages, closures, preparatory meetings, and initial meetings. Identify critical path activities on the Three-Week Look Ahead Schedule. The detail work plans are to be bar chart type schedules, maintained separately from the Project Schedule on an electronic spreadsheet program and printed on 8-½ by 11 sheets as directed by the Contracting Officer. Activities shall not exceed 5 working days in duration and have sufficient level of detail to assign crews, tools and equipment required to complete the work. Provide an electronic file of the 3-Week Look Ahead Schedule to the assigned COR no later than 1000 each Monday for review during the weekly Coordination Meeting.
- 13.3. **Correspondence and acceptance test reports:** All correspondence (e.g., letters, Requests for Information (RFIs), e-mails, meeting minute items, Production and Daily Reports, material delivery tickets, photographs, etc.) shall reference the Design and Construction Schedule activities that are being addressed. All test reports (e.g., equipment, concrete, soil compaction, weld, pressure, etc.) shall reference schedule activities that are being addressed.

14. FIRE, SAFETY AND CONFINED SPACE REQUIREMENTS

- 14.1. The Contractor is required to comply with all Station Safety Regulations. The Contractor shall observe all requirements for handling and storage of combustible materials, waste and trash. Open flames aboard the station/hot work (i.e. welding) require a permit from the fire department, phone number 361-516-6135.

15. SAFETY REQUIREMENTS

- 15.1. Contractor shall perform Operational Risk Management (ORM) and Activity Hazard Analysis (AHA) as required by USACE EM 385-1-1. Contractor shall submit the required AHA form to the COR at least one week prior to each new work phase in

the project schedule, when new hazards are identified, or when a new work crew is brought on site.

16. OCCUPATIONAL HEALTH REQUIREMENTS

- 16.1. The contractor shall be responsible for maintaining a safe work environment for assigned personnel for the duration of the tasks. Personnel injuries, regardless of severity shall be, reported immediately to the assigned COR.

17. EMERGENCY ACTION PLAN (OSHA 29 CFR 1910.38)

- 17.1. The contractor shall develop an emergency action plan in accordance with applicable rules and regulations and it shall be adhered to in the event of an emergency and shall address the following sections. It is the responsibility of the project supervisor, and shift supervisor to educate and brief all personnel on this emergency plan.

18. CONTRACTORS SAFETY RESOURCES WEB SITE (APP and AHA information)

- 18.1. http://www.navfac.navy.mil/products_and_services/sf/products_and_services/construction/safety_shack/contr_safety_resources.html

19. CONTRACTOR WEIGHT HANDLING EQUIPMENT (WHE) REQUIRMENTS

- 19.1. The Contractor shall comply with specific activity regulations pertaining to crane safety and operation, notify the Contracting Officer, in advance, of any cranes entering the activity and comply with ASME B30.5 for mobile cranes and ASME B30.22 for articulating boom cranes. Cranes used in construction, demolition, or maintenance shall comply with 29 CFR 1926 and the Corps of Engineers Manual EM 385-1-1. Further requirements shall be, provided at the Pre-Con, if required.

20. WORK IN CONFINED SPACES

- 20.1. In addition to the requirements of Section 06.I of USACE EM 385-1-1, OSHA 29 CFR 1910.146 and OSHA 29 CFR 1926.21(b) (6), comply with the following paragraphs. Any potential for a hazard in the confined space requires a permit system and shall be, used.
- 20.2. Confined Space Signage: Provide permanent signs integral to or securely attached to access covers for permit-required confined spaces provided by this contract. Signs wording: "DANGER-PERMIT-REQUIRED CONFINED SPACE - DO NOT ENTER -" in bold letters a minimum of 25 mm (one inch) in height and constructed to be clearly legible with all paint removed. The signal word "DANGER" shall be red and readable from 1.52 m (5 feet).
- 20.3. Entry Procedures: Prohibit entry into a confined space by personnel for any purpose, including hot work, until the qualified person has conducted appropriate tests to ensure the confined or enclosed space is safe for the work intended and all potential hazards are controlled or eliminated and documented. (See Section 06.I.06 of USACE EM 385-1-1 for entry procedures.) Review all hazards pertaining to the space with each employee during AHA process.

- 20.4. Forced air ventilation is required for all confined space entry operations. Maintain minimum air exchange requirements to ensure exposure to any hazardous atmosphere is kept below its' action level.
- 20.5. Sewer wet wells require continuous atmosphere monitoring with audible alarm for toxic gas detection.

21. ENVIRONMENTAL PROTECTION REQUIREMENTS

- 21.1. The Contractor shall comply with all applicable environmental protection requirements as well as Federal, State and Local Laws. The Contractor shall comply with the Executive Order 12856, EMERGENCY PLANNING AND COMMUNITY RIGHT-TO-KNOW ACT (EPCRA); Section 313 requires that all releases of the chemicals in the section 40 of the Code of Federal Regulation (CFR) 372 report to the State Emergency Response Commission and EPA. The Contractor is required to provide the amount in pounds of listed chemicals released in the environment to the Contracting Officer.

22. CONTRACT ADMINISTRATIVE REQUIREMENTS

- 22.1. Required Insurance: The Contractor shall procure and maintain during the entire period of performance under this contract insurance at a level that satisfies all State minimum requirements for General Liability, Automobile Liability, and Worker's Compensation.
- 22.2. Licenses/Permits: Obtain all appointments, licenses, and permits required to perform work under this contract at no additional expense to the Government. Comply with all applicable federal, state, and local laws, and base regulations and procedures. Provide evidence of such permits and licenses to the Contracting Officer before work commences and at other times as requested by the Contracting Officer (see FAR 52.236-7, Permits and Responsibilities). The Contractor will coordinate permit applications with the Navy.

23. ACTIVITY REGULATIONS

- 23.1. The Contractor and their employees shall become acquainted with and obey Activity regulations as posted or as requested by the Contracting Officer. Keep within the limits of the work and avenues of ingress and egress. Wear hard hats in designated areas. Do not enter restricted areas unless required to do so and until cleared for such entry. The Contractor's equipment shall be conspicuously marked for identification.

24. PROPRIETARY RIGHTS

- 24.1. All field notes, design drawings, specifications, and other documents collected and produced as part of this contract shall be, considered property of the Government. Data shall not be, used in whole or parts published or unpublished, as a part of any technical or non-technical presentation without written pre-approval of the Contracting Officer.

25. PROTECTION OF GOVERNMENT PROPERTY

- 25.1. Take special care to protect Government property. Return areas damaged as a result of construction under this contract to their original condition. In addition to FAR 52.236-9, Protection of Existing Vegetation, Structures, Equipment, Utilities, and Improvements, perform the following:
- 25.2. Remove or alter existing work or facilities in such a manner as to prevent injury or damage to any portion of the existing work or facilities that remain.
- 25.3. Repair or replace portions of existing work altered during construction operations to match existing or adjoining work, as approved by the Contracting Officer. At the completion of operations, existing work shall be in a condition equal to or better than that which existed before new work started.
- 25.4. Preserve the natural resources in accordance with the approved environmental protection plan.

26. ORAL MODIFICATION

- 26.1. No oral statement by any person other than the Contracting Officer, as provided in the contract clause entitled, "CHANGES AND CHANGED CONDITIONS," will in any manner or degree modify or otherwise affect the terms of this contract.

27. NO WAIVER BY THE GOVERNMENT

- 27.1. The failure of the Government in any one or more instances to insist upon strict performance to any of the terms of this contract or to exercise any option herein conferred shall not be construed as a waiver or relinquishment to any extent of the right to assert or rely upon such terms or options on any future occasion.

28. CONTRACTOR INVOICES

- 28.1. See contract clause 252.232-7006 Wide Area Workflow Payment Instructions
- 28.2. Payment shall be, made on Contractor's submission of itemized requests and will be subject to reduction for overpayments or increased for underpayments from previous payments. Progress payments will be based on the percent of work complete in accordance with the schedule of values. The Government may withhold payment or reduce payments for the following:
 - 28.2.1. Defects in material or workmanship.
 - 28.2.2. Claims the Government may have against the Contractor under or in connection with this contract.
 - 28.2.3. Contractor's failure to submit an updated schedule.
 - 28.2.4. Payroll violations.
 - 28.2.5. Unless otherwise adjusted, repayment to the Government upon demand for overpayments made to the Contractor.
 - 28.2.6. Payments may be made for materials, stored off construction sites, under the following conditions specified in FAR 52.232-5(b) Payments Under Fixed Price Construction Contracts:
 - 28.2.7. Materials adequately insured and protected from theft and exposure.
 - 28.2.8. Materials not susceptible to deterioration or physical damage in storage or in transit to the job site are acceptable for progress payments. Items such as

- steel, machinery, pipe and fittings and electrical cable are acceptable, but items such as gypsum board; glass, insulation and wall covering are not.
- 28.2.9. Materials in transit to the job or storage site are not acceptable for payment.

29. . PROJECT EXECUTION REQUIREMENTS

- 29.1. **Quality Control (QC) Plan:** The Contractor shall provide and maintain an effective quality control program that complies with the Contract Clause entitled "Inspection of Construction." The Contractor's Quality Control Program through inspection and reporting shall document compliance of all work with the standards established by the contract document. The Contractor's Quality Control (CQC) program shall include daily inspections and provide for a daily report of CQC activity. Submit a QC Plan for Government review and acceptance. The QC plan shall include the following:
- 29.2. **NAMES, QUALIFICATIONS and RESPONSIBILITIES:** Name of individual who will be responsible for QC on site.
- 29.3. **Outside Organizations (as applicable):** Outside organizations, including architectural and consulting engineering firms and a description of the services these firms will provide.
- 29.4. **Initial Submittal Register (Design and Construction):** Include submittal reviewer, estimated date of delivery, and identify which design submittals require Government approval prior to construction, and which construction submittals require DOR or Government approval prior to construction.
- 29.5. **Testing Laboratories:** Accredited laboratories as applicable.
- 29.6. **Testing Plan and Log:** Tests required, referenced by specification paragraph number requiring the test, frequency, and person responsible for each test as applicable.
- 29.7. **List of Definable Features:** A Definable Feature of Work (DFOW) is a task, which is separate and distinct from other tasks, and has the same control requirements and work crews.

30. COMMUNICATION PLAN

- 30.1. Provide a plan for key decisions and possible problems the Contractor and Government may encounter during the project. At a minimum, the Communication Plan shall indicate the frequency of QC meetings and what information is covered in those meetings, key decision points tied to the schedule, and required coordination efforts.

31. QUALITY CONTROL PHASES.

- 31.1. Preparatory Phase: Review all applicable documents for compliance with all applicable laws, codes, regulations, and the requirements of the contract, including contract drawings and specifications. Determine requirements for testing and certification. Review submittal approvals for materials, equipment, shop drawings, and applicable methods of construction and installation. Include all Preparatory Phase items in the QC Report.

- 31.1.1. **Initial Phase:** Observe and inspect the initial portion of the work performed under a DFOW to establish the quality of the workmanship, resolve conflicts in construction, ensure that testing is done and certified as required, and to check all work procedures to ascertain the work is in conformance with required safety requirements. Record and report nonconforming work and work not of acceptable quality and requiring correction or rework. Include all Initial Phase items, along with initial phase checklist and, in the QC Report.
- 31.1.2. **Follow-Up Phase:** Occurs at the completion of each DFOW. Ensure the work is in compliance with contract requirements, quality of workmanship for all work is maintained, and all work performed meets safety requirements. Include all Follow-Up Phase items, including date, in the QC Report.
- 31.1.3. **Contractor must possess a current certificate of completion:** of the Army Corps of Engineers NAVFAC Contractor Quality Management (CQM) Training. The Contracting Officer may have the option of waiving the requirement only once, if the Contractor is new to NAVFAC contracts.
- 31.1.4. **Supervision Requirements:** In accordance with FAR Clause 52.236-6, Superintendence by the Contractor, at all times during performance of this contract and until the work is completed and accepted, the prime contractor shall directly superintend the work or assign and have on the worksite a competent superintendent who is satisfactory to the Contracting Officer and has authority to act for the contractor. The superintendent shall be fluent in English.

32. SCHEDULING WORK PROCEDURES AND OUTAGES

- 32.1. Schedule work construction for minimal impact on normal Government operation that involve designated area.
- 32.2. Prior to construction work, the contractor shall meet with the assigned COR for construction approval of scheduling and sequence of construction/ or outages.
- 32.3. The Government's normal hours of operation are 0700 to 1630 Monday through Friday, excluding Government holidays.
- 32.4. If the contractor decides to work other than normal hours/working days, they shall submit a request to the QA for approval three work days prior to the work.

33. UTILITY LOCATIONS AND VERIFICATION PRIOR TO EXCAVATION

- 33.1. If applicable, obtain appropriate digging permit from Base personnel through the FEAD office prior to digging. Maintain all markings during utility investigation throughout the contract. "At the contractor's expense, all underground utilities in the work area must be positively identified by a private utility locating service in addition to any station locating service and coordinated with the station utility department."
- 33.2. **Physically verify underground utility:** Locations by hand digging using wood or fiberglass handled tools when any adjacent construction work is expected to come within three feet of the underground system. Use hand digging within three feet of a

known utility. If construction is parallel to an existing utility, expose the utility by hand digging every 100 feet if parallel within five feet of the excavation.

- 33.3. **Utilities within Concrete Slabs:** Utilities located within concrete slabs are extremely difficult to identify due to the reinforcing steel used in the construction of these structures. Whenever work involves concrete chipping, saw cutting, or core drilling, the existing utility location must be coordinated with station utility departments in addition to a private locating service. Outages to isolate utility systems shall be, executed in circumstances where utilities are not positively identifiable. Use of historical drawings and data shall not alleviate the contractor from meeting this requirement.

34. CONDUCT OF ELECTRICAL WORK

- 34.1. Follow electrical safety criteria specified in UFC 3-560-01, USACE EM 385-1-1, and NFPA 70E during the conduct of all work. As delineated in USACE EM 385-1-1 electrical work shall be, conducted in a de-energized state unless there is no alternative method for accomplishing the work.
- 34.1.1. **Energized Work:** energized work requires a permit and shall be, obtained from the *Commanding Officer*.

35. CONTRACTOR WORK SITE

- 35.1. The contractor shall limit use of the premises for work and for storage of material and equipment associated with the contract. Unless otherwise specified or separately agreed to, Government owned material handling equipment, transportation equipment or general tools will not be available for contractor's use.
- 35.2. Clean work area daily and after completion of the work, removing all loose debris and disposing of all non-permanent materials IAW the contractor's Waste Management Plan. Submit a monthly summary of removed solid waste in weight to assigned COR.
- 35.3. Temporary Facilities (if applicable): The contractor may provide his own office facilities/fencing; coordinate and obtain advance approval from the COR. Submit a location plan of temporary facilities indicating requested utility connections. Provide and maintain suitable sanitary facilities within the construction limits of the contract. Dispose of sanitary waste in accordance with the applicable laws, and local regulation at no cost to the Government. If temporary facilities are installed or constructed, the contractor will request a meter to
- 35.4. Contractor Furnished Equipment: Equipment is subject to the inspection and approval of the COR, prior to and during the life of the contract.

36. CONTRACTOR'S PRODUCTION REPORT

- 36.1. Complete the reports weekly unless otherwise requested by the Contracting Officer. Reports at a minimum shall include:
- 36.2. Worker hours by classification, move-on and move-off of construction equipment furnished by the prime, subcontractor or the Government, and materials and equipment delivered to the site.
- 36.3. Safety meetings checks and inspections.

- 36.4. Disposition of Construction Waste Material (See Section 17)
- 36.5. Design and Construction Issues: Including, but not necessarily limited to:
 - 36.5.1. Check all Contract Documents for correctness and correlation. If the Contractor notes any discrepancy or ambiguity; immediately notify the assigned COR.
 - 36.5.2. Examine the work site as to conditions affecting the work. Field verify the site and scope of work, including but not limited to the measurement and location of all significant items required to perform the work.

37. CLEANING / REMOVAL/ SALVAGE AND DISPOSAL OF WASTE

- 37.1. Cleaning project area of materials and rubbish, resulting from the contractors work is the property and responsibility of the contractor. Keep the premises free of debris, accumulation of waste materials, rubbish, tools and all surplus materials at all times.
- 37.2. Generated Waste shall be, removed from Government property, during and before the completion of the project by the contractor or contractors.
- 37.3. Salvage, report and submit with each invoice the amount (by weight) and type of materials salvaged for sale, reused and or recycled. Provide destination, means of transportation, cost of transportation and handling, tipping fee saving and revenue generated for each material.
- 37.4. Disposal of generated waste from project should occur during and before the completion of the project, with all generated debris removed from Government Property upon completion of project. The Contractor shall report/submit with each invoice the amount of waste (by weight) and type of waste materials disposed of in a landfill or incinerator, the tip fee per ton, and the total cost of disposal including transportation costs, container rental costs, etc.
- 37.5. Waste Management: Contractor shall reduce, recycle or salvage as much waste material as possible with a goal of diverting at least 50% of construction waste from landfill. Address waste reduction, recycling and salvage.

38. INSPECTION AND ACCEPTANCE REQUIREMENTS

- 38.1. All work is subject to inspection during the work and upon completion of the work. Any corrective discrepancies need to meet the satisfaction of the Government prior to presenting an invoice for payment. At the 75% completion point, the assigned COR will conduct a Red-Zone checklist review with the Contractor.

39. WARRANTY

- 39.1. Warrant all materials and work for not less than one year after final acceptance of the work, except as otherwise indicated in this RFP. If required to provide remedial repair of previously installed work due to latent defect or unacceptable work performance, warrant the repaired work for one year after the completion and acceptance of the repair.
- 39.2. **Warranted items:** furnish the manufacturers' original written warranty accompanied by a copy of the supplier's receipt showing place of purchase, telephone number of supplier, address, delivery order number and or a ticket number.

40. TRANSMITTER REQUIREMENTS

- 40.1. The base policy concerning the use of transmitters such as radios, cell phones, etc., shall be, adhered to by all Contractor personnel. They must also obey Emissions control (EMCON) restrictions.

Section 00100 - Bidding Schedule/Instructions to Bidders

CLAUSES INCORPORATED BY FULL TEXT

52.215-1 INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION (JAN 2004)

(a) Definitions. As used in this provision--

“Discussions” are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

“In writing or written” means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

“Proposal modification” is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

“Proposal revision” is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

“Time”, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals. (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show--

(i) The solicitation number;

(ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);

(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone and facsimile numbers (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this solicitation; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(3) Submission, modification, or revision, of proposals.

(i) Offerors are responsible for submitting proposals, and any modifications, or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)(A) Any proposal, modification, or revision received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall--

(1) Mark the title page with the following legend: This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with-- the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

(2) Mark each sheet of data it wishes to restrict with the following legend: Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award. (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(11) If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

- (i) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.
- (ii) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.
- (iii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.
- (iv) A summary of the rationale for award.
- (v) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.
- (vi) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

(End of provision)

Section 00600 - Representations & Certifications

CLAUSES INCORPORATED BY FULL TEXT

52.204-8 ANNUAL REPRESENTATIONS AND CERTIFICATIONS (FEB 2016)

(a)(1) The North American Industry Classification System (NAICS) code for this acquisition is [insert NAICS code].

(2) The small business size standard is [insert size standard].

(3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

(b)(1) If the provision at 52.204-7, System for Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at 52.204-7 is not included in this solicitation, and the offeror is currently registered in System for Award Management (SAM), and has completed the Representations and Certifications section of SAM electronically, the offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The offeror shall indicate which option applies by checking one of the following boxes:

() Paragraph (d) applies.

() Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c) (1) The following representations or certifications in SAM are applicable to this solicitation as indicated:

(i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in Part 13;

(B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(C) The solicitation is for utility services for which rates are set by law or regulation.

(ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.

(iii) 52.204-3, Taxpayer Identification. This provision applies to solicitations that do not include the provision at 52.204-7, System for Award Management.

(iv) 52.204-5, Women-Owned Business (Other Than Small Business). This provision applies to solicitations that—

(A) Are not set aside for small business concerns;

(B) Exceed the simplified acquisition threshold; and

- (C) Are for contracts that will be performed in the United States or its outlying areas.
- (v) 52.209-2; Prohibition on Contracting with Inverted Domestic Corporations--Representation.
- (vi) 52.209-5; Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.
- (vii) 52.209-11, Representation by Corporations Regarding Elinquent Tax Liability or a Felony Conviction under any Federal Law. This provision applies to all solicitations.
- (viii) 52.214-14, Place of Performance--Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.
- (ix) 52.215-6, Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.
- (x) 52.219-1, Small Business Program Representations (Basic & Alternate I). This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.
- (A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.
- (B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.
- (xi) 52.219-2, Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.
- (xii) 52.222-22, Previous Contracts and Compliance Reports. This provision applies to solicitations that include the clause at 52.222-26, Equal Opportunity.
- (xiii) 52.222-25, Affirmative Action Compliance. This provision applies to solicitations, other than those for construction, when the solicitation includes the clause at 52.222-26, Equal Opportunity.
- (xiv) 52.222-38, Compliance with Veterans' Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial items.
- (xv) 52.223-1, Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of USDA-designated items; or include the clause at 52.223-2, Affirmative Procurement of Biobased Products Under Service and Construction Contracts.
- (xvi) 52.223-4, Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA-designated items.
- (xvii) 52.225-2, Buy American Certificate. This provision applies to solicitations containing the clause at 52.225-1.
- (xviii) 52.225-4, Buy American--Free Trade Agreements--Israeli Trade Act Certificate. (Basic, Alternates I, II, and III.) This provision applies to solicitations containing the clause at 52.225-3.
- (A) If the acquisition value is less than \$25,000, the basic provision applies.

- (B) If the acquisition value is \$25,000 or more but is less than \$50,000, the provision with its Alternate I applies.
- (C) If the acquisition value is \$50,000 or more but is less than \$77,533, the provision with its Alternate II applies.
- (D) If the acquisition value is \$77,533 or more but is less than \$100,000, the provision with its Alternate III applies.
- (xix) 52.225-6, Trade Agreements Certificate. This provision applies to solicitations containing the clause at 52.225-5.
- (xx) 52.225-20, Prohibition on Conducting Restricted Business Operations in Sudan--Certification. This provision applies to all solicitations.
- (xxi) 52.225-25, Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran—Representation and Certification. This provision applies to all solicitations.
- (xxii) 52.226-2, Historically Black College or University and Minority Institution Representation. This provision applies to solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions.

(2) The following representations or certifications are applicable as indicated by the Contracting Officer:

[Contracting Officer check as appropriate.]

- (i) 52.204-17, Ownership or Control of Offeror.
- (ii) 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products.
- (iii) 52.222-48, Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment--Certification.
- (iv) 52.222-52 Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services--Certification.
- (v) 52.223-9, with its Alternate I, Estimate of Percentage of Recovered Material Content for EPA-Designated Products (Alternate I only).
- (vi) 52.227-6, Royalty Information.
- (A) Basic.
- (B) Alternate I.
- (vii) 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.

(d) The offeror has completed the annual representations and certifications electronically via the SAM website accessed through <https://www.acquisition.gov>. After reviewing the SAM database information, the offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in paragraph (c) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to

the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR 4.1201); except for the changes identified below [offeror to insert changes, identifying change by clause number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR Clause	Title	Date	Change
-----	-----	-----	-----
-----	-----	-----	-----

Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on SAM.

(End of provision)

52.204-10 REPORTING EXECUTIVE COMPENSATION AND FIRST-TIER SUBCONTRACT AWARDS (OCT 2015)

(a) Definitions. As used in this clause:

Executive means officers, managing partners, or any other employees in management positions.

First-tier subcontract means a subcontract awarded directly by the Contractor for the purpose of acquiring supplies or services (including construction) for performance of a prime contract. It does not include the Contractor's supplier agreements with vendors, such as long-term arrangements for materials or supplies that benefit multiple contracts and/or the costs of which are normally applied to a Contractor's general and administrative expenses or indirect costs.

Month of award means the month in which a contract is signed by the Contracting Officer or the month in which a first-tier subcontract is signed by the Contractor.

Total compensation means the cash and noncash dollar value earned by the executive during the Contractor's preceding fiscal year and includes the following (for more information see 17 CFR 229.402(c)(2)):

- (1) Salary and bonus.
- (2) Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Financial Accounting Standards Board's Accounting Standards Codification (FASB ASC) 718, Compensation-Stock Compensation.
- (3) Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives, and are available generally to all salaried employees.
- (4) Change in pension value. This is the change in present value of defined benefit and actuarial

pension plans.

(5) Above-market earnings on deferred compensation which is not tax-qualified.

(6) Other compensation, if the aggregate value of all such other compensation (e.g., severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds \$10,000.

(b) Section 2(d)(2) of the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub. L. 110-252), requires the Contractor to report information on subcontract awards. The law requires all reported information be made public, therefore, the Contractor is responsible for notifying its subcontractors that the required information will be made public.

(c) Nothing in this clause requires the disclosure of classified information.

(d)(1) Executive compensation of the prime contractor. As a part of its annual registration requirement in the System for Award Management (SAM) database (FAR provision 52.204-7), the Contractor shall report the names and total compensation of each of the five most highly compensated executives for its preceding completed fiscal year, if—

(i) In the Contractor's preceding fiscal year, the Contractor received—

(A) 80 percent or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and

(B) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and

(ii) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/execomp.htm>.)

(2) First-tier subcontract information. Unless otherwise directed by the contracting officer, or as provided in paragraph (g) of this clause, by the end of the month following the month of award of a first-tier subcontract with a value of \$30,000 or more, the Contractor shall report the following information at <http://www.frs.gov> for that first-tier subcontract. (The Contractor shall follow the instructions at <http://www.frs.gov> to report the data.)

(i) Unique identifier (DUNS Number) for the subcontractor receiving the award and for the subcontractor's parent company, if the subcontractor has a parent company.

(ii) Name of the subcontractor.

(iii) Amount of the subcontract award.

(iv) Date of the subcontract award.

(v) A description of the products or services (including construction) being provided under the subcontract, including the overall purpose and expected outcomes or results of the subcontract.

(vi) Subcontract number (the subcontract number assigned by the Contractor).

(vii) Subcontractor's physical address including street address, city, state, and country. Also include the nine-digit zip code and congressional district.

(viii) Subcontractor's primary performance location including street address, city, state, and country. Also include the nine-digit zip code and congressional district.

(ix) The prime contract number, and order number if applicable.

(x) Awarding agency name and code.

(xi) Funding agency name and code.

(xii) Government contracting office code.

(xiii) Treasury account symbol (TAS) as reported in FPDS.

(xiv) The applicable North American Industry Classification System code (NAICS).

(3) Executive compensation of the first-tier subcontractor.

Unless otherwise directed by the Contracting Officer, by the end of the month following the month of award of a first-tier subcontract with a value of \$30,000 or more, and annually thereafter (calculated from the prime contract award date), the Contractor shall report the names and total compensation of each of the five most highly compensated executives for that first-tier subcontractor for the first-tier subcontractor's preceding completed fiscal year at <http://www.fsr.gov>, if—

(i) In the subcontractor's preceding fiscal year, the subcontractor received—

(A) 80 percent or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and

(B) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and

(ii) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/execomp.htm>.)

(e) The Contractor shall not split or break down first-tier subcontract awards to a value less than \$30,000 to avoid the reporting requirements in paragraph (d) of this clause.

(f) The Contractor is required to report information on a first-tier subcontract covered by paragraph (d) when the subcontract is awarded. Continued reporting on the same subcontract is not required unless one of the reported data elements changes during the performance of the subcontract. The Contractor is not required to make further reports after the first-tier subcontract expires.

(g)(1) If the Contractor in the previous tax year had gross income, from all sources, under

\$300,000, the Contractor is exempt from the requirement to report subcontractor awards.

(2) If a subcontractor in the previous tax year had gross income from all sources under \$300,000, the Contractor does not need to report awards for that subcontractor.

(h) The FSRS database at <http://www.fsrs.gov> will be prepopulated with some information from SAM and FPDS databases. If FPDS information is incorrect, the contractor should notify the contracting officer. If the SAM database information is incorrect, the contractor is responsible for correcting this information.

CLAUSES INCORPORATED BY FULL TEXT

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within 90 calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than the contract completion date. * The time stated for completion shall include final cleanup of the premises.

(End of clause)

52.211-14 NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE, EMERGENCY PREPAREDNESS, AND ENERGY PROGRAM USE (APR 2008)

Any contract awarded as a result of this solicitation will be **DO-C2** rated order certified for national defense, emergency preparedness, and energy program use under the Defense Priorities and Allocations System (DPAS) (15 CFR 700), and the Contractor will be required to follow all of the requirements of this regulation.

(End of provision)

52.216-1 TYPE OF CONTRACT (APR 1984)

The Government contemplates award of a **FIRM FIXED PRICE** contract resulting from this solicitation.

(End of provision)

52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION (JULY 2013)

(a) Definitions. As used in this clause--

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether

dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

The Contractor represents that it () is, () is not a small business concern under NAICS Code _____ - assigned to contract number _____.

(Contractor to sign and date and insert authorized signer's name and title).

(End of clause)

52.222-23 NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY FOR CONSTRUCTION (FEB 1999)

(a) The offeror's attention is called to the Equal Opportunity clause and the Affirmative Action Compliance Requirements for Construction clause of this solicitation.

(b) The goals for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

Goals for minority participation for each trade	Goals for female participation for each trade
44.2%	6.9%

These goals are applicable to all the Contractor's construction work performed in the covered area. If the Contractor performs construction work in a geographical area located outside of the covered area, the Contractor shall apply the goals established for the geographical area where the work is actually performed. Goals are published periodically in the Federal Register in notice form, and these notices may be obtained from any Office of Federal Contract Compliance Programs office.

(c) The Contractor's compliance with Executive Order 11246, as amended, and the regulations in 41 CFR 60-4 shall be based on (1) its implementation of the Equal Opportunity clause, (2) specific affirmative action obligations required by the clause entitled "Affirmative Action Compliance Requirements for Construction," and (3) its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade. The Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor, or from project to project, for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, Executive Order 11246, as amended, and the regulations in 41 CFR 60-4. Compliance with the goals will be measured against the total work hours performed.

(d) The Contractor shall provide written notification to the Deputy Assistant Secretary for Federal Contract Compliance, U.S. Department of Labor, within 10 working days following award of any construction subcontract in excess of \$10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the --

- (1) Name, address, and telephone number of the subcontractor;
- (2) Employer's identification number of the subcontractor;
- (3) Estimated dollar amount of the subcontract;
- (4) Estimated starting and completion dates of the subcontract; and
- (5) Geographical area in which the subcontract is to be performed.

(e) As used in this Notice, and in any contract resulting from this solicitation, the "covered area" is **NUECES COUNTY, TX**

(End of provision)

52.222-55 MINIMUM WAGES UNDER EXECUTIVE ORDER 13658 (DEC 2014)

(a) Definitions. As used in this clause--

``United States" means the 50 states and the District of Columbia.

``Worker"--

(1) Means any person engaged in performing work on, or in connection with, a contract covered by Executive Order 13658, and

(i) Whose wages under such contract are governed by the Fair Labor Standards Act (29 U.S.C. chapter 8), the Service Contract Labor Standards statute (41 U.S.C. chapter 67), or the Wage Rate Requirements (Construction) statute (40 U.S.C. chapter 31, subchapter IV),

(ii) Other than individuals employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR part 541,

(iii) Regardless of the contractual relationship alleged to exist between the individual and the employer.

(2) Includes workers performing on, or in connection with, the contract whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c).

(3) Also includes any person working on, or in connection with, the contract and individually registered in a bona fide apprenticeship or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship.

(b) Executive Order Minimum Wage rate. (1) The Contractor shall pay to workers, while performing in the United States, and performing on, or in connection with, this contract, a minimum hourly wage rate of \$10.10 per hour beginning January 1, 2015.

(2) The Contractor shall adjust the minimum wage paid, if necessary, beginning January 1, 2016 and annually thereafter, to meet the Secretary of Labor's annual E.O. minimum wage. The Administrator of the Department of Labor's Wage and Hour Division (the Administrator) will publish annual determinations in the Federal Register no later than 90 days before the effective date of the new E.O. minimum wage rate. The Administrator will also publish the applicable E.O. minimum wage on www.wdol.gov (or any successor Web site) and on all wage determinations issued under the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute. The applicable published E.O. minimum wage is incorporated by reference into this contract.

(3)(i) The Contractor may request a price adjustment only after the effective date of the new annual E.O. minimum wage determination. Prices will be adjusted only if labor costs increase as a result of an increase in the annual E.O. minimum wage, and for associated labor costs and relevant subcontract costs. Associated labor costs shall include increases or decreases that result from changes in social security and unemployment taxes and workers' compensation insurance, but will not otherwise include any amount for general and administrative costs, overhead, or profit.

(ii) Subcontractors may be entitled to adjustments due to the new minimum wage, pursuant to paragraph (b)(2). Contractors shall consider any subcontractor requests for such price adjustment.

(iii) The Contracting Officer will not adjust the contract price under this clause for any costs other than those identified in paragraph (b)(3)(i) of this clause, and will not provideduplicate price adjustments with any price adjustment under clauses implementing the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute.

(4) The Contractor warrants that the prices in this contract do not include allowance for any contingency to cover increased costs for which adjustment is provided under this clause.

(5) A pay period under this clause may not be longer than semi-monthly, but may be shorter to comply with any applicable law or other requirement under this contract establishing a shorter pay period. Workers shall be paid no later than one pay period following the end of the regular pay period in which such wages were earned or accrued.

(6) The Contractor shall pay, unconditionally to each worker, all wages due free and clear without subsequent rebate or kickback. The Contractor may make deductions that reduce a worker's wages below the E.O. minimum wage rate only if done in accordance with 29 CFR 10.23, Deductions.

(7) The Contractor shall not discharge any part of its minimum wage obligation under this clause by furnishing fringe benefits or, with respect to workers whose wages are governed by the Service Contract Labor Standards statute, the cash equivalent thereof.

(8) Nothing in this clause shall excuse the Contractor from compliance with any applicable Federal or State prevailing wage law or any applicable law or municipal ordinance establishing a minimum wage higher than the E.O. minimum wage. However, wage increases under such other laws or municipal ordinances are not subject to price adjustment under this subpart.

(9) The Contractor shall pay the E.O. minimum wage rate whenever it is higher than any applicable collective bargaining agreement(s) wage rate.

(10) The Contractor shall follow the policies and procedures in 29 CFR 10.24(b) and 10.28 for treatment of workers engaged in an occupation in which they customarily and regularly receive more than \$30 a month in tips.

(c)(1) This clause applies to workers as defined in paragraph (a). As provided in that definition--

(i) Workers are covered regardless of the contractual relationship alleged to exist between the contractor or subcontractor and the worker;

(ii) Workers with disabilities whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c) are covered; and

(iii) Workers who are registered in a bona fide apprenticeship program or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship, are covered.

(2) This clause does not apply to--

(i) Fair Labor Standards Act (FLSA)-covered individuals performing in connection with contracts covered by the E.O., i.e. those individuals who perform duties necessary to the performance of the contract, but who are not directly engaged in performing the specific work called for by the contract, and who spend less than 20 percent of their hours worked in a particular workweek performing in connection with such contracts;

(ii) Individuals exempted from the minimum wage requirements of the FLSA under 29 U.S.C. 213(a) and 214(a) and (b), unless otherwise covered by the Service Contract Labor Standards statute, or the Wage Rate Requirements (Construction) statute. These individuals include but are not limited to--

(A) Learners, apprentices, or messengers whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(a).

(B) Students whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(b).

(C) Those employed in a bona fide executive, administrative, or professional capacity (29 U.S.C. 213(a)(1) and 29 CFR part 541).

(d) Notice. The Contractor shall notify all workers performing work on, or in connection with, this contract of the applicable E.O. minimum wage rate under this clause. With respect to workers covered by the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, the Contractor may meet this requirement by posting, in a prominent and accessible place at the worksite, the applicable wage determination under those statutes. With respect to workers whose wages are governed by the FLSA, the Contractor shall post notice, utilizing the poster provided by the Administrator, which can be obtained at www.dol.gov/whd/govcontracts, in a prominent and accessible place at the worksite. Contractors that customarily post notices to workers electronically may post the notice electronically provided the electronic posting is displayed prominently on any Web site that is maintained by the contractor, whether external or internal, and customarily used for notices to workers about terms and conditions of employment.

(e) Payroll Records. (1) The Contractor shall make and maintain records, for three years after completion of the work, containing the following information for each worker:

- (i) Name, address, and social security number;
- (ii) The worker's occupation(s) or classification(s);
- (iii) The rate or rates of wages paid;
- (iv) The number of daily and weekly hours worked by each worker;
- (v) Any deductions made; and
- (vi) Total wages paid.

(2) The Contractor shall make records pursuant to paragraph (e)(1) of this clause available for inspection and transcription by authorized representatives of the Administrator. The Contractor shall also make such records available upon request of the Contracting Officer.

(3) The Contractor shall make a copy of the contract available, as applicable, for inspection or transcription by authorized representatives of the Administrator.

(4) Failure to comply with this paragraph (e) shall be a violation of 29 CFR 10.26 and this contract. Upon direction of the Administrator or upon the Contracting Officer's own action, payment shall be withheld until such time as the noncompliance is corrected.

(5) Nothing in this clause limits or otherwise modifies the Contractor's payroll and recordkeeping obligations, if any, under the Service Contract Labor Standards statute, the Wage Rate Requirements (Construction) statute, the Fair Labor Standards Act, or any other applicable law.

(f) Access. The Contractor shall permit authorized representatives of the Administrator to conduct investigations, including interviewing workers at the worksite during normal working hours.

(g) Withholding. The Contracting Officer, upon his or her own action or upon written request of the Administrator, will withhold funds or cause funds to be withheld, from the Contractor under this or any other Federal contract with the same Contractor, sufficient to pay workers the full amount of wages required by this clause.

(h) Disputes. Department of Labor has set forth in 29 CFR 10.51, Disputes concerning contractor compliance, the procedures for resolving disputes concerning a contractor's compliance with Department of Labor regulations at 29 CFR part 10. Such disputes shall be resolved in accordance with those procedures and not the Disputes clause of this contract. These disputes include disputes between the Contractor (or any of its subcontractors) and the contracting agency, the Department of Labor, or the workers or their representatives.

(i) Antiretaliation. The Contractor shall not discharge or in any other manner discriminate against any worker because such worker has filed any complaint or instituted or caused to be instituted any proceeding under or related to compliance with the E.O. or this clause, or has testified or is about to testify in any such proceeding.

(j) Subcontractor compliance. The Contractor is responsible for subcontractor compliance with the requirements of this clause and may be held liable for unpaid wages due subcontractor workers.

(k) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (k) in all subcontracts, regardless of dollar value, that are subject to the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, and are to be performed in whole or in part in the United States.

(End of clause)

52.225-9 BUY AMERICAN—CONSTRUCTION MATERIALS (MAY 2014)

(a) Definitions. As used in this clause--

Commercially available off-the-shelf (COTS) item—

(1) Means any item of supply (including construction material) that is--

(i) A commercial item (as defined in paragraph (1) of the definition at FAR 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4) such as agricultural products and petroleum products.

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

Domestic construction material means--

(1) An unmanufactured construction material mined or produced in the United States;

(2) A construction material manufactured in the United States, if--

(i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or

(ii) The construction material is a COTS item.

Foreign construction material means a construction material other than a domestic construction material.

United States means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR 12.505(a)(2)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American Act is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American Act to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American Act. (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
Item 1			
Foreign construction material....	_____	_____	_____
Domestic construction material...	_____	_____	_____
Item 2			
Foreign construction material....	_____	_____	_____
Domestic construction material...	_____	_____	_____

Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.225-10 NOTICE OF BUY AMERICAN REQUIREMENT--CONSTRUCTION MATERIALS (MAY 2014)

(a) Definitions. "Commercially available off-the-shelf (COTS) item," "construction material," "domestic construction material," and "foreign construction material," as used in this provision, are defined in the clause of this solicitation entitled "Buy American --Construction Materials" (Federal Acquisition Regulation (FAR) clause 52.225-9).

(b) Requests for determinations of inapplicability. An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) Evaluation of offers. (1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR 52.225-9.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) Alternate offers.

(1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR 52.225-9, the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR 52.225-9 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR 52.225-9 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested--

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

(End of provision)

52.228-13 ALTERNATIVE PAYMENT PROTECTIONS (JULY 2000)

(a) The Contractor shall submit one of the following payment protections:

PAYMENT BOND OR IRREVOCABLE LETTER OF CREDIT

(b) The amount of the payment protection shall be 100 percent of the contract price.

(c) The submission of the payment protection is required within 15 days of contract award.

(d) The payment protection shall provide protection for the full contract performance period plus a one-year period.

(e) Except for escrow agreements and payment bonds, which provide their own protection procedures, the Contracting Officer is authorized to access funds under the payment protection when it has been alleged in writing by a supplier of labor or material that a nonpayment has occurred, and to withhold such funds pending resolution by administrative or judicial proceedings or mutual agreement of the parties.

(f) When a tripartite escrow agreement is used, the Contractor shall utilize only suppliers of labor and material that signed the escrow agreement.

(End of clause)

52.236-27 SITE VISIT (CONSTRUCTION) (FEB 1995)

(a) The clauses at 52.236-2, Differing Site Conditions, and 52.236-3, Site Investigations and Conditions Affecting the Work, will be included in any contract awarded as a result of this solicitation. Accordingly, offerors or quoters are urged and expected to inspect the site where the work will be performed.

(b) Site visits may be arranged during normal duty hours by contacting:
SEE SOLICITATION PAGE 3

(End of provision)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

FAR: <https://farsite.hill.af.mil>; <http://www.arnet.gov/far>;

DFARS: <http://www.acq.osd.mil/dpap/dars/index.html>

NFAS: <http://acq.navfac.navy.mil>

(End of clause)

FAC 5252.201-9300 CONTRACTING OFFICER AUTHORITY (JUN 1994)

In no event shall any understanding or agreement between the Contractor and any Government employee other than the Contracting Officer on any contract, modification, change order, letter or verbal direction to the Contractor be effective or binding upon the Government. All such actions must be formalized by a proper contractual document executed by an appointed Contracting Officer. The Contractor is hereby put on notice that in the event a change in work to be performed or increases in the scope of the work to be performed, it is the Contractor's responsibility to make inquiry of the Contracting Officer before making the deviation. Payments will not be made without being authorized by an appointed Contracting Officer with the legal authority to bind the Government.

FAC 5252.209-9300 ORGANIZATIONAL CONFLICTS OF INTEREST (JUN 1994)

The restrictions described herein shall apply to the Contractor and its affiliates, consultants and subcontractors under this contract. If the Contractor under this contract prepares or assists in preparing a statement of work, specifications and plans, the Contractor and its affiliates shall be ineligible to bid or participate, in any capacity, in any contractual effort which is based on such statement of work or specifications and plans as a prime contractor, subcontractor, consultant or in any similar capacity. The Contractor shall not incorporate its products or services in such statement of work or specification unless so directed in writing by the Contracting Officer, in which case the restriction shall not apply. This contract shall include this clause in its subcontractors' or consultants' agreements concerning the performance of this contract.

FAC 5252.228-9300 INDIVIDUAL SURETY/SURETIES (JUN 1994)

As prescribed in FAR 28.203(a), individual sureties will be permitted. In order for the Contracting Officer to make a determination as to the acceptability of individuals proposed as sureties, as prescribed in FAR 28-203(b), all proposers who submit bonds which are executed by individual sureties are requested to furnish additional information in support of SF-28, Affidavit of Individual Surety, with the bonds. Pursuant to Instruction 3(b) of Standard Form 24, the Bond, Standard Form 25, the Performance Bond, and the Standard Form 25A, the Payment Bond, the Contracting Officer requests the following information:

(a) Equity Securities (Stock):

- (1) State the place(s) of incorporation and address of the principal place of business for each issuing corporation listed.
- (2) State whether the security issued was issued by public or private offering and give the place of registration of the security.
- (3) State whether the security is presently, actively traded.

(b) Debt Securities (Bonds) and Certificates of Deposit:

- (1) List the type of bonds held and their maturity dates.
- (2) State the name, address, and telephone number of the issuing agency, firm or individual.
- (3) State the complete address(es) where the bonds are held.
- (4) State whether the bonds have been pledged as security or have otherwise been encumbered.

(c) Real Property Interests:

- (1) Provide complete recording data for the conveyance of each parcel or interest listed to the individual proposed as surety.
- (2) State whether the values listed are based upon personal evaluation or evaluation of an experienced real estate appraiser. If available, provide copies of written appraisals.
- (3) State the method(s) of valuation upon which appraisal is based.
- (4) Provide the assessed value of each property interest listed utilized by the appropriate tax assessor for purposes of property taxation.
- (5) Provide the telephone number, including area code, for the tax assessor who performed the most recent tax assessment.
- (6) State whether each real property interest listed is currently under lien or in any way encumbered and the dollar amount of each such lien or encumbrance.

(d) Persons Proposed as Individual Sureties:

- (1) A current list of all other bonds (bid, performance, and payment) on which the individual is a surety and bonds for which the individual is requesting to be a surety.
- (2) A statement as to the percent of completion of projects for which the individual is bound on a performance bond.

This information is necessary to enable the Contracting Officer to evaluate the sufficiency of the surety's net worth in a timely manner.

5252.232-9301 INVOICING PROCEDURES ELECTRONIC (NOV 2009)

(a) In accordance with DFARS Clause 252.232-7003 titled "Electronic Submission of Payment Requests", this contract/order requires use of the DoD Wide Area Workflow (WAWF) system for the submission of invoices. This web-based system, located at <https://wawf.eb.mil>, provides the technology for Government contractors and authorized Department of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless environment. Invoices rendered under this contract shall be submitted electronically through WAWF. Submission of hard copy DD250/invoices will no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business Point of Contact (EBPOC), and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed.

Additional Vendor information is also available at http://acquisition.navy.mil/rda/home/acquisition_one_source/ebusiness/don_ebusiness_solutions/wawf_overview/vendor_information. Here you will find information on "Getting Started" as well as "Quick Reference Guides".

(c) Within ten (10) days after award, the designated CCR EBPOC is responsible for activating the company's CAGE code in WAWF by calling 1-866-618-5988 for the DISA WAWF Helpdesk, email address cscassig@csd.disa.mil. Once the company's CAGE code is activated, the CCR EBPOC must self-register under the company's CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company's CAGE code at <https://wawf.eb.mil>.

(d) The contractor shall use the following document type, DODAAC codes with corresponding extensions, and inspection and acceptance locations when submitting invoices in WAWF:

SEE WAWF CLAUSE

Note: Supporting documentation must be attached. File names cannot contain spaces or special characters, except underscore "_" which is an acceptable character. There is NO maximum to the number of files that can be attached to an invoice, however EACH file is limited to a maximum file size UNDER 2 megabytes.

(e) Before closing out of an invoice session in WAWF, but after submitting the document(s), you will be prompted to "Send More Email Notifications." Select "Send More Email Notification" and add additional email addresses noted above in the first email address blocks. This additional notification to the Government is important to ensure that the specific acceptor/receiver is aware the invoice documents have been submitted into WAWF.

(f) If you have any questions regarding WAWF, please contact the WAWF DFAS helpdesk at 877-251-WAWF (9293) or email address of CCL-EC-Navy-WAWF-helpdesk@dfas.mil, or the NAVFAC WAWF point of contact identified above in section (d). (End of clause)

FAC 5252.236-9301 SPECIAL WORKING CONDITIONS AND ENTRY TO WORK AREA(JUN 1994)

Denial of entry to the work areas under this contract may be required by the Government under certain circumstances where the Contractor's work or presence would constitute a safety or security hazard to ordnance storage or handling operations. Restrictions covering entry to and availability of the work areas are as follows:

a. Entry. Entry to work areas located within the special Security Limited areas, defined as those work areas located within the existing security fence, can be granted subject to special personnel requirements as specified herein and to other normal security and safety requirements. Complete denial of entry to the Limited Area may be required during brief periods of one to two hours (normally) and on rare occasions of two to four hours. For bidding purposes, the Contractor shall assume denial of entry to the work areas in the Limited Area of six 2-hour denials and one 4-hour denial per month.

b. Vehicle Delay. The Contractor shall also assume for bidding purposes that, in addition to site denial, each vehicle and/or unit of construction equipment will be delayed during each movement through the security gate, both entering and leaving the limited area. Delays will average 1 HR.

Operational Considerations. To reduce delay time while preserving required security, the following points should be considered in operational planning:

a. Vehicle Search. Security regulations required that all vehicles, when authorized to enter the Limited Area be thoroughly searched by guard force personnel. Such a search will be required for all vehicle/ construction equipment. Accordingly, once a vehicle or unit of construction equipment has been cleared, it may be left in the Limited Area after initial entry has been made. For the period of time authorized the vehicle/equipment left in the Limited Area will be assigned parking areas by the Contracting Officer. The vehicle/equipment must be secured as specified in paragraph entitled "SECURITY REQUIREMENTS." The intent is to reduce the Contractor loss of time at the security gate. No private vehicles will be allowed to enter the Limited Area.

b. Delivery Vehicles. Vehicles delivering construction materials will be inspected by guard force personnel while the driver is being processed for entry into the Limited Area. The driver and vehicle will then be escorted in the Limited Area by a Security Escort. To provide this service, delivery schedules should be promulgated in advance and vendors made aware that a reasonable delay can be expected if delivery is other than the time specified. Deliveries after 1600 hours will not be allowed entry into the Limited Area without prior approval of the Physical Security Officer.

FAC 5252.236-9303 ACCIDENT PREVENTION (NOV 1998)

- (a) The Contractor will maintain an accurate record of, and will report to the Contracting Officer in the manner and on the forms prescribed by the Contracting Officer, all accidents resulting in death, traumatic injury, occupational disease, and damage to property, materials, supplies and equipment incident to work performed under this contract.
- (b) Compliance with the provisions of this article by subcontractors will be the responsibility of the Contractor.
- (c) Prior to commencement of the work, the Contractor may be required to:
- (1) submit in writing his proposals for effectuating provision for accident prevention;
 - (2) meet in conference with representatives of the Contracting Officer to discuss and develop mutual understandings relative to administration of the overall safety program.

5252.236-9310 - RECORD DRAWINGS (OCT 2004)

The Contractor shall maintain at the job site two sets of full-size prints of the contract drawings, accurately marked in red with adequate dimensions, to show all variations between the construction actually provided and that indicated or specified in the contract documents, including buried or concealed construction. Special attention shall be given to recording the horizontal and vertical location of all buried utilities that differ from the final government-accepted drawings. Existing utility lines and features revealed during the course of construction, shall also be accurately located and dimensioned. Variations in the interior utility systems shall be clearly defined and dimensioned; and coordinated with exterior utility connections at the building five-foot line, where applicable. Existing topographic features which differ from those shown on the contract drawings shall also be accurately located and recorded. Where a choice of materials or methods is permitted herein, or where variations in scope or character of methods is permitted herein, or where variations in scope or character of work from that of the original contract are authorized, the drawings shall be marked to define the construction actually provided. The representations of such changes shall conform to standard drafting practice and shall include such supplementary notes, legends, and details as necessary to clearly portray the as-built construction. These drawings shall be available for review by the Contracting Officer at all times. Upon completion of the work, both sets of the marked up prints shall be certified as correct, signed by the Contractor, and delivered to the Contracting Officer for his approval before acceptance. Requests for partial payments will not be approved if the marked prints are not kept current, and request for final payment will not be approved until the marked prints are delivered to the Contracting Officer. (End of clause)

FAC 5252.245-9302 LIMITED ASSUMPTION OF RISK BY GOVERNMENT (JUN 1994)

(a) Title of all work in place shall be in the Government, and title to all property intended for incorporation in the work shall vest in the Government upon delivery thereof to the site of the work. The term "Government-owned property" as used in this clause refers to such work in place and to such other property as to which title has vested in the Government and includes any property furnished or rented to the Contractor by the Government. Upon completion of the work, any such Government-owned property not a part of the work (except property rented to, or furnished without charge to the contractor by the Government) shall become the property of the Contractor. The vesting of title in the Government, as provided in this paragraph, shall in no way relieve the Contractor of any obligations otherwise provided in this contract in respect to such Government-owned property except as expressly stated in paragraph (b) of this clause.

(b) The Contractor represents that the contract price does not include the cost of insurance, nor any provision for a reserve, covering the risk assumed by the Government under this paragraph.

The Government assumes the risk of loss or damage to such Government-owned property (including expenses incidental to such loss or damage) which results directly or indirectly from the explosion of Government-owned or controlled munitions (including, without limitations, ammunition, bombs, powder, dynamite and other explosives), whether or not caused by negligence, except that the Government does not assume at any time the risk of, and the Contractor shall be responsible for, such loss or damage (1) which is in fact covered by insurance or for which contractor is otherwise reimbursed, or (2) which results from disregard of proper instructions of the Contracting Officer, on the part of any of the Contractor's directors, officers or any other representatives having supervision or direction of all or substantially all the Contractor's operations under this contract.

(c) In the event of loss or damage to Government-owned property resulting from the risk assumed by the Government hereunder, the Contracting Officer shall determine whether, and to what extent, such property shall be rebuilt, repaired or replaced by the Contractor or otherwise. Should this determination cause an increase or decrease in the cost of doing the work under this contract or time required for its performance, an equitable adjustment shall be made as provided in the changes clause of the contract.

(d) The provisions contained in the statement of work under "Permits and Responsibilities," are to be deemed modified by this clause only to the extent required to give effect to the limited assumption of risk provided in this clause.

Section 00800 - Special Contract Requirements

252.232-7006 WAWF

252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (MAY 2013)

(a) Definitions. As used in this clause--

Department of Defense Activity Address Code (DoDAAC) is a six position code that uniquely identifies a unit, activity, or organization.

Document type means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

Local processing office (LPO) is the office responsible for payment certification when payment certification is done external to the entitlement system.

(b) Electronic invoicing. The WAWF system is the method to electronically process vendor payment requests and receiving reports, as authorized by DFARS 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall--

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.acquisition.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this Web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://wawf.eb.mil/>.

(e) WAWF methods of document submission. Document submissions may be via Web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor must use the following information when submitting payment requests and receiving reports in WAWF for this contract/order:

Contract number, typically in the form N69450-14-M-1234, for example.

(1) Document type. The Contractor shall use the following document type(s).

Naval Construction/Facilities Management Invoice

(2) Inspection/acceptance location. The Contractor shall select the following inspection/acceptance location(s) in WAWF, as specified by the contracting officer.

Inspection – N45974

Acceptance – N45974

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	N68732
Issue By DoDAAC	N69450
Admin DoDAAC	N45974
Inspect By DoDAAC	N45974
Ship To Code	N/A
Ship From Code	N/A
Mark For Code	N/A
Service Approver (DoDAAC)	N/A
Service Acceptor (DoDAAC)	N/A
Accept at Other DoDAAC	N/A
LPO DoDAAC	N45974
DCAA Auditor DoDAAC	N/A
Other DoDAAC(s)	N/A

(4) Payment request and supporting documentation. The Contractor shall ensure a payment request includes appropriate contract line item and subline item descriptions of the work performed or supplies delivered, unit price/cost per unit, fee (if applicable), and all relevant back-up documentation, as defined in DFARS Appendix F, (e.g. timesheets) in support of each payment request.

(5) WAWF email notifications. The Contractor shall enter the email address identified below in the “Send Additional Email Notifications” field of WAWF once a document is submitted in the system.
joel.overson@navy.mil

(6) WAWF point of contact. (1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

WAWF Technician: Dana Villarreal (361)516-6210 dana.villarreal@navy.mil
 Contracting Officer: Joel Overson (361)961-3397 joel.overson@navy.mil

(2) For technical WAWF help, contact the WAWF helpdesk at 866-618-5988.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198

indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination

- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
 Wage and Hour Division
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
 U.S. Department of Labor
 200 Constitution Avenue, N.W.
 Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

TILE SETTER.....	\$ 15.00	0.00
TRUCK DRIVER.....	\$ 11.24	0.35

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union

average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative

Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
