Factor 1 – Experience

- (i) Solicitation Submittal Requirements:

The Offeror shall submit the following information under **Tab 1** of the Technical Proposal Volume II.

- (1) Construction Experience:

Submit a minimum of two (2) and a maximum of five (5) construction projects that the offeror completed as the prime contractor and that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the RFP. For purposes of this evaluation, a relevant project is further defined as construction of a design-bid-build project to include construction experience on combined airfield paving and airfield lighting projects with a construction value of approximately \$10M and greater. Components of a relevant project shall include at least one project that demonstrates a minimum of approximately 5,000 LF of asphalt paving and at least one project that demonstrates a minimum of approximately 2,000 LF of concrete paving. Highway and road paving project will not be considered. The airfield lighting and electrical infrastructure portion of the project must be valued at approximately \$5M or greater." Projects submitted for the Offeror shall be completed within the past seven (7) years of the date of issuance of this RFP. Projects with an interim rating that are 80% complete may be considered.

Projects submitted for the Offeror shall be completed within the past seven (7) years of the date of issuance of this RFP.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction Experience Project Data Sheet (Exhibit 1) is MANDATORY and SHALL be used to submit project information. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page or two (2) single-sided pages.

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: unique features, area, construction methods).

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity or at least one of the Joint Venture partners. Offerors are still limited to a total of five (5) projects combined.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract in order for the experience information of the affiliate/subsidiary/parent/LLC/LTD member companies to be considered. The proposal shall state specific commitments of technical resources (e.g. personnel, equipment) that the affiliate/subsidiary/parent/LLC/LTD member companies commit to the performance of this contract. In particular, the proposal will clearly state the specific commitments of resources of the affiliate/subsidiary/parent/LLC/LTD member that will be located at the worksites and company offices in the city/area of the project. The proposal shall also describe specific roles of the affiliate/subsidiary/parent/LLC/LTD member companies in terms of the work it will either self-perform or manage on behalf of the Offeror in performance of the contract. Any projects submitted in excess of the five (5) will not be considered.

(ii) Basis of Evaluation:

The requirement for acceptability will be based upon the projects submitted by the Offeror in its proposal, the Offeror must have at least two (2) and a maximum of five (5) construction projects that demonstrate ability to construct a project to repair or construct a design-bid-build project to include construction experience on combined airfield paving and airfield lighting projects with a construction value of approximately \$10M and greater. Components of a relevant project shall include at least one project that demonstrates a minimum of approximately 5,000 LF of Asphalt paving and at least one project that demonstrates a minimum of approximately 2,000 LF of Concrete paving. Highway and road paving project will not be considered. The airfield lighting and electrical infrastructure portion of the project must be valued at approximately \$5M or greater. "

Projects submitted for the Offeror shall be completed within the past seven (7) years of the date of issuance of this RFP. Projects with an interim rating that are 80% complete may be considered.

REPLACE WITH:**Factor 1 – Experience**

(i) Solicitation Submittal Requirements:

The Offeror shall submit the following information under **Tab 1** of the Technical Proposal Volume II.

(1) Construction Experience:

Factor 4 – Small Business Utilization

Factor 4 consists of two Subfactors, 4A, Past Performance in Utilization of Small Business Concerns, and 4B, Small Business Participation. The evaluation of Subfactors 4A and 4B are of equal importance to the determination of Factor 4 Rating.

Definitions: "SB" as used herein, is intended to include Small Business concerns, Small Disadvantaged Business concerns (SDB), Women-Owned Small Business concerns (WOSB), Historically Underutilized Business Zone Small Business concerns (HUBZone), Veteran-Owned Small Business concerns (VOSB), and Service-Disabled Veteran-Owned Small Business concerns (SDVOSB). All small business programs are self-certifying programs with the exception of HUBZone certifications, see HUBZone SB Certifications below. Small Business Program requirements and definitions may be found in the Federal Acquisition Regulations

(FAR), Part 19.

HUBZone SB Certifications: Offerors are reminded that HUBZone SB concerns must obtain formal certification from the Small Business Administration (SBA) if they expect to receive the evaluation benefits associated with the HUBZone SB programs either as a prime or subcontractor(s). For more information on the HUBZone SB certification requirements and available benefits, contact your local SBA representative. Certified HUBZone SB firms are listed on the U.S. Small Business Administration's Dynamic Small Business Search (DSBS) website at http://web.sba.gov/pro-net/search/dsp_dsbs.cfm. It is the responsibility of the prime contractor to periodically check the DSBS as certifications are subject to change.

SUBFACTOR 4.A – PAST PERFORMANCE IN UTILIZATION OF SMALL BUSINESS CONCERNS

(i) Solicitation Submittal Requirements: Proposals that do not include responses addressing ALL elements of the requirements stated below (a. through d.) must include an explanation why that element is not addressed.

- a. Provide performance evaluation ratings (i.e., SF1420, DD2626, or equivalent) obtained on the implementation of small business subcontracting plans for all of the offeror's projects referenced under Factor 4 Past Performance. Recently completed project evaluations are desired, however, in the absence of recently completed project evaluations, interim ratings for projects that are 80% complete may be considered. If more than five evaluation ratings are provided, only the first five will be considered. In addition, the Government may consider past performance information on other projects as made available to the Government from other sources (such as the Contractor Performance Assessment Reporting System (CPARS)).
- b. Provide small business subcontracting history. Large businesses with Federal prime contracting experience shall provide final or current Subcontracting Report for Individual Contracts (SF294) or Individual Subcontracting Reports (ISR's) on prime (only) contracts submitted under Factor 3, Past Performance. If Factor 3-submitted contracts are not prime contracts, submit SF294s or ISRs for contracts of similar scope performed as the prime contractor. If goals were not met on any submitted contracts, an explanation for each unmet goal is required. Large Businesses with no documented SF294/ISR history shall submit a subcontracting history on Exhibit (4), Small Business Past Performance. If more than five (5) reports are provided, only the first 5 reports will be considered
- c. Small Business proposers shall provide a subcontracting history on Exhibit (4), Small Business Past Performance.
- d. If an Offeror is utilizing past performance information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the solicitation), the proposal shall clearly demonstrate that the affiliates/subsidiaries/parent/LLC/LTD member companies will have meaningful participation of all members in the management of the subcontracting program/plan by identifying the personnel or resources from the member companies that will be dedicated to managing the plan, and an organization chart which demonstrates the reporting chain within the membership.

If the Offeror is a Joint Venture, Partnership, LLC or other entity consisting of more than one entity, provide past performance information, elements a. through d., for each

individual business entity(ies) that will be responsible for managing the subcontracting program/plan.

Proposals including information on any of the following additional elements may be rated higher, based on the evaluated extent to which the information addresses the basis of evaluation in paragraph (ii):

- a. Provide information on national-level, and industry-issued awards that offerors received for outstanding support to SB concerns within the past five (5) years. Include purpose, issuer, and date of award(s). National and industry-issued awards received beyond five (5) years will not be considered.
- b. Provide information on previous, existing, planned or pending mentor-protégé agreements (MPA) under any Federal Government, or other, program held within the last five years. Information should include, at a minimum, the members, objectives, period of performance, and major accomplishments during the MPA.
- c. Provide information on past use of Community Rehabilitation Program (CRP) organizations certified under the AbilityOne Program by SourceAmerica, or the National Industry for the Blind (NIB). Information should include the contract type, type of work performed, period of performance, and number of employed severely handicapped persons.

(ii) Basis of Evaluation:

The extent to which the proposal demonstrates the proposer's level of past performance in utilizing Small Business (SB) concerns, AbilityOne, Mentor-Protégé Agreements, and other socio-economic programs, as defined in FAR Parts 26.1 and 26.2, in subcontracting, and in meeting established Small Business subcontracting goals.

SUBFACTOR 4.B – SMALL BUSINESS PARTICIPATION

(i) Solicitation Submittal Requirements:

Identify in terms of dollar value and percentage of the total acquisition, the extent of work you will perform as the prime contractor. If submitting an offer as a Joint-Venture, identify the percentage of work each member will be responsible for and indicate the size status of each member, e.g., LB, SB, SDB, WOSB, HUBZone SB, etc.

If you are a Large Business, submit a Small Business Subcontracting Plan for this project in the format provided in Exhibit (5) for this factor, to include all information required in the attachment. If you are a Small Business, submit a subcontracting participation breakdown in the format provided in Exhibit (6) for this factor. All proposers: To demonstrate commitment in using small business concerns, the Small Business Subcontracting Plan or subcontracting participation breakdown may list all subcontractors by name. If the proposed Small Business Subcontracting goals do not meet the minimum NAVFAC Small Business Subcontracting Targets, include a detailed explanation describing the actions taken to arrive at that determination, along with an explanation for the goals that actually were proposed. For proposals submitted on design-build solicitations, the proposer must identify its designer/design team in its Subcontracting Plan or Small Business Participation Breakdown.

Firm commitments to subcontract to multiple companies: The Offeror may provide a demonstration of commitments in planned subcontracts by listing multiple names of companies that will be used to support specific small business category (i.e., SB, SDB, WOSB, HUBZone SB, VOSB and SDVOSB).

(ii) Basis of Evaluation:

The following will be evaluated on all proposals:

- a. The extent to which the proposal demonstrates maximum practicable participation of SBs in terms of the total value of the acquisition, including options.
- b. The extent to which the proposal demonstrates a commitment to use SB concerns that are specifically identified in the proposal, including but not limited to use of mentor protégé programs.
- c. The extent to which the proposal demonstrates SB participation in a variety of industries expected during the performance of work.
- d. The realism of the proposal to meet the proposed goals.

The following will be evaluated on proposals submitted by Large Business firms:

- a. The extent to which the proposal provides Small Business Subcontracting goals that meet or exceed the minimum NAVFAC Small Business Subcontracting Targets, and utilization of AbilityOne CRP organizations. Proposals that provide goals exceeding the NAVFAC Subcontracting Targets may be rated higher. The proposed goals and NAVFAC Subcontracting Targets are expressed as a percentage of total subcontracted values. The minimum NAVFAC Subcontracting Targets are as follows:

	FY2016
SB	65%
SDB	15%
WOSB	15%
HUBZone	6%
VOSB	5%
SDVOSB	5%

- b. The extent to which the proposer's Small Business Subcontracting Plan establishes reasonable efforts demonstrating the subcontracting targets can be met during the performance of the contract:

A copy of the blank forms to be used for offeror submission of Small Business Utilization are included as follows:

- Exhibit 4 – Small Business Past Performance
- Exhibit 5 – Small Business Subcontracting Plan
- Exhibit 6 – Small Business Offeror Small Business Participation Breakdown

REPLACE WITH:**Factor 4 – Small Business Utilization**

only in the areas from Factor 3 where the offeror was a subcontractor verses the prime. Identify in your proposal that you are substituting the small business past performance with a similar project in size, complexity, and scope. If goals were not met on any submitted contracts, an explanation for each unmet goal is required. Large Businesses with no documented SF294/ISR history shall submit a subcontracting history on Exhibit (4), Small Business Past Performance. If more than five (5) reports are provided, only the first 5 reports will be considered

- c. Small Business proposers shall provide a subcontracting history on Exhibit (4), Small Business Past Performance.
